HOPE FADES FOR LIVES OF EIGHT AIR PASSENGERS

Seven Men And Woman Aboard Ship Missing In Utah Blizzard

WIDE SEARCH IS MADE

Snow And Sleet Make Thorough Search For Plane Impossible

SALT LAKE CITY, Feb. 24.—(AP)—Somewhere on the Cherous plateau of the Utah-Wyoming border seven men and a woman—crew and passengers of a disabled United Air liner—were struggling tonight to preserve their lives against a blizzard, or were already the frozen victims of a disaster of the storm swept airways.

Hope for the safety of the five passengers and three crew members of the big ship which had not been heard from since it took off here Friday afternoon for Cheyenne, Wyo., was gradually fading as the hours wore on. But there was a possibility they had survived a forced landing or crash and were waiting at some isolated spot.

Snow and sleet swirled over the rugged and sparsely settled area, making more than a cursory search impossible either from the air or ground.

Undaunted, six United Air line pilots took off late in the day to scan the snow-covered peaks and canyons until darkness forced them back.

With a ceiling of 100 feet or less, the searching pilots were able to survey only patches of the vast wilderness.

Snow blocked roads and trails hampered the ground parties, including horsemen, who braved the blizzard.

If the eight aboard the plane escaped disaster when it was forced

6 MORMONS ARE KILLED, 27 HURT

Bus Crashes Through Sign At Treacherous Detour In Arizona

WICKENBURG, Ariz., Feb. 24.—(AP)—Because rain had extinguished warning lights at a treacherous detour, a bus carrying 35 Mormon church workers skidded and overturned near Aguila, 35 miles from here, early today, crushing six persons to death and injuring 27 others.

Torch lights marking a detour sign at a pavement end were not burning. The driver saw the danger too late, he jammed the brakes, but the bus crashed through the sign into the mud beyond and turned over on its back.

Those killed—five women and a baby—were in the rear of the bus which was crushed on the pavement edge. They were trapped inside and no help was at hand.

A blood-spattered boy ran a mile to Aguila and incoherently told W. J. Young, Santa Fe railroad agent at the little flag stop, what had happened. Young telegraphed to Wickenburg for medical and relief parties. The injured, hardly knowing who was dead,

East Baton Rouge Pair Hurt In Train Accident

BATON ROUGE, Feb. 24.—(AP)—Dr. Thomas L. Mills, well known East Baton Rouge parish physician and police juror, and his wife were badly injured in a collision today between their automobile and a Yazoo and Mississippi Valley train at Lindsay, 15 miles north of here.

Dr. and Mrs. Mills were driving toward Baton Rouge when the wreck occurred. They were hurried to a Baton Rouge hospital by ambulance for treatment for severe head cuts and possibly other injuries.

Their exact condition was not immediately determined.

Their automobile, which Dr. Mills was driving, was badly wrecked. Trainmaster W. W. Cunningham said the car collided with the second and third coaches of the train.

The train was a local mixed freight and passenger in charge of Conductor George Argue and Engineer E. S. Stegar, both of Woodville, Miss., and was operating between Slaughter, La., and Woodville.

ATLANTA, Ga., Feb. 24.—To spend a few days in Atlanta with Herbert Porter, general manager of the Atlanta Georgian and American, is to know how Uncle Tom felt when working for Legree, with the additional disadvantage of having to make speeches. Uncle Tom never had to do that.

Yesterday included two hundred miles of automobiling, four speeches, that got duller and duller, the next to the last, from a truck in the public square at Jefferson. Speeches also on the truck by the mayor of Jefferson, to welcome you, and by John N. Holder, editor of the Jackson Herald, a weekly "$1.50 a year in advance," and worth easily $5.

PRESS DELEGATES TALK ARTS CODE

75 Editors, Publishers And Printers Attend Columbia Meeting

COLUMBIA, La., Feb. 24.—(Special)—Seventy-five editors, publishers and master printers from various sections of north Louisiana attended the annual convention of the North Louisiana Press association held here today. The graphic arts code, recently approved by President Roosevelt, was one of the principal topics discussed by the delegates. The provisions of the code apply to weekly and small daily newspapers and to job printing offices. The National Editorial association, with which the North Louisiana Press association is affiliated, has been designated as the authority for supervising compliance with the code's provisions.

Miss Estelle Tannehill, publisher of the Winnfield News-American, was reelected president of the association. F. A. Leaming, of the Mansfield Enterprise, was chosen vice-president. Isaac Chapman, editor of the More-

LEOPOLD AND WIFE TAKE OVER DUTIES

(Copyright, 1934, by the Associated Press)

BRUSSELS, Feb. 24.—Leopold III and Queen Astrid faced together today the historic responsibility of all Belgian monarchs—the task of keeping two nationalities under one flag.

Their first important duty as the new rulers of the compact little country is to make an appearance in every town and village in Belgium.

This nationwide tour may require several months, but three times before in the 100 years of Belgian independence, it has been required of the new sovereigns. They alone symbolize the unity of the Flemings and the Walloons.

The comparative privacy Leopold and Queen Astrid, former princess of Sweden, have known during the few years of their married life, was over forever today as a result of their enthronement.

Now they will take up residence in the royal castle at suburban Laeken, quitting their cosier chateau nearby.

Woman Fatally Burned In Gasoline Explosion

SEMINOLE, Okla., Feb. 24.—(AP)—Mrs. Bob Hill, wife of an oil employe, was burned fatally and two other members of her family were injured today by a series of explosions which destroyed the Grisso gasoline plant of the Carter Oil company with its 14 tanks containing 280,000 gallons of fuel.

Company officials estimated the loss at about $2,000,000.

Mrs. Hill was burned in her home just east of the blazing refinery when an exploding oil tank threw flaming gasolnie into the house, which was destroyed. Her husband was seriously burned and their 13-year-old daugter received minor burns.

Theo G. Bilbo Quits His Position On AAA; Won't Talk Politics

WASHINGTON, Feb. 24.—(AP)—Former Governor Theo G. Bilbo of Mississippi today resigned his position with the agriculture adjustment administration effective March 1.

The former "stormy petrel" of Mississippi politics has been reported preening himself to oppose Senator Stephens' reelection next fall, but Bilbo today declined to confirm or deny his intention to run for the senate.

"I will not have any statement to make of my future plans until after my resignation is effective," Bilbo told the Associated Press.

"For the present I am just staying on the job. See me later."

Dr. Sarah Ruth Dean Weeps In Courtroom; Lawyers Say She's Verging On Collapse

Defendant Cries Bitterly For Time And Then Controls Tears

GREENWOOD, Miss., Feb. 24.—(AP)—Dr. Sarah Ruth Dean, 33-year-old woman physician, was described by her attorneys as ill and "verging on collapse" today after she had broken down and wept violently in the courtroom where she is being tried on a charge of murdering her admirer, Dr. John Preston Kennedy, with a whisky highball containing mercury.

The dramatic outburst, short-lived, occurred as the trial neared the end of its fourth week, during which Dr. Dean had maintained an aloof calm under the stares of packed-in spectators and had daily flashed a brave smile at the jury. Only on one other occasion, earlier this week, had quiet tears, almost unnoticed, fallen on her lap when she bowed her head during a witness' reference to the death of one of her relatives.

Within half an hour after today's fit of sobbing, she had herself in hand again, holding up her handsome face to the judge and sitting back in her chair, an informal corsage of three red and white roses pinned to her smart fur jacket. Several times she leaned forward to prompt her attorneys as they led defense witnesses through involved hypothetical questions on medical practice and physiological reactions.

Indications that the strain of the lengthy trial was telling on the jury as well as the defendant came earlier in the day when both state and defense moved for week-end adjournment at noon. Denying the request and ordering an afternoon session, Presiding Judge S. F. Davis explained

SCOTTSBORO CASE MOTIONS DENIED

Action Of Judge Passes Matter Up To Supreme Court

DECATUR, Ala., Feb. 24.—(AP)—In sustaining two state motions to strike motions for new trials for two of nine negroes in the Scottsboro case on grounds that the time had expired before the bill of exceptions was filed, Judge W. W. Callahan of Morgan county circuit court, today placed the next move in behalf of the negroes in the Alabama supreme court.

"I am powerless to do anything else, under the law and rules of the court," said Judge Callahan in sustaining the motions to strike offered by Attorney General Thomas E. Knight, Jr., on the grounds that the time had expired and therefore the court was without jurisdiction in the case.

Osmond K. Fraenkel of New York, and George W. Chamblee of Chattanooga, representing the negroes, Heywood Patterson and Clarence Norris, said an immediate appeal would be taken to the Alabama supreme court on the jury verdicts and that the bill of exceptions would be filed within ten days

Caffery Sworn In As Ambassador To Cuba

HAVANA, Feb. 24.—(AP)—In the presence of American newspapermen, Jefferson Caffery, of Louisiana, who has been President Roosevelt's personal representative here, took the oath as ambassador to Cuba at the American embassy today.

The oath was administered by Freeman Mathews, of Maryland, who has been charge d'affaires. Ambassador Caffery plans to present his credentials to President Carlos Mendieta February 28.

Jefferson Caffery went to Cuba to succeed Sumner Wells, who resigned to become an assistant secretary of state, a position Caffery had held.

At the time Caffery arrived in Havana, the Cuban government, with Ramon Grau San Martin in control, was not recognized by the United States. Grau San Martin later resigned. When Mendieta became president recognition was extended to his government and the formal appointment of Caffery as ambassador followed.

Mississippi Legion To Urge Payment Of Bonus

JACKSON, Miss., Feb. 24.—(AP)—American Legion posts throughout the state were today called to attend a mass meeting to be held in Jackson March 1 as a demonstration in favor of immediate cash payment of the bonus.

Following unanimous approval by the Jackson legion post at a meeting last night Adjutant General Thomas Grayson was today organizing committees to expedite the meeting. Legionnaires here estimated that 10,000 state members would assemble in response to the call.

Members of the Mississippi congressional delegation in Washington have been invited to speak at the meeting it was announced.

PAY SLASH GIVEN TO CWA WORKERS

Reductions From 40 Cents An Hour To 30 Are Announced

Reductions in the rate of pay for CWA laborers from 40 cents an hour to 30 cents, have been ordered throughout Louisiana districts, according to a bulletin received last night by the local office from the office of H. J. Early, state administrator.

"This reduction came as a surprise," W. E. James, assistant parish administrator, said. "However, we have no choice.

"While we have not yet been fully informed on the subject, it appears that this reduction is retroactive, and is in effect for all laborers for the current week. That is, they will be paid at the rate of 30 cents for the work done Friday.

"So far as our present instructions appear, foremen and timekeepers are not yet affected but laborers will receive the 30-cent rate and skilled labor will be cut from $1 an hour to 75 cents.

"Unless further changes are made, this will not interfere with demobilization plans.

"Timekeepers report that the men who yesterday received their last pay checks accepted the loss of their jobs philosophically."

R. H. Goodman, district engineer, said the order would affect all eight parishes in his district but added that, in some instances in other places, there had been reports that many of the men would be able to find regular work, though probably at smaller wages.

"That is the idea I believe the government is trying to carry out," he said. "In some sections of the United States there have been many complaints that workers could not be had because they found it easier to work for the CWA.

"While the government does not wish to lower the wage standard in any section of the land, nevertheless, it is my understanding that it has as little desire to produce a shortage of labor in any locality at the standard wage rate of that locality."

Lucullian Banquet Celebrates Athletic Conference at L. S. U.

Feasting and Merrymaking Creates New Epoch At Seat Of Learning

BATON ROUGE, Feb. 24.—(Special)—According to the Scriptures, Belshazzar, king of Babylon, gave a feast at which the sacred vessels taken from the holy temple were boastingly profaned. Followed the fateful handwriting on the wall, Daniel's interpretation and the loss of the kingdom to Darius, the Mede.

Acting as host for the Louisiana State university, President James Monroe Smith, on the evening of Friday, February 9, gave a banquet in the beautiful Venetian room of the university cafeteria to local and visiting participants in the Southeastern athletic conference. Not as elaborate, perhaps, as the feast of the ill-starred son of Nebuchadnezzar, the L. S. U. banquet is said to have partaken of some of the characteristics of that scripturally famed repast.

There was a sound of revelry by night; and the eighteenth amendment is said to have been made a colorful memory as the evening progressed. A menu which even so resourceful a sybarite as Lucullus might have envied was disposed of by some forty-six or more guests. Meanwhile, looking on in a figurative sense, were

In conducting his investigation into deadhead payrolls in New Orleans, District Attorney Eugene Stanley will seek to apply to the prosecution of any guilty parties whose culpability he may trace, the provisions of Sections 903 and 904 of the Revised Statutes of Louisiana. One section makes the misuse of public funds by state officials embezzlement and the other applies this legal principle to parishes and cities. Under the authorities cited, Mr. Stanley is convinced that he can send both the giver and recipient of misued funds to the penitentiary. His jurisdiction is limited, of course, to the parish of Orleans.

But, if Mr. Stanley's conception of the law is correct, there are lots of "embezzlers" in other sections of the state. There are deadheads on many state payrolls—political favorites (generally relatives of men or women in high political authority) who draw pay and perform no services whatever for it. There are deadheads in the office of supervisor of public accounts, in the office of the secretary of state, in the Louisiana highway commission, in the Louisiana tax commission and in other state bodies whose operations the jurisdiction of the district attorney of New Orleans do not reach.

It is not pretended that these state employes—some of them relatives of the governor, some of them relatives of the senior United States senator, some of them relatives of the supervisor, one of them a relative of the secretary of state—do any useful or necessary public work. In fact, many of them do no work of any kind whatever. There seems to be a large opportunity here for application of Sections 903 and 904 of the Revised Statutes.

Seemingly there is no end to the creation of new jobs at Baton Rouge. The latest addition to the official "staff" is said to be an additional hostess at the state capitol, in the person of a Miss Burns, whose specific duties remain a mystery. There is already one official hostess in the person of a Miss Wurzlow; and now they have another.

MARCH ON VIENNA BY HEIMWEHR IS THOUGHT LOOMING

Dozens Of Guards' Trucks Leave For Mystery Destinations

MAY COMMENCE TODAY

Rumors Say Men Will Converge On City From Outlying Towns

(Copyright, 1934, by the Associated Press)

VIENNA, Feb. 24.—A "march on Vienna" by the pro-government and Fascist heimwehr was reported imminent tonight as dozens of freshly-fueled trucks carrying home guardsmen rolled out of town for an unannounced destination.

Rumors were that heimwehr leaders would concentrate their men in outlying towns and converge on the capital to seize the government reins tomorrow, with Chancellor Dollfuss acquiescing to the movement as King Victor Emanuel did when Benito Mussolini marched on Rome.

That Vienna was plastered with green and white portrait posters of Prince Von Starhemberg, heimwehr commander, and Vice-Chancellor Emil Fey, a heimwehr chieftain, was taken as a factor strengthening the reports.

The home guardsmen had orders to carry rations for three days, but were not told in advance what their objective would be.

There were comments that they might be bound for the Austro-German border, as a precaution against the massing of Nazis in Germany, but inquiries at frontier points revealed no concentrations on either side.

(An official statement issued in Berlin said reports published in Austria and the United States regarding the gathering of Nazis on the border were "the purest fabrication and represent one of the customary contemptible attempts to bring the German reich into disrepute.")

AIRMEN TELL OF SEEING PAL DIE

Two Finally Rescued From Crippled Plane In Icy Sea

BROOKLYN, N. Y., Feb. 24.—(AP)—Two army lieutenants propped up on cots in the navy hospital told today how their best friend was drowned in the icy sea while they clung for five hours to the wings of a drifting, crippled plane.

"We were over the water, two miles off Coney Island, when we experienced our first difficulty," said Lieut. W. S. Pocock, Jr., as he puffed a cigarette.

Across the hospital room, with his left knee heavily taped, lay Lieut. J. H. Rothrock. The two men were rescued last night by the navy destroyer Bernadou 15 minutes after their companion, Lieut. George F. McDermott, had been washed into the ocean.

"When we hit the water, one of the motors broke away. But we weren't awfully worried at first. We drifted about for an hour. A police plane came alongside. It was like a check from home.

"But they couldn't get to us. We wondered and waited as the police plane taxied away. We had shouted to them, 'We're o. k., get us a boat.'"

The aviators learned after their rescue that the police craft had been

HITLER WILL GET RIGHT TO PLACE SELF ON THRONE

After Today He Can Proclaim Himself As German Emperor

BERLIN, Feb. 24.—(AP)—Any time after 10:30 a.m., Sunday, Adolf Hitler can proclaim himself emperor of Germany is he so chooses.

Through the reich at that hour every sixtieth German will pronounce the following oath:

"I swear unshakable fidelity to Adolf Hitler and unquestioning obedience to him and the leaders designated for me by him."

The men and women who will thus solemnly pledge their very lives to Germany's chancellor-dictator are all "Amts-Walter," or officers of the numerous political, economic, professional, social, and labor organizations which constitute the separate divisions of the Nazi government.

With the oath-taking, the venerable president, Paul Von Hindenburg, Germany's grand old man of war and peace, will virtually fade out of the picture.

Hitler will be the de facto sovereign of Germany.

Those taking the all-embracing oath will include, among others, 375,000 political party bosses, 120,000 labor officials, 205,000 Hitler youth leaders.

They will be connected by radio with Munich, where thousands of Nazi department heads gathered on the 14th anniversary of the founding of the Nazi party.

There Chancellor Hitler's personal representative, Rudolf Hess, will take the pledge. Hitler was scheduled to speak tonight, with the oath the main ceremony tomorrow.

More than a million—1,017,000 to be exact—Nazi functionaries will swear fealty in unison, with their right hands raised in the Hitler salute.

They will thereby duplicate what more than 3,000 Nazi storm troopers and steel helmet veterans have automatically done when they joined the brown battalions, namely, give a pledge which otherwise is given to royalty only.

GIRL'S LEG BROKEN IN AUTO ACCIDENT

A fracture of the left thigh bone, about five inches above the knee, was received by Margaret Pigg, 10-year-old child living at 2629 DeSiard street, when she was struck by an automobile about 5:30 o'clock Saturday afternoon, a short distance from her home. The car which struck the child was said to have been driven by Miss Viola Singley, 416 Wood street.

After making a report at police headquarters, Miss Singley was released on bond of $100 on a charge of reckless driving. In her report she stated that the child darted into the street in front of her car and that she was unable to stop in time to avoid hitting her.

Following the accident W. T. Roper assisted Miss Singley and Miss Beatrice Brobeck, 416 Wood street, who accompanied her, in placing the child in the car and then took the child to the clinic.

ROGERS HAS HIS SAY

WASHINGTON, Feb. 24.—(Special)—Reading yet of Sandino's death in Nicaragua, there is one thing that he and I always agreed on, and that was that American armed forces had no right down there. As to whether he was a George Washington or a Jesse James, that's for his own people to judge. And while the nation's mind at the present seems to be on aviation, I want to tell you that some of the greatest flying every done by army, navy, or commercial, was done by the marine aviators in their flights through those mountains after this same Sandino. I spent a week with the marines in temporary camp, arriving just three days after the Managua earthquake, and I flew with them over the Sandino country dropping supplies to marine camps hundreds of miles up in the mountains. I am glad we didn't find him that week.

Yours.

Parachute Jumper Falls To Death Before Surprised Crowd

NATCHEZ, Miss., Feb. 24.—(AP)—J. D. Pate, a Los Angeles parachute jumper, plunged 1,800 feet to his death here today in an exhibition at the opening of a two-day air meet sponsored by the Natchez Association of Commerce. His parachute failed to open.

The accident happened at Joseph Sharpe airport, two miles from Natchez. Pate fell to earth after his leap from an airplane flown by J. O. Dockery ,of Clarksdale, Miss.

The accident was witnessed by a large crowd assembled for the opening of the air show which was featuring stunt flying and delayed parachute jumping.

The crowd was taken completely by surprise when the stunter's body struck the ground. They held their breath as he neared the earth, ex-

ADHERENCE TO CODE DEMANDED OF MILLS

SPOKANE, Wash., Feb. 24.—(AP)—Western lumber dealers demanded in a resolution passed here today that "small, native sawmills" be forced to adhere strictly to the NRA manufacturers' code.

The resolution was among a half dozen passed at the closing session of the annual convention of the Western Retail Lumbermen's association.

The resolution demanding the small mill adhere to the NRA code was passed with only one dissenting vote, that from W. B. Hussman, operator of a small mill at Cottonwood, Idaho. He insisted the small mill owner cannot adhere to the code and operate profitably.

The same resolution demanded that the small mills, when selling at retail, adhere to the retail lumber and building materials code.

Jonesboro Bank Cashier Succumbs At Shreveport

SHREVEPORT, La., Feb. 24.—(AP)—O. E. Corbett, 47, cashier of the Jonesboro State bank at Jonesboro, La., died at a local sanitarium this morning at 6:30 o'clock after a long illness.

Funeral services will be held in Jonesboro Sunday with interment following in the Jonesboro cemetery.

Surviving the deceased are his widow; two daughters, Miss Evelyn Corbett and Mrs. Vivian Corbett Craft, of Jonesboro; two sisters, Mrs. Bertha Rue of Natchitoches, and Mrs. Annie D. McDonald, of Jonesboro, and one brother, Pat Corbett of Alexandria.

The collision happened at a point near the month of the canal where it connects with the Mississippi river.

Thomas Edgar Griffith Is Shot To Death By Sam T. Welch

SLAYING 'JUSTIFIABLE'

Griffith Said To Have Entered Cafe And Started Shooting

LAKE PROVIDENCE, La., Feb. 24.—(Special)—Thomas Edgar Griffith, 23, son of Mrs. Jewel McDonald Griffith and the late T. E. Griffith, was instantly killed at 3 o'clock this morning when shot three times by Sam T. Welch, member of a prominent Lake Providence family. Welch was wounded by three shots fired by Griffith.

After conducting an investigation, the coroner returned a verdict of justifiable homicide in connection with the death of Griffith, holding that Welch fired in self-defense.

Sheriff John Bass said an investigation conducted by him showed that Griffith, who lived near town, had been in Lake Providence all night and had been drinking much of the time. The man was said to have entered the Levee sandwich shop, occupied by four persons, and to have begun shooting at Welch.

One shot fired by Griffith almost severed the little finger on one of Welch's hands, another grazed his shoulder and a third passed through the upper lip and mouth and lodged inside of the neck. Welch then drew a pistol and began firing, witnesses said.

Two shots fired by Welch struck Griffith in each leg and a third entered his left side, causing instant death.

Griffith was married two years ago to Miss Dorothy Crow of Oak Grove. Surviving are the widow, one child, a sister and a brother, in addition to the mother.

Funeral services will be held Sunday afternoon at 2:30 o'clock from the family residence on the Lewiston plantation and will be conducted by Rev. C. A. Loveless.

In a long distance telephone conversation to The World, Sheriff Bass said that Welch had left Lake Provi-

RELIEF INSTITUTE TO BE HELD HERE

WASHINGTON, Feb. 24.—(Special)—A one-day relief institute for relief workers and Red Cross chapter officers will be held in Monroe on March 16, the Red Cross announced Saturday.

This will be one of 15 such sessions to be carried on during March in areas where disaster hazards are prevalent in spring months. They are held with a view to perfecting methods of giving the alarm in the event of floods, of making wide use of weather bureau reports, of saving lives through evacuation plans, of preventing distress through having committees of citizens ready to function in clothing, feeding and housing refugees and in giving medical and nursing care to the injured, and generally aiding in disaster relief.

At the Monroe meeting, the Red Cross said, discussion will be on the responsibility of the Red Cross in disaster relief, relationship with state and federal groups, and Red Cross relief policies and plans of operation. Chapter officers will be invited to describe disasters in which they have given relief and to outline their plans for caring for injured and homeless in the event of future distress, according to the announcement.

Ballot Registration In Parish Picks Up

Another spurt of registering has been experienced because of the West Monroe city Democratic primary election to be held April 3, Miss Lillian Collins, registrar of voters, said Saturday. Registrations for Saturday totaled 55, bringing the total since the new registration period began January 1 to 5,335.

Exactly one more week remains for registering, as the registration period for the West Monroe election will end March 4. Because of the fact that three candidates have announced for mayor and nine for the five aldermanic seats, interest in the election has become keen and this has stimulated business at the registrar's office.

HOPE FADES FOR LIVES OF EIGHT AIR PASSENGERS

Seven Men And Woman Aboard Ship Missing In Utah [illegible]

WIDE SEARCH IS MADE

Snow And Sleet Make Thorough Search For Plane Impossible

SALT LAKE CITY, Feb. 24.—(AP)—Somewhere on the Cherous plateau of the Utah-Wyoming border seven men and a woman—crew and passengers of a disabled United Air liner—were struggling tonight to preserve their lives against a blizzard, or were already the frozen victims of a disaster of the storm swept airways.

Hope for the safety of the five passengers and three crew members of the big ship which had not been heard from since it took off here Friday afternoon for Cheyenne, Wyo., was gradually fading as the hours wore on. But there was a possibility they had survived a forced landing or crash and were waiting at some isolated spot.

Snow and sleet swirled over the rugged and sparsely settled area, making more than a cursory search impossible either from the air or ground.

Undaunted, six United Air line pilots took off late in the day to scan the snow-covered peaks and canyons until darkness forced them back.

With a ceiling of 100 feet or less, the searching pilots were able to survey only patches of the vast wilderness.

Snow blocked roads and trails hampered the ground parties, including horsemen, who braved the blizzard.

If the eight aboard the plane escaped disaster when it was forced

Bus Crashes Through Sign At Treacherous Detour In Arizona

WICKENBURG, Ariz., Feb. 24.—(AP)—Because rain had extinguished warning lights at a treacherous detour, a bus carrying 35 Mormon church workers skidded and overturned near Aguila, 35 miles from here, early today, crushing six persons to death and injuring 27 others.

Torch lights marking a detour sign at a pavement end were not burning. The driver saw the danger too late, he jammed the brakes, but the bus crashed through the sign into the mud beyond and turned over on its back.

Those killed—five women and a baby—were in the rear of the bus which was crushed on the pavement edge. They were trapped inside and no help was at hand.

A blood-spattered boy ran a mile to Aguila and incoherently told W. J. Young, Santa Fe railroad agent at the little flag stop, what had happened. Young telegraphed to Wickenburg for medical and relief parties. The injured, hardly knowing who was dead,

East Baton Rouge Pair Hurt In Train Accident

BATON ROUGE, Feb. 24.—(AP)—Dr. Thomas L. Mills, well known East Baton Rouge parish physician and police juror, and his wife were badly injured in a collision today between their automobile and a Yazoo and Mississippi Valley train at Lindsay, 15 miles north of here.

Dr. and Mrs. Mills were driving toward Baton Rouge when the wreck occurred. They were hurried to a Baton Rouge hospital by ambulance for treatment for severe head cuts and possibly other injuries.

Their exact condition was not immediately determined.

Their automobile, which Dr. Mills was driving, was badly wrecked. Trainmaster W. W. Cunningham said the car collided with the second and third coaches of the train.

The train was a local mixed freight and passenger in charge of Conductor George Argue and Engineer E. S. Stegar, both of Woodville, Miss., and was operating between Slaughter, La., and Woodville.

Three Orleans Women Attempt To End Lives

NEW ORLEANS, Feb. 24.—(AP)—Police reported today that three young women were being treated in hospitals as a result of unrelated suicide attempts.

Mrs. Elaine Garetheza, 18, was alleged to have swallowed poison in a [illegible]oft drink stand, afterwards begging [illegible]hysicians to save her life.

How Uncle Tom Felt.
A Hoarded Gold Nugget.
One Southern Mill.
Gov. Talmadge's Idea.

By ARTHUR BRISBANE

(Copyright, 1934, King Features Synd.)

ATLANTA, Ga., Feb. 24.—To spend a few days in Atlanta with Herbert Porter, general manager of the Atlanta Georgian and American, is to know how Uncle Tom felt when working for Legree, with the additional disadvantage of having to make speeches. Uncle Tom never had to do that.

Yesterday included two hundred miles of automobiling, four speeches, that got duller and duller, the next to the last, from a truck in the public square at Jefferson. Speeches also on the truck by the mayor of Jefferson, to welcome you, and by John N. Holder, editor of the Jackson Herald, a weekly "$1.50 a year in advance," and worth easily $5.

PRESS DELEGATES TALK ARTS CODE

75 Editors, Publishers And Printers Attend Columbia Meeting

COLUMBIA, La., Feb. 24.—(Special)—Seventy-five editors, publishers and master printers from various sections of north Louisiana attended the annual convention of the North Louisiana Press association held here today. The graphic arts code, recently approved by President Roosevelt, was one of the principal topics discussed by the delegates. The provisions of the code apply to weekly and small daily newspapers and to job printing offices. The National Editorial association, with which the North Louisiana Press association is affiliated, has been designated as the authority for supervising compliance with the code's provisions.

Miss Estelle Tannehill, publisher of the Winnfield News-American, was reelected president of the association. F. A. Leaming, of the Mansfield Enterprise, was chosen vice-president. Isaac Chapman, editor of the More-

LEOPOLD AND WIFE TAKE OVER DUTIES

(Copyright, 1934, by the Associated Press)

BRUSSELS, Feb. 24.—Leopold III and Queen Astrid faced together today the historic responsibility of all Belgian monarchs—the task of keeping two nationalities under one flag.

Their first important duty as the new rulers of the compact little country is to make an appearance in every town and village in Belgium.

This nationwide tour may require several months, but three times before in the 100 years of Belgian independence, it has been required of the new sovereigns. They alone symbolize the unity of the Flemings and the Walloons.

The comparative privacy Leopold and Queen Astrid, former princess of Sweden, have known during the few years of their married life, was over forever today as a result of their enthronement.

Now they will take up residence in the royal castle at suburban Laeken, quitting their cosier chateau nearby.

Woman Fatally Burned In Gasoline Explosion

SEMINOLE, Okla., Feb. 24.—(AP)—Mrs. Bob Hill, wife of an oil employe, was burned fatally and two other members of her family were injured today by a series of explosions which destroyed the Grisso gasoline plant of the Carter Oil company with its 14 tanks containing 280,000 gallons of fuel.

Company officials estimated the loss at about $2,000,000.

Mrs. Hill was burned in her home just east of the blazing refinery when an exploding oil tank threw flaming gasolnie into the house, which was destroyed. Her husband was seriously burned and their 13-year-old daugter received minor burns.

Theo G. Bilbo Quits His Position On AAA; Won't Talk Politics

WASHINGTON, Feb. 24.—(AP)—Former Governor Theo G. Bilbo of Mississippi today resigned his position with the agriculture adjustment administration effective March 1.

The former "stormy petrel" of Mississippi politics has been reported preening himself to oppose Senator Stephens' reelection next fall, but Bilbo today declined to confirm or deny his intention to run for the senate.

"I will not have any statement to make of my future plans until after my resignation is effective," Bilbo told the Associated Press.

"For the present I am just staying on the job. See me later."

Dr. Sarah Ruth Dean Weeps In Courtroom; Lawyers Say She's Verging On Collapse

Defendant Cries Bitterly For Time And Then Controls Tears

GREENWOOD, Miss., Feb. 24.—(AP)—Dr. Sarah Ruth Dean, 33-year-old woman physician, was described by her attorneys as ill and "verging on collapse" today after she had broken down and wept violently in the courtroom where she is being tried on a charge of murdering her admirer, Dr. John Preston Kennedy, with a whisky highball containing mercury.

The dramatic outburst, short-lived, occurred as the trial neared the end of its fourth week, during which Dr. Dean had maintained an aloof calm under the stares of packed-in spectators and had daily flashed a brave smile at the jury. Only on one other occasion, earlier this week, had quiet tears, almost unnoticed, fallen on her lap when she bowed her head during a witness' reference to the death of one of her relatives.

Within half an hour after today's fit of sobbing, she had herself in hand again, holding up her handsome face to the judge and sitting back in her chair, an informal corsage of three red and white roses pinned to her smart fur jacket. Several times she leaned forward to prompt her attorneys as they led defense witnesses through involved hypothetical questions on medical practice and physiological reactions.

Indications that the strain of the lengthy trial was telling on the jury as well as the defendant came earlier in the day when both state and defense moved for week-end adjournment at noon. Denying the request and ordering an afternoon session, Presiding Judge S. F. Davis explained

SCOTTSBORO CASE MOTIONS DENIED

Action Of Judge Passes Matter Up To Supreme Court

DECATUR, Ala., Feb. 24.—(AP)—In sustaining two state motions to strike motions for new trials for two of nine negroes in the Scottsboro case on grounds that the time had expired before the bill of exceptions was filed, Judge W. W. Callahan of Morgan county circuit court, today placed the next move in behalf of the negroes in the Alabama supreme court.

"I am powerless to do anything else, under the law and rules of the court," said Judge Callahan in sustaining the motions to strike offered by Attorney General Thomas E. Knight, Jr., on the grounds that the time had expired and therefore the court was without jurisdiction in the case.

Osmond K. Fraenkel of New York, and George W. Chamblee of Chattanooga, representing the negroes, Heywood Patterson and Clarence Norris, said an immediate appeal would be taken to the Alabama supreme court on the jury verdicts and that the bill of exceptions would be filed within ten days

Caffery Sworn In As Ambassador To Cuba

HAVANA, Feb. 24.—(AP)—In the presence of American newspapermen, Jefferson Caffery, of Louisiana, who has been President Roosevelt's personal representative here, took the oath as ambassador to Cuba at the American embassy today.

The oath was administered by Freeman Mathews, of Maryland, who has been charge d'affaires. Ambassador Caffery plans to present his credentials to President Carlos Mendieta February 28.

Jefferson Caffery went to Cuba to succeed Sumner Wells, who resigned to become an assistant secretary of state, a position Caffery had held.

At the time Caffery arrived in Havana, the Cuban government, with Ramon Grau San Martin in control, was not recognized by the United States. Grau San Martin later resigned. When Mendieta became president recognition was extended to his government and the formal appointment of Caffery as ambassador followed.

Mississippi Legion To Urge Payment Of Bonus

JACKSON, Miss., Feb. 24.—(AP)—American Legion posts throughout the state were today called to attend a mass meeting to be held in Jackson March 1 as a demonstration in favor of immediate cash payment of the bonus.

Following unanimous approval by the Jackson legion post at a meeting last night Adjutant General Thomas Grayson was today organizing committees to expedite the meeting. Legionnaires here estimated that 10,000 state members would assemble in response to the call.

Members of the Mississippi congressional delegation in Washington have been invited to speak at the meeting it was announced.

PAY SLASH GIVEN TO CWA WORKERS

Reductions From 40 Cents An Hour To 30 Are Announced

Reductions in the rate of pay for CWA laborers from 40 cents an hour to 30 cents, have been ordered throughout Louisiana districts, according to a bulletin received last night by the local office from the office of H. J. Early, state administrator.

"This reduction came as a surprise," W. E. James, assistant parish administrator, said. "However, we have no choice.

"While we have not yet been fully informed on the subject, it appears that this reduction is retroactive, and is in effect for all laborers for the current week. That is, they will be paid at the rate of 30 cents for the work done Friday.

"So far as our present instructions appear, foremen and timekeepers are not yet affected but laborers will receive the 30-cent rate and skilled labor will be cut from $1 an hour to 75 cents.

"Unless further changes are made, this will not interfere with demobilization plans.

"Timekeepers report that the men who yesterday received their last pay checks accepted the loss of their jobs philosophically."

R. H. Goodman, district engineer, said the order would affect all eight parishes in his district but added that, in some instances in other places, there had been reports that many of the men would be able to find regular work, though probably at smaller wages.

"That is the idea I believe the government is trying to carry out," he said. "In some sections of the United States there have been many complaints that workers could not be had because they found it easier to work for the CWA.

"While the government does not wish to lower the wage standard in any section of the land, nevertheless, it is my understanding that it has as little desire to produce a shortage of labor in any locality at the standard wage rate of that locality."

MARCH ON VIENNA BY HEIMWEHR IS THOUGHT LOOMING

Dozens Of Guards' Trucks Leave For Mystery Destinations

MAY COMMENCE TODAY

Rumors Say Men Will Converge On City From Outlying Towns

(Copyright, 1934, by the Associated Press)

VIENNA, Feb. 24.—A "march on Vienna" by the pro-government and Fascist heimwehr was reported imminent tonight as dozens of freshly-fueled trucks carrying home guardsmen rolled out of town for an unannounced destination.

Rumors were that heimwehr leaders would concentrate their men in outlying towns and converge on the capital to seize the government reins tomorrow, with Chancellor Dollfuss acquiescing to the movement as King Victor Emanuel did when Benito Mussolini marched on Rome.

That Vienna was plastered with green and white portrait posters of Prince Von Starhemberg, heimwehr commander, and Vice-Chancellor Emil Fey, a heimwehr chieftain, was taken as a factor strengthening the reports.

The home guardsmen had orders to carry rations for three days, but were not told in advance what their objective would be.

There were comments that they might be bound for the Austro-German border, as a precaution against the massing of Nazis in Germany, but inquiries at frontier points revealed no concentrations on either side.

(An official statement issued in Berlin said reports published in Austria and the United States regarding the gathering of Nazis on the border were "the purest fabrication and represent one of the customary contemptible attempts to bring the German reich into disrepute.")

AIRMEN TELL OF SEEING PAL DIE

Two Finally Rescued From Crippled Plane In Icy Sea

BROOKLYN, N. Y., Feb. 24.—(AP)—Two army lieutenants propped up on cots in the navy hospital told today how their best friend was drowned in the icy sea while they clung for five hours to the wings of a drifting, crippled plane.

"We were over the water, two miles off Coney Island, when we experienced our first difficulty," said Lieut. W. S. Pocock, Jr., as he puffed a cigarette.

Across the hospital room, with his left knee heavily taped, lay Lieut. J. H. Rothrock. The two men were rescued last night by the navy destroyer Bernadou 15 minutes after their companion, Lieut. George F. McDermott, had been washed into the ocean.

"When we hit the water, one of the motors broke away. But we weren't awfully worried at first. We drifted about for an hour. A police plane came alongside. It was like a check from home.

"But they couldn't get to us. We wondered and waited as the police plane taxied away. We had shouted to them, 'We're o. k., get us a boat.'"

The aviators learned after their rescue that the police craft had been

Lake Providence Man Killed In Altercation At Sandwich Shop; Slayer Badly Wounded

Thomas Edgar Griffith Is Shot To Death By Sam T. Welch

SLAYING 'JUSTIFIABLE'

Griffith Said To Have Entered Cafe And Started Shooting

LAKE PROVIDENCE, La., Feb. 24.—(Special)—Thomas Edgar Griffith, 23, son of Mrs. Jewel McDonald Griffith and the late T. E. Griffith, was instantly killed at 3 o'clock this morning when shot three times by Sam T. Welch, member of a prominent Lake Providence family. Welch was wounded by three shots fired by Griffith.

After conducting an investigation, the coroner returned a verdict of justifiable homicide in connection with the death of Griffith, holding that Welch fired in self-defense.

Sheriff John Bass said an investigation conducted by him showed that Griffith, who lived near town, had been in Lake Providence all night and had been drinking much of the time. The man was said to have entered the Levee sandwich shop, occupied by four persons, and to have begun shooting at Welch.

One shot fired by Griffith almost severed the little finger on one of Welch's hands, another grazed his shoulder and a third passed through the upper lip and mouth and lodged inside of the neck. Welch then drew a pistol and began firing, witnesses said.

Two shots fired by Welch struck Griffith in each leg and a third entered his left side, causing instant death.

Griffith was married two years ago to Miss Dorothy Crow of Oak Grove. Surviving are the widow, one child, a sister and a brother, in addition to the mother.

Funeral services will be held Sunday afternoon at 2:30 o'clock from the family residence on the Lewiston plantation and will be conducted by Rev. C. A. Loveless.

In a long distance telephone conversation to The World, Sheriff Bass said that Welch had left Lake Provi-

HITLER WILL GET RIGHT TO PLACE SELF ON THRONE

After Today He Can Proclaim Himself As German Emperor

BERLIN, Feb. 24.—(AP)—Any time after 10:30 a.m., Sunday, Adolf Hitler can proclaim himself emperor of Germany is he so chooses.

Through the reich at that hour every sixtieth German will pronounce the following oath:

"I swear unshakable fidelity to Adolf Hitler and unquestioning obedience to him and the leaders designated for me by him."

The men and women who will thus solemnly pledge their very lives to Germany's chancellor-dictator are all "Amts-Walter," or officers of the numerous political, economic, professional, social, and labor organizations which constitute the separate divisions of the Nazi government.

With the oath-taking, the venerable president, Paul Von Hindenburg, Germany's grand old man of war and peace, will virtually fade out of the picture.

Hitler will be the de facto sovereign of Germany.

Those taking the all-embracing oath will include, among others, 375,000 political party bosses, 120,000 labor officials, 205,000 Hitler youth leaders.

They will be connected by radio with Munich, where thousands of Nazi department heads gathered on the 14th anniversary of the founding of the Nazi party.

There Chancellor Hitler's personal representative, Rudolf Hess, will take the pledge. Hitler was scheduled to speak tonight, with the oath the main ceremony tomorrow.

More than a million—1,017,000 to be exact—Nazi functionaries will swear fealty in unison, with their right hands raised in the Hitler salute.

They will thereby duplicate what more than 3,000 Nazi storm troopers and steel helmet veterans have automatically done when they joined the brown battalions, namely, give a pledge which otherwise is given to royalty only.

GIRL'S LEG BROKEN IN AUTO ACCIDENT

A fracture of the left thigh bone, about five inches above the knee, was received by Margaret Pigg, 10-year-old child living at 2629 DeSiard street, when she was struck by an automobile about 5:30 o'clock Saturday afternoon, a short distance from her home. The car which struck the child was said to have been driven by Miss Viola Singley, 416 Wood street.

After making a report at police headquarters, Miss Singley was released on bond of $100 on a charge of reckless driving. In her report she stated that the child darted into the street in front of her car and that she was unable to stop in time to avoid hitting her.

Following the accident W. T. Roper assisted Miss Singley and Miss Beatrice Brobeck, 416 Wood street, who accompanied her, in placing the child in the car and then took the child to the clinic.

Lucullian Banquet Celebrates Athletic Conference at L. S. U.

Feasting and Merrymaking Creates New Epoch At Seat Of Learning

BATON ROUGE, Feb. 24.—(Special)—According to the Scriptures, Belshazzar, king of Babylon, gave a feast at which the sacred vessels taken from the holy temple were boastingly profaned. Followed the fateful handwriting on the wall, Daniel's interpretation and the loss of the kingdom to Darius, the Mede.

Acting as host for the Louisiana State university, President James Monroe Smith, on the evening of Friday, February 9, gave a banquet in the beautiful Venetian room of the university cafeteria to local and visiting participants in the Southeastern athletic conference. Not as elaborate, perhaps, as the feast of the ill-starred son of Nebuchadnezzar, the L. S. U banquet is said to have partaken of some of the characteristics of that scripturally famed repast.

There was a sound of revelry by night; and the eighteenth amendment is said to have been made a colorful memory as the evening progressed. A menu which even so resourceful a sybarite as Lucullus might have envied was disposed of by some forty-six or more guests. Meanwhile, looking on in a figurative sense, were

In conducting his investigation into deadhead payrolls in New Orleans, District Attorney Eugene Stanley will seek to apply to the prosecution of any guilty parties whose culpability he may trace, the provisions of Sections 903 and 904 of the Revised Statutes of Louisiana. One section makes the misuse of public funds by state officials embezzlement and the other applies this legal principle to parishes and cities. Under the authorities cited, Mr. Stanley is convinced that he can send both the giver and recipient of misued funds to the penitentiary. His jurisdiction is limited, of course, to the parish of Orleans.

But, if Mr. Stanley's conception of the law is correct, there are lots of "embezzlers" in other sections of the state. There are deadheads on many state payrolls—political favorites (generally relatives of men or women in high political authority) who draw pay and perform no services whatever for it. There are deadheads in the office of supervisor of public accounts, in the office of the secretary of state, in the Louisiana highway commission, in the Louisiana tax commission and in other state bodies whose operations the jurisdiction of the district attorney of New Orleans do not reach.

It is not pretended that these state employes—some of them relatives of the governor, some of them relatives of the senior United States senator, some of them relatives of the supervisor, one of them a relative of the secretary of state—do any useful or necessary public work. In fact, many of them do no work of any kind whatever. There seems to be a large opportunity here for application of Sections 903 and 904 of the Revised Statutes.

Seemingly there is no end to the creation of new jobs at Baton Rouge. The latest addition to the official "staff" is said to be an additional hostess at the state capitol, in the person of a Miss Burns, whose specific duties remain a mystery. There is already one official hostess in the person of a Miss Wurzlow; and now they have another.

ROGERS
HAS HIS SAY

WASHINGTON, Feb. 24.—(Special)—Reading yet of Sandino's death in Nicaragua, there is one thing that he and I always agreed on, and that was that American armed forces had no right down there. As to whether he was a George Washington or a Jesse James, that's for his own people to judge. And while the nation's mind at the present seems to be on aviation, I want to tell you that some of the greatest flying every done by army, navy, or commercial, was done by the marine aviators in their flights through those mountains after this same Sandino. I spent a week with the marines in temporary camp, arriving just three days after the Managua earthquake, and I flew with them over the Sandino country dropping supplies to marine camps hundreds of miles up in the mountains. I am glad we didn't find him that week.

Yours,

Will Rogers

Parachute Jumper Falls To Death Before Surprised Crowd

NATCHEZ, Miss., Feb. 24.—(AP)—J. D. Pate, a Los Angeles parachute jumper, plunged 1,800 feet to his death here today in an exhibition at the opening of a two-day air meet sponsored by the Natchez Association of Commerce. His parachute failed to open.

The accident happened at Joseph Sharpe airport, two miles from Natchez. Pate fell to earth after his leap from an airplane flown by J. O. Dockery ,of Clarksdale, Miss.

The accident was witnessed by a large crowd assembled for the opening of the air show which was featuring stunt flying and delayed parachute jumping.

The crowd was taken completely by surprise when the stunter's body struck the ground. They held their breath as he neared the earth, ex-

ADHERENCE TO CODE DEMANDED OF MILLS

SPOKANE, Wash., Feb. 24.—(AP)—Western lumber dealers demanded in a resolution passed here today that "small, native sawmills" be forced to adhere strictly to the NRA manufacturers' code.

The resolution was among a half dozen passed at the closing session of the annual convention of the Western Retail Lumbermen's association.

The resolution demanding the small mill adhere to the NRA code was passed with only one dissenting vote, that from W. B. Hussman, operator of a small mill at Cottonwood, Idaho. He insisted the small mill owner cannot adhere to the code and operate profitably.

The same resolution demanded that the small mills, when selling at retail, adhere to the retail lumber and building materials code.

Jonesboro Bank Cashier Succumbs At Shreveport

SHREVEPORT, La., Feb. 24.—(AP)—O. E. Corbett, 47, cashier of the Jonesboro State bank at Jonesboro, La., died at a local sanitarium this morning at 6:30 o'clock after a long illness.

Funeral services will be held in Jonesboro Sunday with interment following in the Jonesboro cemetery.

Surviving the deceased are his widow; two daughters, Miss Evelyn Corbett and Mrs. Vivian Corbett Craft, of Jonesboro; two sisters, Mrs. Bertha Rue of Natchitoches, and Mrs. Annie D. McDonald, of Jonesboro, and one brother, Pat Corbett of Alexandria.

Orleans Fire Fighting Tug Sinks After Crash

NEW ORLEANS, Feb. 24. — (AP) — The dock board fire-fighting tug Samson listed and sank tonight in the industrial canal here ten minutes after the Samson had collided with the tug Sipsey of the W. G. Coyle and company, Inc. Captain John W. Simonson, master of the Samson and its seven crew members made their way to the canal bank without difficulty as the tug settled into the water with a huge hole torn in its port side.

The collision happened at a point near the month of the canal where it connects with the Mississippi river.

RELIEF INSTITUTE TO BE HELD HERE

WASHINGTON, Feb. 24.—(Special)—A one-day relief institute for relief workers and Red Cross chapter officers will be held in Monroe on March 16, the Red Cross announced Saturday.

This will be one of 15 such sessions to be carried on during March in areas where disaster hazards are prevalent in spring months. They are held with a view to perfecting methods of giving the alarm in the event of floods, of making wide use of weather bureau reports, of saving lives through evacuation plans, of preventing distress through having committees of citizens ready to function in clothing, feeding and housing refugees and in giving medical and nursing care to the injured, and generally aiding in disaster relief.

At the Monroe meeting, the Red Cross said, discussion will be on the responsibility of the Red Cross in disaster relief, relationship with state and federal groups, and Red Cross relief policies and plans of operation. Chapter officers will be invited to describe disasters in which they have given relief and to outline their plans for caring for injured and homeless in the event of future distress, according to the announcement.

Ballot Registration In Parish Picks Up

Another spurt of registering has been experienced because of the West Monroe city Democratic primary election to be held April 3, Miss Lillian Collins, registrar of voters, said Saturday. Registrations for Saturday totaled 55, bringing the total since the new registration period began January 1 to 5,335.

Exactly one more week remains for registering, as the registration period for the West Monroe election will end March 4. Because of the fact that three candidates have announced for mayor and nine for the five aldermanic seats, interest in the election has become keen and this has stimulated business at the registrar's office.

Baton Rouge Man Held On Charge Of Bigamy

BATON ROUGE, Feb. 24.—(AP)—S. J. McClain, local insurance agent, was arrested and taken to Oberlin, La., today to face what Sheriff O. P. Reed of Allen parish said were charges of bigamy and wife desertion filed against him by a woman there.

McClain's arrest was requested by Sheriff Reed in a wire to Chief of Police King H. Strenzke. The Mrs. McClain with whom he has lived here said she was sure he was innocent of the charges and that he was being "framed."

The hunt veered to the vicinity of Fort Bridger, Wyo., late in the day, when an anonymous report was received at the United Air lines headquarters here that an unidentified plane had been seen in that locality not long after the departure of the missing ship for Cheyenne.

This report, telephoned by a resident of the vicinity, located the plane between Church Butte and Twin Butte, near the Salt Lake-Cheyenne route.

Seeming to add weight to it was landing field, saying a plane had been heard over Manila, Utah, 50 miles southeast of Le Roy, at 2:45 p. m., yesterday.

Piloting the searching planes were Jack O'Brien and E. L. Yuravich, George Boyd and Robert Hickson, and H. A. Collison and James Belding.

Those aboard the plane were:

E. L. Walker, Rock Springs, Wyo.

J. J. Sterling, Benton Harbor, Mich.

Bert McLaughlin, Perry, Iowa.

W. B. Bergland, Booone, Ia..

Marcellus Zinsmaster, Des Moines, Iowa.

PRESS DELEGATES TALK ARTS CODE

house Enterprise, Bastrop, was reelected secretary-treasurer for the fourth consecutive year. Oak Grove was selected as the location for the next convention in 1935.

Mr. Chapman reviewed the graphic arts code and its effect on the weekly and small daily newspapers of the state. He announced that a meeting of the executive committee of the Louisiana State Press association will be held in Baton Rouge in about ten days, when plans will be formulated for setting up a compliance board for the state.

"Ways and Means of Combatting Unfair Competition" was discussed by C. Lee Johnson, secretary of the Master Printers association of Shreveport, who announced that a code of fair prices had been adopted by printers in north Louisiana and that "this program has served to stabilize and revive the industry in this section of the state."

Fred Williamson, editor of the Monroe Morning World and News-Star, taking the place of Clayton Rand of Gulfport on the program, made an address of "Inspirations of the Newspaper Profession."

Luncheon was tendered the delegates by the Central Louisiana Lumber company at Clarks, following which the entire group was conducted on an inspection trip of the lumber mills, second largest in Louisiana, by C. C. Sheppard, A. W. Johnson and H. C. Cooksey, officials of the company.

The convention adopted resolution of thanks to the officers of the National Editorial association for their work in the negotiations which resulted in the approval of the graphic arts code. Resolutions were also adopted approving the plans of the Publishers Finance corporation, organized to aid weekly papers and printers in obtaining financial help from the government. Protest against the Tugwell bill, now before the senate, and approval of the Black and Stevens bills in amending the food and drugs act, were embodied in resolutions. The bill of Senator Park Trammell, urging the government to give the printing work for the CWA, ERA and other emergency agencies to private printing concerns instead of to the government printing office, was approved.

Resolutions of thanks to J. H. McQuerry, publisher of the Caldwell Watchman, who as host of the convention had contributed to one of the most successful gatherings in the history of the association, were adopted.

A number of the delegates remained in Columbia for a dance given Saturday night by the American Legion post in honor of the editors and publishers. On Sunday the delegates will be given a boat ride on the Ouachita river as the guests of Capt. R. E. Wright, master of the "Omar."

hovered in the dark about the bus until relief came.

The dead:

Elizabeth McArthur, 50, Southgate, Calif.

Genevieve Scadlock, 35, Southgate.

Mrs. Eugene Gowers, 34, Lynwood, Calif.

Sarah Crawford, 45, Southgate.

Mrs. Frank Riggs, 30, Huntington Park, Calif.

Rea Haws, 2, daughter of Pearl and Dave Haws, Southgate.

The party was en route home from a four-day pilgrimage to the Mormon temple at Mesa, Ariz.

Bishop Morris R. Perry, in charge of the party, sadly walked between the Wickenburg hospital and the mortuary, his trousers caked with mud to the knees, and his face and hands bearing marks of his injuries.

"There were only four of us able to do anything for the others after the crash," he said.

"Brother Magnusson and his wife, and my wife and I, tried to get the others out of the overturned bus.

"We got pieces of lumber and pried the bus up so we could drag the others out.

"It was hard work because the bus was so heavy.

"Then I started toward the little town to get help. It started raining after I had gone a little way.

"I almost went down because I am not used to running a mile as hard as I can make it. Then I cried out for help, and somebody came with a light.

"There wasn't much confusion at the scene of the wreck. There were so many so badly hurt. I went around telling them not to cry because there were others suffering too, so they just cried quietly to themselves."

pecting him to open his parachute momentarily.

Dockery said that just before Pate jumped from the plane he asked him if everything was "O. K." and Pate replied in the affirmative.

The pilot said Pate had two regulation parachutes and that his equipment had been checked before the plane went aloft. Dockery said Pate had been associated with him for about two weeks .

Pate was one of the performers in the Pan-American air races which closed last Sunday in New Orleans after three deaths and several narrow escapes.

Pate was knocked unconscious temporarily in New Orleans when he came down from a leap on a concrete runway on the last day of the show.

In the files of the federal bureau of navigation are the records of 300,000 vessels, ranging from motor boats to transatlantic liners.

DR. SARAH DEAN WEEPS IN COURT

(Continued from First Page)

that "the entire jury wants to go on."

"The jury seems to be getting mighty restless and tired—they want it over so they can get out and plant crops," one of the prosecution staff later commented privately to newsmen.

Dr. Dean started weeping quite suddenly this morning while Dr. J. P. Bates, Greenwood physician, a defense witness, was on the stand discussing the symptoms of mercury poisoning and rebutting the state claim that mercury caused Kennedy's death. Reply to state testimony that a post-mortem examination showed a trace of mercury in the dead surgeon's stomach organs, Bates, 66-year-old friend of Kennedy's, said:

"It is perfectly possible to absorb mercury through the unbroken skin while disinfecting the hands, as Kennedy did before operating. I believe that more than a trace of mercury should have been found in Kennedy's stomach organs if he had been given enough to prove fatal."

Tears suddenly started streaming down the defendant's face and in a moment she was sobbing convulsively. A. F. Gardner, standing over her, commented that she had "been ill for the past three or four days, and is verging on collapse."

"The ordeal of the trial is making it awfully hard for her to hold up," said Gardner to those about him, as Dr. Dean turned away from the jury box and held her face in a lace handkerchief. Mrs. Nelson Taylor, a friend, sat close beside her. Mrs. William Cook, a half sister, watched anxiously from her seat a few feet away.

Neither the judge nor jury showed any sign of reaction.

Within a few minutes, Dr. Dean apparently signalled her attorneys to proceed with their witness, and compressing her lips, swung back to the counsel table. Only a few more questions were asked of Dr Bates, however, before the defense asked for a recess "to discuss some medical questions with the defendant."

Her face momentarily haggard and her eyes deeply circled, Dr. Dean arose and left the room with her attorneys. When she returned 30 minutes later, she was smiling and all signs of tears had been erased.

After Dr. Bates had left the stand, the defense called Dr. L. B. Otken, another Greenwood physician, who said he had known Kennedy since 1919, and had "seen him take a drink, but I can't say I ever saw him under the influence of liquor."

When he testified he had seen Kennedy "take two drinks in 15 minutes," the defense asked: "How big were those drinks?"

Dr. Otken held up enough fingers to measure about two inches.

The defense has consistently attempted to show the dead surgeon was "a steady drinker."

Defense Attorney J. J. Breland this afternoon asked Dr. Otken if he believed Dr. Kennedy, in the dying condition described by the state could have, as the state claimed, performed an operation for appendicitis four days "after having drunk a lethal dose of mercury."

"Did you say lethal dose?" asked the witness. "The majority of cases I've seen were dead by the fourth day. The rest were too prostrated to have done that."

Dr. Otken said mercury absorbed through the skin "could stay stored up in a person's stomach organs, liver, kidneys and spleen, for a month to six years."

Dr. Dean's attorneys disclosed this afternoon that she was suffering from a chronic condition of ulcers of the stomach, the same ailment which gained her release from jail last summer when she was first arrested in connection with Kennedy's strange death. Her counsel said she was treating herself and was on "a careful diet."

forced down and taxied periously to shore.

"We burned all our smoke candles trying to attract attention. The water was coming in. We closed the door between the cockpit and the cabin but that didn't do much good.

"The tail was higher than any other part of the ship, so we climbed back on the tail, and it started to go down rapidly under our weight.

"We made a dive for the top wing and we lay there on the wing until about the time the sun went down. We were drifting seaward all the time.

"Our faces were coated with ice. We had no feeling whatever, in our legs. They were numb and heavy. We had swallowed plenty of water. We were all pretty weak.

"I looked over and saw Lieut. McDermott was all in. He was almost paralyzed. We had been buddies ever since we started studying at Kelly field. There was one song we would always sing together, 'Dear Old Girl.' We learned it one night in Jacksonville.

"So I started off 'Dear Old Girl,' and I can see McDermott now as he joined me."

McDermott was swept overboard while trying to change his position, Pocock said. He grabbed the tail, and finally his companions pulled him back on the wing.

"He was delirious now, and too paralyzed to hold on. He kept asking, 'Why doesn't the boat come?'

"We were too paralyzed to help him and a wave swept him off. We couldn't do anything about it."

Lieut. Rothrock, who had been piloting the plane, bound for Langley Field, Va., took up the story.

"We clung to the wing. We saw a boat about 100 feet away. We shouted and shouted. I don't know much of what happened after that. I was all in.

"The boat was about 25 feet away when they threw us a line. That was the Bernadou. They came alongside and took us aboard. They treated us fine."

The two aviators probably will be able to leave the hospital tomorrow. They suffered from exposure and severe skin abrasions, and Rothrock had a minor cut on one knee.

down, it was thought possible they might remain in the cabin to save them from the cold.

The hunt veered to the vicinity of Fort Bridger, Wyo., late in the day, when an anonymous report was received at the United Air lines headquarters here that an unidentified plane had been seen in that locality not long after the departure of the missing ship for Cheyenne.

This report, telephoned by a resident of the vicinity, located the plane between Church Butte and Twin Butte, near the Salt Lake-Cheyenne route.

Seeming to add weight to it was landing field, saying a plane had been heard over Manila, Utah, 50 miles southeast of Le Roy, at 2:45 p. m., yesterday.

Piloting the searching planes were Jack O'Brien and E. L. Yuravich, George Boyd and Robert Hickson, and H. A. Collison and James Belding.

Those aboard the plane were:

E. L. Walker, Rock Springs, Wyo.

J. J. Sterling, Benton Harbor, Mich.

house Enterprise, Bastrop, was reelected secretary-treasurer for the fourth consecutive year. Oak Grove was selected as the location for the next convention in 1935.

Mr. Chapman reviewed the graphic arts code and its effect on the weekly and small daily newspapers of the state. He announced that a meeting of the executive committee of the Louisiana State Press association will be held in Baton Rouge in about ten days, when plans will be formulated for setting up a compliance board for the state.

"Ways and Means of Combatting Unfair Competition" was discussed by C. Lee Johnson, secretary of the Master Printers association of Shreveport, who announced that a code of fair prices had been adopted by printers in north Louisiana and that "this program has served to stabilize and revive the industry in this section of the state."

Fred Williamson, editor of the Monroe Morning World and News-Star, taking the place of Clayton Rand of Gulfport on the program, made an address of "Inspirations of the Newspaper Profession."

Luncheon was tendered the delegates by the Central Louisiana Lumber company at Clarks, following which the entire group was conducted on an inspection trip of the lumber mills, second largest in Louisiana, by C. C. Sheppard, A. W. Johnson and H. C. Cooksey, officials of the company.

The convention adopted resolution of thanks to the officers of the National Editorial association for their worl. in the negotiations which resulted in the approval of the graphic arts code. Resolutions were also adopted approving the plans of the Publishers Finance corporation, organized to aid weekly papers and printers in obtaining financial help from the government. Protest against the Tugwell bill, now before the senate, and approval of the Black and Stevens bills in amending the food and drugs act, were embodied in resolutions. The bill of Senator Park Trammell, urging the government to give the printing work for the CWA, ERA and other emergency agencies to private printing concerns instead of to the government printing office, was approved.

Resolutions of thanks to J. H. McQuerry, publisher of the Caldwell Watchman, who as host of the convention had contributed to one of the most successful gatherings in the history of the association, were adopted.

A number of the delegates remained in Columbia for a dance given Saturday night by the American Legion post in honor of the editors and publishers. On Sunday the delegates will be given a boat ride on the Ouachita river as the guests of Capt. R. E. Wright, master of the "Omar."

TOUHY AND PALS TAKEN TO PRISON

Armed Guards Speed To Joliet In 11 Squad Cars

CHICAGO, Feb. 24.—(AP)—Roger Touhy and two of his gangsters were taken to Joliet prison today, to begin penitentiary sentences of 99 years each.

Touhy, once head of a powerful gang, Albert Kator and Gustav "Gloomy Gus" Schaefer, were delivered at the prison in handcuffs and leg irons.

Police and deputies armed with machine and riot guns, sped from Chicago in 11 squad cars to Joilet with the three prisoners at 50 miles an hour. Other cars patrolled the road ahead.

The group left Chicago 36 hours after a jury had convicted the three of the $70,000 kidnaping of John Factor, wealthy speculator.

Touhy, who stood weak with nervousness to hear sentence pronounced, was in tears upon arrival at the prison.

Efforts of their attorney, William Scott Stewart, failed to defer the prison sentence. He made a motion for a new trial, citing a decision which the Illinois supreme court made yesterday, but it was denied. He applied for a stay of commitment, which was also refused.

The prison forces, usually free for a half holiday on Saturday, stayed on full strength to receive the three prisoners.

A supreme court decision ruling that the customary manner of selecting Cook county grand juries was illegal failed to delay the Touhy case as Judge Feinberg refused to be bound by it, remarking that the court probably would not let the decision stand when it saw the "dire effects" it would have in Cook county.

Closely guarded since their conviction, the three prisoners were brought into court to hear sentence passed with a circle of 50 heavily armed guards about them.

Kator and Schaefer heard the judge pronounce sentence without visible emotion. Touhy, however, jammed his handkerchief to his mouth, overcome by nausea.

In pronouncing the 99-year sentence, Judge Feinberg said:

"Kidnaping was almost extinct, up to the present. There has recently been an epidemic of this crime, and with all the resources of the United States government, the horrible Lindbergh kidnaping case has never been solved. The crime must be crushed."

METHODISTS TO GIVE PLAY THIS MORNING

In keeping with the fact that today is missionary extension Sunday, which is to be observed throughout the country by Methodists, the First Methodist church here is to have a play presented at the 11 o'clock service hour this morning. The presentation is of missionary nature and is entitled "Ba Thane." It is directed by Miss Elizabeth Langford.

The scene is laid in the far east in a mission field. Cast of characters are to be as follows:

Ba Thane, Burmese boy—Durwood Griffin.

Mrs. Gordon, a missionary—Mrs. J. W. Worthington.

Little Jean Gordon—Marilyn Bradford.

Virginia Allen, missionary nurse—Mildred Dennis.

Mr. Ordway, newspaper reporter—Francis Barnett.

Mr. Fox, American oil operator—C. E. Thompson.

Ma May, Ba Thane's sister—Mrs. Agnes Miller.

A collection will be taken at the service, which is to be devoted to the cause of missionary work which is now threatened with curtailment due to financial stringency.

At 7:30 p.m., today, the play will be presented at the Gordon Avenue Methodist church, at Gordon avenue and Dixie street.

EX-TEACHER GETS $80,000 VERDICT

Judgment Rendered By July In Breach Of Promise Suit

COVINGTON, Ky., Feb. 24.—(AP)—Twelve men—the jury that heard her suit for $100,000—today gave Miss Evelyn Hazen, former Knoxville, Tenn., school teacher, an $80,000 verdict against Ralph P. Scharringhaus.

"You gave me vindication. That's all I wanted," Miss Hazen said through happy tears.

"That shows what sympathy will do," grunted Scharringhaus.

The jury, one member revealed, was with her from the start, and disagreed only on how much she should be awarded. And so each juror dotted down his idea of how much the verdict should be. The figures were added, then divided by twelve.

Miss Hazen had asked $100,000 in all, $50,000 for alleged breach of promise, and $50,000 more for alleged betrayal into intimate relations. The jury gave her $65,000 on the first count, and $15,000 on the second.

The defense at once filed notice seeking a new trial, and an appeal to higher courts if that is denied, asserting the verdict was excessive and contrary to the evidence.

Women spectators who had jammed the courtroom throughout the 16 days of the trial fluttered around Miss Hazen. She, seemingly near an emotional collapse, smiled faintly back at them. Only she of the two principals was in court when the jury reported unexpectedly after a scant two hours of deliberation. Scharringhaus heard of the verdict while sitting in the office of his attorney.

The verdict followed a direct plea of Stephens L. Blakely, Miss Hazen's counsel, to the jury at least to "give her vindication" even if a judgment could not be collected if Scharringhaus is as impoverished as he testified. It followed, too, a defense accusation that Miss Hazen, tearful on her last day on the stand, was attempting "to cry a verdict from the jury."

For fifteen days of testimony and arguments, the actions of both had undergone heavy fire. Her witnesses had described Miss Hazen as a "goody-goody" girl, who spent fifteen years of devotion to Scharringhaus before he allegedly jilted her in 1932. Witnesses for the defense had pictured her as a thrill-hunter who sought other men, decided at last that Scharringhaus was "the best proposition," and then threatened to "kill or ruin" him when he concluded their relations had better cease.

Father Gremillion Talks At Meeting Of Catholics

"My Four Years in Rome," was the theme of Rev. Father M. R. Gremillion, at the meeting of the Convert league, of the Catholic Daughters of America, at their third monthly meeting held at St. Matthew's school auditorium, Thursday night.

Among other things of interest, the speaker related that he attended a pentecostal celebration in honor of the pope, who received felicitations in 60 different languages by students of the world seminary known as Propaganda Fide.

Everett Burgoyne reviewed the life of John Moody, a financier of New York and London who believes a man cannot serve both God and mammon.

Entertainment of the evening was furnished as follows: Violin selection, "Adoration," rendered by Miss Hazel Heller, accompanied on the piano by Miss Helen Heller; solo, "A Prayer," by J. Bertram Fox, and "Eye Hath Not Seen," from "Holy City," by A. R. Gaul, sung by Miss Louise Endom, accompanied on the piano by Don Britmoser.

NAMED SECRETARY

Charles G. Wall, Jr., son of Mr. and Mrs. C. G. Wall, Sr., of West Monroe, student at L. S. U., was named secretary-treasurer of Alpha Gamma Rho fraternity. He is to fill a vacancy caused by the death of Alfred C. Purple.

This fraternity is one of the leading ones in the state university.

(LOWER LEFT) Studio entrance through which the public will pass to view recording and projection of sound pictures. (CENTER) Screen and rear projector system. (RIGHT) Glass enclosed Projection Room showing latest projector and Western Electric Reproducer set.

Fascinating secrets of sound recording and projection of talking motion pictures will be revealed to the public here for the first time Monday, when Metro-Goldwyn-Mayer's elaborate traveling motion picture studio visits Monroe on its world educational tour.

The traveling motion picture studio, which was designed and constructed to specifications by the film company, world's largest motion picture producing organization, at a cost of $150,000, will be placed on exhibition from 4:30 to 7 p.m. at the Paramount theater, home here of Metro-Goldwyn-Mayer's pictures, according to an announcement by Harry W. Rice, manager of the Paramount.

The studio on wheels, he said, combines facilities for both the recording as well as the projection of sound motion pictures, and the sound equipment, aboard the studio is in itself valued at close to $50,000. It is the regulation Western Electric apparatus used in the Hollywood studios and in principal theaters throughout the country. During the studio's brief visit here, this equipment will be open for public inspection by citizens of Monroe and vicinity.

TESTS PASSED BY 54 CWA WORKERS

All Members Of First Aid Class Successful With Examinations

Fifty-four members of a first aid class consisting of CWA timekeepers completed the required examinations concluding a 15-hour course Friday, and it was announced yesterday that each had passed.

Conducted by the Ouachita parish chapter of the American Red Cross and supervised by Byron S. Vaughn, parish CWA safety director, the class was hailed by Barney Oakland, one of the instructors, as one of the best he had taught, not a pupil having failed in a single question on the examination.

Textbooks and bandages were supplied by Mrs. W. C. Holstein, secretary of the Red Cross chapter. Mr. Oakland, Parker McComb, Jack Blanks and Drs. F. P. Rizzo, Marvyn Johnson, C. H. Mosely, C. H. Hill and B. M. McKoin were the instructors.

Treatment of various injuries from cuts and bruises to fractures and of various degrees and kinds of shock were given.

"Our chief object," Mr. Vaughn explained, was to make the course practical for our work, to teach timekeepers who will handle most such cases, to accustom themselves to such work stereotyped aids and to be able to use whatever comes to hand for first aid work.

"First aid is not medical treatment and does not supplant the latter. We are teaching our men the importance of this fact."

This class is only one of many in the eight parishes comprising the Monroe CWA district. Captain F. C. Hundley, district CWA safety director, announced last week that classes numbering 50 or more are being conducted in other parishes.

"There are two such classes at Ruston in Lincoln parish," he said, "two more in Jackson, one at Jonesboro and one at Jackson; one in Caldwell parish and another, still incompleted, in Morehouse parish.

"Nowhere, however, did we meet with better response than here in Monroe. On the first day of the class conducted by Mrs. Holstein and Mr. Vaughn, 110 men reported for instructions. Because of the difficulty in handling so many men, we were obliged to reduce the class but hope to conduct another in about 10 days.

"Diplomas certifying that they have completed the first aid course will be mailed within the next 10 days to the 54 students."

Work On Educational Building Progresses

Construction of the new educational building of the First Baptist church is progressing well, Frank Masling, contractor in charge, said Saturday. The foundation was completed several days ago and the cement superstructure is being erected.

E. H. Murrell, chairman of the finance committee, entrusted with this part of the work, has just named H. W. Davis to serve with him on this committee.

From the outset, the plan has been followed to pay for all labor and material promptly week by week. While it is said that this may somewhat retard construction, that when the building is completed it will be paid in full.

Estimated cost of the construction is $100,000.

LINCOLN PROJECTS GIVEN FINAL OKEH

Soil Erosion Demonstration Will Be Launched On April 1

RUSTON, Feb. 24.—(Special)—Advices from Baton Rouge and Washington bring the cheering news that for the watersheds of two Lincoln parish streams and two streams on the Webster-Claiborne parish line, covering a total of approximately 110,000 acres of land, has received the final approval of the Washington authorities and that work on the two giant projects will begin about April 1.

The two streams covered by the Lincoln parish sector of the project are Cypress and Stowe, while that of Cooley and Brushy creeks are covered by the Webster-Claiborne demonstration. The estimated expenditures for the two projects runs above $300,000, not including the value of the farmers labor that will go into the project. While there are many details yet to be worked out for the project, it is understood that one or more citizens conservation camps will be established on each demonstration and that all machinery and equipment necessary to the work of scientific farm terracing, will be supplied by the government.

Specially trained soil engineers will run all lines and supervise the construction of terraces, the stopping of gullies and the draining of marsh lands. Advance information about the project states that the woodlands and pasture lands will be properly terraced as well as the cultivated fields. It is presumed that the terracing of cultivated lands will be done only during the fall and winter months, while work on the woodlands and pastures will go forward throughout the entire year. It is estimated that it will require approximately two years to complete the undertaking.

Local citizens are gratified to learn that Dr. A. H. Meyer, soil technician of L. S. U., will have general supervision over the project. Dr. Meyer directed the soil survey made for Lincoln parish by the department of soil conservation twenty years ago. He is thoroughly familiar with the soil classification and conformation of north Louisiana.

TOUHY AND PALS TAKEN TO PRISON

Armed Guards Speed To Joliet In 11 Squad Cars

CHICAGO, Feb. 24.—(AP)—Roger Touhy and two of his gangsters were taken to Joliet prison today, to begin penitentiary sentences of 99 years each.

Touhy, once head of a powerful gang, Albert Kator and Gustav "Gloomy Gus" Schaefer, were delivered at the prison in handcuffs and leg irons.

Police and deputies armed with machine and riot guns, sped from Chicago in 11 squad cars to Joilet with the three prisoners at 50 miles an hour. Other cars patrolled the road ahead.

The group left Chicago 36 hours after a jury had convicted the three of the $70,000 kidnaping of John Factor, wealthy speculator.

Touhy, who stood weak with nervousness to hear sentence pronounced, was in tears upon arrival at the prison.

Efforts of their attorney, William Scott Stewart, failed to defer the prison sentence. He made a motion for a new trial, citing a decision which the Illinois supreme court made yesterday, but it was denied. He applied for a stay of commitment, which was also refused.

The prison forces, usually free for a half holiday on Saturday, stayed on full strength to receive the three prisoners.

A supreme court decision ruling that the customary manner of selecting Cook county grand juries was illegal failed to delay the Touhy case as Judge Feinberg refused to be bound by it, remarking that the court probably would not let the decision stand when it saw the "dire effects" it would have in Cook county.

Closely guarded since their conviction, the three prisoners were brought into court to hear sentence passed with a circle of 50 heavily armed guards about them.

Kator and Schaefer heard the judge pronounce sentence without visible emotion. Touhy, however, jammed his handkerchief to his mouth, overcome by nausea.

In pronouncing the 99-year sentence, Judge Feinberg said:

"Kidnaping was almost extinct, up to the present. There has recently been an epidemic of this crime, and with all the resources of the United States government, the horrible Lindbergh kidnaping case has never been solved. The crime must be crushed."

METHODISTS TO GIVE PLAY THIS MORNING

In keeping with the fact that today is missionary extension Sunday, which is to be observed throughout the country by Methodists, the First Methodist church here is to have a play presented at the 11 o'clock service hour this morning. The presentation is of missionary nature and is entitled "Ba Thane." It is directed by Miss Elizabeth Langford.

The scene is laid in the far east in a mission field. Cast of characters are to be as follows:

Ba Thane, Burmese boy—Durwood Griffin.

Mrs. Gordon, a missionary—Mrs. J. W. Worthington.

Little Joan Gordon—Marilyn Bradford.

Virginia Allen, missionary nurse—Mildred Dennis.

Mr. Ordway, newspaper reporter—Francis Barnett.

Mr. Fox, American oil operator—C. E. Thompson.

Ma May, Ba Thane's sister—Mrs. Agnes Miller.

A collection will be taken at the service, which is to be devoted to the cause of missionary work which is now threatened with curtailment due to financial stringency.

At 7:30 p.m., today, the play will be presented at the Gordon Avenue Methodist church, at Gordon avenue and Dixie street.

Purim, The Feast Of Lots

On the eve of March first, the Jewish congregation of this city and other communities all over the world will begin the celebration of the "Feast of Lots," called in Hebrew Purim. This festival, which is a minor holiday, is ushered in with the reading of the Book of Esther, and is accompanied by great festivity and manifestations of joy. Its background, whether historical or not, carries a signal message to every generation of Jews, and especially to Jewry today.

Around the fourth century before the Christian era, there lived a great number of Jews in the provinces that Persia had conquered. During the reign of King Ahasuerus, Mordecai, a wealthy Jew, gained influence in the court and his beautiful cousin, Esther, was taken into the king's harem, crowned queen and made the favorite of the palace. At that time Ahasuerus raised Haman in rank to the highest office in the Persian court. This new prime minister bore a personal grudge against Mordecai and sought to vent his anger upon him. Therefore he decided to proclaim a general massacre of all Jews and thereby make Mordecai suffer. In order to issue this edict he had to obtain the permission of the king, which he cleverly set out to do.

One day Haman presented himself to the king and discussed with him the internal conditions of the Persian provinces. He saw that the king feared for the security of his widely-spread dominions, and he took advantage of this by accusing the Jewish people of being a menace to the unity of the empire. Ahasuerus, delighted by the devotion of the prime minister, said to him, "Do unto the people as it seemeth good to thee."

Mordecai conveyed the fateful edict to Esther and bade her go to the king and beseech him to spare the lives of her people. Esther invited her royal spouse and Haman to a feast. She pleaded with the king, saying, "Behold, we are sold, I and my people, to be utterly destroyed."

Haman had craftily avoided mention of the name of the people he sought to wipe out. The king grew furious when the plan of the nefarious prime minister was exposed. He ordered the hanging of Haman on a gallows so high that all the people could observe his miserable end. To commemorate the deliverance of the Jewish people from the hands of Haman and the heroic loyalty of Esther the intercessor, the festival of Purim was instituted.

The story is one of the most vivid dramas of the history of the Jewish nation. It is important because it typifies the persecutions the Jews have suffered during the last two thousand years. In every age and era there are those who, because of personal prejudices against certain individual Jews, condemn the whole people. But Jewry has another destiny. In every generation there rise up brave spirits who fight such evil decrees and frustrate them. This at once is the message of the Feast of Purim to Jewry as observed this week.

GERMANY WAKING UP

Additional evidence that the protests caused abroad by Germany's treatment of the Jews are bearing fruit is seen in the order issued by Dr. Wilhelm Frick, minister of interior, for the protection of Jews lawfully engaged in business.

The order was delivered to the administrative officers of the reich and to the governors of the various states. It indicates that the government is giving serious study to the dangers to trade and industry that would attend displacing the Jews engaged in business.

"To make laws is exclusively a prerogative of the reich government," says the Frick order. "So far, the government has not outlawed German Jews from business enterprise, and unless it does public authorities must support the law as it stands." It emphasizes that "although the Aryan legislation was necessary for national and political reasons," to extend this "to domains for which it was never intended" by the government "would be especially inappropriate and even dangerous."

Germany seems to be learning slowly that racial persecution in this enlightened day is a dangerous policy for a government to pursue.

A democracy is a land where the law refuses to suppress the devil if a few people make money by helping him.

We think it could be conceded for any of the present heavyweights that he is heavy.

It would have been a tough year for the joke-mongers but for Mae West.

Panhandlers could learn a few tricks in coin collecting from Uncle Sam.

Did the lobbyists take a 10-day recess, too?

More Truth Than Poetry

SOOTHING THE SAVAGE BREAST

While laboring hard on my income return—
A duty it always is costly to shirk—
Though I cannot be sure, I believe I discern
The mind of a master of meter at work.
The lines have a lilt that appeals to the ear,
As if they were cast on a lyrical plan,
And ripple along on their rhythmic career;
Moreover I notice that most of them scan.

"Salaries, wages, commissions and fees,
Incomes from syndicates, partnerships, pools"—
They sound like the whisper of winds in the trees,
They strictly comply with all metrical rules.
"Adjustments for capital, profit and loss"—
Pan, as in Arcady's purlieus he sat
Or lay down to doze on a carpet of moss,
Could never have done any better than that.

This is no accident; somebody planned,
As he picked on a zither a plickety plank
Or harked to the roar of the surf on the sand,
That palpably metrical income-tax blank.
Some bard who possesses a sensitive ear—
A notable master of music no doubt—
Invented that method our sad souls to cheer
The while we are working our income tax out.

"Salaries, wages, commissions and fees;
Incomes from partnerships, syndicates, pools"—
Poems not nearly so lovely as these
Are spouted on stages and spoken in schools.
The government knows how we hate to come through,
It knows we will murmur, and grouse and protest,
But it hopes, when these much begrudged payments are due,
That their metrical phrasing will lull us to rest.

Removing The Crutch

By BRUCE CATTON

Within the next ten weeks approximately 3,600,000 American wage-earners will lose their jobs. The civil works administration is going ahead with its plan to discontinue operations by May 1—by which time, it is hoped, reviving industry will offer places for the men who are turned loose.

About all the innocent bystander can say about this move is, "I hope it works." If it doesn't, the wrench is apt to be a severe one.

And the plain fact that this enormously expensive CWA program can't go on forever isn't much comfort.

The whole business leads one to wonder if the much-talked-of public works program may not, after all, have to be the crutch that we will lean on until we get past the depression period.

* * *

Putting men to work by the public works route costs a lot of money. But it at least gives us something definite in return—solid and lasting things, like buildings, roads, canals, airports and the like—to make the expenditure productive. And it does not contradict itself, as do so many of the emergency measures.

It does not seek to overcome a shortage of goods by calling on people to produce less and less of everything. It does not seek to invent a lot of nearly useless jobs.

It does not raise grave questions about the modification of our traditional system of industry and capital. It simply is a scheme whereby a lot of badly needed work can be done, a lot of jobless men can be put to work, and a lot of idle capital can be put in motion.

* * *

After all, when you stop to think about it, there is enough work waiting to be done in this country to keep us all busy for generations to come. We talk of our idle men and our idle money—and all the while there are miserable slums to be replaced with decent homes, uncounted miles of roadway to be built, rivers to be harnessed and controlled, canals to be dug, power plants to be erected, public buildings to be put up . . . you could make out an almost endless list.

We live in an enormous country which is blessed with every natural resource, we have an industrious and capable army of citizens eager to work, and the job of supplying ourselves with an abundance of the necessities and luxuries of life hardly has begun.

A public works program is a start in the right direction. If cutting off the CWA helps us to realize that fact, it will be worth all the trouble it may cause.

TODAY

By ARTHUR BRISBANE
(Copyright, 1934, King Features Synd.)

(Continued from First Page)

W. Long, beneath a mulberry tree, according to tradition, performed the first surgical operation under anaesthesia, removing a tumor from James M. Venable on March 30, 1842.

The Venable family still exists and thrives in Atlanta. It owns Stone Mountain.

SOME STILL WORK with the hand loom in Georgia, and millions work with it in Asia. At the Johnson & Johnson mills, you stand in a room containing eleven hundred machines, their shuttles roaring back and forth.

Six hundred human beings work in that mill. If the work they do in a year, were done by hand labor, it would require six hundred thousand men, twice the population of Atlanta.

THE MILL RUNS two shifts of eight hours a day. Employes living in substantial brick cottages, well built, they pay 60 cents a week per room. A four room cottage costs $2.40 a week, which pays for electric light, telephone, electricity for cooking and heating water.

The company maintains a perfect clinic, with six doctors, giving free medical attention to the workers and their families and a free school for children up to the seventh grade—older children are sent to the Gainesville high school at the company's expense.

TWO DOLLARS and forty cents for a comfortable cottage made of brick for cooking, heating, lighting, washing, seems cheap.

But in Asia, you could hire workers for less than two dollars and forty cents a week. And if we are to have decent life for workers in the United States, we must also have tariff protection, to keep out competition that would make such conditions impossible.

NEXT EVENT, a chamber of commerce dinner at Gainesville, speeches there, and presentation, to your narrator, of a genuine gold nugget, found in the Georgia mountains where, probably, there is plenty more gold. The writer, who desires to hoard this gold, nicely mounted on black velvet in a little box, hopes that President Roosevelt and Secretary Morgenthau will accept the excuse that a poor woman of the London slums offered to a severe judge who criticized her because her baby had no authentic father, "May it please your worship, it is a very small baby," she said. It is a small nugget, but full of interesting possibilities and suggestions of wealth untold "in them hills."

Of course, if the government MUST have it, the nugget will be shipped to Washington and added to the other seven thousand millions worth.

AT THAT GAINESVILLE chamber of commerce dinner the two local editors, Albert S. Hardy, Sr., of the Gainesville News, and A. F. Dean, of the Gainesville Eagle, both weeklies, sit side by side, without a blow or a cross look. Mr. Dean, who is very young, replying to the kind words of Mr. Hardy, considerably older, did drag in MacBeth's "Tale told by an idiot, full of sound and fury, signifying nothing," but added that he was not referring to Mr. Hardy's editorial page in the rival Gainesville News.

EARLY THIS MORNING, interviewers with youthful editors of the future, Lulu Ames, editor of "Agnostic," published by the students of Agnes Scott college, Louie Marsh, and George Goodwin, of the "Tattler," published by the boys high school, and Bill Watson, editor of the "Modern Knight," published by the Central night school, extremely intelligent young people.

Lulu Ames will live to be a successful editor of a paper, if she sticks to journalism but it would be much better to marry and be the mother of several little editors, and direct them.

NEXT A VISIT to the state capitol and the office of Governor Talmadge, of Georgia, who introduces you first to Mr. Osborne, former governor of Michigan, then to all the young ladies that work at typewriting and otherwise in his immediate surroundings. They are nearly all as blonde as the young lady in Lohengrin, and some more so.

When you observe Governor Talmadge's concentrated look, and powerful lower jaw, you know that the farmers of Georgia elected somebody.

Farmers did it, for the governor did not carry a single city or town big enough to have paved streets or street car tracks. Many citizens, highly respectable, do not approve him.

But he had reduced lthe cost of electric light, gas, power and telephone and cut the price of automobile license to three dollars. Many Georgians approve of all that.

Paint And Patches Club Holds Assembly Program

The annual assembly program of the Neville high school was held the past week by the Paint and Patches club of the school. The club this year has been unusually active and has been sponsored by Miss Beryl Madison. The program was prefaced by a brief talk made by Eloise Goyne, who explained the work of the organization. The program was as follows:

Popular songs—Jack Liner.
"The Little Theater Movement"—Evelyn Roll.
Medley of popular tunes—Don Britmoser.
Impersonations of movie stars—Members of the paint and Patches club.
Song—Mrs. Darwin Nichols.
"Development of English Drama"—Elizabeth Benton.
Episodes showing the development of the drama with introductions by Pollyanna Shotwell.

Tag Day Conducted By St. Matthew's School

The tag day for the benefit of St. Matthew's parochial school, planned originally for Valentine's day, and which was postponed due to bad weather to yesterday, was conducted through the morning hours by a group of women and girls. A good sized sum was realized, it was said.

Large crimson hearts were pinned on the lapels of coats to distinguish those who were tagged.

The women and girls participating in the work were: Mrs. E. F. Kenney, Mrs. F. A. Blanks, Misses Rose Zagone, Matilda Aucoin, Louise Aucoin, Mary Elizabeth Adams, Mary E. Shaughnessy, Mary Louise Devereaux, Melba Risher and Resalee Ballard.

Lights of New York

By Paul Harrison

NEW YORK.—Some notes on the fifty-seventh annual exhibition of the Western Kennel club—the biggest dog show in the world:

Mingled smells of dogs and disinfectants. Crowds. Sawdust. Barking, yapping, yipping, bellowing—interminable, frenzied, and conducive to headaches. Bright lights beating down on the ten judging rings in Madison Square Garden. Owners and professional handlers anxiously trotting their charges in circles, kneeling to pose them by yanking them up by their tails, tossing out bits of biscuits to try to stimulate a spark of animation. The dogs, with one accord, look bored.

Tense exhibitors awaiting their turn in the ring, combing and smoothing and talking in what is intended to be a reassuring tone. The matter-of-fact women in tweeds and flat-heeled shoes, smoking cigarets. The fluttery older women, wearing smocks and whispering baby-talk into silky ears. The men looking calm and sucking at their pipes; dog-men, true to tradition, do seem to prefer pipes. The judges, acting as though the fate of civilization rests on their shrewdness, trying to decide whether Champion Richard of Cheshire Hills is a quarter of an inch low at the shoulder.

The small boy, looking on with a deeper understanding, who could have told them that Champion Richard was the better dog anyway, judged by human standards.

* * *

Doggy Sights

The crescendo of sound as you enter the tremendous basement, where the 2,461 dogs are benched. The Beddington terriers, which look like sheep. The bedlam raised by all the terriers, in deafening chorus. The wire-hair that asks nothing more on this earth than to get out of his cage and kill his next-door neighbor. The Airedales, looking smaller than ever this year. The reflection that maybe they're trying to breed them down to apartment-size pets. The little girl who wants to pat all the dogs, especially the red-eyed, ferocious looking ones. The bulldogs, as sweet-tempered as they are grotesque. The lady who thinks it's cruel to exhibit dogs for three days at a show. The exhibitor, caressing a nervous Irish terrier to keep him quiet, who assures her that it isn't.

The amazing names, such as "Limehouse Happy Hooligan." The man who explains that each registered dog has to have a different name, so they can't all be called Rex or Rover. The old lady who goes along calling each of the collies "Laddie." The loud-voiced, authoritative man who calls the German shepherds "police dogs." The St. Bernards, looking infinitely bored and paying not the slightest attention to friendly advances. The Irish wolf-hound that belies his sinister appearance by lolloping you on the face with a huge tongue.

Putting On the Dog

The yawning sour-mug that looks like a composite of all the gargoyles you ever saw. The tiny Chihuahuas in their glass cases and on their satin, hand-embroidered coverlets, looking embryonic. The Yorkshires with their hair done up in curl papers. The women who exhibit the toy dogs sitting around in rockers and cuddling their favorites in blankets. The magnificent fury of the Pekes, the hysteria of the Poms, the startling resemblance between human speech and the yapping of the Bostons. The sheepdog, with so much hair over his eyes that you can't guess which end to pat.

The old gentleman in a frock coat who looks on wistfully, as though he'd like to kneel down and scratch the ears of every pooch in the show. The elegant Sealyham that's trying with optimistic fervor to dig a hole in the board floor of his cage. The spaniel, chained under a for-sale sign, which looks at you with love and longing. The conviction that you'd better get out of there before you buy a dog.

CONVENTION PLANS MADE BY BAPTISTS

The women of the First Baptist church are making extensive plans to entertain approximately 500 messengers and visitors during the state W. M. U. convention which is to meet in Monroe April 3 and 5. The women of other churches will assist in providing homes for the women who will be in attendance.

The program for this gathering calls for an executive meeting on Tuesday, April 3. Noted speakers from the Southern Baptist convention will address the meeting, bringing messages of vital importance to Baptist missionary causes, according to those in charge of the plans locally.

Purim, The Feast Of Lots

On the eve of March first, the Jewish congregation of this city and other communities all over the world will begin the celebration of the "Feast of Lots," called in Hebrew Purim. This festival, which is a minor holiday, is ushered in with the reading of the Book of Esther, and is accompanied by great festivity and manifestations of joy. Its background, whether historical or not, carries a signal message to every generation of Jews, and especially to Jewry today.

Around the fourth century before the Christian era, there lived a great number of Jews in the provinces that Persia had conquered. During the reign of King Ahasuerus, Mordecai, a wealthy Jew, gained influence in the court and his beautiful cousin, Esther, was taken into the king's harem, crowned queen and made the favorite of the palace. At that time Ahasuerus raised Haman in rank to the highest office in the Persian court. This new prime minister bore a personal grudge against Mordecai and sought to vent his anger upon him. Therefore he decided to proclaim a general massacre of all Jews and thereby make Mordecai suffer. In order to issue this edict he had to obtain the permission of the king, which he cleverly set out to do.

One day Haman presented himself to the king and discussed with him the internal conditions of the Persian provinces. He saw that the king feared for the security of his widely-spread dominions, and he took advantage of this by accusing the Jewish people of being a menace to the unity of the empire. Ahasuerus, delighted by the devotion of the prime minister, said to him, "Do unto the people as it seemeth good to thee."

Mordecai conveyed the fateful edict to Esther and bade her go to the king and beseech him to spare the lives of her people. Esther invited her royal spouse and Haman to a feast. She pleaded with the king, saying, "Behold, we are sold, I and my people, to be utterly destroyed."

Haman had craftily avoided mention of the name of the people he sought to wipe out. The king grew furious when the plan of the nefarious prime minister was exposed. He ordered the hanging of Haman on a gallows so high that all the people could observe his miserable end. To commemorate the deliverance of the Jewish people from the hands of Haman and the heroic loyalty of Esther the intercessor, the festival of Purim was instituted.

The story is one of the most vivid dramas of the history of the Jewish nation. It is important because it typifies the persecutions the Jews have suffered during the last two thousand years. In every age and era there are those who, because of personal prejudices against certain individual Jews, condemn the whole people. But Jewry has another destiny. In every generation there rise up brave spirits who fight such evil decrees and frustrate them. This at once is the message of the Feast of Purim to Jewry as observed this week.

GERMANY WAKING UP

Additional evidence that the protests caused abroad by Germany's treatment of the Jews are bearing fruit is seen in the order issued by Dr. Wilhelm Frick, minister of interior, for the protection of Jews lawfully engaged in business.

The order was delivered to the administrative officers of the reich and to the governors of the various states. It indicates that the government is giving serious study to the dangers to trade and industry that would attend displacing the Jews engaged in business.

"To make laws is exclusively a prerogative of the reich government," says the Frick order. "So far, the government has not outlawed German Jews from business enterprise, and unless it does public authorities must support the law as it stands." It emphasizes that "although the Aryan legislation was necessary for national and political reasons," to extend this "to domains for which it was never intended" by the government "would be especially inappropriate and even dangerous."

Germany seems to be learning slowly that racial persecution in this enlightened day is a dangerous policy for a government to pursue.

A democracy is a land where the law refuses to suppress the devil if a few people make money by helping him.

We think it could be conceded for any of the present heavyweights that he is heavy.

It would have been a tough year for the joke- mongers but for Mae West.

Panhandlers could learn a few tricks in coin collecting from Uncle Sam.

Did the lobbyists take a 10-day recess, too?

More Truth Than Poetry

By JAMES A. MONTAGUE

SOOTHING THE SAVAGE BREAST

While laboring hard on my income return—
A duty it always is costly to shirk—
Though I cannot be sure, I believe I discern
The mind of a master of meter at work.
The lines have a lilt that appeals to the ear,
As if they were cast on a lyrical plan,
And ripple along on their rhythmic career;
Moreover I notice that most of them scan.

"Salaries, wages, commissions and fees,
Incomes from syndicates, partnerships, pools"—
They sound like the whisper of winds in the trees,
They strictly comply with all metrical rules.
"Adjustments for capital, profit and loss"—
Pan, as in Arcady's purlieus he sat
Or lay down to doze on a carpet of moss,
Could never have done any better than that.

This is no accident; somebody planned,
As he picked on a zither a plickety plank
Or harked to the roar of the surf on the sand,
That palpably metrical income-tax blank.
Some bard who possesses a sensitive ear—
A notable master of music no doubt—
Invented that method our sad souls to cheer
The while we are working our income tax out.

"Salaries, wages, commissions and fees;
Incomes from partnerships, syndicates, pools"—
Poems not nearly so lovely as these
Are spouted on stages and spoken in schools.
The government knows how we hate to come through,
It knows we will murmur, and grouse and protest,
But it hopes, when these much begrudged payments are due,
That their metrical phrasing will lull us to rest.

Removing The Crutch

By BRUCE CATTON

Within the next ten weeks approximately 3,600,000 American wage-earners will lose their jobs. The civil works administration is going ahead with its plan to discontinue operations by May 1—by which time, it is hoped, reviving industry will offer places for the men who are turned loose.

About all the innocent bystander can say about this move is, "I hope it works." If it doesn't, the wrench is apt to be a severe one.

And the plain fact that this enormously expensive CWA program can't go on forever isn't much comfort.

The whole business leads one to wonder if the much-talked-of public works program may not, after all, have to be the crutch that we will lean on until we get past the depression period.

* * *

Putting men to work by the public works route costs a lot of money. But it at least gives us something definite in return—solid and lasting things, like buildings, roads, canals, airports and the like—to make the expenditure productive. And it does not contradict itself, as do so many of the emergency measures.

It does not seek to overcome a shortage of goods by calling on people to produce less and less of everything. It does not seek to invent a lot of nearly useless jobs.

It does not raise grave questions about the modification of our traditional system of industry and capital. It simply is a scheme whereby a lot of badly needed work can be done, a lot of jobless men can be put to work, and a lot of idle capital can be put in motion.

* * *

After all, when you stop to think about it, there is enough work waiting to be done in this country to keep us all busy for generations to come. We talk of our idle men and our idle money—and all the while there are miserable slums to be replaced with decent homes, uncounted miles of roadway to be built, rivers to be harnessed and controlled, canals to be dug, power plants to be erected, public buildings to be put up . . . you could make out an almost endless list.

We live in an enormous country which is blessed with every natural resource, we have an industrious and capable army of citizens eager to work, and the job of supplying ourselves with an abundance of the necessities and luxuries of life hardly has begun.

A public works program is a start in the right direction. If cutting off the CWA helps us to realize that fact, it will be worth all the trouble it may cause.

TODAY

By ARTHUR BRISBANE

(Copyright, 1934, King Features Synd.)

(Continued from First Page)

W. Long, beneath a mulberry tree, according to tradition, performed the first surgical operation under anaesthesia, removing a tumor from James M. Venable on March 30, 1842.

The Venable family still exists and thrives in Atlanta. It owns Stone Mountain.

SOME STILL WORK with the hand loom in Georgia, and millions work with it in Asia. At the Johnson & Johnson mills, you stand in a room containing eleven hundred machines, their shuttles roaring back and forth.

Six hundred human beings work in that mill. If the work they do in a year, were done by hand labor, it would require six hundred thousand men, twice the population of Atlanta.

THE MILL RUNS two shifts of eight hours a day. Employes living in substantial brick cottages, well built, they pay 60 cents a week per room. A four room cottage costs $2.40 a week, which pays for electric light, telephone, electricity for cooking and heating water.

The company maintains a perfect clinic, with six doctors, giving free medical attention to the workers and their families and a free school for children up to the seventh grade—older children are sent to the Gainesville high school at the company's expense.

TWO DOLLARS and forty cents for a comfortable cottage made of brick for cooking, heating, lighting, washing, seems cheap.

But in Asia, you could hire workers for less than two dollars and forty cents a week. And if we are to have decent life for workers in the United States, we must also have tariff protection, to keep out competition that would make such conditions impossible.

NEXT EVENT, a chamber of commerce dinner at Gainesville, speeches there, and presentation, to your narrator, of a genuine gold nugget, found in the Georgia mountains where, probably, there is plenty more gold. The writer, who desires to hoard this gold, nicely mounted on black velvet in a little box, hopes that President Roosevelt and Secretary Morgenthau will accept the excuse that a poor woman of the London slums offered to a severe judge who criticized her because her baby had no authentic father, "May it please your worship, it is a very small baby," she said. It is a small nugget, but full of interesting possibilities and suggestions of wealth untold "in them hills."

Of course, if the government MUST have it, the nugget will be shipped to Washington and added to the other seven thousand millions worth.

AT THAT GAINESVILLE chamber of commerce dinner the two local editors, Albert S. Hardy, Sr., of the Gainesville News, and A. F. Dean, of the Gainesville Eagle, both weeklies, sit side by side, without a blow or a cross look. Mr. Dean, who is very young, replying to the kind words of Mr. Hardy, considerably older, did drag in MacBeth's "Tale told by an idiot, full of sound and fury, signifying nothing," but added that he was not referring to Mr. Hardy's editorial page in the rival Gainesville News.

EARLY THIS MORNING, interviewers with youthful editors of the future, Lulu Ames, editor of "Agnostic," published by the students of Agnes Scott college, Louie Marsh, and George Goodwin, of the "Tattler," published by the boys high school, and Bill Watson, editor of the "Modern Knight," published by the Central night school, extremely intelligent young people.

Lulu Ames will live to be a successful editor of a paper, if she sticks to journalism but it would be much better to marry and be the mother of several little editors, and direct them.

NEXT A VISIT to the state capitol and the office of Governor Talmadge, of Georgia, who introduces you first to Mr. Osborne, former governor of Michigan, then to all the young ladies that work at typewriting and otherwise in his immediate surroundings. They are nearly all as blonde as the young lady in Lohengrin, and some more so.

When you observe Governor Talmadge's concentrated look, and powerful lower jaw, you know that the farmers of Georgia elected somebody.

Farmers did it, for the governor did not carry a single city or town big enough to have paved streets or street car tracks. Many citizens, highly respectable, do not approve him.

But he had reduced lthe cost of electric light, gas, power and telephone and cut the price of automobile license to three dollars. Many Georgians approve of all that.

Paint And Patches Club Holds Assembly Program

The annual assembly program of the Neville high school was held the past week by the Paint and Patches club of the school. The club this year has been unusually active and has been sponsored by Miss Beryl Madison. The program was prefaced by a brief talk made by Eloise Goyne, who explained the work of the organization. The program was as follows:

Popular songs—Jack Liner.

"The Little Theater Movement"—Evelyn Roll.

Medley of popular tunes—Don Britmoser.

Impersonations of movie stars—Members of the paint and Patches club.

Song—Mrs. Darwin Nichols.

"Development of English Drama"—Elizabeth Benton.

Episodes showing the development of the drama with introductions by Pollyanna Shotwell.

Tag Day Conducted By St. Matthew's School

The tag day for the benefit of St. Matthew's parochial school, planned originally for Valentine's day, and which was postponed due to bad weather to yesterday, was conducted through the morning hours by a group of women and girls. A good sized sum was realized, it was said.

Large crimson hearts were pinned on the lapels of coats to distinguish those who were tagged.

The women and girls participating in the work were: Mrs. E. F. Kenney, Mrs. F. A. Blanks, Misses Rose Zagone, Matilda Aucoin, Louise Aucoin, Mary Elizabeth Adams, Mary E. Shaughnessy, Mary Louise Devereaux, Melba Risher and Rosalee Ballard.

UNICYCLING ACROSS THE UNITED STATES—Wagering with a friend that he could accomplish this bizarre journey, Walter Nilsson set out from the Washington bridge in New York City, on an 8-foot unicycle bound for the Pacific coast. 117 days later he arrived in San Diego, having covered 3,386 miles, including many detours. Having reached the Pacific coast at San Diego, Nilsson then toured north up the coast of California, and will probably return to New York atop his single-wheel vehicle.

Lights of New York

By Paul Harrison

NEW YORK.—Some notes on the fifty-seventh annual exhibition of the Western Kennel club—the biggest dog show in the world:

Mingled smells of dogs and disinfectants. Crowds. Sawdust. Barking, yapping, yipping, bellowing—interminable, frenzied, and conducive to headaches. Bright lights beating down on the ten judging rings in Madison Square Garden. Owners and professional handlers anxiously trotting their charges in circles, kneeling to pose them by yanking them up by their tails, tossing out bits of biscuits to try to stimulate a spark of animation. The dogs, with one accord, look bored.

Tense exhibitors awaiting their turn in the ring, combing and smoothing and talking in what is intended to be a reassuring tone. The matter-of-fact women in tweeds and flat-heeled shoes, smoking cigarets. The fluttery older women, wearing smocks and whispering baby-talk into silky ears. The men looking calm and sucking at their pipes; dog-men, true to tradition, do seem to prefer pipes. The judges, acting as though the fate of civilization rests on their shrewdness, trying to decide whether Champion Richard of Cheshire Hills is a quarter of an inch low at the shoulder.

The small boy, looking on with a deeper understanding, who could have told them that Champion Richard was the better dog anyway, judged by human standards.

* * *

Doggy Sights

The crescendo of sound as you enter the tremendous basement, where the 2,461 dogs are benched. The Beddington terriers, which look like sheep. The bedlam raised by all the terriers, in deafening chorus. The wire-hair that asks nothing more on this earth than to get out of his cage and kill his next-door neighbor. The Airedales, looking smaller than ever this year. The reflection that maybe they're trying to breed them down to apartment-size pets. The little girl who wants to pat all the dogs, especially the red-eyed, ferocious looking ones. The bulldogs, as sweet-tempered as they are grotesque. The lady who thinks it's cruel to exhibit dogs for three days at a show. The exhibitor, caressing a nervous Irish terrier to keep him quiet, who assures her that it isn't.

The amazing names, such as "Limehouse Happy Hooligan." The man who explains that each registered dog has to have a different name, so they can't all be called Rex or Rover. The old lady who goes along calling each of the collies "Laddie." The loud-voiced, authoritative man who calls the German shepherds "police dogs." The St. Bernards, looking infinitely bored and paying not the slightest attention to friendly advances. The Irish wolf-hound that belies his sinister appearance by lolloping you on the face with a huge tongue.

Putting On the Dog

The yawning sour-mug that looks like a composite of all the gargoyles you ever saw. The tiny Chihuahuas in their glass cases and on their satin, hand-embroidered coverlets, looking embryonic. The Yorkshires with their hair done up in curl papers. The women who exhibit the toy dogs sitting around in rockers and cuddling their favorites in blankets. The magnificent fury of the Pekes, the hysteria of the Poms, the startling resemblance between human speech and the yapping of the Bostons. The sheepdog, with so much hair over his eyes that you can't guess which end to pat.

The old gentleman in a frock coat who looks on wistfully, as though he'd like to kneel down and scratch the ears of every pooch in the show. The elegant Sealyham that's trying with optimistic fervor to dig a hole in the board floor of his cage. The spaniel, chained under a for-sale sign, which looks at you with love and longing. The conviction that you'd better get out of there before you buy a dog.

CONVENTION PLANS MADE BY BAPTISTS

The women of the First Baptist church are making extensive plans to entertain approximately 500 messengers and visitors during the state W. M. U. convention which is to meet in Monroe April 3 and 5. The women of other churches will assist in providing homes for the women who will be in attendance.

The program for this gathering calls for an executive meeting on Tuesday, April 3. Noted speakers from the Southern Baptist convention will address the meeting, bringing messages of vital importance to Baptist missionary causes, according to those in charge of the plans locally.

DEATH BY FIRE LAID TO SPOUSE

Accused Husband Gives Self Up After Attending Funeral

NASHVILLE, Tenn., Feb. 24.—(AP)—After attending his wife's funeral this afternoon, T. P. Tucker gave himself up at Davidson county jail early tonight on a charge of murder in connection with her death.

Tucker's arrest was ordered by a coroner's jury today following an investigation of the burning to death of Mrs. Tucker in a garage at her home last night.

"We find," said the jury's verdict, "that the death of Willie L. Tucker came from fire, caused by T. P. Tucker shutting the door after Willie Tucker had gone in, blocking all ways of escape."

Officers have quoted Tucker as saying he was following his wife to the garage to obtain some articles for charity when "the whole thing suddenly flared up, and flames leaped from every part of it. I couldn't get in to her."

Firemen have said the building was a mass of flames when they arrived and Tucker was standing helplessly by.

Coroner J. R. Allen said Tucker told him he was about 25 feet from the building when it blazed up.

"I ran to the door and opened it," Allen quoted him as saying. "A burst of flame shot out and I closed it."

Allen said he left unanswered the question: "Why did you close it instead of making an attempt to save your wife?"

Included in evidence given the jury was the statement that Mrs. Tucker's 12-year-old son by a former marriage was heard to scream:

"Come quick! Papa is burning mama up."

Firemen held an early theory that Mrs. Tucker had lighted a match to find her way and set off oil or gasoline stored in the building.

CHILD CRITICALLY ILL

Word from the Lake Village, Ark., hospital is to the effect that Jimmy Dana, 10, only child of Mr. and Mrs. Jack Dana of McGehee, Ark., formerly of Monroe, is critically ill with double pneumonia and measles. Grave doubts are said to be entertained for his recovery.

MOVIE STARS IN MINIATURE

The children of Monroe are anxiously awaiting the arrival of the famous Olvera Puppeteers of Los Angeles for a performance in this city, afternoon and night, March the eighth.

This unique traveling theater of "little people" is also intended for adult entertainment as manifested in the request of noted screen stars for the Olvera Puppeteers to have puppets made of themselves for the entertainment of their guests.

The Paramount short, "Hollywood on Parade," with movie puppets of Clark Gable, Joan Crawford, Marie Dressler and Greta Garbo, and other puppet pictures were made by this same company. Some of the puppets used in these pictures will be used as part of the show to be seen here. These same Olvera Puppeteers also manipulated the "dancing shoes" in Janet Gaynor's late picture "Adorable."

It takes ten to twenty-three strings to work a puppet. The Olvera Puppeteers have used about 6,000 feet of string in all of the puppets used in the production.

The UNKNOWN BLOND

CHAPTER XLVI

Bannister glanced over his shoulder and saw that the table next to them was deserted. The waiter had disappeared. There was no one to overhear what he said. He went on rapidly.

"Matthew Hollister isn't doing any grieving over his sister's death. He's planning a trip to Havana, going around all dressed up, talking about spending money and having a lively time. I've found out that while his sister was alive Matthew hadn't a cent except what she gave him—and that wasn't much. Now he's got $150,000.

"Melvina was a crank, bossing and scolding him. It looks to me as though Matthew decided he'd stood that about as long as he wanted to. Either that or Melvina finally went too far—"

"You mean," Coleman interrupted, "that you think Hollister killed his sister?"

"It's happened before, hasn't it? There's every motive in the world. All this time the police have been running around looking for suspects, arresting people and trying to make them confess while Matthew Hollister's been there and nobody bothered about him. Nobody even thought of him. He tried to direct suspicion to his sister after Tracy King died but that didn't work. He was panic-stricken and hysterical after Melvina's death. Why? Because he knew what he'd done.

"I tell you, the whole thing checks. He's so certain no one suspects him that he isn't afraid to go around in new clothes, talking about a trip to Cuba. He's probably getting things arranged so he won't have to come home for a year if he doesn't want to."

"But—Matthew Hollister!" Coleman said slowly. "On the level, I can't believe it. He seems like such a harmless old duck!"

"He seems that way, but what do you know about him? What does anyone know about him? Not a thing. They told me at the Shelby Arms that he scarcely ever spoke to anyone. Just came and went. Besides there's such a thing as repression. For years he's been doing as Melvina said, asking for money, having to be satisfied with what she gave him. Yes, I think he killed his sister, but that's not all. I believe he shot Tracy King."

Coleman's eyes were on Bannister's face. He was listening intently but he did not speak.

"It's only a hunch," Bannister admitted. "I won't pretend I've figured it all out. But he could have done it, couldn't he? No one's checked up his alibi for that night. He was alone in the apartment. He told the police he was playing the radio. Probably he was. He could have turned on the radio and then slipped upstairs. No one would need to see him. He could have done it easily enough."

"But why would he want to kill Tracy King."

"I told you I haven't figured it all out. It's just coming to me, little by little. Look—suppose Hollister shoots King and then goes downstairs to his own apartment. His sister comes in. She told the police it was 9:30 when she got there but it might have been earlier. Maybe she came in and found her brother gone. She must have known what had happened if she did that. She must have known what Matthew had done.

"But she didn't say anything to the police. I was there when McNeal talked to her. He couldn't get a word out of her. There was that story about her having a row with King after his cat had killed her canary. Nobody paid any attention to her brother. Nobody even thought about him."

"But I still don't see—" Coleman began.

* * *

Apparently Bannister did not hear him. "The day I met Hollister downtown," he went on, "he was beginning to get scared. Afraid something was going to get out. It must have worked on his mind that one person knew what he had done. Maybe he had some crazy idea the police could pin something on Melvina. If he did he must have got over it, decided there was nothing to do but put her out of the way. So long as Melvina was there she was a threat to him. With her out of the way, the rest was easy. You can see it must have taken time. He didn't think it all out at once. Finally he made up his mind there was nothing else to do.

"He couldn't shoot her as he had King. That would be too obvious. So he strangled her. He's the only person in the world who could have done it so easily. You remember the hotel clerk said he'd seen Hollister leave the building but he didn't know at what time. Nobody else could check Hollister's alibi. He had killed her, of course, before he went out for his walk. Oh, he'd thought it all out carefully—"

Coleman interrupted, frowning. "That case you're making out wouldn't stand in any courtroom. There are a thousand holes in it."

"There won't be," Bannister assured him, "when I'm through with it!"

"But it's all theory. You havent the faintest bit of proof for anything you've said."

"I'll get the proof. And you can help me if you want to."

"What are you going to do?"

"There's just one thing,' Bannister told him. "We've got to find the gun Hollister used to kill Tracy King."

"You think that will be easy?"

"Maybe not. But I've an idea it's not as difficult as it seems."

"How're you going to do it?"

"Well, I'll tell you—"

It was four o'clock the following afternoon. David Bannister stepped out of a delicatessen shop a block from the Shelby Arms as a long gray roadster pulled up to the curb.

"You're on time," he said to Coleman.

"Is it going to be all right?"

"Everything's o. k.," Bannister assured him. "I saw Hollister go down the street five minutes ago. He'll be away for at least three quarters of an hour."

"How'd you fix that?"

"I asked a fellow on the Post to make an appointment with him. It's all right, but we'd better get started. No use wasting time."

They walked toward the apartment hotel. As they neared the entrance Coleman halted.

"Think it's all right to go in at this door?" he asked.

"Sure. Why not?"

"Well, I didn't suppose you wanted anyone to know—"

"I don't," Bannister said shortly, "and they won't. We'll attract less attention going in here than we would prowling around trying to find the servants' entrance."

They entered the hotel and walked toward the elevators.

"Mrs. Kennebec in?" Bannister asked casually.

The clerk nodded.

"Let's see—she's on the second floor, isn't she?"

A second nod answered that. There was a pause and then the elevator appeared. The two men rode to the second floor and stepped into the corridor.

"It's down this way," Bannister said, turning to the left.

There were two doors, one on either side of the passage way. The one on the right led to Mrs. Kennebec's apartment and the one on the left to Matthew Hollister's. It was before the door on the left that Bannister paused and took a key from his pocket.

"Where'd you get that?" Coleman asked in surprise.

"Never mind about that. Let's get through with this job!" Bannister glanced about and saw there was no one else in the corridor. The key slipped into into the latch, turned, and the door opened.

They entered, closing the door softly behind them. The living room of the apartment with its old fashioned furnishings, was just as Bannister remembered it. There was the chair in which Melvina Hollister's body had been found. There was the sofa, backed against the wall, the rocking chair and two other chairs with squares of crocheted lace on their backs. The table and book case and even the footstool were in their accustomed places.

Bannister and Coleman stood still for an instant. Some where in the distance they heard the low monotonous sound of a vacuum cleaner. Otherwise the place was silent.

Gingerly Coleman stepped forward, starting toward a door.

"Not there!" Bannister said in a hushed voice. "That's Melvina's bedroom."

He led the way into a narrow hall with a half-open door at the end.

"Is this Hollister's room?" Coleman asked.

"Yes."

"We'll have to have some light."

"Pull down the shades first," Bannister instructed. A moment later the shades were lowered and the room was aglow with light. Then, methodically, the two men set to work.

DEATH BY FIRE LAID TO SPOUSE

Accused Husband Gives Self Up After Attending Funeral

NASHVILLE, Tenn., Feb. 24.—(AP)—After attending his wife's funeral this afternoon, T. P. Tucker gave himself up at Davidson county jail early tonight on a charge of murder in connection with her death.

Tucker's arrest was ordered by a coroner's jury today following an investigation of the burning to death of Mrs. Tucker in a garage at her home last night.

"We find," said the jury's verdict, "that the death of Willie L. Tucker came from fire, caused by T. P. Tucker shutting the door after Willie Tucker had gone in, blocking all ways of escape."

Officers have quoted Tucker as saying he was following his wife to the garage to obtain some articles for charity when "the whole thing suddenly flared up, and flames leaped from every part of it. I couldn't get in to her."

Firemen have said the building was a mass of flames when they arrived and Tucker was standing helplessly by.

Coroner J. R. Allen said Tucker told him he was about 25 feet from the building when it blazed up.

"I ran to the door and opened it," Allen quoted him as saying. "A burst of flame shot out and I closed it."

Allen said he left unanswered the question: "Why did you close it instead of making an attempt to save your wife?"

Included in evidence given the jury was the statement that Mrs. Tucker's 12-year-old son by a former marriage was heard to scream:

"Come quick! Papa is burning mama up."

Firemen held an early theory that Mrs. Tucker had lighted a match to find her way and set off oil or gasoline stored in the building.

CHILD CRITICALLY ILL

Word from the Lake Village, Ark., hospital is to the effect that Jimmy Dana, 10, only child of Mr. and Mrs. Jack Dana of McGehee, Ark., formerly of Monroe, is critically ill with double pneumonia and measles. Grave doubts are said to be entertained for his recovery.

MOVIE STARS IN MINIATURE

The children of Monroe are anxiously awaiting the arrival of the famous Olvera Puppeteers of Los Angeles for a performance in this city, afternoon and night, March the eighth.

This unique traveling theater of "little people" is also intended for adult entertainment as manifested in the request of noted screen stars for the Olvera Puppeteers to have puppets made of themselves for the entertainment of their guests.

The Paramount short, "Hollywood on Parade," with movie puppets of Clark Gable, Joan Crawford, Marie Dressler and Greta Garbo, and other puppet pictures were made by this same company. Some of the puppets used in these pictures will be used as part of the show to be seen here. These same Olvera Puppeteers also manipulated the "dancing shoes" in Janet Gaynor's late picture "Adorable."

It takes ten to twenty-three strings to work a puppet. The Olvera Puppeteers have used about 6,000 feet of string in all of the puppets used in the production.

CHAPTER XLVI

Bannister glanced over his shoulder and saw that the table next to them was deserted. The waiter had disappeared. There was no one to overhear what he said. He went on rapidly.

"Matthew Hollister isn't doing any grieving over his sister's death. He's planning a trip to Havana, going around all dressed up, talking about spending money and having a lively time. I've found out that while his sister was alive Matthew hadn't a cent except what she gave him—and that wasn't much. Now he's got $150,000.

"Melvina was a crank, bossing and scolding him. It looks to me as though Matthew decided he'd stood that about as long as he wanted to. Either that or Melvina finally went too far—"

"You mean," Coleman interrupted, "that you think Hollister killed his sister?"

"It's happened before, hasn't it? There's every motive in the world. All this time the police have been running around looking for suspects, arresting people and trying to make them confess while Matthew Hollister's been there and nobody bothered about him. Nobody even thought of him. He tried to direct suspicion to his sister after Tracy King died but that didn't work. He was panic-stricken and hysterical after Melvina's death. Why? Because he knew what he'd done.

"I tell you, the whole thing checks. He's so certain no one suspects him that he isn't afraid to go around in new clothes, talking about a trip to Cuba. He's probably getting things arranged so he won't have to come home for a year if he doesn't want to."

"But—Matthew Hollister!" Coleman said slowly. "On the level, I can't believe it. He seems like such a harmless old duck!"

"He seems that way, but what do you know about him? What does anyone know about him? Not a thing. They told me at the Shelby Arms that he scarcely ever spoke to anyone. Just came and went. Besides there's such a thing as repression. For years he's been doing as Melvina said, asking for money, having to be satisfied with what she gave him. Yes, I think he killed his sister, but that's not all. I believe he shot Tracy King."

Coleman's eyes were on Bannister's face. He was listening intently but he did not speak.

"It's only a hunch," Bannister admitted. "I won't pretend I've figured it all out. But he could have done it, couldn't he? No one's checked up his alibi for that night. He was alone in the apartment. He told the police he was playing the radio. Probably he was. He could have turned on the radio and then slipped upstairs. No one would need to see him. He could have done it easily enough."

"But why would he want to kill Tracy King."

"I told you I haven't figured it all out. It's just coming to me, little by little. Look—suppose Hollister shoots King and then goes downstairs to his own apartment. His sister comes in. She told the police it was 9:30 when she got there but it might have been earlier. Maybe she came in and found her brother gone. She must have known what had happened if she did that. She must have known what Matthew had done.

"But she didn't say anything to the police. I was there when McNeal talked to her. He couldn't get a word out of her. There was that story about her having a row with King after his cat had killed her canary. Nobody paid any attention to her brother. Nobody even thought about him."

"But I still don't see—" Coleman began.

* * *

Apparently Bannister did not hear him. "The day I met Hollister downtown," he went on, "he was beginning to get scared. Afraid something was going to get out. It must have worked on his mind that one person knew what he had done. Maybe he had some crazy idea the police could pin something on Melvina. If he did he must have got over it, decided there was nothing to do but put her out of the way. So long as Melvina was there she was a threat to him. With her out of the way, the rest was easy. You can see it must have taken time. He didn't think it all out at once. Finally he made up his mind there was nothing else to do.

"He couldn't shoot her as he had King. That would be too obvious. So he strangled her. He's the only person in the world who could have done it so easily. You remember the hotel clerk said he'd seen Hollister leave the building but he didn't know at what time. Nobody else could check Hollister's alibi. He had killed her, of course, before he went out for his walk. Oh, he'd thought it all out carefully—"

Coleman interrupted, frowning. "That case you're making out wouldn't stand in any courtroom. There are a thousand holes in it."

"There won't be," Bannister assured him, "when I'm through with it!"

"But it's all theory. You havent the faintest bit of proof for anything you've said."

"I'll get the proof. And you can help me if you want to."

"What are you going to do?"

"You think that will be easy?"

PIUS DENOUNCES ERRORS IN LAWS

Compulsory Sterilization Decree In Germany Under Attack

VATICAN CITY, Feb. 24.—(AP)—Pope Pius bitterly denounced a "modern initiative leading to the errors and horrors of pagan life" today in a speech interpreted as directed against laws—notably a compulsory sterilization decree—recently but in force in Germany.

He decried a current "exaltation of ideas and practices neither Christian nor human—and especially an exaltation of racial pride which can lead only to a haughtiness which is absolutely contrary to the Christian and human spirit."

Referring to the forthcoming canonization of the German capuchin Conrad von Parzham, the pope said providence has come to throw light "during this tragically historic moment on such a noble figure."

The address was delivered in connection with the reading of a decree approving miracles for Von Parzham's canonization.

There exists at present, said his holiness, "a terrible menace and great harm to souls of people, especially the young, who are favorites of the Divine Redeemer."

The mendicant Friar von Parzham, he added, represented the greatness and nobleness of the German people.

Pius directed a warning against present-day tendencies "for an initiative intended to lead all and everyone back to the same pagan life that existed in ancient times—to all those errors and horrors that are still seen today wherever the Redeemer's cross has not penetrated, without missionaries, or where it has been rejected."

(Dr. Alfred Rosenberg, philosophic dictator of Germany and a leader in a Germanic cult movement, said in Berlin yesterday that "we respect the faiths of recognized churches, but also striving toward new religious forms," and that Christianity will be respected in Germany but must submit to the test of Nazi racial theories."

COMING TO PARAMOUNT THEATER

Here's TODAY'S CoffeeShop Harmony

The "Boswell Sisters" doing their number, "Coffee in the Morning," in a scene from the musical romance, "Moulin Rouge," which comes to the Paramount theater for Monday, Tuesday and Wednesday, starring Constance Bennett, Franchot Tone, Tullio Carminati, Russ Columbo and many singers and dancers including a big chorus of beautiful girls.

Dean Of Monroe Bootblacks Finds Times Have Changed

A disability conquers some. Others disregard a disability. Among the latter is "Old Henry," dean of Monroe bootblacks.

Because he lost his right leg above the knee shortly after attaining manhood (it was before he was 30 years old), he didn't fold up, to use a slang expression, and settle down to a life of mendicancy. Neither did he beat paths to private and public charitable agencies for aid.

Though a negro, "Old Henry" (that has been his sobriquet for years, despite the fact that only recently he turned 60) had determination, a sort of variation of pride acquired, before he was maimed, as a hostler for a prominent northwest Louisiana planter.

And having determination, he wouldn't admit he was whipped. No one, in fact, has ever heard him seriously say he is handicapped.

There was a remedy for a missing leg. "Old Henry" bought a pair of crutches. And once again on his feet (or, more properly, "foot") he surveyed his personal economic situation.

Some occupations didn't require two legs. Shoe-shining was one of them. He would give that a trial.

The trial proved satisfactory. Bootblacking became "Old Henry's" life work.

For several years, Shreveport, where he became sufficiently self-sustaining to get married was the scene of his activity. Later, in October 1904, he moved to Monroe, where since, with varying success, he has plied his trade.

Fortune has favored "Old Henry" with both smiles and frowns. It has been mostly scowls in recent years.

When he first came to Monroe, he was one of the two bootblacks in the community. What is now a city was then a village. The male element had just begun to abandon knee-boots (they were worn under the trousers when the sun shone and on the outside when it rained) for gaiters (which have since passed into oblivion also). Saloons flourished on almost every corner. The boll weevil, which had just recently crossed the Texas border from Mexico, had not reached Louisiana. Cotton planters, who predominated even among the local urban dwellers, were flush with money and liberal with their coin.

"Old Henry" knew what good times were. He saved money, acquired property, raised a family.

He was a familiar sight on Sundays at the corner of Grand and DeSiard street. There's wasn't a busier person in town. Customers waited their turn for him to put a luminous gloss on their shoes. The upper-crust of Monroe were among his patrons.

On week days his stand was on St. John street, back of the old Ouachita National bank building. There, too, he did a thriving business.

But Monroe, fortunately for most of its citizens but unfortunately for "Old Henry," began to grow. The tempo of life became more rapid. Billiard parlors and tobacco shops, with shine stands as sidelines, were established. Competition became keener and keener. Store fronts were renovated, and there was no longer a place for "Old Henry" to set up his one-man stand on the main thoroughfare.

There were several other reasons for his present plight, too. Low-priced shines came into being; but "Old Henry," convinced that his were unsurpassed, refused to meet competition. Then, to make matters worse, he was stricken, about 10 years ago, with pneumonia. For almost a year, he was in a hospital; and during that time, his customers drifted away, became accustomed to other shine boys.

Shoved from DeSiard street and from behind the bank by what is known as progress, "Old Henry" for several years maintained his stand in a corrugated iron hut behind the old Monroe Dry Goods company building (it has since been demolished, and the site left vacant) on Grammont street. When the structure was ordered torn down, "Old Henry" moved his hut to Catalpa street, a short distance off DeSiard. But after a few months there, he again moved—this time to his present location beside the First Baptist church on Grammont street.

"Old Henry" expected the moves to improve business, but they didn't. Patrons were as few in one place as another. Finally, he lowered his price to conform with the prevailing level; but that hardly altered the situation.

For the past five years, "Old Henry" has been forced to dig into reserves he had laid aside to carry him through the final period of his life. His income is no longer sufficient to provide him with food and shelter.

Though most of the genial smile has faded from his countenance, he still peers hopefully from the doorway of his hut; and he still gives the same scrupulous care to the shoes of his few patrons. He knows something is wrong; but he is scarcely subtle enough to blame it on the fact that, being an artist of a kind, and therefore unadjustable to a quantity-rather-than-quality era, he has allowed the public, in a philosophy of speed and quantity production, to pass him by.

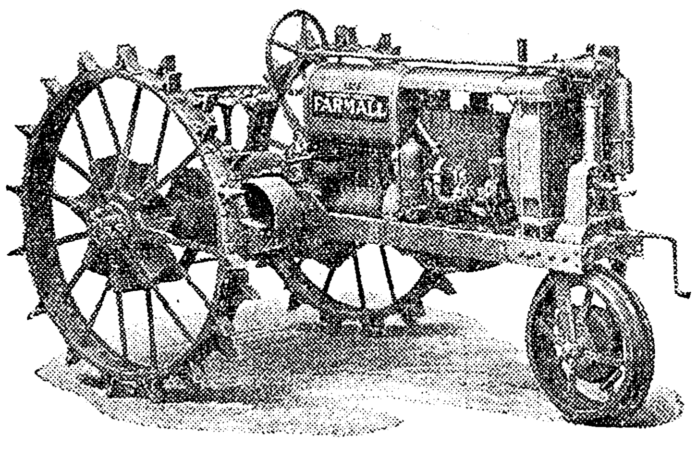
Here's the Power the Small Farm Needs



The FARMALL 12

$525 f.o.b. Chicago

THE McCormick-Deering Farmall 12 has made a real hit as a tractor for small farm use and for auxiliary power on big farms. And no wonder, when you consider it does the work of four or more horses. It uses only one gallon of fuel an hour in the hardest kind of work. It pulls a 16-in. or two 10-in. plow bottoms, plants and cultivates 25 to 33 acres a day, and does other row-crop and general farm work in proportion. You can buy it for $525, f.o.b. Chicago.

Ask us for a demonstration. And whenever you need more power, there are two larger Farmalls in the McCormick-Deering line.

LOAN GROUPS TO ASSIST FARMERS

1934 Crop Season Will Mean Beginning Of Better Credit

TALLULAH, Feb. 24.—The 1934 crop season will mean the beginning of a better system of credit for many farmers who are preparing to finance the year's farming by means of short-term loans through the production credit associations which have been organized under the farm credit administration throughout this state.

Under the farm credit administration the federal land bank of New Orleans will continue to make long-term real estate mortgage loans; but the administration is also providing a long-needed system of short-term production credit for farmers—loans to be used for producing crops and livestock and repaid at the end of the season. This is an entirely new service for farmers; and it is designed to be permanent.

Farmers in this locality will be served by the Rayville Production Credit association, which was chartered on January 17, 1934, to serve producers in Concordia, Catahoula, Franklin, Tensas Madison, Richland, Ouachita, Morehouse, West Carroll and East Carroll parishes.

The Rayville association was organized through the cooperation of representative farmers of the parishes included, with the assistance of the New Orleans production credit corporation. There is one of these corporations in each of the 12 land bank districts in the country. The local association will obtain loanable funds from the Intermediate Credit Bank of New Orleans, which will lend money on, or discount, well-secured notes of farmers. All of these institutions are a part of the farm credit administration.

A production credit association does not lend government money. The funds that will be loaned are obtained by the intermediate credit bank which sells short-term bonds, or debentures, to the investing public. In other words, the money is being borrowed to be loaned to eligible farmers to enable them to produce a season's crops. The association is not an emergency institution; but a business credit institution for business-minded farmers. The purpose is to make loans that farmers can afford to use for a season's operations, and which will be repaid at the end of the season. It is a pay-as-you-go plan for agriculture.

Loans needed to buy work-stock, fertilizer, seed, machinery and equipment, for purposes of dairy or poultry farming, or for other expenses incurred for general agricultural purposes, may be obtained from a production credit association as conveniently as from any carefully managed bank.

Most of the loans will run from 5 to 12 months, depending on the length of time required for growing and marketing the crop or livestock which the loan is made to produce. Loans for crop production will usually mature in less than a year, although loans such as those on dairy and breeding cattle may run longer—up to 18 months.

Applications for these short-term loans are handled in this territory by Steve Voelker the secretary-treasurer of the Rayville Production Credit association, whose office is located in the Madison National Bank building, Tallulah.

Applications will be acted upon quickly when they give a clear financial statement of the applicant's farming condition, listing all assets and liabilities, and estimating net worth. The applicant should name specifically the farming assets offered as security for the loan, and give a plan, or budget, showing how he is going to use the loan applied for and how he is going to repay it.

OFFICIALS OF LIONS CLUB MEET IN CITY

Members of the board of directors of the Lions club and District Governor Ed Everett, of Farmerville, were guests of President A. B. Clarkson, at his residence, Friday night. The purpose of the meeting was to formulate plans for the state convention and to map out the program of the club for the next few months.

District Governor Everett reported that Lionism throughout the state is experiencing a revival of interest and he looks for substantial results during 1934. The Monroe club reported a gain of nine members during the past seven months, and there was a remarkable attendance gain reported.

The date of the state convention was not determined, but it will be announced inside of the next week, Mr. Clarkson said. Mr. Clarkson and L. G. Hughes were named on the committee to formulate plans for making arrangements for the convention.

A buffet supper was served. Those present in addition to the district governor and Mr. Clarkson were J. Morton Myatt, Paul Fink, Dan Dandridge, L. G. Hughes, W. M. Greenwell, Tom Monk, L. P. Landry, S. L. Digby, Dr. J. G. Snelling, Frank Thompson and W. H. Anders.

Compensation Awarded Here To L. A. Voorhees

Compensation of $28.72, in addition to $110 paid for medical expenses, was awarded to L. A. Voorhees from Brown Paper Mill company, Inc., in a joint petition and judgment filed Saturday in district court. The amount received by Voorhees equalled 65 per cent of his weekly wages of $17.68 a week for a period of two and one-half weeks.

According to the petition, Voorhees was injured on December 22 when he fell while working on a turbine and struck his nose on the turbine. It was the contention of the plaintiff that the injury caused a traumatism which resulted in the development of erysipelas and that the disability resulting from this trouble continued up to January 14. The company denied that the injury had anything to do with causing the development of erysipelas, contending that the ailment was due to other causes.

THREE JOLLY GOOD FELLOWS

Three rousing comics join talents in "Sons of the Desert," playing today and Monday at the Capitol theater. Charlie Chase is in Laurel and Hardy's new feature length comedy which tells the laugh provoking tale of just a couple of hen-pecked husbands on the loose attending a convention. Be prepared for the most hilarious moments of your picture-going days.

AT LOCAL THEATERS

AT THE PARAMOUNT—Those who have seen "King Kong," adventure fantasy, will not be disappointed in "Son of Kong," a sequel, which will show at the Paramount theater here for the last times on Sunday.

"Son of Kong" is more elaborately staged, its photography is much smoother than in the former production, and it is far more convincing and thrilling. Conservatively speaking, RKO-Radio has actually produced a sequel more appealing than its predecessor.

Robert Armstrong again enacts the role of Carl Denham, the intrepid explorer who captured the original Kong. Helen Mack gives a fine portrayal in a romantic role opposite him. Thirty well known performers make up the cast.

Armstrong, stranded in New York as a result of King Kong's death, hears of the buried treasures which he overlooked on Skull Island, sails in an attempt to recoup his losses. The girl, in love with him, smuggles herself aboard. There is a mutiny. Armstrong, Miss Mack, and three companions are forced over the side and ordered to take their own chances on the island.

There Armstrong meets and saves from death in quicksand, the Son of Kong. The gratitude of the huge creature, and his awkward attempts to sreve and protect his savior from the tremendously thrilling climax, which in rapid succession involves conflicts with prehistoric beasts, the finding of the treasure and the destruction of the island by earthquake and flood.

The dramatic effect of this must be seen to be appreciated. The party, all but the villain, is finally rescued. How this is done is the peak punch of the story.

AT THE CAPITOL—When a husband tries to deceive his wife, he is almost certain to become involved in a series of difficulties. This is especially true if he is assisted in his fabrications by one as dumb as Stan Laurel, who, with his side-splitting, eye-brow-raising partner, Oliver Hardy, is seen in their latest Hal Roach-M-G-M feature-length comedy, "Sons of the Desert," coming to the Capitol theater Sunday and Monday.

Assisted by a notable cast including Charley Chase, a star in his own right; Mae Busch, Dorothy Christy and Lucien Littlefield, a situation of wife-deception is turned into a screamingly funny picture that ably colors the mirth-provoking antics of the stellar comedy team.

Stan and Oliver find that even though they have sworn to attend the convention of their lodge in a distant city, they are faced by the strenuous and pugnacious objections of Hardy's wife. A serious illness is invented by the boys, and Laurel is commissioned to find a doctor who will prescribe a trip to Honolulu as the only sure cure. The doctor turns out to be a veterinary, but so ably does he assist the boys with their deception that they are soon on their way to the "Sons of the Desert" gathering.

At the convention city, the two pal up with a brother delegate from Texas. When the latter learns that Laurel and Hardy are from Los Angeles, he decides to call up a sister living there, via long distance telephone. Hardy is introduced to her over the phone. After a flirtatious conversation, he takes her number down for future reference, only to find after a second glance that it is his own home phone number and that he has been talking to his own wife.

AT THE RIALTO, West Monroe—Giving a vivid picture of life in the fishmen's colonies along the New England coast, "Tess of the Storm Country" introduces Janet Gaynor and Charles Farrell in a brand-new locale when it opens at the Rialto theater today.

Revolving about the stormy romance of a sea captain's daughter and a millionaire's son when the former comes to live ashore, this new vehicle is said to be the most exciting one ever portrayed by the famous sweethearts of the screen. Picturesque settings in a rocky cove on the Maine shore and aboard a big three-masted schooner at sea, and the work of a noted supporting cast headed by Dudley Digges, Claude Gillingwater and June Clyde, are said to add greatly to the entertainment quality of this Fox Films production. Alfred Santell directed.

STRAND, WEST MONROE—Bing Crosby, Jack Oakie, Skeets Gallagher, Judith Allen, Harry Green, Lilyan Tashman and Ned Sparks head the star-packed cast of Paramount's sensational musical comedy smash, "Too Much Harmony," which opens today at the Strand theater.

The film, directed by Edward Sutherland, centers around the on-and-off stage activities of a group of show people. Interspersed in the action as the novel plot unravels are eight lavish production numbers, staged by the famous dance director, LeRoy with a huge chorus of Hollywood's foremost beauties.

Crosby, last seen in "College Humor," has the stellar role of Eddie Bronson, musical comedy star who falls in love with Judith Allen when he discovers her doing a small-time vaudeville act in the west. He brings her to Broadway for a big role in his new show, and then the fun begins.

Y.W.C.A. CAMPAIGN WILL START SOON

Final Plans For Annual Drive Will Be Made This Week

Final plans are to be formulated this week for the holding of the annual drive for the Young Women's Christian association's financing for the current year, it was stated Saturday by Mrs. J. C. Sadler, who is to be in general charge of the campaign.

There will be a "coffee hour" held at the Lotus club on the night of March 5 at 5 o'clock. At this meeting talks are to be made by M. C. Thompson, W. B. Clarke and J. W. Warren. The next morning 10 teams, under as many captains, will set forth to make the canvass of the city. The personnel of the leaders and of the teams has not been determined as yet, Mrs. Sadler stated.

Wednesday at 4:30 p. m., all workers are to meet at the home of Mrs. Henry Bernstein to render reports and at the same hour on Thursday, they are to meet at the residence of Mrs. A. G. McHenry, also to render reports of the week.

On Friday night, all workers will again assemble at the Lotus club to report the final result of the four-day canvass.

Mrs. Fagan Cox, as chairman of the committee on big gifts, is said to have outlined her work and stated that the outlook is favorable.

The goal last year was not realized due to the fact that the banking holiday intervened to halt efforts. Mrs. Sadler said she is confident the public will respond generously to the appeal for the "Y" this year, as indicated by advance information.

Remodeling Of Hotel Progressing Rapidly

Work of reconstructing the old Bohemia hotel is progressing rapidly and the building will be ready for occupancy within a few weeks. One of the features will be a completely reconstructed lobby and a modern coffee shop.

The coffee shop will be in charge of Simmie Wood, who operated the place some years ago and who has been more recently proprietor of a cafe in West Monroe.

The building comprises 20 rooms, each of which is to be repainted, redecorated and supplied with hot and cold water and other modern conveniences.

PIUS DENOUNCES ERRORS IN LAWS

Compulsory Sterilization Decree In Germany Under Attack

VATICAN CITY, Feb. 24.—(AP)—Pope Pius bitterly denounced a "modern initiative leading to the errors and horrors of pagan life" today in a speech interpreted as directed against laws—notably a compulsory sterilization decree—recently but in force in Germany.

He decried a current "exaltation of ideas and practices neither Christian nor human—and especially an exaltation of racial pride which can lead only to a haughtiness which is absolutely contrary to the Christian and human spirit."

Referring to the forthcoming canonization of the German capuchin Conrad von Parzham, the pope said providence has come to throw light "during this tragically historic moment on such a noble figure."

The address was delivered in connection with the reading of a decree approving miracles for Von Parzham's canonization.

There exists at present, said his holiness, "a terrible menace and great harm to souls of people, especially the young, who are favorites of the Divine Redeemer."

The mendicant Friar von Parzham, he added, represented the greatness and nobleness of the German people.

Pius directed a warning against present-day tendencies "for an initiative intended to lead all and everyone back to the same pagan life that existed in ancient times—to all those errors and horrors that are still seen today wherever the Redeemer's cross has not penetrated, without missionaries, or where it has been rejected."

(Dr. Alfred Rosenberg, philosophic dictator of Germany and a leader in a Germanic cult movement, said in Berlin yesterday that "we respect the faiths of recognized churches, but also striving toward new religious forms," and that Christianity will be respected in Germany but must submit to the test of Nazi racial theories."

COMING TO PARAMOUNT THEATER

Here's TODAY'S Coffee Shop Harmony

The "Boswell Sisters" doing their number, "Coffee in the Morning," in a scene from the musical romance, "Moulin Rouge," which comes to the Paramount theater for Monday, Tuesday and Wednesday, starring Constance Bennett, Franchot Tone, Tullio Carminati, Russ Columbo and many singers and dancers including a big chorus of beautiful girls.

Dean Of Monroe Bootblacks Finds Times Have Changed

A disability conquers some. Others disregard a disability. Among the latter is "Old Henry," dean of Monroe bootblacks.

Because he lost his right leg above the knee shortly after attaining manhood (it was before he was 30 years old), he didn't fold up, to use a slang expression, and settle down to a life of mendicancy. Neither did he beat paths to private and public charitable agencies for aid.

Though a negro, "Old Henry" (that has been his sobriquet for years, despite the fact that only recently he turned 60) had determination, a sort of variation of pride acquired, before he was maimed, as a hostler for a prominent northwest Louisiana planter.

And having determination, he wouldn't admit he was whipped. No one, in fact, has ever heard him seriously say he is handicapped.

There was a remedy for a missing leg. "Old Henry" bought a pair of crutches. And once again on his feet (or, more properly, "foot") he surveyed his personal economic situation.

Some occupations didn't require two legs. Shoe-shining was one of them. He would give that a trial. The trial proved satisfactory. Bootblacking became "Old Henry's" life work.

For several years, Shreveport, where he became sufficiently self-sustaining to get married was the scene of his activity. Later, in October 1904, he moved to Monroe, where since, with varying success, he has plied his trade.

Fortune has favored "Old Henry" with both smiles and frowns. It has been mostly scowls in recent years.

When he first came to Monroe, he was one of the two bootblacks in the community. What is now a city was then a village. The male element had just begun to abandon knee-boots (they were worn under the trousers when the sun shone and on the outside when it rained) for gaiters (which have since passed into oblivion also). Saloons flourished on almost every corner. The boll weevil, which had just recently crossed the Texas border from Mexico, had not reached Louisiana. Cotton planters, who predominated even among the local urban dwellers, were flush with money and liberal with their coin.

"Old Henry" knew what good times were. He saved money, acquired property, raised a family.

He was a familiar sight on Sundays at the corner of Grand and DeSiard street. There's wasn't a busier person in town. Customers waited their turn for him to put a luminous gloss on their shoes. The upper-crust of Monroe were among his patrons.

On week days his stand was on St. John street, back of the old Ouachita National bank building. There, too, he did a thriving business.

But Monroe, fortunately for most of its citizens but unfortunately for "Old Henry," began to grow. The tempo of life became more rapid. Billiard parlors and tobacco shops, with shine stands as sidelines, were established. Competition became keener and keener. Store fronts were renovated, and there was no longer a place for "Old Henry" to set up his one-man stand on the main thoroughfare.

There were several other reasons for his present plight, too. Low-priced shines came into being; but "Old Henry," convinced that his were unsurpassed, refused to meet competition. Then, to make matters worse, he was stricken, about 10 years ago, with pneumonia. For almost a year, he was in a hospital; and during that time, his customers drifted away, became accustomed to other shine boys.

Shoved from DeSiard street and from behind the bank by what is known as progress, "Old Henry" for several years maintained his stand in a corrugated iron hut behind the old Monroe Dry Goods company building (it has since been demolished, and the site left vacant) on Grammont street. When the structure was ordered torn down, "Old Henry" moved his hut to Catalpa street, a short distance off DeSiard. But after a few months there, he again moved—this time to his present location beside the First Baptist church on Grammont street.

"Old Henry" expected the moves to improve business, but they didn't. Patrons were as few in one place as another. Finally, he lowered his price to conform with the prevailing level; but that hardly altered the situation.

For the past five years, "Old Henry" has been forced to dig into reserves he had laid aside to carry him through the final period of his life. His income is no longer sufficient to provide him with food and shelter.

Though most of the genial smile has faded from his countenance, he still peers hopefully from the doorway of his hut; and he still gives the same scrupulous care to the shoes of his few patrons. He knows something is wrong; but he is scarcely subtle enough to blame it on the fact that, being an artist of a kind, and therefore unadjustable to a quantity-rather-than-quality era, he has allowed the public, in a philosophy of speed and quantity production, to pass him by.

Picturesque settings in a rocky cove on the Maine shore and aboard a big three-masted schooner at sea, and the work of a noted supporting cast headed by Dudley Digges, Claude Gillingwater and June Clyde, are said to add greatly to the entertainment quality of this Fox Films production. Alfred Santell directed.

STRAND, WEST MONROE—Bing Crosby, Jack Oakie, Skeets Gallagher, Judith Allen, Harry Green, Lilyan Tashman and Ned Sparks head the star-packed cast of Paramount's sensational musical comedy smash, "Too Much Harmony," which opens today at the Strand theater.

The film, directed by Edward Sutherland, centers around the on-and-off stage activities of a group of show people. Interspersed in the action as the novel plot unravels are eight lavish production numbers, staged by the famous dance director, LeRoy with a huge chorus of Hollywood's foremost beauties.

Crosby, last seen in "College Humor," has the stellar role of Eddie Bronson, musical comedy star who falls in love with Judith Allen when he discovers her doing a small-time vaudeville act in the west. He brings her to Broadway for a big role in his new show, and then the fun begins.

Y.W.C.A. CAMPAIGN WILL START SOON

Final Plans For Annual Drive Will Be Made This Week

Final plans are to be formulated this week for the holding of the annual drive for the Young Women's Christian association's financing for the current year, it was stated Saturday by Mrs. J. C. Sadler, who is to be in general charge of the campaign.

There will be a "coffee hour" held at the Lotus club on the night of March 5 at 5 o'clock. At this meeting talks are to be made by M. C. Thompson, W. B. Clarke and J. W. Warren. The next morning 10 teams, under as many captains, will set forth to make the canvass of the city. The personnel of the leaders and of the teams has not been determined as yet, Mrs. Sadler stated.

Wednesday at 4:30 p. m., all workers are to meet at the home of Mrs. Henry Bernstein to render reports and at the same hour on Thursday, they are to meet at the residence of Mrs. A. G. McHenry, also to render reports of the week.

On Friday night, all workers will again assemble at the Lotus club to report the final result of the four-day canvass.

Mrs. Fagan Cox, as chairman of the committee on big gifts, is said to have outlined her work and stated that the outlook is favorable.

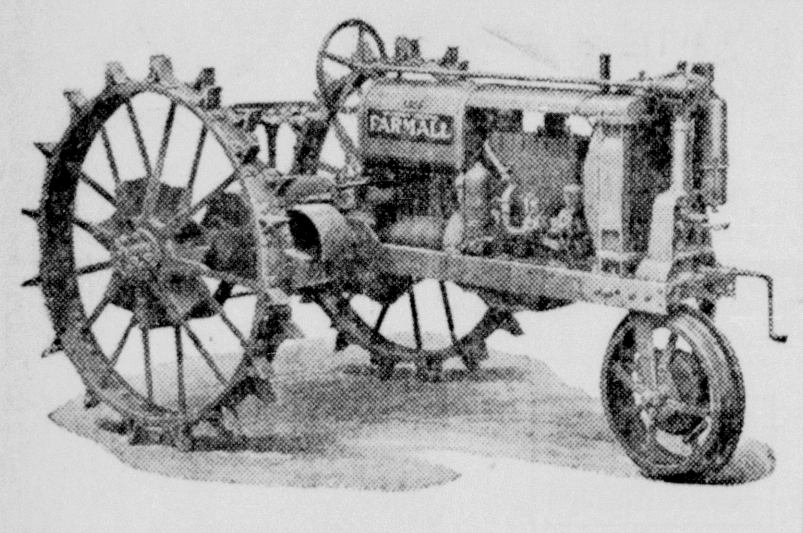
The goal last year was not realized due to the fact that the banking holiday intervened to halt efforts. Mrs. Sadler said she is confident the public will respond generously to the appeal for the "Y" this year, as indicated by advance information.

Remodeling Of Hotel Progressing Rapidly

Work of reconstructing the old Bohemia hotel is progressing rapidly and the building will be ready for occupancy within a few weeks. One of the features will be a completely reconstructed lobby and a modern coffee shop.

The coffee shop will be in charge of Simmie Wood, who operated the place some years ago and who has been more recently proprietor of a cafe in West Monroe.

The building comprises 20 rooms, each of which is to be repainted, redecorated and supplied with hot and cold water and other modern conveniences.



Here's the Power the Small Farm Needs

The FARMALL 12

$525 f.o.b. Chicago

THE McCormick-Deering Farmall 12 has made a real hit as a tractor for small farm use and for auxiliary power on big farms. And no wonder, when you consider it does the work of four or more horses. It uses only one gallon of fuel an hour in the hardest kind of work. It pulls a 16-in. or two 10-in. plow bottoms, plants and cultivates 25 to 33 acres a day, and does other row-crop and general farm work in proportion. You can buy it for $525, f.o.b. Chicago.

Ask us for a demonstration. And whenever you need more power, there are two larger Farmalls in the McCormick-Deering line.

Undertaker Contradicts Testimony Of School Teacher Boarder

CHICAGO, Feb. 24.—(AP)—Thomas J. Ahern, the undertaker who summoned police to the Wynekoop home the night the body of Rheta Gardner Wynekoop was discovered on an operating table, was the first witness today against Dr. Alice Lindsay Wynekoop, accused of murdering her daughter-in-law.

Ahern contradicted the testimony of Miss Enid Hennessey, school teacher boarder at the Wynekoop home, given yesterday, that Dr. Catherine Wynekoop, daughter of the defendant, in the presence of Ahern, had taken a pencil that night and lifted the blanket from the back of Rheta, exposing the bullet wound.

Ahern asserted that Dr. Catherine had not done so in his presence. He also said Dr. Alice had told him she had not notified police because "she did not want any publicity."

The undertaker, in a rich Irish brogue, said he had told the doctor that "this was murder," and that he himself had then called the police.

The blanket raising incident had been brought up by the defense to explain how Dr. Wynekoop could have known Rheta had been shot before the police officially removed the covering.

Judge Harry B. Miller, before the session opened, said that there was no chance for the defense to take advantage of the state supreme court rulng in the Leiber case, in which a verdict was thrown out because the grand jury was chosen by an illegal method.

"No motion to quash the indictment on that ground was made at the start of the trial," said Judge Miller. "Without such a motion, the defense would have no ground now for asking that the case be thrown out."

Public interest in the second trial of the 63-year-old physician waned today with two dozen persons in the spectators' seats.

The defendant, whose health has been carefully watched in both trials, said she had nearly "keeled over" toward the end of yesterday's long session. She appeared refreshed this morning, however, and said she expected to recover much of her strength during the week-end recess.

Seeking to establish its insurance motive, the state brought several insurance agents to the stand.

Two telegraph company messenger boys were the last witnesses of the day, who tried to deliver a message at the Wynekoop home on Nov. 21.

Judge Miller then declared a recess until Monday.

Mrs. Thalia Massie Is Recovering From Illness

RENO, Nev., Feb. 24.—(AP)—Mrs. Thalia Fortescue Massie, principal figure in the 1932 Honolulu assault case who is in a Reno hospital recovering from a sudden illness, probably will remain there until Monday, her physician, Dr. Vinton A. Muller, said today.

Mrs. Massie, who divorced Lieut. Thomas H. Massie, U. S. N., on grounds of extreme mental cruelty yesterday, was stricken last night while attending a dinner party with three friends at a night club.

Dr. Muller said Mrs. Massie had been "extremely nervous" since the divorce trial, and that when she attended the party she was in "a hysterical mood." He said her condition was "not serious."

"I am treating her only for her nerves," he said. "I am going to ask her to remain in the hospital at least until Monday. I think she should have absolute quiet and get a good rest."

No visitors were permitted.

Dr. Muller said Mrs. Massie had gone to the hospital "voluntarily."

The physician and George Springmeyer, Mrs. Massie's attorney, were dining at his home, Dr. Muller said, when Springmeyer received a telephone call from one of the dinner party guests. Springmeyer was told, the doctor said, "that Mrs. Massie "is not so well." The physician said he drove Springmeyer to the resort.

City Briefs

Mr. and Mrs. Carroll Smith, of Choudrant, announce the birth of a nine-pound daughter at 4 p.m. Friday at the family home in Choudrant. Mrs. Smith was before her marriage, Miss Ora Lee Hammonds, of Choudrant.

Dr. C. P. Gray, who fell and fractured his right leg when he fell into a grease pit at a Ruston garage, last week, is a patient in St. Francis sanitarium. His condition is said to be satisfactory but it will be about seven weeks before he will be able to return to his duties.

A meeting of the Ouachita parish dairy dealers will be held Wednesday, March 1, at 7 p.m. at Hotel Monroe. Routine business is to be transacted and plans formulated for spring and summer, stated E. S. Eby, secretary.

The Saturday playground at Forsythe park is proving popular with children who attend each week. Directed games are played and the children are being instructed in the making of puppets for the holding of a show here in the near future.

The condition of A. M. Thornton, president and general manager of the Watson and Aven company, was said to be serious. He is a patient in the Vaughan-Wright-Bendel clinic.

ARMY FLIER BILL PASSED IN HOUSE

Brown Asserts Farley Called Black 'Publicity Hound'

WASHINGTON, Feb. 24.—(AP)—"He's just a publicity hound." That, Walter F. Brown slowly told the senate air mail committee late today, was the "personal remark" that Postmaster General Farley made to him recently about Senator Black, Democrat, Alabama, the committee chairman.

"But," Brown added, "he asked me not to tell anybody 'because I have to get along with him.'"

For a moment or two here was deep silence. Then a roar of laughter swept over the room. Everybody, even Brown, Farley, and Black, joined in.

When he could be heard, Farley said clearly:

"I made no such statement."

It was an anti-climax to a day of tense debate over the cancellation of the air mail contracts by Farley on the grounds the awards were made during Brown's term as postmaster general through collusion and fraud.

The day also saw passage by the house, amid cries from Republicans that army mail flying was "legalized murder," of a bill to authorize the funds with which to defray the expenses of having the mail flown by army pilots.

Senator Austin of Vermont led a one-man Republican attack on Farley's mail contract cancellation during a long examination before the senate committee. That resulted in new data bearing on the cancellation being submitted through Karl A. Crowley, postoffice department solicitor.

The postmaster general was called before the committee after Brown testified that Farley made the personal remark at the time that the former postoffice department head returned missing mail files.

Just before making the remark, Brown said that Farley commented that he "had no sympathy with these political investigations."

"Take the stand, Mr. Brown," McCarran directed after Austin finished with Farley.

"What was that statement relative to Senator Black to which you testified?"

Brown had reiterated that he would not tell the committee unless Farley gave his permission.

MAYOR HARDY IS FACING SENTENCE

Shreveport Police Chief Also Held In Contempt Of Court

SHREVEPORT, La., Feb. 24.—(AP)—Mayor George W. Hardy and Chief of Police Dennis D. Bazer today were held guilty of contempt of court in a decision handed down by Judge T. F. Bell.

The two city officials were cited for contempt by T. C. Dawkins, commissioner of public safety, for having caused downtown raids for slot machines here last December 12.

Judge Bell ordered that Mayor Hardy and Chief Bazer present themselves before his court at a date to be later selected to "receive sentence."

The opinion stated that the court "realized that the proceedings is not an ordinary contempt proceedings, but the warring factions have merely used this method to secure judicial interpretation of their respective rights, and we view the matter in that light alone. For that reason, while we think both defendants in the rule are guilty of contempt, we think only a nominal penalty should be inflicted."

The mayor and chief of police were cited for contempt in charges lodged by Commissioner Dawkins shortly after a raid in the downtown section had been staged on Dec. 12, and 57 slot machines seized. The raid, admittedly, was the result of orders issued to Chief of Police Bazer by Mayor Hardy.

Commissioner T. C. Dawkins claimed that the raid was in violation of his orders and charged that the mayor and chief of police were guilty of contempt of a supreme court injunction issued in 1930, which designated Mr. Dawkins as the executive officer of the police department and enjoined the mayor, and Bazer, who was then chief of police under appointment by the council, and other members of the council from in any way interfering with Dawkins' operation of the police department.

Jonesboro

Mrs. T. D. Callaway was hostess to the Contract Bridge club Wednesday at her home in Jonesboro. The spacious living and dining room was decorated with early spring flowers. Mrs. Bullen won the high score and likewise was awarded a gift.

Those present for the occasion were Mesdames H. M. Gatlin, Wilbur McDonald, W. W. Bullen, W. M. McBride, T. G. Dennis, Doc Rankin, McKenzie, Johny Michaud, Edwin Hodge, M. L. Dickerson, Charles Moore and Tom Carlan.

Most tempting refreshments were served to the guests after the game.

The regular weekly meeting of the bridge club met Thursday with Mrs. B. B. Bass as hostess. High score for the evening went to Mrs. H. M. Gatlin and also to Harper Cox. Prizes were as follows: Mrs. Gatlin was awarded a handsome box of bath powder, and Mr. Cox was given a smoking tray. Refreshments were served to Mr. and Mrs. S. Kirklans, Mr. and Mrs. H. M. Gatlin, Mr. and Mrs. Stanley Lewis, Mr. and Mrs. Harper Cox, Mr. and Mrs. O. A. Green.

The "Everready" circle of the M. E. Missionary society met Monday afternoon in the home of Mrs. W. O. Melder. On the program were Mrs. A. A. Meredith, Mrs. Victor Scott, Mrs. J. D. Jeffress, Mrs. E. D. Carr, Mrs. T. D. Callaway, Mrs. W. S. McDonald. Business followed the program and afterwards delicious refreshments were served.

The Ruth Brown circle of the Methodist church met in the home of Mrs. R. J. Cobb Monday with 10 members, one new member present, with Mrs. Elmer Cox presiding.

Mrs. Kavanaugh conducted the devotional exercises and also taught the lesson found in the book of Amos, ably assisted by Mrs. J. A. Gaar and Mrs. R. A. Crowson and Mrs. J. S. Henley.

After the benediction, a social hour followed in which games and contests were played, portraying pictures of presidents and great authors. Decorations were arranged to carry out the spirit of Washington's birthday. Favors for the occasion were miniature hatchets and cherries.

Those present were Mesdames J. E. Cox, Brumfield, Kavanaugh, Black, Thomas, Gaar, Crowson, Kelley, Henley, Rooks, Cobb.

A silver tea sponsored by the Jonesboro P.-T. A. Thursday afternoon at the home of Mrs. J. C. Shows, celebrating the thirty-seventh birthday of the organization, was a decided success. As a tribute to Mrs. Alice M. Birney and Mrs. Thomas W. Herst, those courageous women who caught the vision of the necessity of a cooperative organization in 1897, there was a beautiful cake with 37 candles, occupying the center of the lovely tea table. The occasion being the birthday of George Washington, the decorations were of patriotic nature, displayed throughout the home, including flags, hatchets and cherries. Mrs. Melba Walker presided at the tea table, ably assisted by Miss Ruth Harris.

Jonesboro

Mrs. T. D. Callaway was hostess to the Contract Bridge club Wednesday at her home in Jonesboro. The spacious living and dining room was decorated with early spring flowers. Mrs. Bullen won the high score and likewise was awarded a gift.

Those present for the occasion were Mesdames H. M. Gatlin, Wilbur McDonald, W. W. Bullen, W. M. McBride, T. G. Dennis, Doc Rankin, McKenzie, Johny Michaud, Edwin Hodge, M. L. Dickerson, Charles Moore and Tom Carlan.

Most tempting refreshments were served to the guests after the game.

The regular weekly meeting of the bridge club met Thursday with Mrs. B. B. Bass as hostess. High score for the evening went to Mrs. H. M. Gatlin and also to Harper Cox. Prizes were as follows: Mrs. Gatlin was awarded a handsome box of bath powder, and Mr. Cox was given a smoking tray. Refreshments were served to Mr. and Mrs. S. Kirklans, Mr. and Mrs. H. M. Gatlin, Mr. and Mrs. Stanley Lewis, Mr. and Mrs. Harper Cox, Mr. and Mrs. O. A. Green.

The "Everready" circle of the M. E. Missionary society met Monday afternoon in the home of Mrs. W. O. Melder. On the program were Mrs. A. A. Meredith, Mrs. Victor Scott, Mrs. J. D. Jeffress, Mrs. E. D. Carr, Mrs. T. D. Callaway, Mrs. W. S. McDonald. Business followed the program and afterwards delicious refreshments were served.

The Ruth Brown circle of the Methodist church met in the home of Mrs. R. J. Cobb Monday with 10 members, one new member present, with Mrs. Elmer Cox presiding.

Mrs. Kavanaugh conducted the devotional exercises and also taught the lesson found in the book of Amos, ably assisted by Mrs. J. A. Gaar and Mrs. R. A. Crowson and Mrs. J. S. Henley.

After the benediction, a social hour followed in which games and contests were played, portraying pictures of presidents and great authors. Decorations were arranged to carry out the spirit of Washington's birthday. Favors for the occasion were miniature hatchets and cherries.

Those present were Mesdames J. E. Cox, Brumfield, Kavanaugh, Black, Thomas, Gaar, Crowson, Kelley, Henley, Rooks, Cobb.

A silver tea sponsored by the Jonesboro P.-T. A. Thursday afternoon at the home of Mrs. J. C. Shows, celebrating the thirty-seventh birthday of the organization, was a decided success. As a tribute to Mrs. Alice M. Birney and Mrs. Thomas W. Herst, those courageous women who caught the vision of the necessity of a cooperative organization in 1897, there was a beautiful cake with 37 candles, occupying the center of the lovely tea table. The occasion being the birthday of George Washington, the decorations were of patriotic nature, displayed throughout the home, including flags, hatchets and cherries. Mrs. Melba Walker presided at the tea table, ably assisted by Miss Ruth Harris.

BY EVE BRADFORD

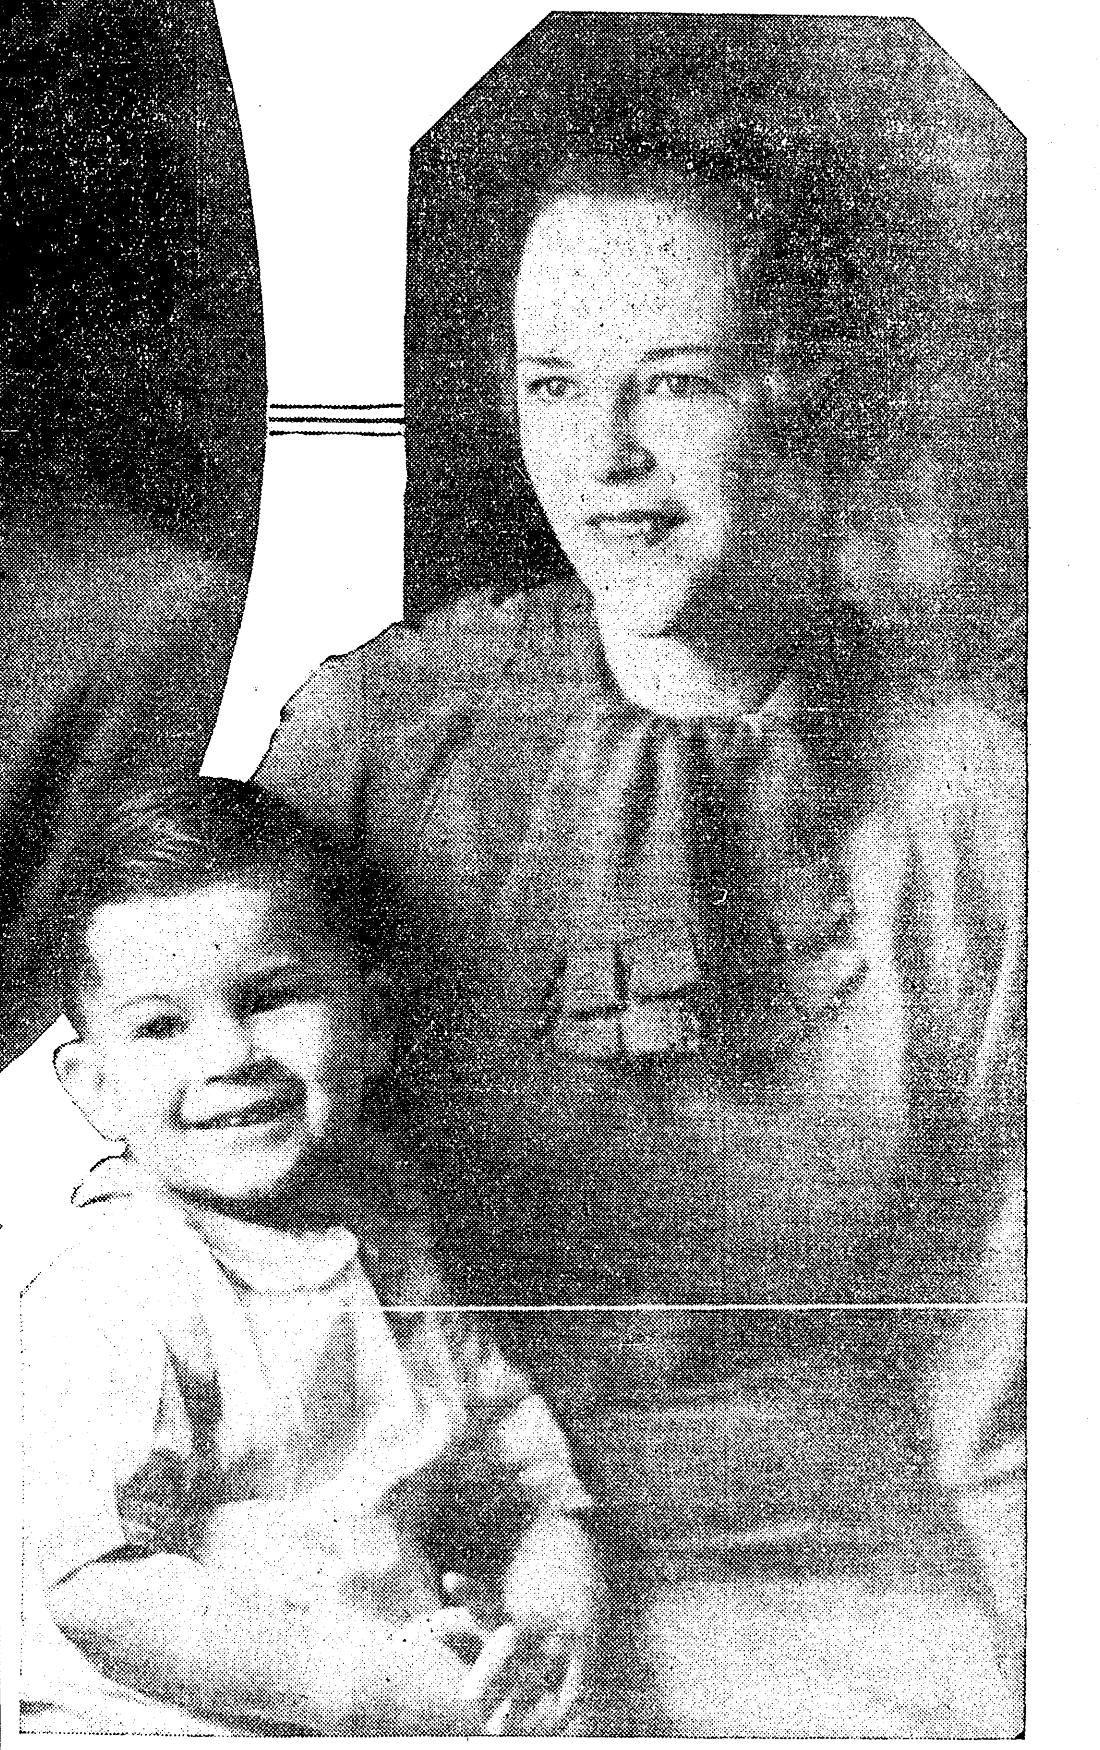
OUR forty days of penance are galloping by and still we have experienced none of the drabness and dullness of Lent. . . . The ambitious little cherub who flourishes a bow and arrow might be responsible for this insofar as he has given us plenty to talk about and think about. . . . The persuasive overtures of this little fellow also resulted in several surprise weddings during the past week. . . . In the case of Will D. King and Gretchen Talbot, who hoped to keep their marriage hermetically sealed, but the news flew like wild fire. . . . Doing penance for forty days is good for anybody . . . giving up your favorite food to humiliate the flesh (and probably your hostess when you pass up the fancy dessert on which the cook has been slaving all day) . . . Instead of giving up something, why not give out something . . . a few more loving thoughts, a little more kindness and compassion, a few more bright smiles and a more cheerful outlook on life. . . . Delano Leary certainly gave out a large dose of artistry when she brought over those beautiful portraits from Shreveport for us to feast our eyes upon. . . . She looked like a painting herself in a demure gown of pastel blue with her yellow curls arranged in a picturesque cluster low on her neck. . . . If she had studied for days to achieve a color scheme it could never have resulted in anything as lovely as the large rose colored gardenia she selected at random from a jar nearby and held between her long tapering fingers during the evening . . . she told us that she was undecided between the blue dress and a Paris model . . . being Delano she, of course, selected the blue one. . . . There is no argument about members of this family being marvelously handsome . . . standing with Delano was her beautiful sister, Robbie Glenn, who grows in beauty with the passing years . . . she was wearing something blue and shining and exceedingly becoming. . . . Nellie Bubb wears white beautifully as we noted when we saw her moving around the studio in a trailing white crepe gown. . . . Caro Webb sensed the responsibility of things, evidently, as she was everywhere at once welcoming visitors and inviting them to partake of the genteel frappe served by Mrs. Peyton Parker and cunning daughter, Adelaide. . . . Everyone you know was there. . . . Mona Weeks in brown, Mrs. Dean Selig in blue velvet, Gladys Parrish of Pine Bluff in striking black tailleur . . . Minnalee Walker in jaunty hip length black seal jacket and small black hat. . . . Black and red seem to be very smart this season . . . Mrs. H. M. James was wearing a red straw hat with red accessories. . . . Seeing Mrs. Fred Fudickar reminded us of all the wonderful things we have been hearing about that lovely young daughter of hers . . . Mary Louise, they tell us, is heading straight for stardom on the ladder of musical fame . . . Her music instructor featured her in a musical at the J. Q. Graves home last week and those privileged to hear her simply marveled at the display of technique and expression. . . . A friend told us that she creeps out of bed in the grey of the dawn and practices while the family yet slumbers. . . . The name of Alice (Cobb) Allen has been added to the growing list of those who have lost their appendix . . . she has been removed to her parents' home perfectly content as to her work as her sister, Mildred, is teaching her class during her absence. . . . Such interesting news comes from Sue Graves, who is attending Villa Collina Ridente, Florence, Italy. . . . During her travels this winter she was privileged to meet that swaggering personality, Adolf Hitler. . . . In Geneva she visited the league of nations' new $5,000,000 palace, the world's largest parliament building housing over 3,000 statesmen, and diplomats. . . . Around the assembly hall like boxes at an opera and only just above the heads of the diplomats, are a series of rooms exclusively for the use of movie men and press photographers. . . . Sue was the guest of the late President Wilson's granddaughter, Miss McAdoo. . . . With just a soupcon of envy and a generous portion of goodby messages, Mary Lee Sullivan trotted off to Washington, where she landed a real man's size job in record breaking time. . . . Washington in the early spring and a real job, what more have the gods to offer ambitious young women. . . . Ambitious women brings to mind Bella Scherck Davidson who believes so much in Monroe that she is making drastic changes in her establishment "The Woman's Shop" . . . we dropped in yesterday and found workmen busily engaged in making this shop one of which Monroe can most certainly be proud. . . . A French room where shimmering gowns are kept discreetly concealed behind doors and a balcony overhead where the whirring machines told a story of seamstresses busily at work making alterations on the garments. . . . A business office for Mr. and Mrs. Davidson is being fitted up in the rear. . . . Such activity we have not seen in many a day with salesladies hurrying noiselessly to and fro. . . . It is quite evident that the feminine population of Monroe does not intend to wait for the Easter parade this year. . . . DeWitt Henry is taking unto himself a wife today . . . and such a lovely wife he has selected . . . of course you know it is Mary Scheen. . . . We sincerely trust that nothing will ever disturb the calm, peaceful waters upon which they embark this evening at five o'clock.

Mrs. Fred Green and Mrs. J. L. Brown were hostesses Friday afternoon at a miscellaneous shower honoring Mrs. Lester Jacobs, a recent bride, at Mrs. Green's home, 1310 Park avenue. Many beautiful gifts were received by the honoree. Prior to her marriage, Mrs. Jacobs was Miss Elizabeth Parker.

An attractive color scheme of yellow and white was carried out and two little girls, Bonnie Humble and Lena Coleman, wearing lovely little frocks of white, assisted in serving. Several beautiful piano selections were rendered by Miss Irvie Lee Humble.

Among those present were Mrs. Tom Monk, Mrs. M. L. Coleman, Mrs. Matt Parker, Mrs. Andrew Parker, Mrs. Dewey Simmons, Mrs. L. B. Morris, Mrs. Lloyd Dean, Mrs. Eula Matkins, Mrs. Jeff Parker, Mrs. W. L. James Mrs. D. N Norton, Mrs. Tina Parker, Mrs. Louis Powell, Mrs. Roy Celter, Mrs. Clarence Norris, Mrs. H. M. Linquish, Mrs. William Fox and Mrs. J. L. Humble.

A silver tea and special program for Founder's Day will claim the interest of Central Grammar school P.-T. A. Wednesday afternoon. Members will gather in the school library, where the impressive candle-lighting ceremony will be held. A large attendance is desired.



In the pictures today we have Miss Louise Anawaty who was selected to appear in the role of "Barbara" in the presentation of "East Lynn" under the auspices of the Business and Professional Women's club on the fourth of April. Miss Anawaty, who came to Monroe recently from Port Arthur has considerable experience in Little Theatre circles having been a member of the Port Arthur Little Theatre for four years. She is a member of the Business and Professional Women's club. (Left)

Luncheon At Lotus Club Brings Members Of Medical Society Together Last Week

The regular luncheon of the Medical auxiliary was held Wednesday at the Lotus club with Mrs. A. E. Fisher, Mrs. John Snellings, Mrs. J. E. Walsworth and Mrs. E. G. Colvert, the gracious hostesses.

A patriotic color scheme was accentuated with the stars and stripes displayed down the full length of the table. The color scheme was also carried out in the luncheon course. Clever place cards with miniature flags were found at each cover.

Mrs. Walsworth, the president, opened the meeting with prayer after which several patriotic songs were sung. A march composed at the bicentennial exposition in honor of Washington, "Father of the Land We Love," was played by Mrs. P. L. Perot.

Announcement was made of a visit to be paid the auxiliary by the state president, Mrs. John H. Musser of New Orleans, and also Mrs. F. H. Watkins and Mrs. S. C. Jamison, other state officers, who will attend the state convention in Shreveport on April 10, 11 and 12.

During the business session the following new officers were installed: President, Mrs. J. E. Walsworth; first vice president, Mrs. J. Q. Graves; second vice president, Mrs. W. L. Bendel; recording secretary, Mrs. John Snelling; correspnoding secretary, Mrs. L. L. Mengis; treasurer, Mrs. John Procher; parliamentarian, Mrs. C. P. Gray; publicity secretary, Mrs. Marvyn Johnson; historian, Mrs. C. H. Hill.

An inspiring talk on the history and purpose of the auxiliary was given by Mrs. D. M. Moore. The first auxiliary was organized at San Antonio, Texas, in 1918 at a state medical society meeting. The purpose was for social value to bring about unity and friendliness through fellowship and to assist with entertainment at medical meetings. Other phases of work were educational, legislative, philanthropic and periodic health examinations.

Members present were: Mrs. Bendel, Mrs. Colvert, Mrs. Graves, Mrs. Hill, Mrs. W. M. Johnson, Mrs. A. G. McHenry, Mrs. Moore, Mrs. J. W. Murphy, Mrs. R. W. O'Donnell, Mrs. Perot, Mrs. A. L. Peters, Mrs. J. C. Sadler, Mrs. Snelling, Mrs. A. D. Tisdale, Mrs. Walsworth, Mrs. I. J. Wolff, Mrs. Henson Coon and Mrs. DeWitt Milam.

Jean Graves Entertains Intimate Friends With A Charming Birthday Dinner

A group of beautiful girls, wearing exquisite evening frocks, were seated around the candle-lit dinner table in the home of Dr. and Mrs. J. Q. Graves, Thursday night, with their lovely young daughter, Jean, in a frock of blue taffetta, presiding with exceeding grace, as hostess. Jean's tenth birthday anniversary, on the twenty-second of February, permitted a patriotic color theme accentuated in every detail of the perfectly appointed dinner. Handsome white damask covered the table centered with an immense blue crystal bowl overflowing with crimson japonicas and encircled with blue crystal candelsticks supporting flaming crimson tapers. Blue crystal was used exclusively for the dinner service and at each cover cunning little George Washington favors were placed. From the chandelier, directly overhead fluttered myriad red, white and blue balloons, tied with lengths of tulle in the three colors. Each course of the delicious dinner reflected a patriotic color theme.

Following the dinner hour Jean invited her young friends to the music room where Mrs. James E. Davis presented one of her most talented pupils, Miss Mary Louise Fudickar, in piano recital.

Present to wish Jean many happy birthdays were twelve intimate friends Vivian Harper, Merlyn Bush, Gay Noe, Mary Stuart Kellogg, Patsy Snelling, Juanita Lipman, Katherine Meyer, Floy Rhodes, Laura Flournoy, Fay Waldroup, Merelyn Bradford, Jean Tabb.

The program meeting of the Gordon Avenue Missionary society was held at the church Tuesday afternoon with circle No. 1 in charge.

Mrs. W. H. Dennis acted as leader and Mrs. David Perkins conducted the devotional. The Scripture was taken from the childhood of Samuel followed with prayer by Mrs. E. K. Reeves.

Mrs. A. M. Thornton rendered a vocal solo after which the Missionary news was given by Mrs. Hunnicut. The topic of discussion was "Promoting World Friendship Among the Children." Talks were given by Mrs. A. M. Thornton, Mrs. R. M. Bentley and Mrs. H. D. Dennis. A very interesting discussion on children's work was given by Mrs. Worthington from the First Methodist church. The meeting was closed with prayer. Twenty-eight members were present.

Mrs. Stafford Guest of Honor At Lovely Tea

Mrs. George Mason Graham Stafford of Alexandria, affectionately remembered here as Miss Dorothy Schulze, is being extensively entertained, prominent among the lovely events being Mrs. James Wade Bolton's tea last Saturday.

The Bolton house was in beautiful array, pyrus japonica, ornamenting the reception hall, camellia japonicas, the drawing room, yellow jonquils, the living room and library. and white narcissi, the solarium. The dining room was lighted by green tapers and the tea table, overlaid with lace, was centered with a rectangular bowlful of King Alfred daffodils. This glorious floral piece rested on a mirror plaque and was flanked by silver herons. The handsome tea and coffee services were presided over by Mrs. John Hunter and Mrs. Victor Lamkin and serving were Misses Jean and Ann Stafford and Margaret Roberts and Mesdames Donald P. Moriarty, Casper Kramer, Jr., James C. Bolton, Robert H. Bolton and James Edward Byram, Jr.

Mrs. Bolton and Mrs. Stafford received the guests many of whom were close friends of the honoree made when she formerly resided in Alexandria. Mrs. Bolton was attired in a lovely gown of dark green velvet with brilliant ornaments and Mrs. Stafford's exquisite costume was white lace over white satin. With this she wore jade green accessories and a corsage of roses and sweet peas.

Assisting in the courtesies were Mrs. B. F. Thompson, Mrs. B. F. Roberts and Mrs. Martin L. Close.

Members of the W. C. T. U. are looking forward to the arrival of Mrs. Lora LaMance, national W. C. T. U. lecturer, who will address the Monroe public on the fourth of March at the city school.

Interest Centered In The Little Theater Production To Be Presented In March

"Up Pops the Devil," will be presented by the Monroe Little Theater on Monday, March 12th, at the Ouachita Junior college.

This charming and delightful comedy reflecting a bit of New York life that takes place in interesting Greenwich village, will be played by the following cast:

Anne Merrick, Henrietta Keplinger; Steve Merrick, Francis Barnett; Polly,' Edith Townes; Biney, James Cavaness; Louella May Carrol, Virginia Galloway; Gilbert Merrell, Charles Eby; George Kent, Elmer Richards; Mrs. Kent, Beryl Madison; Mr. Platt, Tom Davenport; Mrs. Kent, Vivian Harper; Laundry Man, Bill Poindexter; Inebriated Gentleman, Brunswig Sholars; Janitor, Kelly, Mr. Strothers; Magazine boy, Neel Learned.

A synopsis of this clever comedy will be of interest at this time:

Anne and Steve Merrick live in deepest Greenwich Village. The girl is a clever dancer whose services are mostly required at benefits and are seldom paid for.

The boy is a potential writer of fiction, and a toiler in the advertising game in the daytime. Together, they live a somewhat distraught life, surrounded by parties and sponging friends. Their downtown flat is a continual meeting place for any and everyone that happens to drop in.

It is soon demonstrated that Steve will never amount to much as a writer, by only working at it on Sunday mornings. A literary agent tells him that he has a fine talent that could easily be developed into an author's career, if he would only give up the steady round of parties, and get down to work.

At the urging of Anne, Steve gives up his advertising job, stays at home all day, and starts off on his first novel.

In order to defray household expenses, Anne gets a job in the ballet at Roxy's, and for a while, all is well.

But not for long, for Steve, as housekeeper, finds himself interrupted by ringing bells and dunning tradesmen. It all gets on his nerves to a high degree, and as always—up pops the devil—when such a condition occurs. The curtain of the second act is rung down on a stormy quarrel, in which the Merricks decide to go separate ways.

The reunion comes in the last act, on top of Steve's ultimate success in popular literature.

The Garden club will hold its regular meeting Friday, march 2, at the court house at 2:30 p.m. An interesting program has been arranged by the program committee. Two flower enthusiasts will be featured on the program. Mrs. Allan Sholars will give a paper on "Azeleas and Japonicas." Mrs. Manning McGuire will give a paper on "Bulk of Spring Planting." "What To Do in March" from the Houston Garden book will be read. It is hoped that all members will be present at this meeting.

Friends of Miss Elethia Edwards will regret to learn that she is suffering a severe attack of tonsilitis at the home of her parents, Mr. and Mrs. P. S. Edwards, who have moved from DeSiard street to 704 Stubbs avenue.

Mrs. A. O. Davis is a patient in S Francis sanitarium where she is valescing nicely from a recent tion.

Mrs. I. Holmes, who und operation at St. Francis is now privileged to friends.

Jean Graves Entertains Intimate Friends With A Charming Birthday Dinner

A group of beautiful girls, wearing exquisite evening frocks, were seated around the candle-lit dinner table in the home of Dr. and Mrs. J. Q. Graves, Thursday night, with their lovely young daughter, Jean, in a frock of blue taffetta, presiding with exceeding grace, as hostess. Jean's tenth birthday anniversary, on the twenty-second of February, permitted a patriotic color theme accentuated in every detail of the perfectly appointed dinner. Handsome white damask covered the table centered with an immense blue crystal bowl overflowing with crimson japonicas and encircled with blue crystal candelsticks supporting flaming crimson tapers. Blue crystal was used exclusively for the dinner service and at each cover cunning little George Washington favors were placed. From the chandelier, directly overhead fluttered myriad red, white and blue balloons, tied with lengths of tulle in the three colors. Each course of the delicious dinner reflected a patriotic color theme.

Following the dinner hour Jean invited her young friends to the music room where Mrs. James E. Davis presented one of her most talented pupils, Miss Mary Louise Fudickar, in piano recital.

Present to wish Jean many happy birthdays were twelve intimate friends Vivian Harper, Merlyn Bush, Gay Noe, Mary Stuart Kellogg, Patsy Snelling, Juanita Lipman, Katherine Meyer, Floy Rhodes, Laura Flournoy, Fay Waldroup, Merelyn Bradford, Jean Tabb.

The program meeting of the Gordon Avenue Missionary society was held at the church Tuesday afternoon with circle No. 1 in charge.

Mrs. W. H. Dennis acted as leader and Mrs. David Perkins conducted the devotional. The Scripture was taken from the childhood of Samuel followed with prayer by Mrs. E. K. Reeves.

Mrs. A. M. Thornton rendered a vocal solo after which the Missionary news was given by Mrs. Hunnicut. The topic of discussion was "Promoting World Friendship Among the Children." Talks were given by Mrs. A. M. Thornton, Mrs. R. M. Bentley and Mrs. H. D. Dennis. A very interesting discussion on children's work was given by Mrs. Worthington from the First Methodist church. The meeting was closed with prayer. Twenty-eight members were present.

Mrs. Stafford Guest of Honor At Lovely Tea

Mrs. George Mason Graham Stafford of Alexandria, affectionately remembered here as Miss Dorothy Schulze, is being extensively entertained, prominent among the lovely events being Mrs. James Wade Bolton's tea last Saturday.

The Bolton house was in beautiful array, pyrus japonica, ornamenting the reception hall, camellia japonicas, the drawing room, yellow jonquils, the living room and library. and white narcissi, the solarium. The dining room was lighted by green tapers and the tea table, overlaid with lace, was centered with a rectangular bowlful of King Alfred daffodils. This glorious floral piece rested on a mirror plaque and was flanked by silver herons. The handsome tea and coffee services were presided over by Mrs. John Hunter and Mrs. Victor Lamkin and serving were Misses Jean and Ann Stafford and Margaret Roberts and Mesdames Donald P. Moriarty, Casper Kramer, Jr., James C. Bolton, Robert H. Bolton and James Edward Byram, Jr.

Mrs. Bolton and Mrs. Stafford received the guests many of whom were close friends of the honoree made when she formerly resided in Alexandria. Mrs. Bolton was attired in a lovely gown of dark green velvet with brilliant ornaments and Mrs. Stafford's exquisite costume was white lace over white satin. With this she wore jade green accessories and a corsage of roses and sweet peas.

Assisting in the courtesies were Mrs. B. F. Thompson, Mrs. B. F. Roberts and Mrs. Martin L. Close.

Members of the W. C. T. U. are looking forward to the arrival of Mrs. Lora LaMance, national W. C. T. U. lecturer, who will address the Monroe public on the fourth of March at the city school.

Interest Centered In The Little Theater Production To Be Presented In March

"Up Pops the Devil," will be presented by the Monroe Little Theater on Monday, March 12th, at the Ouachita Junior college.

This charming and delightful comedy reflecting a bit of New York life that takes place in interesting Greenwich village, will be played by the following cast:

Anne Merrick, Henrietta Keplinger; Steve Merrick, Francis Barnett; Polly, Edith Townes; Biney, James Cavaness; Louella May Carrol, Virginia Galloway; Gilbert Merrell, Charles Eby; George Kent, Elmer Richards; Mrs. Kent, Beryl Madison; Mr. Platt, Tom Davenport; Mrs. Kent, Vivian Harper; Laundry Man, Bill Poindexter; Inebriated Gentleman, Brunswig Sholars; Janitor, Kelly, Mr. Strothers; Magazine boy, Neel Learned.

A synopsis of this clever comedy will be of interest at this time:

Anne and Steve Merrick live in deepest Greenwich Village. The girl is a clever dancer whose services are mostly required at benefits and are seldom paid for.

The boy is a potential writer of fiction, and a toiler in the advertising game in the daytime. Together, they live a somewhat distraught life, surrounded by parties and sponging friends. Their downtown flat is a continual meeting place for any and everyone that happens to drop in.

It is soon demonstrated that Steve will never amount to much as a writer, by only working at it on Sunday mornings. A literary agent tells him that he has a fine talent that could easily be developed into an author's career, if he would only give up the steady round of parties, and get down to work.

At the urging of Anne, Steve gives up his advertising job, stays at home all day, and starts off on his first novel

In order to defray household expenses, Anne gets a job in the ballet at Roxy's, and for a while, all is well.

But not for long, for Steve, as housekeeper, finds himself interrupted by ringing bells and dunning tradesmen. It all gets on his nerves to a high degree, and as always—up pops the devil—when such a condition occurs. The curtain of the second act is rung down on a stormy quarrel, in which the Merricks decide to go separate ways.

The reunion comes in the last act, on top of Steve's ultimate success in popular literature.

The Garden club will hold its regular meeting Friday, march 2, at the court house at 2:30 p.m. An interesting program has been arranged by the program committee. Two flower enthusiasts will be featured on the program. Mrs. Allan Sholars will give a paper on "Azeleas and Japonicas." Mrs. Manning McGuire will give a paper on "Bulk of Spring Planting." "What To Do in March" from the Houston Garden book will be read. It is hoped that all members will be present at this meeting.

Friends of Miss Elethia Edwards will regret to learn that she is suffering a severe attack of tonsilitis at the home of her parents, Mr. and Mrs. P. S. Edwards, who have moved from DeSiard street to 704 Stubbs avenue.

Mrs. A. O. Davis is a patient in S

Patrons Of The Arts View Mrs. Leary's Collection Of Portraits And Miniatures

The throngs of art lovers who visited Mr. Herbert Levy's studio Friday night, to view the portraits and miniatures from the engaging brush of one of the foremost young artists in this section of the south, Delano Anderson Leary of Shreveport, was eloquent of the fact that there is a great appreciation of art in this city.

Mrs. Leary, as fragile and as lovely as one of her own miniatures, received the visitors in a pastel blue evening model with her golden hair arranged in a picturesque cluster of curls low on her neck. She was assisted by Mrs. Nellie Bubb in a white crepe evening model and Miss Caro Webb in beige lace model. Mr. Levy was also present to assist in receiving. Mrs. Peyton Parker and little daughter, Adelaide, presided over the refreshment table, where luscious little pastel colored cakes and iced frappe was served during the evening.

Mrs Leary, with the same ingenuous naivete that characterizes every movement and action, hung her portraits where they could be viewed to the best advantage. For instance, in portraits where the eyes were the outstanding feautre, lights were thrown from below to reflect on this portion of the face. Other portraits were placed in the full glare of the electrics and still others were shadowed.

Portrait painting is notorious as one of the most difficult forms of painting and a long apprenticeship must be served. Mrs. Leary since early childhood has been dabbling in paints with the desire to really paint growing more intense with the passing years. Just recently she returned from two years of study in France, where she worked under the world's greatest masters. The inspiration of these two years of study has resulted in some splendid work, reflected in the collection of paintings shown at this exhibit.

Mrs. Leary has a delicate touch that is quite fascinating . . . a gentle tenderness characterizes her work, yet she is capable of a dazzling flash of coloring as noted in the portrait of a Shreveport child whose beautiful blue eyes are remarkably well done. Looking at Mrs. Leary's portraits of children you feel instinctively that you are in the presence of one who understands portraiture.

Outstanding in the collection is the portrait of Miss Mercer of Shreveport. It is probably the best work yet accomplished by the artist as it is so perfectly natural as to pose and color. The patrician features are followed with great sincerity. Mrs. Leary does nothing factitious to heighten the appeal of her work . . . by a simple stroke of her brush a luminous quality that endures and charms forever is achieved.

A portrait of young David Bubb of this city was much admired. Only by the artist's singular mastery of the knowledge of portraiture could the depth of this child's eyes be placed on canvas. Mrs. Leary likened his eyes "to a deep forest," and we quite agreed.

Another portrait that claimed considerable attention was that of Mrs. Robbie Glenn of Shreveport, a great favorite in this city. It is really a magnificent piece of work bringing out the luminous quality of the eyes, the soft profile, lovely brow and the silky quality of the hair. Several miniatures copied from old photographs were unusually beautiful with their depth of color magically bestowed upon the canvas.

We were informed that, due to numerous requests, the portraits will remain in Mr. Levy's studio until Monday, at which time Mrs. Leary will return with them to Shreveport, where they will be exhibited Tuesday night.

Miss Mary Louise Fudickar, lovely young daughter of Mr. and Mrs. Fred Fudickar, was presented in a piano recital at the home of Dr. and Mrs. J. Q. Graves, Thursday night, by her teacher, Mrs. James E. Davis. Miss Johnette Register was also featured as soloist.

The program was exceptionally beautiful and was received with enthusiasm by those privileged to be present. The following numbers were rendered:

"Pale Moon", (Glick-Logn), Johnette Register; "Valse" in E flat, (Durand), and "Butterflies," (Merkel), Mary Louise Fudickar; "Indian Love Call," (Friml), and "Laddie," (Thayer), Johnette Register; "Ghosts," (Schytle and "Alphine Storm" (Kunkel), Mary Louise Fudickar; "Lullaby," (Schubert), and "Twentieth Century Blues," (Coward), Johnette Register; "Rustle of Spring," (Sinding) and "Salut A Pesth" (Kowalski), Mary Louise Fudickar. The program was closed with a duet, "Give Me Liberty or Love," Johnette Register and Edwin Morris.

Miss Tad Scanlon, president of the Monroe Music Study club of which Mrs. Davis is counsellor, presided during the brief business session. Four new members were welcomed at this time, Raymond Sackett, Mrs. Avalon Gregory, Miss Audrey Weaks, Mrs. Sol Snyder of Bastrop. Two interesting guests were also present, Mr. Howard Schaver of Arkansas, a young radio artist and Miss Frenchie Edwards, young musician of Bastrop.

Miss Barbara Sackett was on the evening's program in a group of vocal numbers, but to illness was unable to appear. Mr. Schaver was presented in a group of readings of a patriotic nature and Charles Roddy contributed several musical numbers.

Mrs. Graves assisted by her daughter Jean and Francis Flower Fowler, extended many delightful courtesies.

Mrs. Shirley Johnston Smith and her classmates of the Baptist Sunday school were co-hostesses at a "tacky" party in the recreation room of the church with members of the Young Women's Vota Vita Sunday school class the guests of honor. Games of a rustic nature were introduced during the evening.

The last number on the program was a dress parade, after which the prizes were awarded Mrs. Lola Bryant Simmermaker and Mr. Percy Walker for "tackiest" costumes.

Refreshments were served by the hostesses to: Mrs. G. C. Cornett, Mrs. D. P. Gerald, Mrs. Percy Walker, Helen Carr, Elizabeth Fitzgerald, Maude Gallman, Emma Boughton, Lunette Daves, Roslyn Blackmon, Louise Fitzgerald, Dorothy Wroten, Avie Foster, June Pearce, Dorothy Proffit, Bernice McKoy, Helen Watson, Elizabeth Phillips, Helen Walker, Lorena Bedsole, Freddie Henry, Olive Flemming, Johnnie Tucker, Lola Bryant Simmermaker, Katie Ruth Deere, Vina Gallman, Janie Brothers, Lola Allen, Nowata Yeager, Merrie Lee Ford, Matilda Simpson, Evie Flemming, Shirley Johnston Smith, Rev. "It's simply marvelous the way Listerine gets rid of loose dandruff," say both men and women. You simply douse it on the head and massage vigorously. Often one treatment is enough to cleanse the scalp and remove scales and flakes. Stubborn cases require longer treatment. Try it if you have dandruff.

Original Wood Block Color Prints, fee $3.50. 8. Seected Color Prints, fee $3.50.

The number of slides for the different lectures vary from 19 to 100. The illustrated art lectures are sure to afford a program of unusual interest, and if further information is desired the district president, Mrs. Addison Thompson of Ruston will be glad to furnish it, or it may be had at General Federation headquarters.

Book Club Members Elect New Officers

The Welcome Branch of the Twentieth Century Book club, with its president, Mrs. C. C. Colvert, presiding, held its last February meeting at the Y. W. C. A. Wednesday afternoon.

In response to roll call given by Mrs. J. Noble White, secretary, twenty-eight members answered with a current event in America. Mrs. Colvert announced the program committee for next year's study, with Mrs. L. V. Tarver, chairman, who will be ably assisted by Mrs. N. D. Hurdle and Mrs. R. W. Miles. This being the regular time for election of new officers, for next year, the following named members will guide the destinies of Welcome Branch beginning with the September meeting: President, Mrs. E. C. Gibson; first vice president, Mrs. George Lofton; second vice president, Mrs. Fred Bennett; recording secretary, Mrs. Paul Neal; corresponding secretary, Mrs Dan Dennett; treasurer, Mrs. Albert Trotter; reporter, Mrs. Tom Dotson; parliamentarian, Mrs. William Leber; historian, Mrs. L. V. Tarver.

Mrs. Colvert called on Mrs. R. W. Miles, who gave most entertainingly a review on that much talked of book, "The Regent's Daughter." Mrs. Miles' splendid speaking voice added much charm to a story told in interesting manner.

The following members were in attendance: Mrs. Clyde Blanchard, Mrs. Fred Bennett, Mrs. C. C. Colvert, Mrs. H. H. Douglas, Mrs. Dan Dennett, Mrs. H. J. Fernandez, Mrs. W. C. Faulk, Mrs. E. C. Gibson, Mrs. V. S. Garnett, Mrs. N. D. Hurdle, Mrs. Marvin Johnson, Mrs. William Leber, Mrs. John Liest, Mrs. Parker McComb, Mrs. J. M. Melton, Mrs. D. M. Moore, Mrs. Paul J. Neal, Mrs. J. D. Petty, Mrs. Charles Swain, Mrs. Albert Trotter, Mrs. L. V. Tarver, Mrs. J. Noble White, Mrs. J. R. White, Mrs. C. C. Levy, Mrs. Tom Dotson and Mrs. Ione Hebert.

Women's Clubs Will Sponsor Verse Contest

The Louisiana Federation of Women's clubs and also the fifth district will again sponsor contests in Poetry this year. The contest for the district will terminate at the district meeting which will be held in Tallulah, the date for which has not been set. Poems to be submitted for the district contest should be sent to Mrs. F. B. Sartor of Alto, district chairman of Poetry, as early as possible, in order to have them judged. An appropriate award will be made at the district meeting for the best poem submitted, the poem to be read by the author if possible.

Mrs. W. S. Streator of Lake Charles, state chairman of poetry asks that all poems to be submitted in the state contest be forwarded to her not later than September 15 in order to allow the judges ample time.

The same rules will apply for both district and state and are as follows:

Poems should be lyrics not to exceed twenty-four lines; they should be in rhyme and meter.

The subjects should be some phase of nature, such as clouds, trees, flowers, etc.

There are many beautiful things in the state which will provide inspiration, or not necessarily beautiful but worthy.

Poems will be judged by the thought expressed, poetic quality, and technique.

The state chairman will criticize one short sample poem for any club member sending a stamped, self addressed envelope. The sample poem cannot be used in a contest but may be of benefit in the writing of other poems.

Mrs. Streator will also furnish clubs with suggestive programs for the study of Modern American Poetry.

The young people of the First Presbyterian church entertained with a banquet Friday night. The color scheme of the decorations were red, white and blue, reminiscent of George Washington's birthday. During the serving of the courses many songs were sung with Miss Juanita Gatlin accompanying at the piano. Miss Gatlin rendered several beautiful piano solos and Miss Mildred Dennis gave delightful readings during the course of the evening. Rev. O'Neil, of Bastrop, the speaker of the occasion, gave an interesting talk on "Stewardship," Miss Freida Mickel acted as toastmaster. Those present were Katherine Smith, Alice Brouer, Marian Granberry, Mary Helen Hilburn, Gertrude Brauer, Mildred Dennis, Juanita Gatlin, Alice Daimwood, Joe Stanley, Juliet Daimwood, Jack Maddox, Martha Garrison, Flora Glenn, Evelyn Rall, Elizabeth Kenny, Margaret Rall, Jo Ann Veach, Gladys McGee, Fred Brownlee, Fluitt Hundley, R. D. Farr, Ann Mickel, Mr. and Mrs. Bill Matthews, Bob Champion, Edward Stroud, Rev. and Mrs. Earnest Holloway, Rev. O'Neil of Bastrop, Mary Louise Farr, Freeda Mickel, Mary Pope, Mrs. Kate Morrice, Harris Tyson, Julian Stanley, Mary Elizabeth Stringer, Ben Stanley, Leonora Grower, Minnie Frances Gossett, Margaret Smith, Dorothy Lee Hodges, Barbara Butler, Nora Lee Butler, Mr. Holt, Lucy Williams, Beulah Justice, of Bastrop and many others. The ladies of the auxiliary served.

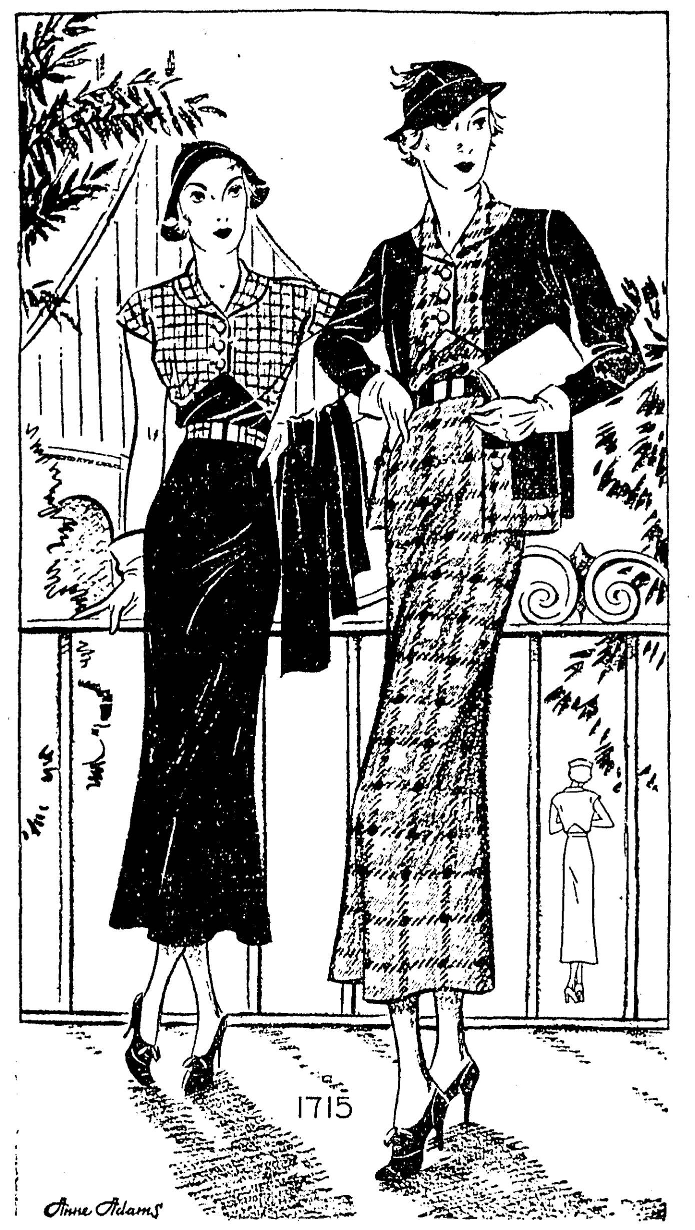
Thursday afternoon Mrs. J. B. Brown welcomed members of the Calhoun Study club to her home.

After the business was completed an instruction program was given. The subject of the study was "The Life and Works of Helen Hunt Jackson," led by Mrs. B. N. Pipes, who gave an interesting talk on the life of Helen Hunt Jackson. The poem, "Coronation," was very ably read by Miss Rupert Perry.

Mrs. J. B. Brown gave a very interesting synopsis of the novel, "Ramona."

During the social hour delectable refreshments were served to Mrs. P. K. Wright, Mrs. C. Z. Roberts, Mrs. Clara Hodge, Mrs. Sidney Stewart, Mrs. J. B. Brown, Mrs. B. N. Pipes, Mrs. J. E. Bryan, Miss Rupert Perry and Mrs. J. L. Heath, Jr.

News-Star--World Pattern



From dawn to dusk, and for every occasion, smart women are wearing ensembles. Today, we present one of the most dashing creations of the season—a chic frock and swagger hip length jacket. Whatever your plans for the day might be, you may feel assured when wearing it that you are looking your very smartest!

The frock is simplicity itself—with its chic bodice closing and collar, drop shoulders with a bit of a perk, and the slim skirt. The jacket has novel pockets fashioned of the fabric of the frock.

Paris says that two fabrics or two colors are smarter than one—and if you've a flair for creating unusual effects, you'll revel in the possibilities afforded by this ensemble. For example, the model in the foreground has the frock and pockets of a bright plaid wool, and the jacket of velveteen in a dark monotone. Or you might work out the opposite and make the jacket of the plaid. On the other sketch—the skirt and jacket match, and the bodice, belt and pockets are of contrast.

Aside from sheer wools, there are delightful flat crepes, new heavy falling sheers, and cottons—rough, ribbed or woolly in texture. Any of these would be excellent to use.

Pattern 1715 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 requires 2 yards 54-inch fabric and 1 3-8 yards contrasting for model illustrated in the foreground. For other yardages see pattern. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred), for each Anne Adams pattern. Write plainly your name, address and style number. BE SURE TO STATE SIZE WANTED.

THE NEW SPRING, 1934 EDITION OF THE ANNE ADAMS PATTERN BOOK features all the best spring styles for adults and children. Send for your copy of this interesting, helpful book and be chic this spring. PRICE OF BOOK FIFTEEN CENTS. BOOK AND PATTERN TOGETHER, TWENTY-FIVE CENTS.

Address orders to Monroe News-Star—World Pattern Department, 243 West 17th Street, New York City.

◆

The Instrumental Music club of the Barkdull Faulk school resumed their meetings after the winter of inactivity on Friday, February 23. The club had the following members present: President, Barbara McKenzie; vice president, Martha Renaud; secretary, Mildred Gibson; members, Mildred Wales, Eva Van Delden, Levins Thompson, Barbara McKenzie, Ferdie Rohr, Robert Young, Earl Bennett, Courtland Hathaway, Eva Mae Rogers, Betty Jane Yeldell, Pete Alongio, John McClain, Gwendolyn Hulin, Katherine Kugler, Rosemary Dewson, James Seehon, Charles McKenzie, Luther Howell, Yvenne Cargile, Charlotte Padgett, Willie Nettles, Dollie Ticheli.

The president appointed the following members as a program committee: Gwendolyn Hulin, Ferdie Rohr, Mildred Wales. The program announced for the next meeting was: Sextet, horns; piano solo, "Swing," by Barbara McKenzie; piano solo by Martha Renaud, musical number by Toy orchestra.

It was decided to invite the members of the Toy orchestra to be members of the club. The name, "Young Musicians' club," suggested by Charles McKenzie, was decided on for the club name. The time of meeting chosen was the third Friday of each month, the secretary to notify Mrs. McRaney, club sponsor, on Thursday before each meeting. There being no further business the meeting was adjourned.

The departure of Mr. and Mrs. A. R. Bauerfind, who have made their home in this city for several months, for their new home in Dallas, Texas, is generally regretted by their many friends. They will make their departure next Sunday.

Much Interest Displayed In Art Contest

The fifth district will sponsor an art contest this year as last, the display of pictures to be made at the district meeting which will be held in Tallulah. An appropriate award will be made for the best picture, and it is earnestly desired that every artist affiliated with the Louisiana Federation will display work. The same rules which were followed last year will be in force.

It is only in the last year or two that there has been much interest shown in art among the clubs of the fifth district, and having made the splendid showing which they have in the length of time, it is a cherished desire that the artists will maintain this record of achievement.

Mrs. Isadore Leiber, state chairman of art, is compiling a list of Louisiana artists and requests that all artists affiliated with the Louisiana Federation of Women's clubs send their names, addresses and club affiliations to her. Mrs. Leiber's address is 151 Dalzell street, Shreveport.

Founder's Day Program Of Exceeding Interest

The Sherrouse P.-T. A. commemorated the thirty-seventh anniversary of the national congress of parents and teachers with eleven fathers and twenty-two mothers and several visitors present.

The following Founder's Day program was rendered:

P.-T. A. song by association.

Reading of president's February message by Mrs. Seigle.

A playlet, "A Dream of the Past, a Glimpse Into the Future," with Mrs. Norsworthy as the mother of today, Miss Cann and Mrs. Louis Powell as Mrs. Alice Birney and Mrs. Phoebe Hearst, the founders of the Parent-Teacher movement. Mrs. Todd as Mrs. David O. Mears, the originator of Founder's Day. Mary Ann Norsworthy and Billy Shepard representing the children of today.

Piano solo by Miss Skirvin.

Talk by Mrs. Parker McComb on Founder's Day, its object and our aims to always maintain the ideals set before us by the founders of the congress.

The ideal P.-T. A. birthday cake enacted by H. M. Linguist as baker and Mrs. Shepard as his assistant, with twelve girls wearing banners representing the following ingredients:

Love—Peggy Powell.
Altruism—Margie Brennan.
Faith—Betty Ann Linguist.
Enthusiasm—Frances Dunden.
Efficiensy—Marguerite Colvert.
Optimism—Mary Ann Norsworthy.
Harmony—Mary Evelyn Durden.
Understanding—Dorothy Prater.
Tolerance—Evelyn Horton.
Youth—Anita Powell.
Perseverance—Jean Phelps.

The birthday cake with its thirty-seven candles was then uncovered and Mrs. Roland Seigle, the president, lighted them and the two tall tapers in memory of our founders, Mrs. Birney and Mrs. Hearst.

Joyce Seigle, as "Childhood," made a plea to the mothers and fathers of today for a chance for sound health, wholesome home life, the gift of learning and spiritual vision that will insure them an honest relationship with their fellow man and God.

A substantial collection for the national Founder's Day was taken.

A short business session was followed by refreshments and the birthday cake was cut.

The Crosley Parent-Teacher association's February meeting was devoted to a Founders' Day program.

The meeting was held last Wednesday night at the school auditorium with more than two hundred parents and nearly a hundred children present.

Upon the opening of the meeting, Mrs. C. E. Faulk, who was the speaker of the evening, asked everyone to shake hands with the ones sitting next to them, as it was a birthday party and all should get acquainted. Mrs. Curry led the community singing, first with America and then the P.-T. A. theme song.

The second grade pupils presented a little playlet depicting the aims of the P.-T. A. One of the pupils was a baker and the other brought some ingredients for the P.-T. A. cake . . . perseverance and enthusiasm . . . necessary for a successful P.-T. A. The cake was finally finished and the baker showed a beautiful birthday cake which was donated by Mrs. Faulk for the occasion. The cake was later awarded to the pupils of the class room having the most parents present.

As customary, candles were lighted in honor of the founder of the national congress and also in honor of the late Prof. Rainbolt and Miss Haynes, both of the school faculty. Another was lighted in honor of the work of the present faculty.

Mrs. Faulk made a most inspiring address telling just what the Parent-Teacher association means to a school and praising the work of what has been accomplished by our local association.

A free will offering was later taken, half of which goes to state and half to the national congress. Last Year Crosley's Founder's Day offering was the largest outside the city of New Orleans.

After the program guests were invited to the school cafeteria where the hospitality committee served hot chocolate and wafers to the three hundred guests.

The cake was awarded to the pupils of Mrs. Rhinehart's room, which had a representation of 31 parents.

A little incident was disclosed the following day that was very interesting. One of the mothers wrote her child's teacher that this was the first P.-T. A. meeting she had ever attended. Her son told her when they got home that his room would have been tied for the cake, had she not been present. As it was her presence gave them a majority by one.

Dorothy Dix

Dear Miss Dix—I am a woman of 45, happily married to a spendid man, and we have a big family of 'teenage boys and girls. We haven't much money and I have to work hard, but I don't mind that because I am repaid in having a happy home, a contented husband, bringing up a lot of fine young people. I know my husband loves me devotedly, but he seldom gives any outward expression of his affection and I find I am heart-hungry much of the time. I would be supremely happy in spite of very little of this world's goods if only he would tell me that he still loves me and manifest some of the tenderness that I know he feels for me. Can't you say something that will make him realize how little I ask?

LONELY.

Answer: I get thousands of letters like this one, and as I read them I never know which I think has the less intelligence, the romantic goose of a wife or the bottled-up refrigerator of a husband. Anyway, I'd like to knock their stupid heads together and make them see a few stars that might guide them along the way of happiness.

Between the two I think I would give the medal for dumbness to the husband. For here is a man with a wife whom he really loves and appreciates. He realizes that her life isn't an easy one. He sees her working early and late to make a comfortable home for him and his children. He knows that she makes many sacrifices; that she goes shabby when she would like to have pretty clothes; that she stays at home when she would like to step out to places of amusement. And there are times when that hurts him. He would like to doll her up in Paris finery, and give her an expensive car and surround her with every luxury. But he hasn't the money to do it.

But he could give her the one thing in the world that she craves more than anything else, the one thing that she would value more than she would all of the limousines in a motor show; the one thing that would make her happier than if he could present her with all the fine frocks along Fifth avenue. And that is a little high-pressure love-making.

She would rather have his arms go spontaneously around her than have a matched pearl necklace about her throat. She would rather have him tell her that she is the most beautiful woman in the world to him and that she grows dearer and dearer to him every day than listen to grand opera. One kiss that was warm with passion instead of being a peck on the cheek would keep her warmer than the finest sable coat that ever came out of Russia.

And the man knows this. He knows that a little jollying would set the sun in his wife's day and make her perfectly happy, and he won't do it. All she asks is a compliment or so. A few kind words, and he won't say them. Can you beat that for lack of sense?

Unless the wife beats it by her lack of intelligence in making herself miserable over an imaginiary trouble, because she does know that her inarticulate husband does love her even if he never feels called upon to mention the fact.

She knows that any man who is as domestic as the house cat and who toils early and late to keep his wife soft and comfortable is giving a proof of devotion that is beyond all question. He is simply saying it with pot roasts and spinach instead of orchids.

In reality, every woman who has a brain that functions even on one cylinder knows that deeds count more than words, and that the husbands who are glib love-makers at home are oftener than not philanderers abroad. They have the habit.

Also, every woman who has any sense whatever knows to the last hair's breadth just exactly how much affection her husband has for her. She has an intuition that enables her to gauge the warmth of his love and it tells her when he is tired of her and when he has ceased to care for her and not all the love talk in the world could really fool her. And equally well a woman knows when her husband loves her. She knows it by his tenderness, by his patience, by his always wanting her around, by a thousand little signs that never fail.

And so, having this line upon their husbands, why should wives put such stress on a few words? Why would they want a man to forswear himself to his wife if he didn't love her? And why should a woman eat her heart out in longing for her husband to tell her of his love when she is already assured of it?

Goodness only knows. It is idiotic of them, but they do. And it is asinine in a man to know his wife could be made happy by a few words and to refuse to say them.

Revenue Officer Visits Deputy U. S. Collectors

Will M. Lucas, of the United States internal revenue office in New Orleans, is at the present time making a tour of the state, visiting deputy collectors in the various cities. He spent some time in Monroe Friday and Saturday in conference with Ralph Griffith, deputy internal revenue collector here.

He reported that collections are extremely slow, but anticipates that these will be speeded up within the next few days.

Mr. Griffith said Saturday that the office in the new federal building here will be open, starting March 1, from 8:30 a.m. to 4 p.m. each week day and extra help will be employed to aid taxpayers to prepare their income tax returns which must be received at the office not later than midnight on March 15.

Mrs. Clawson Hostess At Patriotic Entertainment At Her Home On Thursday

A patriotic color theme was employed by Mrs. Julia Clawson in picturesque manner in her home last Thursday when she entertained with a typical George Washington affair with members of the W. B. A. Review No. 26 the guests. Mrs. Clawson's display of flags was most effective and added a gay splash of coloring to the scene. Games reminiscent of the days of George Washington were introduced during the afternoon and gifts of cherries presented for favors. Musical numbers by Mr. Prentis East and Mr. Jack Starr were also featured.

Delicious refreshments, for which Mrs. Clawson has long been famed were served to the following guests: Mrs. W. B. Corry, Miss Elizabeth Bell, Mrs. Willie B. Hamilton, Miss Josephine Keeler, Miss Dorothy Jo Smith, Miss Nellie Ruth Vincent, Miss Marguerite Terrell, Mrs. Estelle Reuter, Mrs. Audrey Voisel, Mrs. Louise Harberson, Miss Dixie Dodge, Miss Grace Smith, Miss Louise Cash, Mrs. Thelma Clawson Jones, Mrs. Estelle Brantley, Miss Margie Cobb, Mrs. Annie Wells, Miss Asa Cash, Miss Andra Smith, Mrs. Rose Gallien, Mrs. J. L. Frances, Mr. Ray Hamilton, Mr. Ben Peters, Mr. H. O. Jones, Mr. E. P. Harrison, Mr. Thomas Humble, Mr. J. Louis Frances, Mr. Robert Richmond, Mr. H. S. Clawson.

Art Lectures Will Feature Club Program

At this season of the year when clubs are planning programs for next year it will perhaps be of interest to know that the general federation furnishes to affiliated clubs such program material as illustrated art lectures.

The only requirement is a fee which ranges in price from $1.00 to $5.00 and the expressage one way.

The illustrated lectures consist of lantern slides for either stereopticon or balopticon lanterns. Moving picture machines cannot be used. The accompanying lectures have been prepared by America's best authority. Following is a list of subjects: "American Paintings"—I. Modern Tendencies in American Painting, fee $2.50. "American Pottery," fee $5.00. "Art in Homes and Gardens," I. The American Wing, fee $2.50. Artistic Furniture, fee $2.50. 3. Art in Gardens, fee $2.50. 4. The Way to the Small Garden, fee $2.50. "Art in Dress," fee express charge only. "Civic Art," 1. Art, Religion and Education, fee $1.00. 2. Houses in Town, Village and Country, fee $2.50. 3. How to Understand and Enjoy Architecture, fee $2.50. 4. The Making of a Staute, fee $2.50. 5. Memorial Sculpture, fee $2.50. 6. Sculpture as a Civic Asset, fee $2.50. 7. Town Beautiful, fee $2.50. 8. The Washington Cathedral, fee $2.50. European Galleries." 1. Old Masters and New, fee $3.50. "Prints and Photographs of Painting and Sculpture." 1. American Sculpture, fee $3.50. 2. Bauman Prints, fee $3.50. 3. Etchings, fee $3.50. 4. Guerin Prints, fee $3.50. 5. Helen Hyde Wood Block Prints, fee $3.50. 6. Museum Prints, fee $3.50. 7. Original Wood Block Color Prints, fee $3.50. 8. Secected Color Prints, fee $3.50.

The number of slides for the different lectures vary from 19 to 100. The illustrated art lectures are sure to afford a program of unusual interest, and if further information is desired the district president, Mrs. Addison Thompson of Ruston will be glad to furnish it, or it may be had at General Federation headquarters.

Book Club Members Elect New Officers

The Welcome Branch of the Twentieth Century Book club, with its president, Mrs. C. C. Colvert, presiding, held its last February meeting at the Y. W. C. A. Wednesday afternoon.

In response to roll call given by Mrs. J. Noble White, secretary, twenty-eight members answered with a current event in America. Mrs. Colvert announced the program committee for next year's study, with Mrs. L. V. Tarver, chairman, who will be ably assisted by Mrs. N. D. Hurdle and Mrs. R. W. Miles. This being the regular time for election of new officers, for next year, the following named members will guide the destinies of Welcome Branch beginning with the September meeting: President, Mrs. E. C. Gibson; first vice president, Mrs. George Lofton; second vice president, Mrs. Fred Bennett; recording secretary, Mrs. Paul Neal; corresponding secretary, Mrs Dan Dennett; treasurer, Mrs. Albert Trotter; reporter, Mrs. Tom Dotson; parliamentarian, Mrs. William Leber; historian, Mrs. L. V. Tarver.

Mrs. Colvert called on Mrs. R. W. Miles, who gave most entertainingly a review on that much talked of book, "The Regent's Daughter." Mrs. Miles' splendid speaking voice added much charm to a story told in interesting manner.

The following members were in attendance: Mrs. Clyde Blanchard, Mrs. Fred Bennett, Mrs. C. C. Colvert, Mrs. H. H. Douglas, Mrs. Dan Dennett, Mrs. H. J. Fernandez, Mrs. W. C. Faulk, Mrs. E. C. Gibson, Mrs. V. S. Garnett, Mrs. N. D. Hurdle, Mrs. Marvin Johnson, Mrs. William Leber, Mrs. John Liest, Mrs. Parker McComb, Mrs. J. M. Melton, Mrs. D. M. Moore, Mrs. Paul J. Neal, Mrs. J. D. Petty, Mrs. Charles Swain, Mrs. Albert Trotter, Mrs. L. V. Tarver, Mrs. J. Noble White, Mrs. J. R. White, Mrs. C. C. Levy, Mrs. Tom Dotson and Mrs. Ione Hebert.

Women's Clubs Will Sponsor Verse Contest

The Louisiana Federation of Women's clubs and also the fifth district will again sponsor contests in Poetry this year. The contest for the district will terminate at the district meeting which will be held in Tallulah, the date for which has not been set. Poems to be submitted for the district contest should be sent to Mrs. F. B. Sartor of Alto, district chairman of Poetry, as early as possible, in order to have them judged. An appropriate award will be made at the district meeting for the best poem submitted, the poem to be read by the author if possible.

Mrs. W. S. Streator of Lake Charles, state chairman of poetry asks that all poems to be submitted in the state contest be forwarded to her not later than September 15 in order to allow the judges ample time.

The same rules will apply for both district and state and are as follows:

Poems should be lyrics not to exceed twenty-four lines; they should be in rhyme and meter.

The subjects should be some phase of nature, such as clouds, trees, flowers, etc.

There are many beautiful things in the state which will provide inspiration, or not necessarily beautiful but worthy.

Poems will be judged by the thought expressed, poetic quality, and technique.

The state chairman will criticize one short sample poem for any club member sending a stamped, self addressed envelope. The sample poem cannot be used in a contest but may be of benefit in the writing of other poems.

Mrs. Streator will also furnish clubs with suggestive programs for the study of Modern American Poetry.

The young people of the First Presbyterian church entertained with a banquet Friday night. The color scheme of the decorations were red, white and blue, reminiscent of George Washington's birthday. During the serving of the courses many songs were sung with Miss Juanita Gatlin accompanying at the piano. Miss Gatlin rendered several beautiful piano solos and Miss Mildred Dennis gave delightful readings during the course of the evening. Rev. O'Neil, of Bastrop, the speaker of the occasion, gave an interesting talk on "Stewardship," Miss Freida Mickel acted as toastmaster. Those present were Katherine Smith, Alice Brouer, Marian Granberry, Mary Helen Hilburn, Gertrude Brauer, Mildred Dennis, Juanita Gatlin, Alice Daimwood, Joe Stanley, Juliet Daimwood, Jack Maddox, Martha Garrison, Flora Glenn, Evelyn Rall, Elizabeth Kenny, Margaret Rall, Jo Ann Veach, Gladys McGee, Fred Brownlee, Fluitt Hundley, R. D. Farr, Ann Mickel, Mr. and Mrs. Bill Matthews, Bob Champion, Edward Stroud, Rev. and Mrs. Earnest Holloway, Rev. O'Neil of Bastrop, Mary Louise Farr, Freeda Mickel, Mary Pope, Mrs. Kate Morrice, Harris Tyson, Julian Stanley, Mary Elizabeth Stringer, Ben Stanley, Leonora Grower, Minnie Frances Gossett, Margaret Smith, Dorothy Lee Hodges, Barbara Butler, Nora Lee Butler, Mr. Holt, Lucy Williams, Beulah Justice, of Bastrop and many others. The ladies of the auxiliary served.

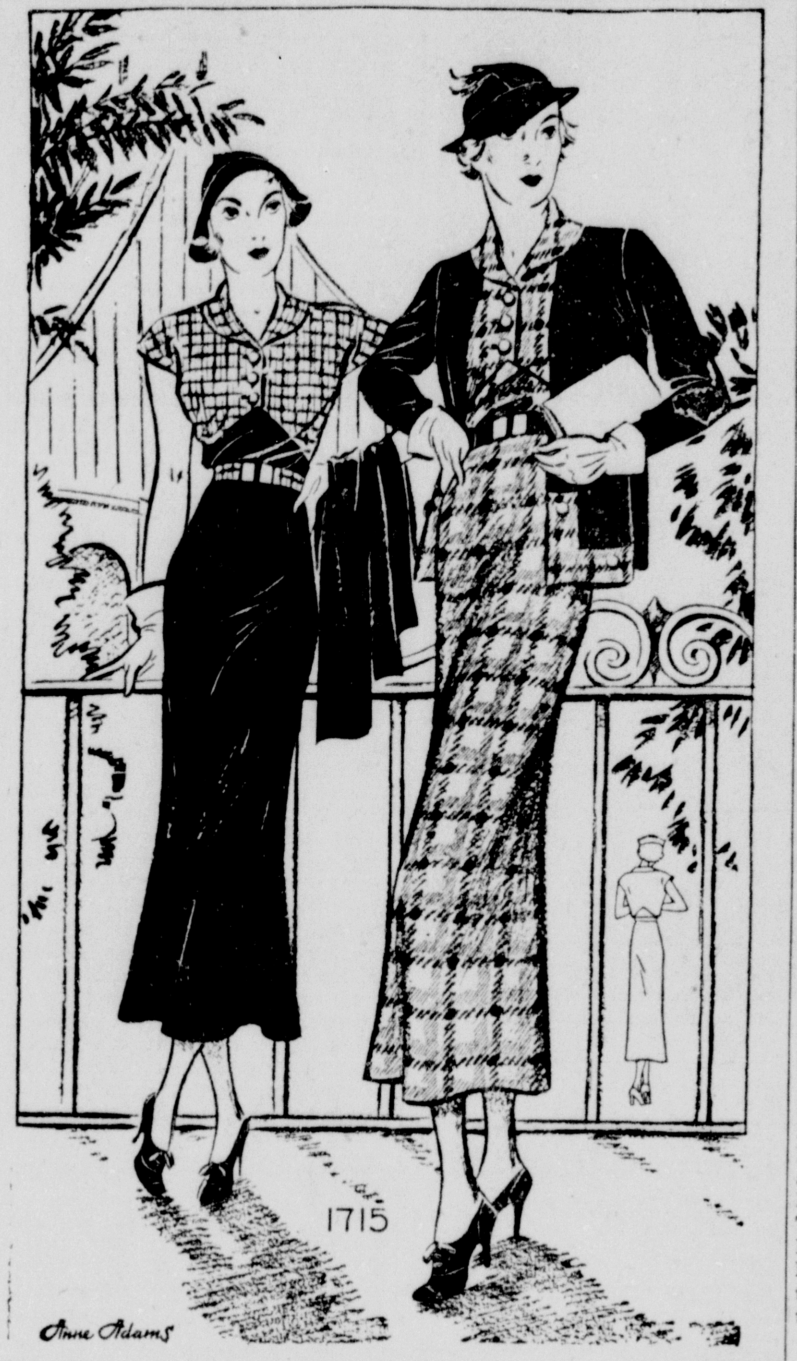
Thursday afternoon Mrs. J. B. Brown welcomed members of the Calhoun Study club to her home.

After the business was completed an instruction program was given The subject of the study was "The Life and Works of Helen Hunt Jackson," led by Mrs. B. N. Pipes, who gave an interesting talk on the life of Helen Hunt Jackson. The poem, "Coronation," was very ably read by Miss Rupert Perry.

Mrs. J. B. Brown gave a very interesting synopsis of the novel, "Ramona."

During the social hour delectable refreshments were served to Mrs. P. K. Wright, Mrs. C. Z. Roberts, Mrs. Clara Hodge, Mrs. Sidney Stewart, Mrs. J. B. Brown, Mrs. B. N. Pipes, Mrs. J. E. Bryan, Miss Rupert Perry and Mrs. J. L. Heath, Jr.

News-Star--World Pattern



From dawn to dusk, and for every occasion, smart women are wearing ensembles. Today, we present one of the most dashing creations of the season—a chic frock and swagger hip length jacket. Whatever your plans for the day might be, you may feel assured when wearing it that you are looking your very smartest!

The frock is simplicity itself—with its chic bodice closing and collar, drop shoulders with a bit of a perk, and the slim skirt. The jacket has novel pockets fashioned of the fabric of the frock.

Paris says that two fabrics or two colors are smarter than one—and if you've a flair for creating unusual effects, you'll revel in the possibilities afforded by this ensemble. For example, the model in the foreground has the frock and pockets of a bright plaid wool, and the jacket of velveteen in a dark monotone. Or you might work out the opposite and make the jacket of the plaid. On the other sketch—the skirt and jacket match, and the bodice, belt and pockets are of contrast.

Aside from sheer wools, there are delightful flat crepes, new heavy falling sheers, and cottons—rough, ribbed or woolly in texture. Any of these would be excellent to use.

Pattern 1715 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 requires 2 yards 54-inch fabric and 1 3-8 yards contrasting for model illustrated in the foreground. For other yardages see pattern. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred), for each Anne Adams pattern. Write plainly your name, address and style number. BE SURE TO STATE SIZE WANTED.

THE NEW SPRING, 1934 EDITION OF THE ANNE ADAMS PATTERN BOOK features all the best spring styles for adults and children. Send for your copy of this interesting, helpful book and be chic this spring. PRICE OF BOOK FIFTEEN CENTS. BOOK AND PATTERN TOGETHER, TWENTY-FIVE CENTS.

The Instrumental Music club of the Barkdull Faulk school resumed their meetings after the winter of inactivity on Friday, February 23. The club had the following members present: President, Barbara McKenzie; vice president, Martha Renaud; secretary, Mildred Gibson; members, Mildred Wales, Eva Van Delden, Levins Thompson, Barbara McKenzie Ferdie Rohr, Robert Young, Earl Bennett, Courtland Hathaway, Eva Mae Rogers, Betty Jane Yeldell, Pete Alongio, John McClain, Gwendolyn Hulin, Katherine Kugler, Rosemary Dewson, James Seehon, Charles McKenzie, Luther Howell, Yvonne Cargile, Charlotte Padgett, Willie Nettles, Dollie Ticheli.

The president appointed the following members as a program committee: Gwendolyn Hulin, Ferdie Rohr, Mildred Wales. The program announced for the next meeting was: Sextet, horns; piano solo, "Swing," by Barbara McKenzie; piano solo by Martha Renaud, musical number by Toy orchestra.

It was decided to invite the members of the Toy orchestra to be members of the club. The name, "Young Musicians' club," suggested by Charles McKenzie, was decided on for the club name. The time of meeting chosen was the third Friday of each month, the secretary to notify Mrs. McRaney, club sponsor, on Thursday before each meeting. There being no further business the meeting was adjourned.

The departure of Mr. and Mrs. A. R. Bauerfind, who have made their home in this city for several months, for their new home in Dallas, Texas, is generally regretted by their many friends. They will make their departure next Sunday.

Much Interest Displayed In Art Contest

The fifth district will sponsor an art contest this year as last, the display of pictures to be made at the district meeting which will be held in Tallulah. An appropriate award will be made for the best picture, and it is earnestly desired that every artist affiliated with the Louisiana Federation will display work. The same rules which were followed last year will be in force.

It is only in the last year or two that there has been much interest shown in art among the clubs of the fifth district, and having made the splendid showing which they have in the length of time, it is a cherished desire that the artists will maintain this record of achievement.

Mrs. Isadore Leiber, state chairman of art, is compiling a list of Louisiana artists and requests that all artists affiliated with the Louisiana Federation of Women's clubs send their names, addresses and club affiliations to her. Mrs. Leiber's address is 151 Dalzell street, Shreveport.

Founder's Day Program Of Exceeding Interest

The Sherrouse P.-T. A. commemorated the thirty-seventh anniversary of the national congress of parents and teachers with eleven fathers and twenty-two mothers and several visitors present.

The following Founder's Day program was rendered:

P.-T. A. song by association.

Reading of president's February message by Mrs. Seigle.

A playlet, "A Dream of the Past, a Glimpse Into the Future," with Mrs. Norsworthy as the mother of today, Miss Cann and Mrs. Louis Powell as Mrs. Alice Birney and Mrs. Phoebe Hearst, the founders of the Parent-Teacher movement. Mrs. Todd as Mrs. David O. Mears, the originator of Founder's Day. Mary Ann Norsworthy and Billy Shepard representing the children of today.

Piano solo by Miss Skirvin.

Talk by Mrs. Parker McComb on Founder's Day, its object and our aims to always maintain the ideals set before us by the founders of the congress.

The ideal P.-T. A. birthday cake enacted by H. M. Linguist as baker and Mrs. Shepard as his assistant, with twelve girls wearing banners representing the following ingredients:

Love—Peggy Powell.
Altruism—Margie Brennan.
Faith—Betty Ann Linguist.
Enthusiasm—Frances Dunden.
Efficiensy—Marguerite Colvert.
Optimism—Mary Ann Norsworthy.
Harmony—Mary Evelyn Durden.
Understanding—Dorothy Prater.
Tolerance—Evelyn Horton.
Youth—Anita Powell.
Perseverance—Jean Phelps.

The birthday cake with its thirty-seven candles was then uncovered and Mrs. Roland Seigle, the president, lighted them and the two tall tapers in memory of our founders, Mrs. Birney and Mrs. Hearst.

Joyce Seigle, as "Childhood," made a plea to the mothers and fathers of today for a chance for sound health, wholesome home life, the gift of learning and spiritual vision that will insure them an honest relationship with their fellow man and God.

A substantial collection for the national Founder's Day was taken.

A short business session was followed by refreshments and the birthday cake was cut.

The Crosley Parent-Teacher association's February meeting was devoted to a Founders' Day program.

The meeting was held last Wednesday night at the school auditorium with more than two hundred parents and nearly a hundred children present.

Upon the opening of the meeting, Mrs. C. E. Faulk, who was the speaker of the evening, asked everyone to shake hands with the ones sitting next to them, as it was a birthday party and all should get acquainted. Mrs. Curry led the community singing, first with America and then the P.-T. A. theme song.

The second grade pupils presented a little playlet depicting the aims of the P.-T. A. One of the pupils was a baker and the other brought some ingredients for the P.-T. A. cake . . . perseverance and enthusiasm . . . necessary for a successful P.-T. A. The cake was finally finished and the baker showed a beautiful birthday cake which was donated by Mrs. Faulk for the occasion. The cake was later awarded to the pupils of the class room having the most parents present.

As customary, candles were lighted in honor of the founder of the national congress and also in honor of the late Prof. Rainbolt and Miss Haynes, both of the school faculty. Another was lighted in honor of the work of the present faculty.

Mrs. Faulk made a most inspiring address telling just what the Parent-Teacher association means to a school and praising the work of what has been accomplished by our local association.

A free will offering was later taken, half of which goes to state and half to the national congress. Last Year Crosley's Founder's Day offering was the largest outside the city of New Orleans.

After the program guests were invited to the school cafeteria where the hospitality committee served hot chocolate and wafers to the three hundred guests.

The cake was awarded to the pupils of Mrs. Rhinehart's room, which had a representation of 31 parents.

A little incident was disclosed the following day that was very interesting. One of the mothers wrote her child's teacher that this was the first P.-T. A. meeting she had ever attended. Her son told her when they got home that his room would have been tied for the cake, had she not been present. As it was her presence gave them a majority by one.

And so, having this line upon their husbands, why should wives put such stress on a few words? Why would they want a man to forswear himself to his wife if he didn't love her? And why should a woman eat her heart out in longing for her husband to tell her of his love when she is already assured of it?

Goodness only knows. It is idiotic of them, but they do. And it is asinine in a man to know his wife could be made happy by a few words and to refuse to say them.

Revenue Officer Visits Deputy U. S. Collectors

Will M. Lucas, of the United States internal revenue office in New Orleans, is at the present time making a tour of the state, visiting deputy collectors in the various cities. He spent some time in Monroe Friday and Saturday in conference with Ralph Griffith, deputy internal revenue collector here.

He reported that collections are extremely slow, but anticipates that these will be speeded up within the next few days.

Mr. Griffith said Saturday that the office in the new federal building here will be open, starting March 1, from 8:30 a.m. to 4 p.m. each week day and extra help will be employed to aid taxpayers to prepare their income tax returns which must be received at the office not later than midnight on March 15.

GILLETTE TIRES ARE GUARANTEED

Public Finds Exceptional Service In Super Traction Balloons

Automobile owners who find it necessary to purchase new tires should visit the Louisiana Tire and Salvage company, local distributors for Gillette tires. These tires have become a sensation with the motoring public, which has come to realize that Gillettes are economy in the long run, what with their long wear and dependability.

The Gillette Super Traction balloon tire is truly the ideal tire for driving in all kinds of weather and under all sorts of road conditions, according to J. L. Hanchey, head of the Louisiana Tire and Salvage company, distributors of this line of dependable tires.

The Gillette Super Traction balloon is designed for all weather, all year around driving. It possesses the essential quality of extreme flexibility, together with a strongly constructed carcass. The tread has been designed to give easy riding quality and at the same time safety under all road conditions.

Gillette engineers have, for several years, realized the importance of a tire that would eliminate the use of chains. Everyone knows the difficulties that are encountered with chains, their short service, the large cost of operating them and the trouble.

After 18 months of experimental work, Gillette engineers have produced this outstanding tire. It is easy riding, too, because of the large amount of cushion in the knobs. Whether you ride on concrete or surfaced roads, ice, mud or sand, you have the same easy riding quality plus traction greater than any chain can give you, Mr. Hanchey said. Added to this is an outstanding carcass of six plies of finest cord and the reputation of a company established as builders of the famous Gillette and Ambassador galloons.

Every Gillette Super Traction balloon is warranted against defects in material and workmanship during its life to the extent that if it fails because of such defects, the Louisiana Tire and Salvage company will either repair it or make reasonable allowance on the purchase of a new one.

There are other tires in the Gillette line that are outstanding examples of tire manufacture. Mr. Hanchey assures motorists that it will be to their advantage to inspect the Gillette line before purchasing their tire and tube needs. The Louisiana Tire and Salvage company is located at 2205 DeSiard street.

TEST SUIT FILED ON RAIL PROBLEM

BATON ROUGE, La., Feb. 24.—(AP)—An amicable test suit to determine whether the Louisiana highway commission can legally permit railroads to use the proposed Baton Rouge Mississippi river bridge was filed in local district court today by Attorney General Gaston L. Porterie at suggestion of New York bond attorneys and the public works administration.

The highway commission, the state highway advisory board, the governor, the state treasurer, and the state auditor were named in the action.

The public works administration approved a combination loan and grant of $7,000,000 to defray the bridge construction cost after the highway commission pledged $5,000,000 of bonds of the general $75,000,000 road and bridge issue as primary security.

The commission plans to retire the indebtedness by collecting railroad crossing tolls, but because of absence of specific constitutional authority for railroad use of the bridge the bond attorneys recommended a court decision for clarification.

COMPLETE STOCK AT FERD LEVI'S

Pioneer Stationery Store Established More Than 20 Years

Ferd Levi Stationery company, located at 107 DeSiard street, is the pioneer book, stationery and office supply company of the Twin Cities. The company was established here more than 20 years ago.

From a small beginning, the Ferd Levi Stationery company developed into one of the leading stores of its kind in north Louisiana. They carry a complete line of books for adults, as well as children. A modern and complete line of office equipment also is handled by this progressive concern.

One of the principal features of the store is the circulating rental library. To become a member of this library it is only necessary that one register, as there is no membership fee. The rental fee is 15 cents for five days, with a charge of three cents per day thereafter. This is the only expense attached to the plan. Of course, those who have no account are required to make a deposit of $1.00, which is refunded when one wishes to discontinue renting books from the library.

Ferd Levi Stationery company also has a complete toy department, which is operated the year 'round. They invite residents of this section to drop in anytime, as a welcome awaits you at Ferd Levi's, whether you make a purchase or not.

The store is operated by Ferd Levi and his son, Bernard Levi. Remember the address: 107 DeSiard street, on the corner of Walnut. You will find courteous, friendly service awaiting you.

NRA REGULATORY GROUP IS URGED

A letter has just been received here at NRA headquarters from the national retail code authority in Washington, D. C., urging that representatives of the various divisions of retail trade, governed by the provisions of the code, get together and name a group which will have full and complete regulatory authority.

"We are very much concerned," the letter stated, "because we have not had a new application from you for a local retail code authority in your city. We, ourselves, in Washington, are the first to admit that our original instructions in regard to the organization of local retail code authorities were very inadequate and inevitably confusing to many persons who failed to have the opportunity of close contact with the developments under NRA. Our statement that we could not grant your authority on the basis of your original application, was in no way critical. We urge you to take immediate action to complete the organization in your city at once."

It was stated Saturday that in all probability a meeting will be called of all local retailers here for the purpose of forming the group desired.

The NRA authorities require that each city set up this code authority to hear all complaints and generally to supervise the enforcement of the various provisions.

NEW TREATMENT AT PILCHER SHOP

Admiracion Banishes Hair And Scalp Ailments Miraculously

Residents of this section who are suffering from scalp and hair ailments are urged to call at the Pilcher Barber shop, across from the Paramount theater, and get one of the famous Admiracion DeLuxe treatments. This is a very extraordinary scalp and hair treatment which is a new therapeutic cleanser.

The Admiracion method is the very latest in shampooing the scalp and hair. It contains no soap whatever and therefore leaves the hair with the same nourishment which was produced by the scalp before shampooing.

If your hair is dry and brittle, caused from lack of nourishment which dandruff takes from your scalp, you are urged to investigate this new Admiracion DeLuxe treatment at Pilcher's Barber shop. This method will be found to be unusually beneficial to the scalp.

The Pilcher Barber shop was recently opened across from the Paramount theater by J. O. Pilcher and the shop has enjoyed excellent patronage since its opening. Courteous service is always obtainable at this modern, sanitary shop, and experienced, skilled barbers are anxious to serve you.

NEW PLYMOUTH IS SHOWN HERE

Monroe Automobile And Supply Co., Displays Fine New Cars

The new Plymouth line for 1934 which created such a sensation at the automobile shows, is on display here at the Monroe Automobile and Supply company, Walnut and Washington streets. The new Plymouth cars climax a meteoric rise in popularity during which Plymouth sales have more than doubled in just the past year.

Introducing radical new improvements and smart new styling to the low price field, the new cars are the Plymouth six and the new De Luke Plymouth. The De Luxe model has all of the improvements of its lower priced companion car, plus additional De Luke features.

The new Plymouths have even greater performance, remarkable riding comfort, and many innovations never before found in motor cars in their price class.

They have a new type of individual front wheel springing with coil springs of a new alloy steel declared to be practically unbreakable under prolonged tests; more powerful 77 horsepower motors with floating power engine mountings; smart new bodies of low, rakish design; new interiors with luxurious trim, and many other style and mechanical advantages.

The new Plymouth six and the new De Luke Plymouth retain all of their basic Chrysler motors engineering features, including hydraulic, self-equalizing brakes and new safety-steel bodies reinforced with steel.

The new Plymouth six is offered in four attractive body styles—the business coupe at $495; the two-door sedan at $535; the rumble seat coupe at $545 and the four-door sedan at $585. Wheelbase is 108 inches. Overall length is 180 inches.

The new De Luke Plymouth six is announced in five smart body styles—the business coupe at $575; the two-door sedan at $595; the rumble seat coupe at $615; the four-door sedan at $650 and the convertible coupe at $660. Wheelbase is 114 inches. Overall length is 186 inches.

In announcing the new Plymouth line, B. E. Hutchinson, chairman of the board of the Plymouth Motor corporation, declared:

"The new Plymouths for 1934 represent achievement of Chrysler motors engineers in the field of low priced motor cars. These new Plymouths have every mechanical advantage found in the past on our highest priced Chrysler motors cars. We believe that the new Plymouth sixes will be enthusiastically received by the motoring public which, during the year just passed, has accorded Plymouth the greatest sales increases in the low price field."

Campaign To Lessen Fire Hazards Begun

Some time ago the Boy Scouts of America requested the national board of fire underwriters to provide them with material on fire prevention with which to instruct their members. The result was a 65-page book entitled "Firemanship," for merit badge examinations. Over 60,000 Boy Scouts use it in preparing for tests each year, according to Ed Seymour, of the Seymour Insurance Agency, Bernhardt building.

It would be an excellent idea if a national program was started to acquaint children of all ages with the hazards of fire, and how to do away with them. Fire is one of the most serious of problems. It touches every life, every piece of property. It menaces us all. It inflates taxes, destroys jobs and investments and business opportunities. Many cases are on record where a single great fire has so devastated a community that many years were required to recover from it.

The schools have, in recent years, almost universally included accident prevention work in their curricula. They have instructed children in proper conduct on streets and highways, in the home, at play—wherever carelessness or ignorance might cause an accident. The consequence has been a great reduction in the number of deaths and injuries among children of school age. The same thing should be done in the case of fire. It would be simple, inexpensive and enormously effective. In due course of time, it would create a people who were congenitally awake to fire dangers and how to cope with them.

LUDLUM IS DUCO REPRESENTATIVE

Local Paint Shop Specializes In Wreck Job; Prices Reasonable

Wreck jobs are a specialty with the authorized Duco paint shop here. Automobiles which are wrecked may be made to look like new, and the cost is surprisingly small.

Automobile owners who are unable to buy a new car may have their old car painted by the same process that is used at the factory and the job, done right here in Monroe, gives the car an appearance that is hard to tell from a new automobile.

C. V. Ludlum, who opertes an authorized Duco shop at 310 North Third street, will be glad to furnish an estimate of just what the job will cost. You will be surprised at the low price of a genuine Duco job.

Motorists who have put off having that paint job done are urged to see Mr. Ludlum at once. It's very much to their advantage to have the car's finish renewed right now.

For complete recoloring or the touching up of worn spots, prices are lower than they ever have been, or may ever be again. And at Ludlum's Duco shop, you get the job done with genuine Duco, with the same Duco the makers put on your car.

Automobile owners are invited to drop in at Ludlum's for an estimate or to take advantage of this special price offer.

The telephone number at Ludlum's Duco shop is 3027, the address 310 North Third street.

NRA REGULATORY GROUP IS URGED

A letter has just been received here at NRA headquarters from the national retail code authority in Washington, D. C., urging that representatives of the various divisions of retail trade, governed by the provisions of the code, get together and name a group which will have full and complete regulatory authority.

"We are very much concerned," the letter stated, "because we have not had a new application from you for a local retail code authority in your city. We, ourselves, in Washington, are the first to admit that our original instructions in regard to the organization of local retail code authorities were very inadequate and inevitably confusing to many persons who failed to have the opportunity of close contact with the developments under NRA. Our statement that we could not grant your authority on the basis of your original application, was in no way critical. We urge you to take immediate action to complete the organization in your city at once."

It was stated Saturday that in all probability a meeting will be called of all local retailers here for the purpose of forming the group desired.

The NRA authorities require that each city set up this code authority to hear all complaints and generally to supervise the enforcement of the various provisions.

NEW TREATMENT AT PILCHER SHOP

Admiracion Banishes Hair And Scalp Ailments Miraculously

Residents of this section who are suffering from scalp and hair ailments are urged to call at the Pilcher Barber shop, across from the Paramount theater, and get one of the famous Admiracion DeLuxe treatments. This is a very extraordinary scalp and hair treatment which is a new therapeutic cleanser.

The Admiracion method is the very latest in shampooing the scalp and hair. It contains no soap whatever and therefore leaves the hair with the same nourishment which was produced by the scalp before shampooing.

If your hair is dry and brittle, caused from lack of nourishment which dandruff takes from your scalp, you are urged to investigate this new Admiracion DeLuxe treatment at Pilcher's Barber shop. This method will be found to be unusually beneficial to the scalp.

The Pilcher Barber shop was recently opened across from the Paramount theater by J. O. Pilcher and the shop has enjoyed excellent patronage since its opening. Courteous service is always obtainable at this modern, sanitary shop, and experienced, skilled barbers are anxious to serve you.

NEW PLYMOUTH IS SHOWN HERE

Monroe Automobile And Supply Co., Displays Fine New Cars

The new Plymouth line for 1934 which created such a sensation at the automobile shows, is on display here at the Monroe Automobile and Supply company, Walnut and Washington streets. The new Plymouth cars climax a meteoric rise in popularity during which Plymouth sales have more than doubled in just the past year.

Introducing radical new improvements and smart new styling to the low price field, the new cars are the Plymouth six and the new De Luke Plymouth. The De Luxe model has all of the improvements of its lower priced companion car, plus additional De Luke features.

The new Plymouths have even greater performance, remarkable riding comfort, and many innovations never before found in motor cars in their price class.

They have a new type of individual front wheel springing with coil springs of a new alloy steel declared to be practically unbreakable under prolonged tests; more powerful 77 horsepower motors with floating power engine mountings; smart new bodies of low, rakish design; new interiors with luxurious trim, and many other style and mechanical advantages.

The new Plymouth six and the new De Luke Plymouth retain all of their basic Chrysler motors engineering features, including hydraulic, self-equalizing brakes and new safety-steel bodies reinforced with steel.

The new Plymouth six is offered in four attractive body styles—the business coupe at $495; the two-door sedan at $535; the rumble seat coupe at $545 and the four-door sedan at $585. Wheelbase is 108 inches. Overall length is 180 inches.

The new De Luke Plymouth six is announced in five smart body styles—the business coupe at $575; the two-door sedan at $595; the rumble seat coupe at $615; the four-door sedan at $650 and the convertible coupe at $660. Wheelbase is 114 inches. Overall length is 186 inches.

In announcing the new Plymouth line, B. E. Hutchinson, chairman of the board of the Plymouth Motor corporation, declared:

"The new Plymouths for 1934 represent achievement of Chrysler motors engineers in the field of low priced motor cars. These new Plymouths have every mechanical advantage found in the past on our highest priced Chrysler motors cars. We believe that the new Plymouth sixes will be enthusiastically received by the motoring public which, during the year just passed, has accorded Plymouth the greatest sales increases in the low price field."

Campaign To Lessen Fire Hazards Begun

Some time ago the Boy Scouts of America requested the national board of fire underwriters to provide them with material on fire prevention with which to instruct their members. The result was a 65-page book entitled "Firemanship," for merit badge examinations. Over 60,000 Boy Scouts use it in preparing for tests each year, according to Ed Seymour, of the Seymour Insurance Agency, Bernhardt building.

It would be an excellent idea if a national program was started to acquaint children of all ages with the hazards of fire, and how to do away with them. Fire is one of the most serious of problems. It touches every life, every piece of property. It menaces us all. It inflates taxes, destroys jobs and investments and business opportunities. Many cases are on record where a single great fire has so devastated a community that many years were required to recover from it.

The schools have, in recent years, almost universally included accident prevention work in their curricula. They have instructed children in proper conduct on streets and highways, in the home, at play—wherever carelessness or ignorance might cause an accident. The consequence has been a great reduction in the number of deaths and injuries among children of school age. The same thing should be done in the case of fire. It would be simple, inexpensive and enormously effective. In due course of time, it would create a people who were congenitally awake to fire dangers and how to cope with them.

LUDLUM IS DUCO REPRESENTATIVE

Local Paint Shop Specializes In Wreck Job; Prices Reasonable

Wreck jobs are a specialty with the authorized Duco paint shop here. Automobiles which are wrecked may be made to look like new, and the cost is surprisingly small.

Automobile owners who are unable to buy a new car may have their old car painted by the same process that is used at the factory and the job, done right here in Monroe, gives the car an appearance that is hard to tell from a new automobile.

C. V. Ludlum, who opertes an authorized Duco shop at 310 North Third street, will be glad to furnish an estimate of just what the job will cost. You will be surprised at the low price of a genuine Duco job.

Motorists who have put off having that paint job done are urged to see Mr. Ludlum at once. It's very much to their advantage to have the car's finish renewed right now.

For complete recoloring or the touching up of worn spots, prices are lower than they ever have been, or may ever be again. And at Ludlum's Duco shop, you get the job done with genuine Duco, with the same Duco the makers put on your car.

Automobile owners are invited to drop in at Ludlum's for an estimate or to take advantage of this special price offer.

The telephone number at Ludlum's Duco shop is 3027, the address 310 North Third street.

L. S. U., KENTUCKY UPSET IN CONFERENCE TOURNEY

VOLS RALLY AND OVERCOME EARLY LOUISIANA LEAD

Florida Surprises With Win Over Wildcats; 'Bama, Vandy Win

By Dillon Graham
(Associated Press Sports Writer)

ATLANTA Ga., Feb. 24.—(AP)—A pair of favorites—Kentucky and Louisiana State—picked by many to battle for the championship, were ushered out of the southeastern conference basketball tournament in the second round today in amazing upsets.

Kentucky, the defending champion, was beaten by Florida 38 to 32, and Louisiana State, the highest scoring team in the conference during the past season, was upset by Tennessee 42 to 35.

Only Alabama and Vanderbilt of the four seeded teams slipped safely by this day of upheavals, Alabama, experimenting with a new lineup, outpointed Mississippi State college 37 to 25 while Vanderbilt turned back Georgia 46 to 29.

Monday night in the semi-finals Tennessee plays Alabama at 8 o'clock and Florida tackles Vanderbilt an hour later.

It was a strange day of play that saw both of last year's finalists, Kentucky and Mississippi State, fade out, and curiously enough, at the hands of the same teams they eliminated a season ago. L. S. U. also was whipped by a club it had traveled past in 1933.

Florida's triumph over Kentucky likely was the biggest surprise of all. But the Gators took charge of the game in its early stages and were out front most of the way. It was the second time in three years that Florida has drawn—and—beaten a defending titleholder in its first contest. In 1932 the Gators beat Maryland in a stunning upset.

Sam Phillips, a husky six-footer, personally engineered the Tennessee offensive that pushed the Louisianians out of the running. The Volunteers were trailing by nine points at the intermission but within two minutes after the final period began Tennessee had tied the score and Phillips had rung seven of the counters.

It was this single handed rally that set the fuse to the Tennessee attack and drove the Volunteers, apparently destined for defeat on the basis of their first half showing, out in front to a safe margin. Phillips totaled 12 points before he was sent out on excessive personal fouls.

Tonight was just not Louisiana's night to find baskets. The usually rapid scoring Tigers were hitting the backboard as often as has been their custom all last season but the ball was evading the goal Malcolm (Sparky) Wade, the loquacious, clownish little guard who was the conference's highest scorer, kept the crowd roaring for a while with his antics and accumulated 14 points but most of his long, daring shots were far wide. Blair, L. S. U., forward, limited most of his attempts to distant throws, making only a small percentage of his tries.

Tennessee was out front during the opening minutes but Wade, ringing five points in quick order, pushed the Tigers ahead and they found the range for a short time to run up a 22 to 13 lead at the half.

After Phillips' personal rampage had vaulted Tennessee to the fore, the tallying became rapid on both sides until the score stood 34 to 30 in favor of Tennessee. McPherson scored two field goals and Phillips one and the Volunteers had a seven-point lead which they maintained to the end.

The L. S. U.-Tennessee box score:

La. State (35)	G.	F.	TP.
Blair, f	4	0	8
Harris, f	2	5	9
Torrance, c	1	1	3
Burge, c	0	1	1
Wade, g	4	6	14
Journeay, g	0	0	0
Lindsay, g	0	0	0
Totals	11	13	35

Tennessee (42)	G.	F.	TP.
McPherson, f	5	0	10
Kirk, f	1	1	3
Phillips, f	5	2	12
Stafford, c	1	3	5
Anderson, c	2	2	6
Hendrickson, g	1	0	2
Felts, g	2	0	4
Foster, g	0	0	0
Crumbliss, g	0	0	0
Totals	17	8	42

Halftime score: Louisiana State 22; Tennessee 13.

Free throws missed: Wade, Kirk, Phillips 3, Anderson, Felts.

Referee: Hackney; umpire: Chest.

Vanderbilt had little trouble with Georgia, running up a 20 to 4 count on the Bulldogs in the first 10 minutes of play and always keeping at least 10 points ahead.

The Florida team, led by a pair of football aces, Shearer, and Hughes, lacked the polish of Kentucky but made up for any absence of finesse by their fighting spirit. Thrown against the favorite in the first round and accorded little change against this big Blue team which had not lost a single game to any opponent this season, Florida threw caution and safe playing aside and took the battle to their foes.

After Florida had rung up a 15 to 8 lead, the Kentuckians apparently realizing their opponent stronger than they had anticipated, came to life and flashed their championship brand of ball to come within a point of the 'Gators at half time.

The lead see-sawed back and forth all through the last period with first

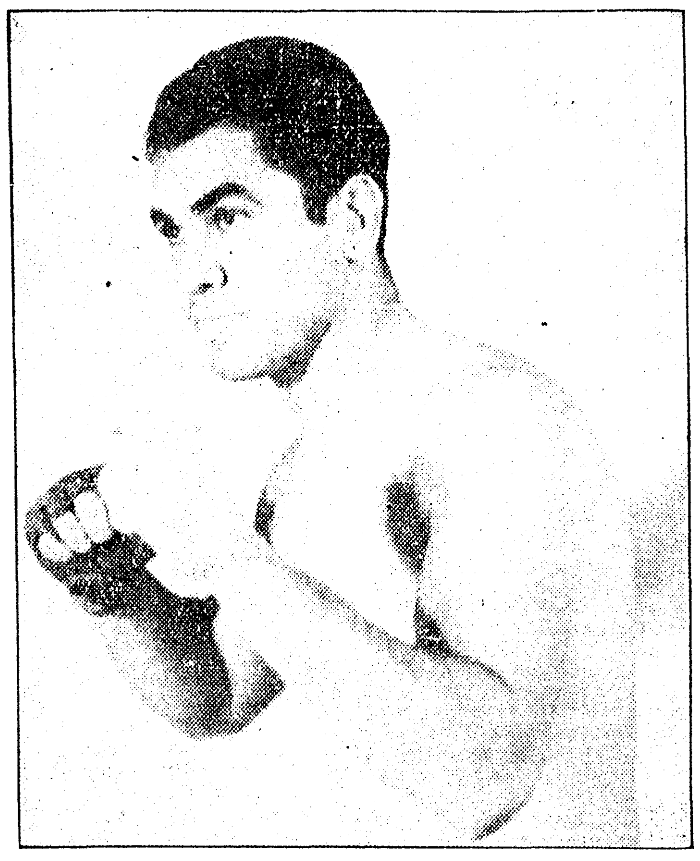
DUNN FIGHTS HERE TUESDAY



Wildman Wilson Dunn, sensational Choctaw Indian light heavyweight, will be seen in action at Roosevelt stadium Tuesday night when he meets Phil Thompson, of Atlanta, in the main event of a professional boxing show. Dunn, above, recently held Maxie Rosenbloom, light heavyweight champion, to a draw and is considered a contender for the title.

Dunn And Thompson Meet In Main Event Tuesday

Wild Indian Fights Georgia Light Heavy On Stadium Card

Wildman Wilson Dunn, light heavyweight sensation from Ponca City, Okla., will meet Phil Thompson, 170, of Atlanta, instead of Buster Barkley in the main event of the professional boxing show to be presented at Roosevelt stadium next Tuesday night. Barkley was injured in a bout at Shreveport Friday night and Thompson was secured as a substitute.

Dunn, an unorthodox fighter who swings equally effective with both fists, has been hard to stop lately. Recently he gained a draw with Maxie Rosenbloom, light heavyweight champion of the world. After winning a knockout victory at Dallas Thursday night, he journeyed to Shreveport and gained a well-earned decision over "Cyclone" Smith in a free swinging battle.

Dunn, a Choctaw Indian, has turned in some sensational victories throughout the southwest and he is now considered a logical challenger for Rosenbloom's light heavyweight title. He is a slam-bang type of fighter, boring in wide open with both arms swinging, and has become a great favorite with fistic fans throughout the southwest.

Thompson has a good record. He will be spotting Dunn some three pounds, but his backers claim he can stand the pace with the Indian. In fact, Thompson is said to be hankering for a chance to hang a defeat on Dunn, and Tuesday night's battle should produce plenty of action.

In all, 24 rounds of boxing, plus an exhibition between two negro battlers, will be offered, V. C. Bruscato, stadium owner, has announced. In the semi-final bout of eight rounds, Gyp Zarro, Pittsburgh star who weighs 161 pounds, will meet Tony Falletta, 167, of Monroe. Zarro has won some bouts with good boys, including a knockout over Gus Campbell and decisions over Babe Kiser, Kid Granite and Bill McDowell. Falletta has been inactive for some five months but before he hung up his gloves, he knocked out Olin Bell, Bobby Brown, Maxie Brown, Burk Smith and Billy Martin, and gained decisions over Maxie Brown and Charles Montgomery.

In a six-round "special," Johnny Wallace, formerly of Monroe but now registering out of Dallas, tackles Phil Latona, of Denison, Texas. They are junior lightweights.

All but Thompson will stage public workouts today at 3 o'clock for fans who care to visit the stadium. Dunn, Zarro, Falletta, Wallace and Latona will be on hand to go through their paces.

With reduced admission prices in effect, a large crowd is expected to turn out for the show.

Southern Methodist Five Trims Rice Owls, 36 To 30

DALLAS, Texas, Feb. 24.—(AP)—By trouncing the Rice institute Owls here tonight, 36 to 30, the Southern Methodist Mustangs cinched the Southwest conference basketball championship for the Texas Christian university Horned Frogs. The Owls were the only team that had a chance to beat Texas Christian out of the title.

The Mustangs tonight took a lead midway in the first half and from then on they never were in serious danger. They led at the half, 19 to 14.

Whitey Baccus, all-conference guard, led the scoring with 11 points. A teammate, Wilhite, made ten. Journeay led the Owl scorers with nine points.

M'GRAW SUFFERS SUDDEN RELAPSE

Veteran Baseball Leader Not Expected To Live Through Night

NEW ROCHELLE, N. Y., Feb. 24.—(AP)—John McGraw, veteran baseball leader, suffered a relapse tonight and officials at New Rochelle hospital said his condition was extremely grave.

McGraw, stricken with uremic poisoning some days ago, apparently was making a rapid recovery when his condition took a sudden turn for the worse early this evening.

Hospital attendants said the former manager of the New York Giants was in a critical condition.

McGraw was taken to the hospital a week ago Friday night.

Mrs. McGraw was summoned to the hospital from her home in Pelham Manor.

Dr. Louis B. Chapman and Dr. E. L. Kellogg were in attendance.

Reports that could not immediately be checked said McGraw had fallen into a coma and that it was doubtful whether he would live through the night.

Last Saturday night his condition was so grave that the last rites of the Catholic church were administered. He was critically ill for three days but showed steady improvement thereafter until his relapse tonight.

Texas Aggies Win From Baylor Quintet, 34-32

WACO, Texas, Feb. 24.—(AP)—The Texas Aggies piled up a wide lead on the Baylor Bears in the first half of their Southwest conference basketball game here tonight and overcame a determined Baylor rally in the second half to win, 34 to 32. The Aggies led, 20 to 12, at halftime.

It was the last conference home game for the Bears this season.

Joe Merka, towering Aggie center, actually won the game for the College Station team. In the final minute of play, after he had been held without a single field goal up to that point in the second half, he dropped in a long one from the side lines. This was the killing stroke and when Wilkins arched another long one from the center of the court, the Aggies had a one point lead. The game ended just as Shepherd scored a free throw.

PRINCIPALS NEAR END OF TRAINING FOR TITLE BOUT

Miami Finally Becomes Convinced Bout Really Will Be Held

By Edward J. Neil
(Associated Press Sports Writer)

MIAMI, Fla., Feb. 24.—(AP)—Slowly but surely the impression is spreading about the Miami playground that there's to be a world heavyweight championship fight Wednesday night with Primo Carnera, the Genoa giant, defending his title against little Tommy Loughran.

The horse show at the fashionable Miami Biltmore, which was given as the reason for postponing the match from February 22 to February 28, is ending, thus leaving the fight situation with little opposition.

So with the skeptics who predicted the fight never would take place, fairly well downed, the fighters have come to the close of their training routines, Leo Shea has been named referee, people are buying tickets cautiously, despite the fact that Miami is crowded as never before in its history, with every train unloading fresh bundles of passengers on hotels already bulging, there seems no prospect that the gate receipts will exceed $100,000.

Miami, for some reason or another, doesn't seem to be entertaining fight people among the throngs crowding the horse and dog tracks, the streets and the beaches. Attendance has been slim daily at the workouts of the champion out on the end of a big cement amusement pier at South Beach. Loughran, training at West Palm Beach, has had no thought for anything but attaining the peak condition of his fifteen-year ring career.

Apparently the veteran from Philadelphia, long one of the finest boxers in the ring, has reached his goal. At 31 he appears faster, more skillful than he has for years.

The impression of the experts who have watched both train is that Loughran's chances have been decidedly under-estimated and Carnera's tremendous physical adventages over-emphasized. The mammoth Italian hasn't looked good at all in his workouts. His sparring partners are very ordinary light-heavyweights with none of Loughran's skill. He belts them around freely, but against a better grade of competition, Primo floundered.

Just the same, the supposed invincibility of the man mountain who fell on Jack Sharkey last summer and removed him from the heavyweight title in six rounds is such that Carnera remains a favorite at 2 1-2 to 3 to 1.

Both will finish heavy training tomorrow with only light work Monday and Tuesday. Loughran is coming over from West Palm Beach to work out in the Garden stadium, in the ring where the match will be held.

The bouts will not be broadcast.

'Blondy' Ryan's Father Commits Suicide At Lynn

LYNN, Mass., Feb. 24.—(AP)—Patrolman Thomas F. Ryan, 54, father of John "Blondy" Ryan, New York Giants shortstop and hero of the last world series, committed suicide tonight in the home his son gave him last fall. The elder Ryan was found slumped in a chair, a bullet through his head, by his wife, who heard a pistol shot.

Fellow officers at first attributed his death to an accident but Medical Examiner Nathaniel P. Breed pronounced him a suicide.

Blondy Ryan is with his teammates in Miami, Fla. A daughter, Frances, Ryan's only other child, is at home.

Five weeks ago Ryan sustained several broken ribs while making an arrest, and after being absent from duty for two weeks, returned only to suffer further injuries in a fall at his home. In addition, he had suffered from heart trouble.

The elder Ryan shared honors with his famous son last fall when the entire city feted the returning hero of the world series. It was shortly after the conclusion of the series that Blondy announced he had presented his father and mother with a new home at a reputed cost of $7,500.

RIGID ELIGIBILITY RULES APPROVED

Southern Conference Also Votes Not To Increase Membership

UNIVERSITY, Va., Feb. 24.—(AP)—The Southern conference decided today to hold fast to its rigid eligibility requirements for participation in intercollegiate athletics and to stand pat on its present enrollment of ten members.

In executive session the body decided to retain the 24 semester hour eligibility rule but postponed its application until the next meeting is held in Richmond in December.

Led by representatives of Washington and Lee and the University of Virginia, opponents of the 24-hour requirement urged that individual schools be given wider latitude in determining their own eligibility requirements.

Recommendations to strike out the 24 semester hour provision and to permit broadcasting of football games in conference territory were among suggestions brought in by the subcommittee named to recodify the constitution and by-laws, but they were killed by the conference.

Two significant actions were taken by the conference. One ruled that no student shall participate in boxing matches where admission is paid either directly or indirectly except as a representative of the institution in which he is enrolled as a student. An exception was made to permit students to compete in national championship trials.

Another recommendation by the committee redrafting by-laws and adopted by the conference eliminated the section prohibiting members of the conference from engaging in post-season football games without consent of the conference.

Forest Fletcher, of Washington and Lee, was elected president to succeed C. P. Miles. A. W. Hobbs, of North Carolina, was chosen vice president and Colonel William Couper, of V. M. I., was named secretary-treasurer.

Disappointing to schools in several southern states was the decision of the conference not to accept additional members this year.

Proposals to abolish spring football in the Southern conference apparently were lost in the shuffle, and the matter did not come up for final disposition at the last conference session.

Schmidt May Become Head Grid Coach At Ohio State

Texas Christian Mentor Admits Negotiations Have Been Opened

FORT WORTH, Texas, Feb. 24.—(AP)—Texas Christian university may lose her head athletic coach, Francis A. Schmidt.

Ohio State is negotiating with him relative to his taking the position left open by the resignation of S. S. Willaman, football coach.

A report reached Fort Worth that the Big Ten Buckeye school at Columbus, Ohio, was dickering with the man who had led the Horned Frogs in football and basketball since the fall of 1929. When informed of the report Schmidt admitted it is true.

"I don't know what to say. I didn't know anybody knew anything about it," he said. "I don't know whether they want anything said about it or not."

Asked if he would make a trip to Columbus to look over the 15,000 student university and confer with those in charge of employing a new coach, Schmidt replied:

"I don't know yet. What I am most interested in right now is getting this basketball season over and I won't do anything until our last game is played."

Except to confirm the report of the negotiations he declined to discuss the possibilities of his going to Ohio. He wouldn't say what the negotiations have been, whether he had been made an offer, or if he is one of several being considered for the post.

Schmidt came to T. C. U. from Arkansas university in 1929 after Madison Bell resigned to become athletic director at Texas A. and M. Before going to Arkansas, where he served seven years, Schmidt coached at Henry Kendall college (now Tulsa university) and at high schools in his native Nebraska. He is a graduate of Nebraska university, where he was a fullback in his football days.

FRANCIS SCHMIDT

During his five seasons at Texas Christian university Schmidt has won two football championships and made by far the best record in the southwest. His teams have won 45 games, tied six and lost five. His basketball teams have been just as successful.

SHUTE, RUNYAN IN TIE AT TAMPA

Both Post Par Shattering Scores Of 135 In Qualifying Round

PALMA CEIA, TAMPA, Fla., Feb. 24.—(AP)—Denny Shute of Miami, and Paul Runyan of West Chester, N. Y., established today an apparent monopoly in the $2,000 Gasparilla open by tying for medalist honors in the 36-hole qualifying round with par shattering scores of 135.

Shute, the British open champion and winner of the Gasparilla tournament last year, toured the Palma Ceia course today in 35-33—68, two strokes under par, which, with his 67 of the previous day, gave him a five stroke leeway on Old Man Par.

Runyan, one of the leading money winners of the winter campaign and the 1932 Gasparilla champion, who took the course apart yesterday with 66, brought home a 35-34—69 today.

Willie MacFarlane, the veteran Scot from Tuckahoe, N. Y., trailed the two leaders by the slender margin of a blown 18-inch putt on the final hole of the qualifying round. He posted 66-34-36—70—136.

Horton Smith of Oak Park, Ill., was in third place with 68-36-34—70—138, while a stroke behind came Dick Metz of Deal, N. J., with 69-35-35—139. Jimmy Hines, a dark horse from Long Island, N. Y., followed in sixth position with 71-36-33—69—140.

Harry Root, Jr., 19-year-old Tampa youngster, followed the precedent set by Shute, Runyan and MacFarlane by forging ahead in the battle for the amateur honors, which he won last year.

The tall, slender youngster posted 72-35-37—72—144, led seven amateurs into today's 36-hole finals and tied for tenth position among the pros.

Par escaped today the assault of the opening day, but five professionals did manage to slip the regulation figures a jolt. Al Watrous, veteran from Detroit, put together a 34 and 33 for a 67, three under par. This with his 74 of the previous round, enabled him to tie O. W. Beaupre of Detroit, and Joe Turnesa of Long Island, N. Y., for seventh with 141. Beaupre scored 67-35-39—74—141 and Turnesa 66-36-39—75—141.

Charlie Dressen Leaves For Giants Training Camp

HOUSTON, Texas, Feb. 24.—(AP)—Charlie Dressen, who had been confined to a hospital here since December 26 as a result of a severe attack of typhoid fever, left tonight for the New York Giants' spring training camp at Miami Beach, Fla.

Although still weak, Dressen was of the opinion that a half month of light exercising in the Florida sunshine would put him in shape to take charge of the Nashville baseball club of the Southern association when the Vols start training on March 15.

Dressen, who was with the Giants the latter part of last season, is slated to manage the Vols this year.

Before leaving the hospital Dressen paid a final visit to Gus Mancuso, the Giants' first string catcher, who is recovering from a mild attack of typhoid. Physicians attending Mancuso said his fever was "hanging on" but they believed he would be able to depart for Florida early next month.

McGraw's Curve-Ball Demonstration Wins Him $1

(EDITOR'S NOTE: This is the first of a series of four articles on the 40-year diamond career of John McGrew, whose years as player and manager of the New York Giants is one of the most colorful chapters in baseball history.)

By Bill Braucher
(NEA Service Sports Editor)

NEW YORK, Feb. 24.—It was a hot midsummer day in 1889. An accommodation train was pulling out of Truxton, N. Y. On the back platform stood a black-haired boy, waving.

As the town receded from view, the boy turned, picked up a basket and started through the aisle, calling, "Chewing gum, candy, magazines!"

The boy was John Joseph McGraw.

That was 45 years ago, and McGraw was 16 years old. Since then the slender boy fought his way to the very top of baseball and became a legend of the game as a player for the old Orioles and as manager of the New York Giants for 30 years.

An argument started in the smoking car. Some smart aleck of a drummer was trying to tell the folks that a man could throw a curve with a baseball. McGraw put his basket on a seat and listened. Finally he spoke up:

"I can throw a curve ball myself!"

They looked at him dubiously. One of the passengers possessed a sporting instinct.

"I'll bet $10 he can't," he challenged the crowd.

The bet was made, McGraw taking a dollar of it himself. The conductor took a part. So did the drummer.

At the next town the conductor stopped the train and the passengers assembled on a vacant lot. Three stakes were driven, 20 feet apart. McGraw had to prove his curve by making the ball go to the right of the middle stake and to the left of the third stake where a catcher was to stand.

The ball broke around the middle stake and sailed to the left of the last stake. The demonstration was conclusive. A man could make a baseball curve.

McGraw was younger and smaller than the other boys, weighing only 105 pounds. But he made up for it with fight. After he had pitched and won a few games around his home town, which was Truxton, he was offered a job on the Olean team of the Iron and Oil league. Besides his board he was to get $60 a month.

Because of his hitting and run-making ability, McGraw (he was then only 17) was placed at third base. He was not so successful as a fielder at first because of a tendnecy to throw wildly. But he studied and practiced.

Ambitious, he obtained his release at Olean and moved on to Wellsville in the Western New York league. The following season saw him tackling a job at Cedar Rapids, Iowa, in the Three-Eye league.

He met Henry Fabian at Cedar Rapids, and Fabian remained his friend through the years, McGraw's old teammate now being groundkeeper at the Polo Grounds. Says Fabian of those early days:

"McGraw was the cockiest kid that ever broke into a ball game. He was convinced he was a big leaguer right from the start. You just couldn't stop him."

Forty-three years ago a scout for the Baltimore Orioles was going through the bushes for talent. He saw McGraw and produced a pen and contract at once.

On August 22, 1892, little John McGraw, then 18, made his first appearance in the uniform of the Orioles, at Columbus, Ohio. It was a team destined to enact an everlastingly glorious part in the drama of baseball history.

NEXT: McGraw as a major leaguer.

COLLINSTON AND OAK GROVE WIN IN RUSTON MEET

Bastrop Beaten In Final For Girls Title; Kelly Also Loses

RUSTON, La., Feb. 24.—(Special)—The close of the annual north Louisiana high school cage tournament at La. Tech Saturday night witnessed a successful defense of title won here last year by Oak Grove in the boys division and new champion of the girls, with Collinston winning from Bastrop, 1933 champions.

Taking the floor for the first game, the two girls teams fought through four periods of thrilling action before Collinston emerged a 35-31 victor. Kelly weakened in their final tilt against the powerful Oak Grove quintet and dropped the game by a 39-6 score.

Many changes and ties resulted in the encounter between the finalists of the girls division. Bastrop led at the end of the first quarter 9 to 8, but Collinston forged ahead 20-15 by the half. Bastrop again held a one-point lead by a 27-26 count at the close of the third period but Collinston rallied at the close to win out. With the score tied 29-29, Jordan made a field goal to give the winners a lead and Hilburn counted two goals from field that cinched the game. McGraw of Bastrop was high point with 13 field markers and was the main offensive threat for Bastrop. Hilburn led the Collinston scorers with 15 points.

Showing the effects of a hard fight to the final round, Kelly played gamely against a superb Oak Grove five but was completely outclassed.

The first half of the game was fairly close, ending 16-6 but Kelly's shots were wide of the mark in the last half and they failed to register a point.

D. Rike, probably the individual star of the tourney, led scorers of this fray with a total of 19 points. Oak Grove played a smooth game through their tourney series and was considered one of the most powerful of all champions of the north Louisiana meet.

O. A. Garrett is coach of the winning Collinston team and B. F. Barron of Oak Grove.

In the morning semi-final round both defending champions, Oak Grove boys and Bastrop girls teams, won their way to the finals by easy victories.

Oak Grove won from Spearsville, 39 to 19, in the first semi-final game for boys. Oak Grove easily out classed their opponents from the start and held a 25-9 lead at the half. D. Rike, center for Oak Grove, led his team in scoring with 20 points.

Kelly, "dark horse" of the tourney, took a 26 to 23 decision over Ouachita parish in an overtime period of play in the second semi-final tilt. This game was close throughout and regarded by many as the outstanding contest of the meet. Kelly led 14-9 at the half, but Ouachita staged a rally and tied the score soon after the start of the second period. At the end of the regulation game the score was tied 21-21. In the play-off Kelly scored five points while the best Ouachita could do was to make one field goal.

L. S. U., KENTUCKY UPSET IN CONFERENCE TOURNEY

VOLS RALLY AND OVERCOME EARLY LOUISIANA LEAD

Florida Surprises With Win Over Wildcats; 'Bama, Vandy Win

By Dillon Graham
(Associated Press Sports Writer)

ATLANTA Ga., Feb. 24.—(AP)—A pair of favorites—Kentucky and Louisiana State—picked by many to battle for the championship, were ushered out of the southeastern conference basketball tournament in the second round today in amazing upsets.

Kentucky, the defending champion, was beaten by Florida 38 to 32, and Louisiana State, the highest scoring team in the conference during the past season, was upset by Tennessee 42 to 35.

Only Alabama and Vanderbilt of the four seeded teams slipped safely by this day of upheavals, Alabama, experimenting with a new lineup, outpointed Mississippi State college 37 to 25 while Vanderbilt turned back Georgia 46 to 29.

Monday night in the semi-finals Tennessee plays Alabama at 8 o'clock and Florida tackles Vanderbilt an hour later.

It was a strange day of play that saw both of last year's finalists, Kentucky and Mississippi State, fade out, and curiously enough, at the hands of the same teams they eliminated a season ago. L. S. U. also was whipped by a club it had traveled past in 1933.

Florida's triumph over Kentucky likely was the biggest surprise of all. But the Gators took charge of the game in its early stages and were out front most of the way. It was the second time in three years that Florida has drawn—and—beaten a defending titleholder in its first contest. In 1932 the Gators beat Maryland in a stunning upset.

Sam Phillips, a husky six-footer, personally engineered the Tennessee offensive that pushed the Louisianians out of the running. The Volunteers were trailing by nine points at the intermission but within two minutes after the final period began Tennessee had tied the score and Phillips had rung seven of the counters.

It was this single handed rally that set the fuse to the Tennessee attack and drove the Volunteers, apparently destined for defeat on the basis of their first half showing, out in front to a safe margin. Phillips totaled 12 points before he was sent out on excessive personal fouls.

Tonight was just not Louisiana's night to find baskets. The usually rapid scoring Tigers were hitting the backboard as often as has been their custom all last season but the ball was evading the goal. Malcolm (Sparky) Wade, the loquacious, clownish little guard who was the conference's highest scorer, kept the crowd roaring for a while with his antics and accumulated 14 points but most of his long, daring shots were far wide. Blair, L. S. U., forward, limited most of his attempts to distant throws, making only a small percentage of his tries.

Tennessee was out front during the opening minutes but Wade, ringing five points in quick order, pushed the Tigers ahead and they found the range for a short time to run up a 22 to 13 lead at the half.

After Phillips' personal rampage had vaulted Tennessee to the fore, the tallying became rapid on both sides until the score stood 34 to 30 in favor of Tennessee. McPherson scored two field goals and Phillips one and the Volunteers had a seven-point lead which they maintained to the end.

Halftime score: Louisiana State 22; Tennessee 13.

Free throws missed: Wade, Kirk, Phillips 3, Anderson, Felts.

Referee: Hackney; umpire: Chest.

Vanderbilt had little trouble with Georgia, running up a 20 to 4 count on the Bulldogs in the first 10 minutes of play and always keeping at least 10 points ahead.

The Florida team, led by a pair of football aces, Shearer, and Hughes, lacked the polish of Kentucky but made up for any absence of finesse by their fighting spirit. Thrown against the favorite in the first round and accorded little change against this big Blue team which had not lost a single game to any opponent this season, Florida threw caution and safe playing aside and took the battle to their foes.

After Florida had rung up a 15 to 8 lead, the Kentuckians apparently realizing their opponent stronger than they had anticipated, came to life and flashed their championship brand of ball to come within a point of the 'Gators at half time.

The lead see-sawed back and forth all through the last period with first

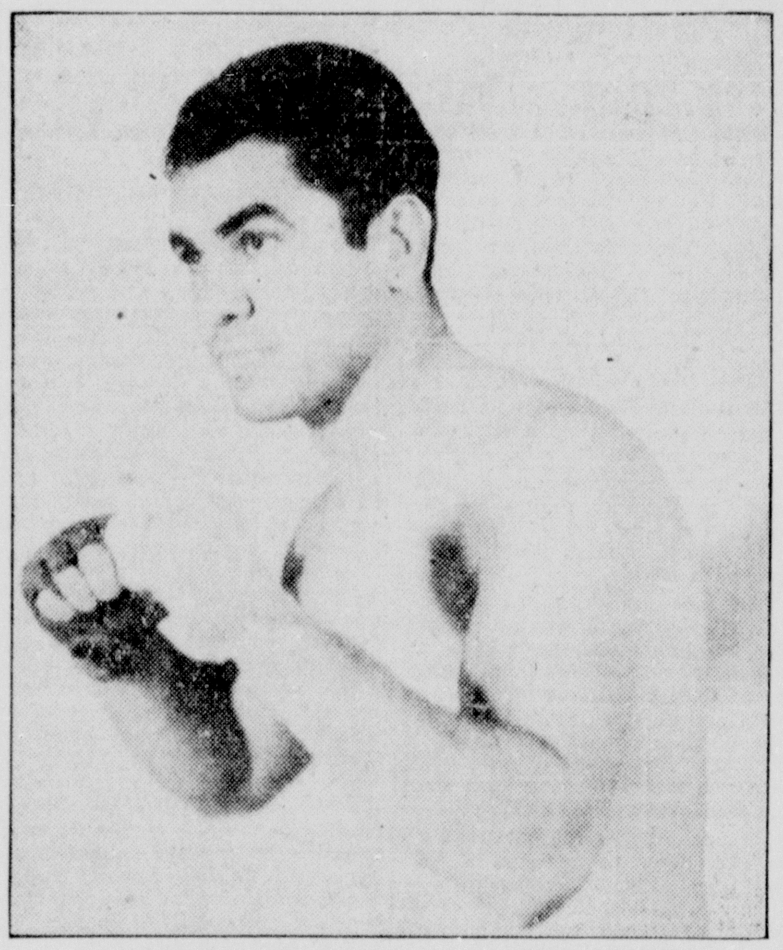
DUNN FIGHTS HERE TUESDAY



Wildman Wilson Dunn, sensational Choctaw Indian light heavyweight, will be seen in action at Roosevelt stadium Tuesday night when he meets Phil Thompson, of Atlanta, in the main event of a professional boxing show. Dunn, above, recently held Maxie Rosenbloom, light heavyweight champion, to a draw and is considered a contender for the title.

Dunn And Thompson Meet In Main Event Tuesday

Wild Indian Fights Georgia Light Heavy On Stadium Card

Wildman Wilson Dunn, light heavyweight sensation from Ponca City, Okla., will meet Phil Thompson, 170, of Atlanta, instead of Buster Barkley in the main event of the professional boxing show to be presented at Roosevelt stadium next Tuesday night. Barkley was injured in a bout at Shreveport Friday night and Thompson was secured as a substitute.

Dunn, an unorthodox fighter who swings equally effective with both fists, has been hard to stop lately. Recently he gained a draw with Maxie Rosenbloom, light heavyweight champion of the world. After winning a knockout victory at Dallas Thursday night, he journeyed to Shreveport and gained a well-earned decision over "Cyclone" Smith in a free swinging battle.

Dunn, a Choctaw Indian, has turned in some sensational victories throughout the southwest and he is now considered a logical challenger for Rosenbloom's light heavyweight title. He is a slam-bang type of fighter, boring in wide open with both arms swinging, and has become a great favorite with fistic fans throughout the southwest.

Thompson has a good record. He will be spotting Dunn some three pounds, but his backers claim he can stand the pace with the Indian. In fact, Thompson is said to be hankering for a chance to hang a defeat on Dunn, and Tuesday night's battle should produce plenty of action.

In all, 24 rounds of boxing, plus an exhibition between two negro battlers, will be offered, V. C. Bruscato, stadium owner, has announced. In the semi-final bout of eight rounds, Gyp Zarro, Pittsburgh star who weighs 161 pounds, will meet Tony Falletta, 167, of Monroe. Zarro has won some bouts with good boys, including a knockout over Gus Campbell and decisions over Babe Kiser, Kid Granite and Bill McDowell. Falletta has been inactive for some five months but before he hung up his gloves, he knocked out Olin Bell, Bobby Brown, Maxie Brown, Burk Smith and Billy Martin, and gained decisions over Maxie Brown and Charles Montgomery.

In a six-round "special," Johnny Wallace, formerly of Monroe but now registering out of Dallas, tackles Phil Latona, of Denison, Texas. They are junior lightweights.

All but Thompson will stage public workouts today at 3 o'clock for fans who care to visit the stadium. Dunn, Zarro, Falletta, Wallace and Latona will be on hand to go through their paces.

With reduced admission prices in effect, a large crowd is expected to turn out for the show.

Southern Methodist Five Trims Rice Owls, 36 To 30

DALLAS, Texas, Feb. 24.—(AP)—By trouncing the Rice institute Owls here tonight, 36 to 30, the Southern Methodist Mustangs cinched the Southwest conference basketball championship for the Texas Christian university Horned Frogs. The Owls were the only team that had a chance to beat Texas Christian out of the title.

The Mustangs tonight took a lead midway in the first half and from then on they never were in serious danger. They led at the half, 19 to 14.

Whitey Baccus, all-conference guard, led the scoring with 11 points. A teammate, Wilhite, made ten. Journeay led the Owl scorers with nine points.

M'GRAW SUFFERS SUDDEN RELAPSE

Veteran Baseball Leader Not Expected To Live Through Night

NEW ROCHELLE, N. Y., Feb. 24.—(AP)—John McGraw, veteran baseball leader, suffered a relapse tonight and officials at New Rochelle hospital said his condition was extremely grave.

McGraw, stricken with uremic poisoning some days ago, apparently was making a rapid recovery when his condition took a sudden turn for the worse early this evening.

Hospital attendants said the former manager of the New York Giants was in a critical condition.

McGraw was taken to the hospital a week ago Friday night.

Mrs. McGraw was summoned to the hospital from her home in Pelham Manor.

Dr. Louis B. Chapman and Dr. E. L. Kellogg were in attendance.

Reports that could not immediately be checked said McGraw had fallen into a coma and that it was doubtful whether he would live through the night.

Last Saturday night his condition was so grave that the last rites of the Catholic church were administered. He was critically ill for three days but showed steady improvement thereafter until his relapse tonight.

Texas Aggies Win From Baylor Quintet, 34-32

WACO, Texas, Feb. 24.—(AP)—The Texas Aggies piled up a wide lead on the Baylor Bears in the first half of their Southwest conference basketball game here tonight and overcame a determined Baylor rally in the second half to win, 34 to 32. The Aggies led, 20 to 12, at halftime.

It was the last conference home game for the Bears this season.

Joe Merka, towering Aggie center, actually won the game for the College Station team. In the final minute of play, after he had been held without a single field goal up to that point in the second half, he dropped in a long one from the side lines. This was the killing stroke and when Wilkins arched another long one from the center of the court, the Aggies had a one point lead. The game ended just as Shepherd scored a free throw.

PRINCIPALS NEAR END OF TRAINING FOR TITLE BOUT

Miami Finally Becomes Convinced Bout Really Will Be Held

By Edward J. Neil
(Associated Press Sports Writer)

MIAMI, Fla., Feb. 24.—(AP)—Slowly but surely the impression is spreading about the Miami playground that there's to be a world heavyweight championship fight Wednesday night with Primo Carnera, the Genoa giant, defending his title against little Tommy Loughran.

The horse show at the fashionable Miami Biltmore, which was given as the reason for postponing the match from February 22 to February 28, is ending, thus leaving the fight situation with little opposition.

So with the skeptics who predicted the fight never would take place, fairly well downed, the fighters have come to the close of their training routines, Leo Shea has been named referee, people are buying tickets cautiously, despite the fact that Miami is crowded as never before in its history, with every train unloading fresh bundles of passengers on hotels already bulging, there seems no prospect that the gate receipts will exceed $100,000.

Miami, for some reason or another, doesn't seem to be entertaining fight people among the throngs crowding the horse and dog tracks, the streets and the beaches. Attendance has been slim daily at the workouts of the champion out on the end of a big cement amusement pier at South Beach. Loughran, training at West Palm Beach, has had no thought for anything but attaining the peak condition of his fifteen-year ring career.

Apparently the veteran from Philadelphia, long one of the finest boxers in the ring, has reached his goal. At 31 he appears faster, more skillful than he has for years.

The impression of the experts who have watched both train is that Loughran's chances have been decidedly under-estimated and Carnera's tremendous physical adventages over-emphasized. The mammoth Italian hasn't looked good at all in his workouts. His sparring partners are very ordinary light-heavyweights with none of Loughran's skill. He belts them around freely, but against a better grade of competition, Primo floundered.

Just the same, the supposed invincibility of the man mountain who fell on Jack Sharkey last summer and removed him from the heavyweight title in six rounds is such that Carnera remains a favorite at 2 1-2 to 3 to 1.

Both will finish heavy training tomorrow with only light work Monday and Tuesday. Loughran is coming over from West Palm Beach to work out in the Garden stadium, in the ring where the match will be held.

The bouts will not be broadcast.

'Blondy' Ryan's Father Commits Suicide At Lynn

LYNN, Mass., Feb. 24.—(AP)—Patrolman Thomas F. Ryan, 54, father of John "Blondy" Ryan, New York Giants shortstop and hero of the last world series, committed suicide tonight in the home his son gave him last fall. The elder Ryan was found slumped in a chair, a bullet through his head, by his wife, who heard a pistol shot.

Fellow officers at first attributed his death to an accident but Medical Examiner Nathaniel P. Breed pronounced him a suicide.

Blondy Ryan is with his teammates in Miami, Fla. A daughter, Frances, Ryan's only other child, is at home.

Five weeks ago Ryan sustained several broken ribs while making an arrest, and after being absent from duty for two weeks, returned only to suffer further injuries in a fall at his home. In addition, he had suffered from heart trouble.

The elder Ryan shared honors with his famous son last fall when the entire city feted the returning hero of the world series. It was shortly after the conclusion of the series that Blondy announced he had presented his father and mother with a new home at a reputed cost of $7,500.

RIGID ELIGIBILITY RULES APPROVED

Southern Conference Also Votes Not To Increase Membership

UNIVERSITY, Va., Feb. 24.—(AP)—The Southern conference decided today to hold fast to its rigid eligibility requirements for participation in intercollegiate athletics and to stand pat on its present enrollment of ten members.

In executive session the body decided to retain the 24 semester hour eligibility rule but postponed its application until the next meeting is held in Richmond in December.

Led by representatives of Washington and Lee and the University of Virginia, opponents of the 24-hour requirement urged that individual schools be given wider latitude in determining their own eligibility requirements.

Recommendations to strike out the 24 semester hour provision and to permit broadcasting of football games in conference territory were among suggestions brought in by the subcommittee named to recodify the constitution and by-laws, but they were killed by the conference.

Two significant actions were taken by the conference. One ruled that no student shall participate in boxing matches where admission is paid either directly or indirectly except as a representative of the institution in which he is enrolled as a student. An exception was made to permit students to compete in national championship trials.

Another recommendation by the committee redrafting by-laws and adopted by the conference eliminated the section prohibiting members of the conference from engaging in post-season football games without consent of the conference.

Forest Fletcher, of Washington and Lee, was elected president to succeed C. P. Miles. A. W. Hobbs, of North Carolina, was chosen vice president and Colonel William Couper, of V. M. I., was named secretary-treasurer.

Disappointing to schools in several southern states was the decision of the conference not to accept additional members this year.

Proposals to abolish spring football in the Southern conference apparently were lost in the shuffle, and the matter did not come up for final disposition at the last conference session.

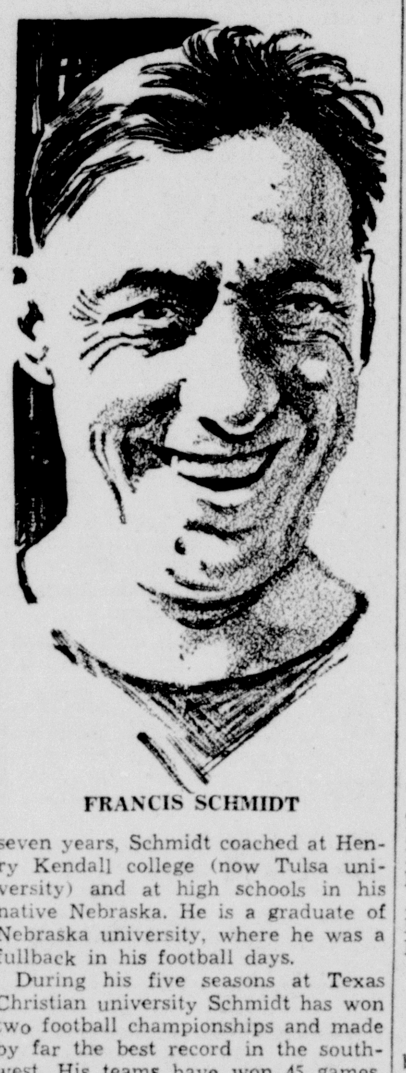
Schmidt May Become Head Grid Coach At Ohio State

Texas Christian Mentor Admits Negotiations Have Been Opened



FRANCIS SCHMIDT

FORT WORTH, Texas, Feb. 24.—(AP)—Texas Christian university may lose her head athletic coach, Francis A. Schmidt.

Ohio State is negotiating with him relative to his taking the position left open by the resignation of S. S. Willaman, football coach.

A report reached Fort Worth that the Big Ten Buckeye school at Columbus, Ohio, was dickering with the man who had led the Horned Frogs in football and basketball since the fall of 1929. When informed of the report Schmidt admitted it is true.

"I don't know what to say. I didn't know anybody knew anything about it," he said. "I don't know whether they want anything said about it or not."

Asked if he would make a trip to Columbus to look over the 15,000 student university and confer with those in charge of employing a new coach, Schmidt replied:

"I don't know yet. What I am most interested in right now is getting this basketball season over and I won't do anything until our last game is played."

Except to confirm the report of the negotiations he declined to discuss the possibilities of his going to Ohio. He wouldn't say what the negotiations have been, whether he had been made an offer, or if he is one of several being considered for the post.

Schmidt came to T. C. U. from Arkansas university in 1929 after Madison Bell resigned to become athletic director at Texas A. and M. Before going to Arkansas, where he served seven years, Schmidt coached at Henry Kendall college (now Tulsa university) and at high schools in his native Nebraska. He is a graduate of Nebraska university, where he was a fullback in his football days.

During his five seasons at Texas Christian university Schmidt has won two football championships and made by far the best record in the southwest. His teams have won 45 games, tied six and lost five. His basketball teams have been just as successful.

SHUTE, RUNYAN IN TIE AT TAMPA

Both Post Par Shattering Scores Of 135 In Qualifying Round

PALMA CEIA, TAMPA, Fla., Feb. 24.—(AP)—Denny Shute of Miami, and Paul Runyan of West Chester, N. Y., established today an apparent monopoly in the $2,000 Gasparilla open by tying for medalist honors in the 36-hole qualifying round with par shattering scores of 135.

Shute, the British open champion and winner of the Gasparilla tournament last year, toured the Palma Ceia course today in 35-33—68, two strokes under par, which, with his 67 of the previous day, gave him a five stroke leeway on Old Man Par.

Runyan, one of the leading money winners of the winter campaign and the 1932 Gasparilla champion, who took the course apart yesterday with 66, brought home a 35-34—69 today.

Willie MacFarlane, the veteran Scot from Tuckahoe, N. Y., trailed the two leaders by the slender margin of a blown 18-inch putt on the final hole of the qualifying round. He posted 66-34-36—70—136.

Horton Smith of Oak Park, Ill., was in third place with 68-36-34—70—138, while a stroke behind came Dick Metz of Deal, N. J., with 69-35-35—139. Jimmy Hines, a dark horse from Long Island, N. Y., followed in sixth position with 71-36-33—69—140.

Harry Root, Jr., 19-year-old Tampa youngster, followed the precedent set by Shute, Runyan and MacFarlane by forging ahead in the battle for the amateur honors, which he won last year.

The tall, slender youngster posted 72-35-37—72—144, led seven amateurs into today's 36-hole finals and tied for tenth position among the pros.

Par escaped today the assault of the opening day, but five professionals did manage to slip the regulation figures a jolt. Al Watrous, veteran from Detroit, put together a 34 and 33 for a 67, three under par. This with his 74 of the previous round, enabled him to tie O. W. Beaupre of Detroit, and Joe Turnesa of Long Island, N. Y., for seventh with 141. Beaupre scored 67-35-39—74—141 and Turnesa 66-36-39—75—141.

McGraw's Curve-Ball Demonstration Wins Him $1

(EDITOR'S NOTE: This is the first of a series of four articles on the 40-year diamond career of John McGrew, whose years as player and manager of the New York Giants is one of the most colorful chapters in baseball history.)

By Bill Braucher
(NEA Service Sports Editor)

NEW YORK, Feb. 24.—It was a hot midsummer day in 1889. An accommodation train was pulling out of Truxton, N. Y. On the back platform stood a black-haired boy, waving.

As the town receded from view, the boy turned, picked up a basket and started through the aisle, calling, "Chewing gum, candy, magazines!"

The boy was John Joseph McGraw. That was 45 years ago, and McGraw was 16 years old. Since then the slender boy fought his way to the very top of baseball and became a legend of the game as a player for the old Orioles and as manager of the New York Giants for 30 years.

An argument started in the smoking car. Some smart aleck of a drummer was trying to tell the folks that a man could throw a curve with a baseball. McGraw put his basket on a seat and listened. Finally he spoke up:

"I can throw a curve ball myself!"

They looked at him dubiously. One of the passengers possessed a sporting instinct.

"I'll bet $10 he can't," he challenged the crowd.

The bet was made, McGraw taking a dollar of it himself. The conductor took a part. So did the drummer.

At the next town the conductor stopped the train and the passengers assembled on a vacant lot. Three stakes were driven, 20 feet apart. McGraw had to prove his curve by making the ball go to the right of the middle stake and to the left of the third stake where a catcher was to stand.

The ball broke around the middle stake and sailed to the left of the last stake. The demonstration was conclusive. A man could make a baseball curve.

McGraw was younger and smaller than the other boys, weighing only 105 pounds. But he made up for it with fight. After he had pitched and won a few games around his home town, which was Truxton, he was offered a job on the Olean team of the Iron and Oil league. Besides his board he was to get $60 a month.

Because of his hitting and run-making ability, McGraw (he was then only 17) was placed at third base. He was not so successful as a fielder at first because of a tendnecy to throw wildly. But he studied and practiced.

Ambitious, he obtained his release at Olean and moved on to Wellsville in the Western New York league. The following season saw him tackling a job at Cedar Rapids, Iowa, in the Three-Eye league.

He met Henry Fabian at Cedar Rapids, and Fabian remained his friend through the years, McGraw's old teammate now being groundkeeper at the Polo Grounds. Says Fabian of those early days:

"McGraw was the cockiest kid that ever broke into a ball game. He was convinced he was a big leaguer right from the start. You just couldn't stop him."

Forty-three years ago a scout for the Baltimore Orioles was going through the bushes for talent. He saw McGraw and produced a pen and contract at once.

On August 22, 1892, little John McGraw, then 18, made his first appearance in the uniform of the Orioles, at Columbus, Ohio. It was a team destined to enact an everlastingly glorious part in the drama of baseball history.

NEXT: McGraw as a major leaguer.

Charlie Dressen Leaves For Giants Training Camp

HOUSTON, Texas, Feb. 24.—(AP)—Charlie Dressen, who had been confined to a hospital here since December 26 as a result of a severe attack of typhoid fever, left tonight for the New York Giants' spring training camp at Miami Beach, Fla.

Although still weak, Dressen was of the opinion that a half month of light exercising in the Florida sunshine would put him in shape to take charge of the Nashville baseball club of the Southern association when the Vols start training on March 15.

Dressen, who was with the Giants the latter part of last season, is slated to manage the Vols this year.

Before leaving the hospital Dressen paid a final visit to Gus Mancuso, the Giants' first string catcher, who is recovering from a mild attack of typhoid. Physicians attending Mancuso said his fever was "hanging on" but they believed he would be able to depart for Florida early next month.

COLLINSTON AND OAK GROVE WIN IN RUSTON MEET

Bastrop Beaten In Final For Girls Title; Kelly Also Loses

RUSTON, La., Feb. 24.—(Special)—The close of the annual north Louisiana high school cage tournament at La. Tech Saturday night witnessed a successful defense of title won here last year by Oak Grove in the boys division and new champion of the girls, with Collinston winning from Bastrop, 1933 champions.

Taking the floor for the first game, the two girls teams fought through four periods of thrilling action before Collinston emerged a 35-31 victor. Kelly weakened in their final tilt against the powerful Oak Grove quintet and dropped the game by a 39-6 score.

Many changes and ties resulted in the encounter between the finalists of the girls division. Bastrop led at the end of the first quarter 9 to 8, but Collinston forged ahead 20-15 by the half. Bastrop again held a one-point lead by a 27-26 count at the close of the third period but Collinston rallied at the close to win out. With the score tied 29-29, Jordan made a field goal to give the winners a lead and Hilburn counted two goals from field that cinched the game. McGraw of Bastrop was high point with 13 field markers and was the main offensive threat for Bastrop. Hilburn led the Collinston scorers with 15 points.

Showing the effects of a hard fight to the final round, Kelly played gamely against a superb Oak Grove five but was completely outclassed.

The first half of the game was fairly close, ending 16-6 but Kelly's shots were wide of the mark in the last half and they failed to register a point.

D. Rike, probably the individual star of the tourney, led scorers of this fray with a total of 19 points. Oak Grove played a smooth game through their tourney series and was considered one of the most powerful of all champions of the north Louisiana meet.

O. A. Garrett is coach of the winning Collinston team and B. F. Barron of Oak Grove.

In the morning semi-final round both defending champions, Oak Grove boys and Bastrop girls teams, won their way to the finals by easy victories.

Oak Grove won from Spearsville, 39 to 19, in the first semi-final game for boys. Oak Grove easily out classed their opponents from the start and held a 25-9 lead at the half. D. Rike, center for Oak Grove, led his team in scoring with 20 points.

Kelly, "dark horse" of the tourney, took a 26 to 23 decision over Ouachita parish in an overtime period of play in the second semi-final tilt. This game was close throughout and regarded by many as the outstanding contest of the meet. Kelly led 14-9 at the half, but Ouachita staged a rally and tied the score soon after the start of the second period. At the end of the regulation game the score was tied 21-21. In the play-off Kelly scored five points while the best Ouachita could do was to make one field goal.

TULLOS OILERS WIN SOUTHERN AMATEUR CROWN

HUNT FIVE BEATS DALLAS QUINTET BY SINGLE POINT

Dr. Peppers Win Third Place By Beating Laurel Masonites

By Ed Desobry
(Associated Press Staff Writer)

NEW ORLEANS, Feb. 24.—(AP)—The Tullos, La., Oilers tonight uncorked a bewildering offense to defeat the Dallas, Texas, athletic club, 19 to 18, and capture the Southern A. A. U. basketball championship in a game packed with story-book thrills.

Led by a master field general, Bert Hann, former player with DePaul university of Chicago, who went through the game with a dislocated nose which he suffered in an afternoon game, the Tullos squad waged a tough battle throughout, but left no doubt as to the better team.

Tullos was apparently headed for a top heavy victory at the half period, when they were ahead, 12 to 7, but Dallas supported to bring the score first to 18-15, then to 19-16, and in a dramatic finish, made it 19-18 when Roy Lee Graber, former Southern Methodist star, dropped in a field goal.

Captain Hann for Tullos, with only a one-point lead, quickly called time out.

"Fifty seconds to play," the timekeeper told him.

Then Hann led his players back into the fray, and they got the ball —and kept it the whole 50 seconds as the crowd went wild.

But the game ended and the score was still 19-18, in favor of Tullos.

Halftime score: Tullos 12; Dallas A. C. 7.

Tullos entered the finals by defeating the Peppers of Dallas, runners-up in last year's play, 37 to 24. The Dallas A. C., had disposed of the Laurel, Miss., Masonites, 31 to 23, to enter the championship game.

In the consolation game tonight, for third place in the tournament, the Peppers defeated Laurel, 54 to 47.

Halftime score: Peppers 29; Laurel 25.

The second annual tournament, in which 20 teams took part, was said by officials to have been one of the best in years.

The Oilers went into the finals by decisively beating the Peppers of Dallas, 37 to 24, in the bitterest game of the tournament.

In the victory, the Tullos club showed up as the most skillful outfit of the tournament.

The Peppers piled up an 18-12 lead over Tullos at the half, but went to pieces under the cool floor work of the Louisiana squad in the second period.

Gamble, Pepper forward, contributed to his team's defeat when he crashed into Hann, Tullos guard, dislocating Hann's nose.

Gamble, angered by the boos of the crowd, began charging down the field aggressively, and as the crowd yelled for Tullos, the Peppers became demoralized. The game turned into a rout near the close.

BOBBY JONES SAYS

When the letter below, from a friend in Atlanta, came to my desk, I immediately wrote back offering congratulations. Here is one man at least who has made something of his labors. I hope many other average golfers may do likewise.

"As you know, I have played golf over twenty years. I have always had a half jerky swing, but determined over a year and a half ago that I would get a full swing, if I had to work on it the balance of my golf life.

"I have read everything I could get my hands on, have taken lessons and have asked my friends for help, yourself included. I am now beginning to get some results from my determination to get a full swing.

"I find, after all my hard work, that my trouble has been in trying to get a full swing with my arms pulling the body around. The club and arms must be brought back by the body, instead of the hands pulling the body around, at least this has helped me very much."

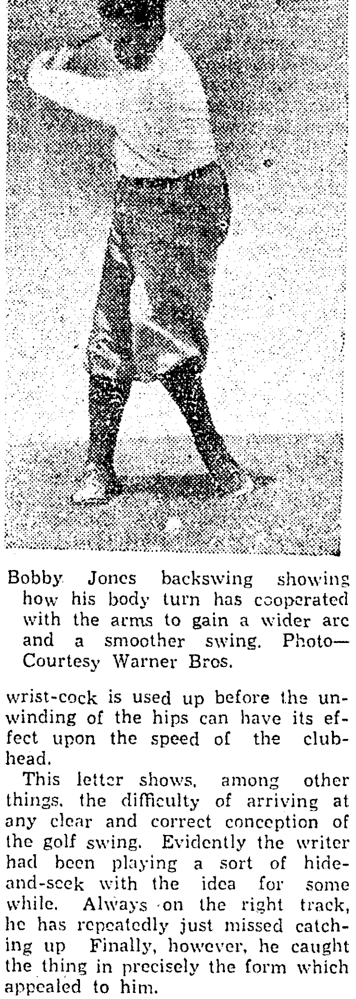
This is precisely the method of attack which I recommended in this column several weeks ago. Because the inclination of the beginner or inexpert player is to attempt to swing the club with the arms, it is not enough, in most cases, to depend for the turning of the body upon the natural response to the act of swinging the club-head. Few players find the body movement to be the natural consequence of anything. In nine cases out of ten, the player will never trust himself to move his legs and body as he should unless he deliberately sets to work to make them move.

Length of Swing Limited

In the present case, the player had realized for a long time that his swing needed more length in order to straighten out the kinks and to make it smooth. He tried to get this length merely by extending his barkswing without altering his method. He found that he could not do this, that the length of his swing was limited by his body turn, and that the determination of his hands and arms to continue awakened no response in his hips and legs.

So finally it occurs to him to start at the other end, to direct his attention first upon the turn of the body and let the hands take care of themselves. And then he begins to make progress. He finds that the additional length comes easily and that an important source of power becomes more fully utilizable.

If we expect to get anywhere in golf we must go beyond the flat-footed swing which were inclined to favor until we grow more sure of ourselves. One of the most important necessities is to get the hips and legs moving in beginning the backswing, for in their movement lies the essential difference between a true swing and a hacking stroke.



Bobby Jones backswing showing how his body turn has cooperated with the arms to gain a wider arc and a smoother swing. Photo—Courtesy Warner Bros.

It is desirable that both upswing and downswing should originate in the body. If the club-head has been picked up from the ball, or thrown from the top of the swing with the hands, it is then too late for the hip-turn to catch up. In the one case, the backswing must proceed outside its proper path, and in the other the wrist-cock is used up before the unwinding of the hips can have its effect upon the speed of the club-head.

This letter shows, among other things, the difficulty of arriving at any clear and correct conception of the golf swing. Evidently the writer had been playing a sort of hide-and-seek with the idea for some while. Always on the right track, he has repeatedly just missed catching up Finally, however, he caught the thing in precisely the form which appealed to him.

DAWSON TO PLAY MORELAND TODAY

Dallas And Chicago Stars Win Way To Finals Of Houston Meet

HOUSTON, Tex., Feb. 24.—(AP)—Gus Moreland of Dallas and Johnny Dawson of Chicago today emerged victorious in the 36-hole semi-finals of the 20th annual Houston Country club invitation.

Moreland, defending champion, eliminated Willie Maguire, Jr., of Houston, two and one. Dawson defeated David Goldman of Dallas, one up.

They will meet tomorrow in the 36-hole final.

In today's match against Maguire, Moreland held the upper hand from start to finish. The champion was not sensational with his shots, but he produced a steady assortment of par strokes that Maguire could not equal.

Vines Continues Winning Streak Against French Ace

BOSTON, Feb. 24.—(AP)—Ellsworth Vines continued his undefeated sweep through the international professional tennis matches at the Boston Garden by defeating Martin Plaa of France tonight with straight sets, 8-6, 8-6, 7-5.

The French professional played a hard, aggressive game all the way and appeared to have control in the third set when he led 5-2. The tall Californian came back, however, to take five games in a row and win the set.

Vines' bombshell service gave him two love games in the second set, and several times Plaa's easy returns led to his downfall.

The young American professional defeated Henri Cochet, Plaa's countryman and teammate, last night, while big Bill Tilden forced Plaa to bow to his skill and experience.

CAMP SWAN, Feb. 24.—(Special)—With the completion of their schedule in the CCC Basketball league No. 3, the Ugly Ducklings of Camp Sawn, who won the league championship when they wound up their schedule Wednesday night without defeat, have picked what they endorse as their all-opponent team of the league.

The all-star teams, which are composed only of league players who opposed the Ducklings, are as follows: first team—Dowden, Provencal, and Kidd, Sikes, forwards; Melvin, Olla center; Miller, Montgomery, and Mosley, Provencal, guards. Second team —Moses, Winnfield, and Maxwell, Olla, forwards; Adams, Provencal, center; Weeks, Sikes, and Murphy, Montgomery, guards. Dowden was named as captain of the first team.

VIRGINIA BOXERS WIN FOURTH TITLE

Cavaliers Furnish Four Champions In Retaining Southern Crown

UNIVERSITY, Va., Feb. 24.—(AP)—Virginia's sensational boxing team won its fourth consecutive Southern conference championship tonight in the finals of the annual tournament and crowned four champions in doing it.

Sixty-five hundred spectators packed the gymnasium to see the fray.

From the moment that little Archie Hahn, Jr., Virginia's defending bantamweight champion, outpointed Willis Cavedo, of V. M. I., the Cavaliers had points enough to win but they continued their fast pace to pile up an overwhelming margin.

Virginia had 23 points on the scoring of five points for a champion and three points for a runner up.

Maryland took second position with 11 points, and Virginia Tech, whose Red Negro put up one of the best fights of the tournament in whipping Al Farrel, Maryland heavyweight, slipped into third place with 8.

North Carolina and South Carolina scored five points each, while Washington and Lee, V. M. I., North Carolina State and Duke won three points each.

Here are the champions:

Bantamweight—Archie Hahn, Jr., Virginia.

Featherweight—Gordon Rainey, Virginia.

Lightweight—Norment Quarles, North Carolina.

Welterweight—Maynard Womer, Virginia.

Junior middleweight—Harold Stuart, Virginia.

Middleweight—Henry Willard, South Carolina.

Light-heavyweight—Stewart Mccaw, Maryland.

Heavyweight—Red Negro, Virginia Tech.

NEW RECORD SET AS CUNNINGHAM BEATS BONTHRON

Mile Stars Again Stage Close Finish In Final Duel Indoors

MADISON SQUARE GARDEN, NEW YORK, Feb. 24.—(AP)—In a sensational climax to the national indoor track and field championships, which saw four world records broken and one equalled, Glenn Cunningham, of the University of Kansas, tonight defeated Bill Bonthron, of Princeton, his conqueror of a week ago, in the 1,500 meters run before a capacity crowd of 14,000 roaring fans.

The margin was as close as it was in the Baxter mile at the New York athletic club games a week ago, so narrow that the timers caught them both in the new world figures of 3 minutes 52.3 seconds, and left the question of which is the better man still undecided.

It is improbable the two will ever meet again as both are seniors and Bonthron plans to hang up his track shoes after a trip to England this summer with the Princeton-Cornell team.

Their thrilling duel, with Gene Venzke, of Pennsylvania, chasing them home five yards behind, put the final period to a night of record-breaking which saw the standards filling in the running broad jump, the 3,000 meter steeplechase, the 1,500 meter walk and the 60 meter dash time equalled.

Jesse Owens, former sensational Cleveland school boy and now a freshman at Ohio State, pushed the broad jump record out to 25 feet 3 1-4 inches, Joe McCloskey, former Fordham great and Olympian, lowered his own steeplechasing mark to 8 minutes 50 seconds and Charles Eschenback, of the New York athletic club heeled and toed his way through the walk to a new time of 6 minutes 14.8 seconds. Ralph Metcalfe, Marquette's great negro sprinter, equalled his own world record of 6.7 seconds in the dash as he won off by himself and coasting:

Nine new national champions were crowned in the meet, three retained their titles and George Spitz, of New York university shared his high jumping throne with Walter Marty, of Fresno, Calif., state college.

Marty would have joined the record-breakers himself if his fourth attempt at 6 feet 8 7-8 inches had only been his third. He failed in his first three legal attempts at the new record height and then cleared it in the fourth, a leap recognized only as an exhibition.

The New York athletic club team retained its laurels, piling up 27 points to 15 for the Boston A. A., which finished second. The others trailed in the following order: University of Indiana 12, New York university 10, Columbia 9 1-2, German American A. C., 8, Rhode Island state college and the University of Kansas, 5 each.

one and then the other slipping ahead but seldom to more than a one-point advantage. With five minutes to play Kentucky led 31 to 30, then Welcome Shearer, Florida guard, rung a long looping field goal and the 'Gators stepped into the lead for good. Two free throws gave them a 34 to 32 margin and then Shearer came through with two field goals in succession. He was forced out then on excessive personal fouls but his damage had been done and the final gun barked before Kentucky could do more toward regaining their lost laurels.

Forced to revamp its lineup through the loss of the injured forward, Zeke Kimbrough, and the inability of another forward, Jim Walker, to play for more than a few minutes, Alabama's makeshift array functioned smoothly, shooting accurately to roll up 14 points before Mississippi State could find the range for a single field goal.

Connatser and Angelich, who have done most of their playing this year at guard positions, proved able reserves in the sharp-shooting positions. The Crimsons handled the ball well and their defense was so tight the Maroons were able to fire for the baskets only from a distance. Mississippi State gained but two goals from the field during the first half.

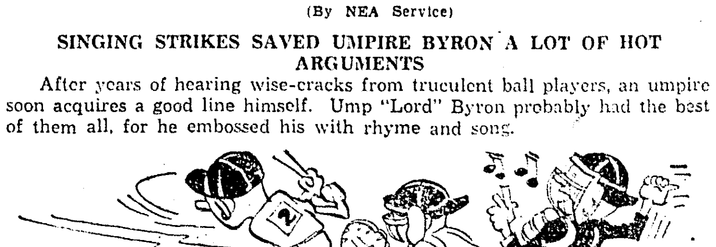
SINGING STRIKES SAVED UMPIRE BYRON A LOT OF HOT ARGUMENTS

After years of hearing wise-cracks from truculent ball players, an umpire soon acquires a good line himself. Ump "Lord" Byron probably had the best of them all, for he embossed his with rhyme and song.



He always managed to hand the players a laugh and keep them in good humor with something like the following:

"It cut the center of the plate, you missed because you swung too late."

Another of his classics was:

"First-class hitters should be bolder, you can't get a hit with the bat on your shoulder."

The latter usually followed a called third strike, and got Byron out of no few arguments.

McNair Thinks Athletics Will Be In Thick Of Fight

MERIDIAN, Miss., Feb. 24.—(AP)—Eric McNair, shortstop of the Philadelphia Athletics, says the A's will be in the thick of the American league pennant battle "if the ptching comes through."

"Mahaffey, Cain and Marcum," he said, "are just about as good as you'll find, and if a couple of the other hurlers develop as they should, we'll make it interesting for all of them. The Washington Senators is the team to beat."

McNair leaves tomorrow for Fort Myers, Fla., where the Athletics will engage in spring training, and while he admits he has not signed his 1934 contract, he says that he expects no trouble in coming to terms with Connie Mack.

63 to 9. Collingston led 35 to 6 at the half. Langston, center for Collinston, was high point scorer of the fray.

Bastrop downed Athens 39 to 15 in the second semi-final game for girls. McGraw, Bastrop center, scored 28 points to lead the Morehouse sextette to victory. The half-time score was 31-11, and in the last period close guarding made it difficult for either team to add many points to their total.

Ouachita parish won the consolation match for third place of the rally by defeating Spearsville 53-31 in the Saturday afternoon game. The Monroe squad led 24-14 at the half and increased its score with ease in the last period. Stron, Ouachita guard, won individual scoring honors with 14 points. Cobb, Ouachita forward, and Smith, main scoring ace for spearsville, tied for runner-up scoring honors with 12 points each. Ouachita's excellent passing enabled them to work the ball down under the basket and score most of their points on crip shots.

In the girls' division Athens defeated Spearsville 55-28 for third place. Pardue, Athens forward, set high point for individual scoring of the tournament with 31 points in this game. Ogdon, Spearsville center, led her team with 14 points.

VIRGINIA VAN WIE BEATS MRS. HILL

National Women's Champion Wins South Atlantic Golf Title

ORMOND BEACH, Fla., Feb. 24.—(AP)—A well behaved putter enabled Virginia Van Wie of Chicago to equal men's par and add the South Atlantic golf championship to her national women's title here today as she turned back Mrs. Opal S. Hill of Kansas City, 5 and 4, in the final round.

On no less than six of the 14 holes played, Miss Van Wie needed only one putt, chipping over a mound into the cup on another hole from behind the green, and using three putts for wins or halves, but the Van Wie putting touch was uncanny today.

On the first hole Mrs. Hill, forty feet from the pin in two, stroked her approach putt directly at the cup but it bounded over and rested on the edge. Miss Van Wie sank a 20-foot putt for a birdie.

They halved the second and Miss Van Wie won the third.

A fifteen-foot putt on the fourth enabled Miss Van Wie to card another birdie and put her three up. She faltered on the green on the next hole, missing a little short and taking a four to Mrs. Hill's par three. Up to the turn from there they matched stroke for stroke.

On the tenth Miss Van Wie looped in another rolling 15-foot putt for a par and another win.

Mrs. Hill ran into trouble on the next hole, needing a six while Miss Van Wie got down with a regulation four.

The champion sent a 20-footer directly into the hole for another par and win on the twelfth, giving her the five up advantage by which she won. They played the next two holes alike, both scoring pars.

FIVE FILLIES ARE DERBY NOMINEES

Eligibles Total 124 For Running Of Racing Classic On May 5

LOUISVILLE, Ky., Feb. 24.—(AP)—The 124 nominations for the 1934 Kentucky derby, announced today, include five fillies which proved themselves last year capable of matching strides with scores of capable colts and geldings.

While the total is six more than last year, five of the leading money winners among the 1933 two-year-olds including three fillies, are missing from the ranks of those nominated for the May 5 event with its $30,000 added purse, the five highly ranked fillies named are Charles T. Fisher's Mata Hari, Col. E. R. Bradley's Bazaar, C. V. Whitney's Jabot, Mrs. John Zoeller's Tatanne, and W. Graham's Coequel.

The leading colts nominated, rated on the basis of their two-year-old form last year, are Mrs. J. H. Whitney's Singing Wood, George D. Widener's Chickstraw, the Brookmeade stable's Cavalcade, the Greentree stable's Black Buddy and C. V. Whitney's Roustabout.

Announcement was made at Miami today, however, that Singing Wood would not start in the derby, but would be reserved for the Preakness.

Other leading nominees are W. Ziegler, Jr.'s Bonanza, A. B. Gordon's Sir Thomas, Calumet farm's Hadagal, and Alfred G. Vanderbilt's Discovery and Red Wagon.

Outstanding absentees from the list of nominees are First Minstrel, which many handicappers considered last year's best two-year-old; Far Star, High Glee, Wise Daughter and High Quest. The latter four were among last year's ten leading juvenile money winners. Far Star, High Glee and Wise Daughter are fillies, and three-year-old thoroughbreds of that sex seldom train well in the spring.

The Greentree stable, which won the 1931 derby with Twenty Grand in record time, nominated five horses for this year's blue ribbon event. Besides Black Buddy, they are Soon Over, Spy Hill, Earnings and The Triumvir. The latter was the most costly yearling sold at auction in 1932, bringing $14,500.

Baseball Meeting To Be Held At Clarks Tuesday

CLARKS, Feb. 24. — (Special) — A baseball meeting will be called Tuesday night at the White hotel in an effort to reorganize the Clarks baseball team. Quite a bit of important business is to be brought up at the meeting which will be presided over by E. M. Steeley, Clarks business man. One of the most important things to decide on at this meeting is the selection of a manager for the coming season. Among those most prominently mentioned for this position are P. J. Goodnight, who was manager of the Lumberjacks last season; H. O. Cooksey, a former baseball player and business man of Clarks; E. M. Steeley, former manager of the team a year or two ago and a veteran infielder, and W. A. (Bill) Smith who has had quite a bit of experience as a baseball manager.

Quite a bit of work is expected to be done on the baseball field before the season opens. The fence and grandstand will be repaired. Among the players who are expected to be back this coming season are the following: Pitchers Brooks and Parham, Catchers Smith and Scaife, Infielders Steeley, C. Stone, Delcore and Frickie, Outfielders Grant, McNeely, Pugh and O'Neal. Several new players are expected to try out for the team.

CHAMPION GIANTS OPEN SPRING CAMP AT MIAMI BEACH

Dozen Athletes Report To Terry As Club Gets Jump On Rivals

By Alan Gould
(Associated Press Sports Editor)

Bill Terry

MIAMI BEACH, Fla., Feb. 24.—(AP)—The world champion New York Giants, continuing their policy of getting the jump on all rivals, began training for the 1934 pennant race today at least a full week in advance of any of the clubs using Florida as a base of operations this year.

Upwards of a dozen athletes, including the renowned Carl Owen Hubbell and nearly all the other battery men, answered Manager Bill Terry's first roll call, drilled for an hour mainly for the benefit of photographers at Flamingo Park and then went into a club house "huddle" to listen to their leader's first campaign speech of the season.

"We are getting down to business earlier than usual, because we have a tough schedule ahead and I want to be sure the whole team is absolutely in top shape from the first game of the season on April 17," declared Terry, after outlining plans for daily workouts, including Sundays. "In the language of the ring, the Giants will 'come out fighting,' and shoot the works from the start.

"It may sound like I'm bragging now or that maybe all this sunshine has got me a little balmy, but I honestly think our club will be better this year than last, and that we will win the pennant by a bigger margin. That's how much confidence I have in the outfit. I have never seen a crowd so anxious to go. Not even a threat to make him pay his own expenses until the rest of the regulars report March 1 could keep a guy like blondy Ryan from coming down here now. There's not a spark of jealousy or the least sign of a swelled head in the whole squad."

Terry revealed he is not counting upon his number one backstop, Gus Mancuso, being recovered sufficiently from an attack of typhoid to start the season. Mancuso will be ordered to take things easy when he reports here, while husky Paul Richards does the bulk of backstopping, aided by Harry Danning, who hit .349 with Buffalo last season.

Terry heard the news of Casey Stengel's appointment to the managership of the Brooklyn Dodgers with much interest and voiced his congratulations to the former Giant outfielder.

"I notice Casey has picked up where Max Carey and Bob Quinn left off challenging the Giants, as a result of that wise-crack of mine this winter," smiled Terry. "They've got me all wrong, in the first place, if they think I intended to belittle the Dodgers. I expect they will give us all they've got and I don't expect any club in the league to be a set-up. Casey will have his own troubles, however, without worrying too much about me. You can never tell when Brooklyn is going to change managers."

With the exception of Herman Bell and 'Dolfo Luque, the Cuban veteran who is expected here tomorrow, the entire pitching staff has reported to Terry. One of the newcomers is Jim Leonardo, big 20-year-old right-hander who was picked up from the Los Angeles semi-pro ranks. Leonardo and Al Cuccinello, 18-year-old second baseman and younger brother of Brooklyn's Tony Cuccinello, have both caught Terry's eye as real prospects due for development in the new Giant system.

Definite Plans Made For Dallas' Spring Training

DALLAS, Texas, Feb. 24.—(AP)—Definite plans for the spring training grind of the Dallas Texas league club were announced today by Bob Tarleton, business manager for the Steers, after receipt of a telegram from Manager Fred Brainard announcing he would arrive here from his New Mexico ranch about March 5.

Tarleton has set March 15 as the date for the Steers to begin training at the Baton Rouge, La., camp. Brainard will have more than a month in which to weed out what he calls the "top waters" from the "game fish."

The first exhibition game will be played at Baton Rouge March 25 against the revamped Fort Worth Panthers, who will do their early conditioning at Lake Charles, La.

TULLOS OILERS WIN SOUTHERN AMATEUR CROWN

HUNT FIVE BEATS DALLAS QUINTET BY SINGLE POINT

Dr. Peppers Win Third Place By Beating Laurel Masonites

By Ed Desobry
(Associated Press Staff Writer)

NEW ORLEANS, Feb. 24.—(AP)—The Tullos, La., Oilers tonight uncorked a bewildering offense to defeat the Dallas, Texas, athletic club, 19 to 18, and capture the Southern A. A. U. basketball championship in a game packed with story-book thrills.

Led by a master field general, Bert Hann, former player with DePaul university of Chicago, who went through the game with a dislocated nose which he suffered in an afternoon game, the Tullos squad waged a tough battle throughout, but left no doubt as to the better team.

Tullos was apparently headed for a top heavy victory at the half period, when they were ahead, 12 to 7, but Dallas supported to bring the score first to 18-15, then to 19-16, and in a dramatic finish, made it 19-18 when Roy Lee Graber, former Southern Methodist star, dropped in a field goal.

Captain Hann for Tullos, with only a one-point lead, quickly called time out.

"Fifty seconds to play," the timekeeper told him.

Then Hann led his players back into the fray, and they got the ball—and kept it the whole 50 seconds as the crowd went wild.

But the game ended and the score was still 19-18, in favor of Tullos.

Halftime score: Tullos 12; Dallas A. C. 7.

Tullos entered the finals by defeating the Peppers of Dallas, runners-up in last year's play, 37 to 24. The Dallas A. C., had disposed of the Laurel, Miss., Masonites, 31 to 23, to enter the championship game.

In the consolation game tonight, for third place in the tournament, the Peppers defeated Laurel, 54 to 47.

Totals	21	5	47	6

Halftime score: Peppers 29; Laurel 25.

The second annual tournament, in which 20 teams took part, was said by officials to have been one of the best in years.

The Oilers went into the finals by decisively beating the Peppers of Dallas, 37 to 24, in the bitterest game of the tournament.

In the victory, the Tullos club showed up as the most skillful outfit of the tournament.

The Peppers piled up an 18-12 lead over Tullos at the half, but went to pieces under the cool floor work of the Louisiana squad in the second period.

Gamble, Pepper forward, contributed to his team's defeat when he crashed into Hann, Tullos guard, dislocating Hann's nose.

Gamble, angered by the boos of the crowd, began charging down the field aggressively, and as the crowd yelled for Tullos, the Peppers became demoralized. The game turned into a rout near the close.

OPPORTUNITY KNOCKS in the WANT-ADS

BOBBY JONES SAYS

When the letter below, from a friend in Atlanta, came to my desk, I immediately wrote back offering congratulations. Here is one man at least who has made something of his labors. I hope many other average golfers may do likewise.

"As you know, I have played golf over twenty years. I have always had a half jerky swing, but determined over a year and a half ago that I would get a full swing, if I had to work on it the balance of my golf life.

"I have read everything I could get my hands on, have taken lessons and have asked my friends for help, yourself included. I am now beginning to get some results from my determination to get a full swing.

"I find, after all my hard work, that my trouble has been in trying to get a full swing with my arms pulling the body around. The club and arms must be brought back by the body, instead of the hands pulling the body around, at least this has helped me very much."

This is precisely the method of attack which I recommended in this column several weeks ago. Because the inclination of the beginner or inexpert player is to attempt to swing the club with the arms, it is not enough, in most cases, to depend for the turning of the body upon the natural response to the act of swinging the club-head. Few players find the body movement to be the natural consequence of anything. In nine cases out of ten, the player will never trust himself to move his legs and body as he should unless he deliberately sets to work to make them move.

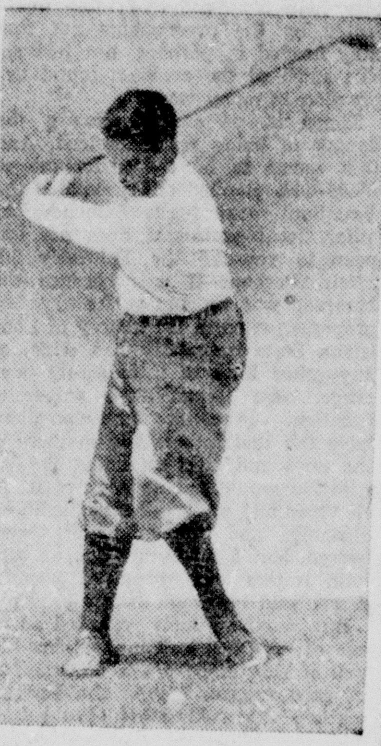
Length of Swing Limited

In the present case, the player had realized for a long time that his swing needed more length in order to straighten out the kinks and to make it smooth. He tried to get this length merely by extending his barkswing without altering his method. He found that he could not do this, that the length of his swing was limited by his body turn, and that the determination of his hands and arms to continue awakened no response in his hips and legs.

So finally it occurs to him to start at the other end, to direct his attention first upon the turn of the body and let the hands take care of themselves. And then he begins to make progress. He finds that the additional length comes easily and that an important source of power becomes more fully utilizable.

If we expect to get anywhere in golf we must go beyond the flat-footed swing which were inclined to favor until we grow more sure of ourselves. One of the most important necessities is to get the hips and legs moving in beginning the backswing, for in their movement lies the essential difference between a true swing and a hacking stroke.

It is desirable that both upswing and downswing should originate in the body. If the club-head has been picked up from the ball, or thrown from the top of the swing with the hands, it is then too late for the hip-turn to catch up. In the one case, the backswing must proceed outside its proper path, and in the other the wrist-cock is used up before the unwinding of the hips can have its effect upon the speed of the club-head.



Bobby Jones backswing showing how his body turn has cooperated with the arms to gain a wider arc and a smoother swing. Photo—Courtesy Warner Bros.

This letter shows, among other things, the difficulty of arriving at any clear and correct conception of the golf swing. Evidently the writer had been playing a sort of hide-and-seek with the idea for some while. Always on the right track, he has repeatedly just missed catching up Finally, however, he caught the thing in precisely the form which appealed to him.

DAWSON TO PLAY MORELAND TODAY

Dallas And Chicago Stars Win Way To Finals Of Houston Meet

HOUSTON, Tex., Feb. 24.—(AP)—Gus Moreland of Dallas and Johnny Dawson of Chicago today emerged victorious in the 36-hole semi-finals of the 20th annual Houston Country club invitation.

Moreland, defending champion, eliminated Willie Maguire, Jr., of Houston, two and one. Dawson defeated David Goldman of Dallas, one up.

They will meet tomorrow in the 36-hole final.

In today's match against Maguire, Moreland held the upper hand from start to finish. The champion was not sensational with his shots, but he produced a steady assortment of par strokes that Maguire could not equal.

Vines Continues Winning Streak Against French Ace

BOSTON, Feb. 24.—(AP)—Ellsworth Vines continued his undefeated sweep through the international professional tennis matches at the Boston Garden by defeating Martin Plaa of France tonight with straight sets, 8-6, 8-6, 7-5.

The French professional played a hard, aggressive game all the way and appeared to have control in the third set when he led 5-2. The tall Californian came back, however, to take five games in a row and win the set.

Vines' bombshell service gave him two love games in the second set, and several times Plaa's easy returns led to his downfall.

The young American professional defeated Henri Cochet, Plaa's countryman and teammate, last night, while big Bill Tilden forced Plaa to bow to his skill and experience.

All-Opponent Cage Team Selected By Camp Swan

CAMP SWAN, Feb. 24.—(Special)—With the completion of their schedule in the CCC Basketball league No. 3, the Ugly Ducklings of Camp Sawn, who won the league championship when they wound up their schedule Wednesday night without defeat, have picked what they endorse as their all-opponent team of the league.

The all-star teams, which are composed only of league players who opposed the Ducklings, are as follows: first team—Dowden, Provencal, and Kidd, Sikes, forwards; Melvin, Olla center; Miller, Montgomery, and Mosley, Provencal, guards. Second team—Moses, Winnfield, and Maxwell, Olla, forwards; Adams, Provencal, center; Weeks, Sikes, and Murphy, Montgomery, guards. Dowden was named as captain of the first team.

VIRGINIA BOXERS WIN FOURTH TITLE

Cavaliers Furnish Four Champions In Retaining Southern Crown

UNIVERSITY, Va., Feb. 24.—(AP)—Virginia's sensational boxing team won its fourth consecutive Southern conference championship tonight in the finals of the annual tournament and crowned four champions in doing it.

Sixty-five hundred spectators packed the gymnasium to see the fray.

From the moment that little Archie Hahn, Jr., Virginia's defending bantamweight champion, outpointed Willis Cavedo, of V. M. I., the Cavaliers had points enough to win but they continued their fast pace to pile up an overwhelming margin.

Virginia had 23 points on the scoring of five points for a champion and three points for a runner up.

Maryland took second position with 11 points, and Virginia Tech, whose Red Negro put up one of the best fights of the tournament in whipping Al Farrel, Maryland heavyweight, slipped into third place with 8.

North Carolina and South Carolina scored five points each, while Washington and Lee, V. M. I., North Carolina State and Duke won three points each.

Here are the champions:

Bantamweight—Archie Hahn, Jr., Virginia.

Featherweight—Gordon Rainey, Virginia.

Lightweight—Norment Quarles, North Carolina.

Welterweight—Maynard Womer, Virginia.

Junior middleweight—Harold Stuart, Virginia.

Middleweight—Henry Willard, South Carolina.

Light-heavyweight—Stewart Mccaw, Maryland.

Heavyweight—Red Negro, Virginia Tech.

Mixed doubles: Fudickar and Pierce, Neville, beat Jackson and Pettis, Bastrop, 6-1, 6-2.

NEW RECORD SET AS CUNNINGHAM BEATS BONTHRON

Mile Stars Again Stage Close Finish In Final Duel Indoors

MADISON SQUARE GARDEN, NEW YORK, Feb. 24.—(AP)—In a sensational climax to the national indoor track and field championships, which saw four world records broken and one equalled, Glenn Cunningham, of the University of Kansas, tonight defeated Bill Bonthron, of Princeton, his conqueror of a week ago, in the 1,500 meters run before a capacity crowd of 14,000 roaring fans.

The margin was as close as it was in the Baxter mile at the New York athletic club games a week ago, so narrow that the timers caught them both in the new world figures of 3 minutes 52.3 seconds, and left the question of which is the better man still undecided.

It is improbable the two will ever meet again as both are seniors and Bonthron plans to hang up his track shoes after a trip to England this summer with the Princeton-Cornell team.

Their thrilling duel, with Gene Venzke, of Pennsylvania, chasing them home five yards behind, put the final period to a night of record-breaking which saw the standards filling in the running broad jump, the 3,000 meter steeplechase, the 1,500 meter walk and the 60 meter dash time equalled.

Jesse Owens, former sensational Cleveland school boy and now a freshman at Ohio State, pushed the broad jump record out to 25 feet 3 1-4 inches, Joe McCloskey, former Fordham great and Olympian, lowered his own steeplechasing mark to 8 minutes 50 seconds and Charles Eschenback, of the New York athletic club heeled and toed his way through the walk to a new time of 6 minutes 14.8 seconds. Ralph Metcalfe, Marquette's great negro sprinter, equalled his own world record of 6.7 seconds in the dash as he won off by himself and coasting.

Nine new national champions were crowned in the meet, three retained their titles and George Spitz, of New York university shared his high jumping throne with Walter Marty, of Fresno, Calif., state college.

Marty would have joined the record-breakers himself if his fourth attempt at 6 feet 8 7-8 inches had only been his third. He failed in his first three legal attempts at the new record height and then cleared it in the fourth, a leap recognized only as an exhibition.

The New York athletic club team retained its laurels, piling up 27 points to 15 for the Boston A. A., which finished second. The others trailed in the following order: University of Indiana 12, New York university 10, Columbia 9 1-2, German American A. C., 8, Rhode Island state college and the University of Kansas, 5 each.

VOLS RALLY AND OVERCOME EARLY LOUISIANA LEAD

(Continued From Twelfth Page)

one and then the other slipping ahead but seldom to more than a one-point advantage. With five minutes to play Kentucky led 31 to 30, then Welcome Shearer, Florida guard, rung a long looping field goal and the 'Gators stepped into the lead for good. Two free throws gave them a 34 to 32 margin and then Shearer came through with two field goals in succession. He was forced out then on excessive personal fouls but his damage had been done and the final gun barked before Kentucky could do more toward regaining their lost laurels.

Forced to revamp its lineup through the loss of the injured forward, Zeke Kimbrough, and the inability of another forward, Jim Walker, to play for more than a few minutes, Alabama's makeshift array functioned smoothly, shooting accurately to roll up 14 points before Mississippi State could find the range for a single field goal.

Connatser and Angelich, who have done most of their playing this year at guard positions, proved able reserves in the sharp-shooting positions. The Crimsons handled the ball well and their defense was so tight the Maroons were able to fire for the baskets only from a distance. Mississippi State gained but two goals from the field during the first half.

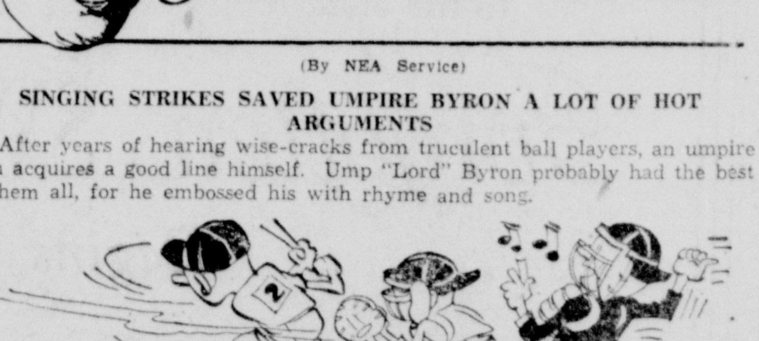
SINGING STRIKES SAVED UMPIRE BYRON A LOT OF HOT ARGUMENTS

After years of hearing wise-cracks from truculent ball players, an umpire soon acquires a good line himself. Ump "Lord" Byron probably had the best of them all, for he embossed his with rhyme and song.



He always managed to hand the players a laugh and keep them in good humor with something like the following:

"It cut the center of the plate, you missed because you swung too late."

Another of his classics was:

"First-class hitters should be bolder, you can't get a hit with the bat on your shoulder."

The latter usually followed a called third strike, and got Byron out of no few arguments.

McNair Thinks Athletics Will Be In Thick Of Fight

MERIDIAN, Miss., Feb. 24.—(AP)—Eric McNair, shortstop of the Philadelphia Athletics, says the A's will be in the thick of the American league pennant battle "if the ptching comes through."

"Mahaffey, Cain and Marcum," he said, "are just about as good as you'll find, and if a couple of the other hurlers develop as they should, we'll make it interesting for all of them. The Washington Senators is the team to beat."

McNair leaves tomorrow for Fort Myers, Fla., where the Athletics will engage in spring training, and while he admits he has not signed his 1934 contract, he says that he expects no trouble in coming to terms with Connie Mack.

COLLINSTON AND OAK GROVE WIN IN RUSTON MEET

(Continued From Twelfth Page)

63 to 9. Collingston led 35 to 6 at the half. Langston, center for Collinston, was high point scorer of the fray.

Bastrop downed Athens 39 to 15 in the second semi-final game for girls. McGraw, Bastrop center, scored 28 points to lead the Morehouse sextette to victory. The half-time score was 31-11, and in the last period close guarding made it difficult for either team to add many points to their total.

Ouachita parish won the consolation match for third place of the rally by defeating Spearsville 53-31 in the Saturday afternoon game. The Monroe squad led 24-14 at the half and increased its score with ease in the last period. Stron, Ouachita guard, won individual scoring honors with 14 points. Cobb, Ouachita forward, and Smith, main scoring ace for spearsville, tied for runner-up scoring honors with 12 points each. Ouachita's excellent passing enabled them to work the ball down under the basket and score most of their points on crip shots.

In the girls' division Athens defeated Spearsville 55-28 for third place. Pardue, Athens forward, set high point for individual scoring of the tournament with 31 points in this game. Ogdon, Spearsville center, led her team with 14 points.

VIRGINIA VAN WIE BEATS MRS. HILL

National Women's Champion Wins South Atlantic Golf Title

ORMOND BEACH, Fla., Feb. 24.—(AP)—A well behaved putter enabled Virginia Van Wie of Chicago to equal men's par and add the South Atlantic golf championship to her national women's title here today as she turned back Mrs. Opal S. Hill of Kansas City, 5 and 4, in the final round.

On no less than six of the 14 holes played, Miss Van Wie needed only one putt, chipping over a mound into the cup on another hole from behind the green, and using three putts for wins or halves, but the Van Wie putting touch was uncanny today.

On the first hole Mrs. Hill, forty feet from the pin in two, stroked her approach putt directly at the cup but it bounded over and rested on the edge. Miss Van Wie sank a 20-foot putt for a birdie.

They halved the second and Miss Van Wie won the third.

A fifteen-foot putt on the fourth enabled Miss Van Wie to card another birdie and put her three up. She faltered on the green on the next hole, missing a little short and taking a four to Mrs. Hill's par three. Up to the turn from there they matched stroke for stroke.

On the tenth Miss Van Wie looped in another rolling 15-foot putt for a par and another win.

Mrs. Hill ran into trouble on the next hole, needing a six while Miss Van Wie got down with a regulation four.

The champion sent a 20-footer directly into the hole for another par and win on the twelfth, giving her the five up advantage by which she won. They played the next two holes alike, both scoring pars.

Mike Layden, younger brother of Elmer and sophomore at Notre Dame, is not only a fine halfback and a star hurdler, but is water boy for the varsity basketball team and an honor student.

FIVE FILLIES ARE DERBY NOMINEES

Eligibles Total 124 For Running Of Racing Classic On May 5

LOUISVILLE, Ky., Feb. 24.—(AP)—The 124 nominations for the 1934 Kentucky derby, announced today, include five fillies which proved themselves last year capable of matching strides with scores of capable colts and geldings.

While the total is six more than last year, five of the leading money winners among the 1933 two-year-olds including three fillies, are missing from the ranks of those nominated for the May 5 event with its $30,000 added purse, the five highly ranked fillies named are Charles T. Fisher's Mata Hari, Col. E. R. Bradley's Bazaar, C. V. Whitney's Jabot, Mrs. John Zoeller's Tatanne, and W. Graham's Coequel.

The leading colts nominated, rated on the basis of their two-year-old form last year, are Mrs. J. H. Whitney's Singing Wood, George D. Widener's Chickstraw, the Brookmeade stable's Cavalcade, the Greentree stable's Black Buddy and C. V. Whitney's Roustabout.

Announcement was made at Miami today, however, that Singing Wood would not start in the derby, but would be reserved for the Preakness.

Other leading nominees are W. Ziegler, Jr.'s Bonanza, A. B. Gordon's Sir Thomas, Calumet farm's Hadagal, and Alfred G. Vanderbilt's Discovery and Red Wagon.

Outstanding absentees from the list of nominees are First Minstrel, which many handicappers considered last year's best two-year-old; Far Star, High Glee, Wise Daughter and High Quest. The latter four were among last year's ten leading juvenile money winners. Far Star, High Glee and Wise Daughter are fillies, and three-year-old thoroughbreds of that sex seldom train well in the spring.

The Greentree stable, which won the 1931 derby with Twenty Grand in record time, nominated five horses for this year's blue ribbon event. Besides Black Buddy, they are Soon Over, Spy Hill, Earnings and The Triumvir. The latter was the most costly yearling sold at auction in 1932, bringing $14,500.

Baseball Meeting To Be Held At Clarks Tuesday

CLARKS, Feb. 24. — (Special) — A baseball meeting will be called Tuesday night at the White hotel in an effort to reorganize the Clarks baseball team. Quite a bit of important business is to be brought up at the meeting which will be presided over by E. M. Steeley, Clarks business man. One of the most important things to decide on at this meeting is the selection of a manager for the coming season. Among those most prominently mentioned for this position are P. J. Goodnight, who was manager of the Lumberjacks last season; H. O. Cooksey, a former baseball player and business man of Clarks; E. M. Steeley, former manager of the team a year or two ago and a veteran infielder, and W. A. (Bill) Smith who has had quite a bit of experience as a baseball manager.

Quite a bit of work is expected to be done on the baseball field before the season opens. The fence and grandstand will be repaired. Among the players who are expected to be back this coming season are the following: Pitchers Brooks and Parham, Catchers Smith and Scaife, Infielders Steeley, C. Stone, Delcore and Frickie, Outfielders Grant, McNeely, Pugh and O'Neal. Several new players are expected to try out for the team.

CHAMPION GIANTS OPEN SPRING CAMP AT MIAMI BEACH

Dozen Athletes Report To Terry As Club Gets Jump On Rivals

By Alan Gould
(Associated Press Sports Editor)

MIAMI BEACH, Fla., Feb. 24.—(AP)—The world champion New York Giants, continuing their policy of getting the jump on all rivals, began training for the 1934 pennant race today at least a full week in advance of any of the clubs using Florida as a base of operations this year.

Bill Terry

Upwards of a dozen athletes, including the renowned Carl Owen Hubbell and nearly all the other battery men, answered Manager Bill Terry's first roll call, drilled for an hour mainly for the benefit of photographers at Flamingo Park and then went into a club house "huddle" to listen to their leader's first campaign speech of the season.

"We are getting down to business earlier than usual, because we have a tough schedule ahead and I want to be sure the whole team is absolutely in top shape from the first game of the season on April 17," declared Terry, after outlining plans for daily workouts, including Sundays. "In the language of the ring, the Giants will 'come out fighting,' and shoot the works from the start.

"It may sound like I'm bragging now or that maybe all this sunshine has got me a little balmy, but I honestly think our club will be better this year than last, and that we will win the pennant by a bigger margin. That's how much confidence I have in the outfit. I have never seen a crowd so anxious to go. Not even a threat to make him pay his own expenses until the rest of the regulars report March 1 could keep a guy like blondy Ryan from coming down here now. There's not a spark of jealousy or the least sign of a swelled head in the whole squad."

Terry revealed he is not counting upon his number one backstop, Gus Mancuso, being recovered sufficiently from an attack of typhoid to start the season. Mancuso will be ordered to take things easy when he reports here, while husky Paul Richards does the bulk of backstopping, aided by Harry Danning, who hit .349 with Buffalo last season.

Terry heard the news of Casey Stengel's appointment to the managership of the Brooklyn Dodgers with much interest and voiced his congratulations to the former Giant outfielder.

"I notice Casey has picked up where Max Carey and Bob Quinn left off challenging the Giants, as a result of that wise-crack of mine this winter," smiled Terry. "They've got me all wrong, in the first place, if they think I intended to belittle the Dodgers. I expect they will give us all they've got and I don't expect any club in the league to be a set-up. Casey will have his own troubles, however, without worrying too much about me. You can never tell when Brooklyn is going to change managers."

With the exception of Herman Bell and 'Dolfo Luque, the Cuban veteran who is expected here tomorrow, the entire pitching staff has reported to Terry. One of the newcomers is Jim Leonardo, big 20-year-old right-hander who was picked up from the Los Angeles semi-pro ranks. Leonardo and Al Cuccinello, 18-year-old second baseman and younger brother of Brooklyn's Tony Cuccinello, have both caught Terry's eye as real prospects due for development in the new Giant system.

Definite Plans Made For Dallas' Spring Training

DALLAS, Texas, Feb. 24.—(AP)—Definite plans for the spring training grind of the Dallas Texas league club were announced today by Bob Tarleton, business manager for the Steers, after receipt of a telegram from Manager Fred Brainard announcing he would arrive here from his New Mexico ranch about March 5.

Tarleton has set March 15 as the date for the Steers to begin training at the Baton Rouge, La., camp. Brainard will have more than a month in which to weed out what he calls the "top waters" from the "game fish."

The first exhibition game will be played at Baton Rouge March 25 against the revamped Fort Worth Panthers, who will do their early conditioning at Lake Charles, La.

Cotton

New Orleans

NEW ORLEANS, Feb. 24.—(AP)—Cotton was comparatively quiet in today's short session and net price changes were inconsequential.

As cables were about as due, the market here opened unchanged to three points up, with May at 12.19, and July at 12.32. Later prices eased off on lack of support, apprehension over further delays on the Bankhead bill and weakness in stocks. May finally traded down to 12.12 and July to 12.26, or 6 to 8 points under the opening. The market rallied 2 to 3 points at the end on short covering and the close was steady, net unchanged to 3 points down for the day.

Exports for the day were 5,769 bales.

Cotton futures closed steady net unchanged to 3 points down.

NEW YORK, Feb. 24.—(AP)—Trading in cotton was quiet today and prices fluctuated irregularly within a range of 8 to 10 points. There was sufficient covering and trade buying to cause rallies from an early decline, but after selling up from 12.13 to 12.22 for May, prices eased off under renewed liquidation together with some Wall street and a little southern selling. May closed at 12.17 with the general market closing steady, net unchanged to 6 points lower.

Cotton futures closed steady, unchanged to 6 lower.

New York Stocks

By Victor Eubank

NEW YORK, Feb. 24.—(AP)—Stocks generally pointed downward again today although the selling was orderly in the face of considerable pessimistic sentiment in Wall Street. A few scattered issues, including the aircrafts, showed resistance, but the close, on the whole, was heavy. The turnover for the brief session approximated 1,300,000 shares.

Market commentators attributed the further reaction partly to the growing belief that a rather drastic law will be enacted by congress for the federal control of speculation; to the reports of labor difficulties in some of the automobile and motor accessory plants and to the fear that governmental investigation of various industries may follow an inquiry into alleged price-fixing by the packers.

Equities had little help from commodities, although wheat and cotton held fairly steady. Silver and rubber eased a bit. Bonds, particularly those of the secondary classification, were inclined to follow stocks in a reduction of prices. International dollar rates held to a narrow groove.

Among the aviation shares, those of United, Douglas, Curtis Wright and Aviation held small advances, although they did not finish anywhere around their best levels. Reports that plans were already being considered at Washington for a return of air mail to the commercial companies aided this group.

American Telephone was among the few issues that bucked the trend, finishing with a fractional gain. Seaboard Oil also got up a point, but losers of 1 to 2 or more included U. S. Steel, Chrysler, Montgomery Ward, U. S. Smelting, Western Union, Bethlehem Steel, Electric Auto Lite, Case, Union Pacific, Northern Pacific, Santa Fe and Pennsylvania.

The rails apparently ignored a sharp contra-seasonal upturn in freight car loadings for the week ended February 17. In this period shipments increased 26,392 over the previous week, 81,367 over the like 1933 week and 26,631 over the same week in 1932. Heavy gains in coal shipments accounted for much of the improvement, although the movement of miscellaneous freight was an important factor.

Industrial observers appeared to be somewhat concerned over news of scattered strike troubles. It was hoped, however, that these would be quickly settled and would not show any decided tendency to spread at a time when the recovery program is being pushed vigorously.

Walk outs were reported at the important Spicer plant at Toledo where accessories are manufactured for several of the larger motor manufacturers. Other labor difficulties were encountered by the Nash Co., at Racine, Wis., and by the Electric Auto Lite concern at Toledo.

LUCULLIAN FEAST IN L. S. U. HALLS

(Continued from First Page)

several hundred members of the L. S. U. faculty who were impatiently awaiting long overdue salary checks and who, the very evening before, had foregathered to partake of a modest 50-cent faculty supper.

The Venetian room banquet lacked nothing to make it appeal to fastidious palates. There was wine in abundance (fifteen gallons of it, the story goes); there were specially prepared viands, including a courtbouillion which even a satiated epicure could not have resisted; there was a heaping supply of quail; there were exquisitely wrought and highly expensive place cards. And, of course, there were mirth and jollity and wit and good fellowship.

Baton Rouge is talking about the banquet because nothing like it had heretofore been witnessed here. It set a record for service and elaborateness. Compared with it, the faculty supper of the evening before, attended only by poorly-paid professors and their wives, and from which the juice of the grape was conspicuously missing, was hardly worth mentioning. The faculty diners got only tomato juice cocktail, apple salad, potatoes, peas, roast beef, coffee and cake. Not to be spoken of in the same breath with Friday night's menu!

Perhaps Jove, entertaining the gods on high Olympus, may have excelled the Baton Rouge conference feast. But, in the absence of authentic records, it is by no means certain. The place cards at the Venetian room repast were footballs of gold and purple (the L. S. U. colors(about six inches long and laced with satin ribbons of the same hues. The first page of the menu folder bore this inscription:

"Southeast Conference Dinner, Louisiana State university, Friday, February 9, 1934, 8 p. m., university dining hall."

The next page bore a halftone reproduction of the little water cart that is trotted out on the field at intervals during grid contests. On page 3 the menu-maker burst into poetry, thusly:

"Upon the fields of the friendly strife
Are sown the seeds that
Upon other fields and on other days
Will bear the fruits of victory."

(Evidently a quotation; author unknown).

The final page was reserved for the menu—depicted pictorially. At the top of the page, between goal posts, appeared the talismanic word "Menu" in glittering letters. Then followed a wicked looking Mephisto with pitchfork, hovering menacingly over an oyster—suggesting deviled oysters. Then there came a red snapper—indicating courtbouillion, specially prepared for the occasion and pronounced dee-e-e-licious. Next came a pictured group—cauliflour, pomme de terre and a bird—yclept, the quail. A salad illustration, ice cream, cake and demi tasse made up the balance of the list. There was no printed wine list, but it is said that sauterne was served with the fish and claret with the meat, just as in the good old days.

According to one seemingly authentic account, the evening did not begin in the Venetian dining hall. It began somewhat earlier in a special room in a downtown hotel, where the banqueters and others met to consider the state of the nation and discuss other appropriate topics. Later on, when the banquet hour was reached, "Prexy" Smith is said to have suggested to the feasters that as this was the first affair of its kind since it was made legal to serve drinks, "he was going to let all have a drink together."

Mine Host Smith is said to have been very proud of the piece de resistance of the banquet—Louisiana quail. And well he might be. The quail is a rare bird at banquet tables. It is against the law to serve him in restaurants—illegal, in fact, to even have him stored in a refrigerator. The idea, of course, is to protect the quail through abolition of pot hunting. So the poor man who isn't a Nimrod, doesn't get quail. It is too rich for his blood.

However, the L. S. U. banqueters in the Venetian dining room had an abundance of quail—indeed, a superabundance of it. Provision had been made for 150 guests; only 46 were seated. "Prexy" Smith made a courteous acknowledgement to the provider of this toothsome bird. He was Armand P. Daspit, head of the wild life division of the Louisiana Conservation commission. The shotguns of game wardens in the Baton Rouge area enabled Mr. Daspit to oblige. It is said that the wardens were ordered to shoot and they shot—with excellent results.

It was a great occasion. The fun was fast and furious, the wit sparkling, the enjoyment aces high. While generously distributed, the wine was not the only beverage consumed at the feast. There were some private contributions. No banqueter was unable to remember his name or telephone number, but everyone was happy—very, very happy. Students waiting on the tables are said to have got a little of the wine—on the outside. A tarantula must have bitten some of the kitchen help, for one or two of them draped themselves on tables in the east or far end of the Venetian room. These last were negroes.

At one stage of the proceedings a faculty member is said to have mounted a table and gracefully folding a tablecloth over his shoulders, after the manner of the dancing Almas of the east, is reported to have cautioned revelers not to let the story of the feast reach the public ear. The same individual is also said to have made a gallant but futile try at rendering "The Old Oaken Bucket."

The repartee and laughter of the evening are said to have had an enervating effect upon a few of the banqueters. In any event, they are declared to have received involuntary help from some of those unaffected by the proceedings—not that they needed it, perhaps, but just so! The spirit of the occasion found expression in many ways.

There is, of course, always the danger of being misunderstood. And that seems to be the msfortune of those who planned and promoted the Venetian room feast. Somehow or other, local sentiment does not appear to approve the February 9th affair. Perhaps it was because the banquet was an innovation. At no previous period in the history of Louisiana State university had wine, or any other kind of intoxicating beverage, been served at a university function. Previous administrations have felt that fathers and mothers of the boys and girls attending the institution would not approve of it. At all times and under all circumstances, alcoholic and vinous drinks were barred. But a few years ago an athletic trainer was dismissed because it was said he drank before students.

But, maybe this is regarded as an age of progress; and innovations like that of February 9 are to be expected, in consequence. Maybe the banquet marked the casting off of old lines and the deliberate abandonment of fundamentals. Perhaps the spirit of Longism, which permeates the whole university, is strong enough to defy tradition and make reactionaries of conservative educators.

However,—

There is the burning example of the mighty Belshazzar and the handwriting on the wall and the quick fulfillment of Daniel's prophecy!

Local Man Heads CCC Camp Near Strong, Ark.

E. M. Thornton of 205 McEnery avenue, is superintendent of one of the more unusual of CCC camps maintained by the government. The one referred to is located near Strong, Ark. It has an enrollment of 198 negroes, whose destinies are in the charge of five white officers and 26 young white men classified as "local woodsmen." A very substantial work has been performed in highway construction, Mr. Thornton, who spends week-ends with his family here when possible, stated.

The camp, which is the only negro civilian one in Arkansas, is located six miles southeast of Strong and 28 miles from El Dorado. It is approximately 75 miles from Monroe. It was established early last October by an enlisted cadre, as termed in the army, from the ninth (negro) cavalry regiment of Fort Riley, Kans. This group returned to its post at Fort Riley after having completed arrangements for removal of men and properties from company 1702 camp near Crossett, which lost its identity and became the CCC P-58, of Strong.

Rapid progress since autumn has been made in converting the pine forest site into an attractive and useful CCC camp.

Lieut. Wendell W. Watkins is commanding officer and Lieut. William F. Buchanan is assistant commander.

In nearly all CCC camps, improvement of forestry interests engages the exclusive attention of the men, but not so in this somewhat unusual camp. Here the making of rural roads and state highway improvements are the things to be given chief attention, Mr. Thornton states. He has had 13 years' experience in forestry work and knows well the need for good highways. He has not only full charge of all forestry and highway projects, but also holds the position of chief aide to the federal artillery reserve corps in the camp.

His efficiency and past experience are such as to stand him in well in his present labors.

Highway projects under supervision of Camp P-58 embrace 23 miles of construction and improvement of rural roads and state highways in South Arkansas. Mr. Thornton stated that the improved highways that are resulting from the work of the CCC will mean much to all communities such as Strong, Huttig, Lapile, Bolding, New London, Felsenthal and other places located in the vicinity.

An observation tower designed for detection of forest fires will soon be constructed and will be the seventh structure of this nature in south Arkansas and north Louisiana. It will be of steel and 112 feet high. Winding stairs will lead up from a concrete foundation to an observation booth at the top. Here a watchman will be on duty day and night to keep sharp lookout for incipient forest fires.

Excellent meals are served and there are buildings sufficient to provide for the needs of officers and men. There are sleeping rooms for white men, four barracks for negroes, medical dispensary, bath houses, mess halls, hospital, garage, blacksmith shop and tool house. A recreation hall has a seating capacity of 250. It is here that dances and other diversions are frequently given.

Mr. Thornton expresses hope that long after the CCC camp is gone, that the benefits derived from its existence will continue along the special lines outlined, in improvements of highways and in bettered facilities for forest fire-fighting.

W. F. Zehner Connected With Hardware Concern

W. F. Zehner, manager of the furniture department of the Monroe Hardware company, announces that he has secured the services of T. K. Hewlett, interior decorator, who for many years was connected with the Maison-Blanche company, of New Orleans, in the capacity of assistant buyer in the furniture department. He further states that Mr. Hewlett also was buyer for the Kaufman-Strauss company of Louisville, Ky., a large department store.

Mr. Zehner advises that Mr. Hewlett has had considerable experience in furnishing and draping homes in the south and feels that the Monroe Hardware company was fortunate in securing the services of Mr. Hewlett.

"You'll always lose to Barbara,"
Jim Warfield had told Joan.

Blushing, Joan Waring left the bridge table to get her purse. Cynical and debonair, Jim Warfield smiled at her. "You'll always lose to Barbara," he said.

Months later Joan stared into the glittering loneliness of Broadway—and knew that Jim Warfield was right.

How Joan and Barbara played high stakes for the man they both wanted is told in "Forgotten Sweetheart," a story that is packed with action, romance and a theme that you'll find alluringly different. Read the first instalment and you'll follow this gripping new serial to the end.

Cotton

New Orleans

NEW ORLEANS, Feb. 24.—(AP)—Cotton was comparatively quiet in today's short session and net price changes were inconsequential.

As cables were about as due, the market here opened unchanged to three points up, with May at 12.19, and July at 12.32. Later prices eased off on lack of support, apprehension over further delays on the Bankhead bill and weakness in stocks. May finally traded down to 12.12 and July to 12.26, or 6 to 8 points under the opening. The market rallied 2 to 3 points at the end on short covering and the close was steady, net unchanged to 3 points down for the day.

Exports for the day were 5,769 bales.

Cotton futures closed steady net unchanged to 3 points down.

New York

NEW YORK, Feb. 24.—(AP)—Trading in cotton was quiet today and prices fluctuated irregularly within a range of 8 to 10 points. There was sufficient covering and trade buying to cause rallies from an early decline, but after selling up from 12.13 to 12.22 for May, prices eased off under renewed liquidation together with some Wall street and a little southern selling. May closed at 12.17 with the general market closing steady, net unchanged to 6 points lower.

Cotton futures closed steady, unchanged to 6 lower.

New York Stocks

By Victor Eubank

NEW YORK, Feb. 24.—(AP)—Stocks generally pointed downward again today although the selling was orderly in the face of considerable pessimistic sentiment in Wall Street. A few scattered issues, including the aircrafts, showed resistance, but the close, on the whole, was heavy. The turnover for the brief session approximated 1,300,000 shares.

Market commentators attributed the further reaction partly to the growing belief that a rather drastic law will be enacted by congress for the federal control of speculation; to the reports of labor difficulties in some of the automobile and motor accessory plants and to the fear that governmental investigation of various industries may follow an inquiry into alleged price-fixing by the packers.

Equities had little help from commodities, although wheat and cotton held fairly steady. Silver and rubber eased a bit. Bonds, particularly those of the secondary classification, were inclined to follow stocks in a reduction of prices. International dollar rates held to a narrow groove.

Among the aviation shares, those of United, Douglas, Curtis Wright and Aviation held small advances, although they did not finish anywhere around their best levels. Reports that plans were already being considered at Washington for a return of air mail to the commercial companies aided this group.

American Telephone was among the few issues that bucked the trend, finishing with a fractional gain. Seaboard Oil also got up a point, but losers of 1 to 2 or more included U. S. Steel, Chrysler, Montgomery Ward, U. S. Smelting, Western Union, Bethlehem Steel, Electric Auto Lite, Case, Union Pacific, Northern Pacific, Santa Fe and Pennsylvania.

The rails apparently ignored a sharp contra-seasonal upturn in freight car loadings for the week ended February 17. In this period shipments increased 26,392 over the previous week, 81,367 over the like 1933 week and 26,631 over the same week in 1932. Heavy gains in coal shipments accounted for much of the improvement, although the movement of miscellaneous freight was an important factor.

Industrial observers appeared to be somewhat concerned over news of scattered strike troubles. It was hoped, however, that these would be quickly settled and would not show any decided tendency to spread at a time when the recovery program is being pushed vigorously.

Walk-outs were reported at the important Spicer plant at Toledo where accessories are manufactured for several of the larger motor manufacturers. Other labor difficulties were encountered by the Nash Co., at Racine, Wis., and by the Electric Auto Lite concern at Toledo.

Chicago Grain

CHICAGO, Feb. 24. — (AP)—Fresh downturns of grain prices early today accompanied forecasts of new snowfalls tonight in Kansas and Nebraska. Opening 1-8 to 3-4 lower, May 87 3-8 to 3-4, wheat afterward fell further. Corn started unchanged to 1-4 off, and subsequently underwent an all around sag.

Rye closed nervous, 7-8 to 1 3-4 above yesterday's finish, wheat at 1-2 to 3-4 decline, corn unchanged to 1-4 higher, oats 1-8 to 1-4 off, and provisions unchanged to 5 cents lower.

LUCULLIAN FEAST IN L. S. U. HALLS

(Continued from First Page)

several hundred members of the L. S. U. faculty who were impatiently awaiting long overdue salary checks and who, the very evening before, had foregathered to partake of a modest 50-cent faculty supper.

The Venetian room banquet lacked nothing to make it appeal to fastidious palates. There was wine in abundance (fifteen gallons of it, the story goes); there were specially prepared viands, including a court-bouillion which even a satiated epicure could not have resisted; there was a heaping supply of quail; there were exquisitely wrought and highly expensive place cards. And, of course, there were mirth and jollity and wit and good fellowship.

Baton Rouge is talking about the banquet because nothing like it had heretofore been witnessed here. It set a record for service and elaborateness. Compared with it, the faculty supper of the evening before, attended only by poorly-paid professors and their wives, and from which the juice of the grape was conspicuously missing, was hardly worth mentioning. The faculty diners got only tomato juice cocktail, apple salad, potatoes, peas, roast beef, coffee and cake. Not to be spoken of in the same breath with Friday night's menu!

Perhaps Jove, entertaining the gods on high Olympus, may have excelled the Baton Rouge conference feast. But, in the absence of authentic records, it is by no means certain. The place cards at the Venetian room repast were footballs of gold and purple (the L. S. U. colors(about six inches long and laced with satin ribbons of the same hues. The first page of the menu folder bore this inscription:

"Southeast Conference Dinner, Louisiana State university, Friday, February 9, 1934, 8 p. m., university dining hall."

The next page bore a halftone reproduction of the little water cart that is trotted out on the field at intervals during grid contests. On page 3 the menu-maker burst into poetry, thusly:

"Upon the fields of the friendly strife
Are sown the seeds that
Upon other fields and on other days
Will bear the fruits of victory."

(Evidently a quotation; author unknown).

The final page was reserved for the menu—depicted pictorially. At the top of the page, between goal posts, appeared the talismanic word "Menu" in glittering letters. Then followed a wicked looking Mephisto with pitchfork, hovering menacingly over an oyster—suggesting deviled oysters. Then there came a red snapper—indicating courtbouillion, specially prepared for the occasion and pronounced dee-e-e-licious. Next came a pictured group—cauliflour, pomme de terre and a bird—yclept, the quail. A salad illustration, ice cream, cake and demi tasse made up the balance of the list. There was no printed wine list, but it is said that sauterne was served with the fish and claret with the meat, just as in the good old days.

According to one seemingly authentic account, the evening did not begin in the Venetian dining hall. It began somewhat earlier in a special room in a downtown hotel, where the banqueters and others met to consider the state of the nation and discuss other appropriate topics. Later on, when the banquet hour was reached, "Prexy" Smith is said to have suggested to the feasters that as this was the first affair of its kind since it was made legal to serve drinks, "he was going to let all have a drink together."

Mine Host Smith is said to have been very proud of the piece de resistance of the banquet—Louisiana quail. And well he might be. The quail is a rare bird at banquet tables. It is against the law to serve him in restaurants—illegal, in fact, to even have him stored in a refrigerator. The idea, of course, is to protect the quail through abolition of pot hunting. So the poor man who isn't a Nimrod, doesn't get quail. It is too rich for his blood.

However, the L. S. U. banqueters in the Venetian dining room had an abundance of quail—indeed, a superabundance of it. Provision had been made for 150 guests; only 46 were seated. "Prexy" Smith made a courteous acknowledgement to the provider of this toothsome bird. He was Armand P. Daspit, head of the wild life division of the Louisiana Conservation commission. The shotguns of game wardens in the Baton Rouge area enabled Mr. Daspit to oblige. It is said that the wardens were ordered to shoot and they shot—with excellent results.

It was a great occasion. The fun was fast and furious, the wit sparkling, the enjoyment aces high. While generously distributed, the wine was not the only beverage consumed at the feast. There were some private contributions. No banqueter was unable to remember his name or telephone number, but everyone was happy—very, very happy. Students waiting on the tables are said to have got a little of the wine—on the outside. A tarantula must have bitten some of the kitchen help, for one or two of them draped themselves on tables in the east or far end of the Venetian room. These last were negroes.

At one stage of the proceedings a faculty member is said to have mounted a table and gracefully folding a tablecloth over his shoulders, after the manner of the dancing Almas of the east, is reported to have cautioned revelers not to let the story of the feast reach the public ear. The same individual is also said to have made a gallant but futile try at rendering "The Old Oaken Bucket."

The repartee and laughter of the evening are said to have had an enervating effect upon a few of the banqueters. In any event, they are declared to have received involuntary help from some of those unaffected by the proceedings—not that they needed it, perhaps, but just so! The spirit of the occasion found expression in many ways.

There is, of course, always the danger of being misunderstood. And that seems to be the msfortune of those who planned and promoted the Venetian room feast. Somehow or other, local sentiment does not appear to approve the February 9th affair. Perhaps it was because the banquet was an innovation. At no previous period in the history of Louisiana State university had wine, or any other kind of intoxicating beverage, been served at a university function. Previous administrations have felt that fathers and mothers of the boys and girls attending the institution would not approve of it. At all times and under all circumstances, alcoholic and vinous drinks were barred. But a few years ago an athletic trainer was dismissed because it was said he drank before students.

But, maybe this is regarded as an age of progress; and innovations like that of February 9 are to be expected, in consequence. Maybe the banquet marked the casting off of old lines and the deliberate abandonment of fundamentals. Perhaps the spirit of Longism, which permeates the whole university, is strong enough to defy tradition and make reactionaries of conservative educators.

However,—

There is the burning example of the mighty Belshazzar and the handwriting on the wall and the quick fulfillment of Daniel's prophecy!

Local Man Heads CCC Camp Near Strong, Ark.

E. M. Thornton of 205 McEnery avenue, is superintendent of one of the more unusual of CCC camps maintained by the government. The one referred to is located near Strong, Ark. It has an enrollment of 198 negroes, whose destinies are in the charge of five white officers and 26 young white men classified as "local woodsmen." A very substantial work has been performed in highway construction, Mr. Thornton, who spends week-ends with his family here when possible, stated.

The camp, which is the only negro civilian one in Arkansas, is located six miles southeast of Strong and 28 miles from El Dorado. It is approximately 75 miles from Monroe. It was established early last October by an enlisted cadre, as termed in the army, from the ninth (negro) cavalry regiment of Fort Riley, Kans. This group returned to its post at Fort Riley after having completed arrangements for removal of men and properties from company 1702 camp near Crossett, which lost its identity and became the CCC P-58, of Strong.

Rapid progress since autumn has been made in converting the pine forest site into an attractive and useful CCC camp.

Lieut. Wendell W. Watkins is commanding officer and Lieut. William F. Buchanan is assistant commander.

In nearly all CCC camps, improvement of forestry interests engages the exclusive attention of the men, but not so in this somewhat unusual camp. Here the making of rural roads and state highway improvements are the things to be given chief attention, Mr. Thornton states. He has had 13 years' experience in forestry work and knows well the need for good highways. He has not only full charge of all forestry and highway projects, but also holds the position of chief aide to the federal artillery reserve corps in the camp.

His efficiency and past experience are such as to stand him in well in his present labors.

Highway projects under supervision of Camp P-58 embrace 23 miles of construction and improvement of rural roads and state highways in South Arkansas. Mr. Thornton stated that the improved highways that are resulting from the work of the CCC will mean much to all communities such as Strong, Huttig, Lapile, Bolding, New London, Felsenthal and other places located in the vicinity.

An observation tower designed for detection of forest fires will soon be constructed and will be the seventh structure of this nature in south Arkansas and north Louisiana. It will be of steel and 112 feet high. Winding stairs will lead up from a concrete foundation to an observation booth at the top. Here a watchman will be on duty day and night to keep sharp lookout for incipient forest fires.

Excellent meals are served and there are buildings sufficient to provide for the needs of officers and men. There are sleeping rooms for white men, four barracks for negroes, medical dispensary, bath houses, mess halls, hospital, garage, blacksmith shop and tool house. A recreation hall has a seating capacity of 250. It is here that dances and other diversions are frequently given.

Mr. Thornton expresses hope that long after the CCC camp is gone, that the benefits derived from its existence will continue along the special lines outlined, in improvements of highways and in bettered facilities for forest fire-fighting.

W. F. Zehner Connected With Hardware Concern

W. F. Zehner, manager of the furniture department of the Monroe Hardware company, announces that he has secured the services of T. K. Hewlett, interior decorator, who for many years was connected with the Maison-Blanche company, of New Orleans, in the capacity of assistant buyer in the furniture department. He further states that Mr. Hewlett also was buyer for the Kaufman-Strauss company of Louisville, Ky., a large department store.

Mr. Zehner advises that Mr. Hewlett has had considerable experience in furnishing and draping homes in the south and feels that the Monroe Hardware company was fortunate in securing the services of Mr. Hewlett.

"You'll always lose to Barbara,"
Jim Warfield had told Joan.

Blushing, Joan Waring left the bridge table to get her purse. Cynical and debonair, Jim Warfield smiled at her. "You'll always lose to Barbara," he said.

Months later Joan stared into the glittering loneliness of Broadway—and knew that Jim Warfield was right.

How Joan and Barbara played high stakes for the man they both wanted is told in "Forgotten Sweetheart," a story that is packed with action, romance and a theme that you'll find alluringly different. Read the first instalment and you'll follow this gripping new serial to the end.

FARMERS' SCHOOL OPENS AT RUSTON

Sixty Growers Are Present At First Session Of Spring Term

RUSTON, La., Feb. 24.—(Special)—With an attendance of 60 farmers and a fair group of business and professional men present, Ruston's night school for farmers opened its spring term here Friday night with a program that included more or less organization work, along with demonstrations of how a dust mulch conserves moisture for plant use in dry periods, reports on the government plan of cotton acreage-reduction; an outline of the big soil-erosion demonstration project to cover the watersheds of Stowe and Cypress creeks and with a brief description of how George Washington, accorded the best farmer of his day and time, managed his 3,000 acre plantation at Mount Vernon.

The sketch of Washington, the farmer, was given by Prof. Garnie W. McGinty of Tech faculty. The school will hold regular weekly sessions of one hour on Friday night for the next four months. Problems directly affecting the farmer and his family will be discussed as in the regular class room. Among the faculty members of this school will be J. A. Shealy, parish agent; R. L. Reece, in charge of agricultural teaching at Louisiana Tech; Prof. Mondart of Choudrant; Ferguson of Spearsville and Reich of Linnville, the last three named being teachers of Smith-Hughes work in high schools.

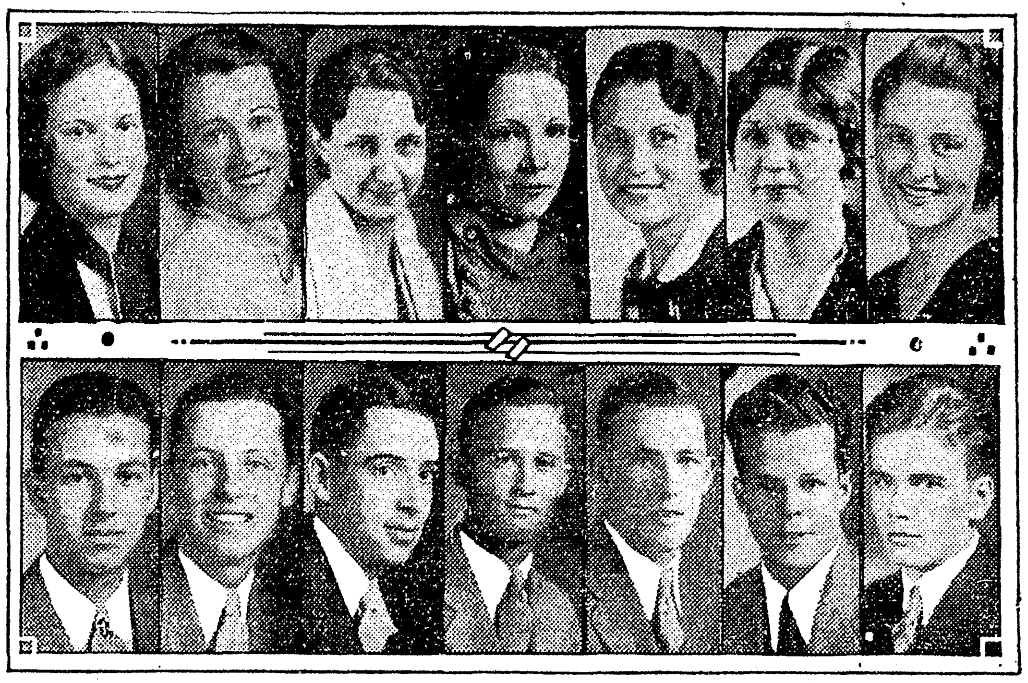
Dalferes And Mann To Visit Monroe Section

Linden Dalferes, state service commissioner, and Gray A. Mann, assistant state service commissioner, are scheduled to be in Monroe Wednesday from 9 a.m. to 3 p.m., according to information received here by B. E. McClendon, service officer for Ouachita parish. During the period from February 26 to March 3 the state officers will tour north Louisiana. Places to be visited will include Clarks, Winnsboro, Rayville, Bastrop, Monroe, Farmerville, Ruston, Arcadia, Gibsland, Homer, Springhill, Cotton Valley, Plain Dealing and Shreveport.

On the tour the service officers will explain to veterans the situation that exists in regard to soldiers' pensions and other benefits. Mr. Dalferes said he believed it would be of benefit to veterans to meet for a general discussion of their problems and to get the views of the Legionnaires throughout the state.

TECH'S WHO'S WHO 'SECRET' DISCLOSED



RUSTON, La., Feb. 24.—(Special)—Finding it not only difficult but impossible to keep the secret of who won the Who's Who election conducted at Louisiana Tech recently by a faculty-student committee, A. T. Hughes, Jr., of Lake End, editor of the college annual, has decided to disclose the identity of the campus "elite."

In the past, the outstanding students selected have been announced with the appearance of the yearbook in May. This year, however, things were different; three of the 14 students chosen by the committee had failed to have their pictures made for the annual. Consequently, it was necessary for the editor to tell these students that they had been elected and that they should have a desirable photograph made for use in the yearbook. Thus, with three-fourteenths of the secret having leaked out, Hughes resolved to "spill" it all.

The winners, shown above, are as follows: Top row, left to right: Martha Thompson, Hosston; Jewell Smith, Delhi; Verda Hodges, Ruston; Lois Smith, Coushatta; Esther Mays, Ruston; Avis Register, Logansport, and Leah Quinn, Sherveport. Bottom row: Herschel Pettus, Elizabeth; Ardis Cawthon, Doyline; L. V. Noles, Ringgold; Ellis Palmer, Gibsland; Ernest Brown, Doyline; Walter Bowman, Grand Bayou, and Rhodes Patterson, Ruston .

Home Owners Will Not Gain By Defaulting

Home owners defaulting on their loans so as to obtain federal aid from the Home Owners' corporation, will be doomed to disappointment. This word has been passed on to all managers of branches of this organization.

Federal money is for the man who is hard pressed, and not for the man who is able to pay, it is explained. He must not, in any case, be a man who is not in any immediate danger of losing his home.

At a recent meeting of the directors of the Home Owners' corporation, a special resolution was passed and every branch manager has been instructed to make clear that "persons who are able to make their payments on their present mortgages held by banks, insurance companies, building and loan companies, and other private holders and who default on such mortgages for the purpose of securing loans from the Home Owners' corporation, will not be considered eligible for such loans."

HARVEY GORDON WILL COME HERE

National Camp Engineer For Boy Scouts Will Visit City

Harvey A. Gordon, national camp engineer of the Boy Scouts of America, and H. W. Lewman, executive of the fifth Boy Scout region, will be in Monroe all day today for a conference with scout leaders of Louisiana on troop camping. The meeting will be held in the courtroom at the courthouse here, beginning at 10 a.m.

The conference is intended primarily for the benefit of chairmen of camping, training and activity committees. In order to have as many scout leaders of the Ouachita Valley council as possible present, G. W. Simpson, council executive, sent out more than 100 letters in which he called attention to the meeting and urged the scout leaders to attend.

Mr. Gordon has been in active scout work for more than 20 years and has served as camp engineer on the national staff since July, 1930. He became scoutmaster of troop No. 42, Pittsburgh, Penn., on March 27, 1913, and since that time has advanced steadily in scout work.

Throughout his career Mr. Gordon has been prominent in national conferences of scout executives. In July, 1929, he served as chief quartermaster for the American contingent to the world jamboree at Birkenhead, England, and he was jamboree executive for the fourth Boy Scout world jamboree in Godollo, Hungary, in August, 1933.

Monroe's Boy Scouts Collect Old Clothes

Five large trucks were engaged in the work of collecting clothing, furniture and other necessities for needy people of the city Saturday. The work was in the charge of troops made by President Roosevelt that all scouts of the country give time to such efforts.

George W. Simpson, scout executive, said Saturday night that a large amount of clothing and some furniture was collected. One troop alone brought in 170 pieces of clothing which, with all other collections made, were delivered to the Monroe Welfare association for later distribution.

The work of making collections will be continued Monday, Mr. Simpson said, and a report of all collections made will be given out for publication.

The awards in the bird building contests by scouts had not been completed Saturday and will be made known probably by Monday, the executive stated.

Big CWA Projects Pushed To Completion In Parish

Two major factors, both of greater material benefit to Monroe and Ouachita parish than has generally been realized, have been considered in CWA projects which have been started and are now being pushed to completion in Ouachita parish, according to a statement issued from the office of S. M. Collins, Ouachita parish administrator, yesterday.

"These two factors," the statement continued, "are drinking water and drainage.

"The importance of pure drinking water and an excellent source are well known to citizens of Monroe and West Monroe both.

"Thorough cleaning of Bayou DeSiard, which has served the city of Monroe as a source of water supply, is a boon which can be appreciated by those citizens who have so long urged the bayou's importance as such a source.

"Drainage, while of importance to urban dwellers, is not so directly of interest to them as it is to the farmer, who knows only too well the difficulties of working a field which, in rainy seasons, has much more the appearance of a lake.

"The city man fails to realize that it is only proper drainage, in country like this, which enables him to drive over many, if not most of our roads after heavy rains without either driving through miniature lakes or bogging down completely.

"In Pine bayou, one project, to be completed within the next few days, has provided drainage for many acres of land, as well as a foundation for other and possibly private farm drainage work.

"Mouchoire de L'Ourse, so named many years ago by a French officer and now rather thoroughly missspelled and misspronounced by succeeding genrations, is an important factor in this drainage system.

"Into these streams are drained the accumulated waters from roadside pools and ditches, rain soaked fields and the canebrake deep in the heart of Buckhorn Bend. Incidentally, in course of these operations it became necessary to cut the original tree upon which, in the days of Don Juan Filhiol, a buck's horns had been nailed, giving this bend its name.

"This work was not a simple matter of digging a ditch, it included grubbing bushes, digging great trees up by the roots and cutting in lateral ditches as well.

"It was not undertaken solely to provide men with work but also to be of lasting benefit to the country. Men were not sent out to spend the day in playing games and watching the skies, but to put in a real day's work, the result of which would be for the public welfare.

"This project is not entirely completed. From other fields of CWA work, not of such paramount importance to the public interest, gangs of men have been taken and placed in the Buckhorn Bend project, known to the general timekeeper and the master of the payroll as 'L-13.'

"Of equal importance, and possibly exceeding it in the eyes of Monroe urban dwellers, is the cleansing of Bayou DeSiard, another project on which nearly 1,000 men find more than elbow room to work.

"Because it was necessary to economize as far as buying tools was concerned and to use, as far as possible and economical, man power alone in this great task, men were sent to work at cleaning out the accumulated debris of ages with little more than bare hands.

"It was necessary to borrow boats, build rafts, and work from the insecure platform afforded by the latter with bush hooks and axes, cutting off underbrush at the water's edge.

"Then, when the water had been sufficiently drained, men were sent wading in to pull out small bushes, dead sticks, even old automobile bodies that had been thrown into the source of the city's drinking water. Dead trees were cut down, their stumps, most of which smelled to high heaven with the rot and piled up filth of years, removed.

"An economical and efficient system was perfected. Foremen and laborers displayed ingenuity in devising ways and means to accomplish their task. One man is sent wading into the ebbing water to hitch a rope over a rotted log or the butt end of a clump of bushes. The others grab the line and easily snake the desired object or objects out of water, piling up inflammable material for later burning.

"To help his men negotiate the shallow water among stumps and trees more easily, one foreman, Joe Hendricks, constructed special peavy poles, long sticks with hooks at the end.

"At the beginning his men had had only long branches with natural crooks at the end to work with.

"At present, Idevan sector of the bayou is nearly cleaned. Not all trees are being removed, only those now dead or those which show signs of becoming sources of pollution.

"And this work, too, is destined to be a source of lasting benefit."

COUNCIL IS ACTIVE

The student council of the Neville high school has been actively engaged in various efforts the past week. One of the most important steps taken, in the opinion of this group, was the preparation of a petition asking federal aid for education in this state.

Stanton Albritton was appointed chairman of a committee to revise the handbook. Plans were formulated, also, for the holding of a dance on Friday. Mary Frances Moore was elected chairman of the decorations committee.

FARMERS' SCHOOL OPENS AT RUSTON

Sixty Growers Are Present At First Session Of Spring Term

RUSTON, La., Feb. 24.—(Special)—With an attendance of 60 farmers and a fair group of business and professional men present, Ruston's night school for farmers opened its spring term here Friday night with a program that included more or less organization work, along with demonstrations of how a dust mulch conserves moisture for plant use in dry periods, reports on the government plan of cotton acreage-reduction; an outline of the big soil-erosion demonstration project to cover the watersheds of Stowe and Cypress creeks and with a brief description of how George Washington, accorded the best farmer of his day and time, managed his 3,000 acre plantation at Mount Vernon.

The sketch of Washington, the farmer, was given by Prof. Garnie W. McGinty of Tech faculty. The school will hold regular weekly sessions of one hour on Friday night for the next four months. Problems directly affecting the farmer and his family will be discussed as in the regular class room. Among the faculty members of this school will be J. A. Shealy, parish agent; R. L. Reece, in charge of agricultural teaching at Louisiana Tech; Prof. Mondart of Choudrant; Ferguson of Spearsville and Reich of Linnville, the last three named being teachers of Smith-Hughes work in high schools.

Dalferes And Mann To Visit Monroe Section

Linden Dalferes, state service commissioner, and Gray A. Mann, assistant state service commissioner, are scheduled to be in Monroe Wednesday from 9 a.m. to 3 p.m., according to information received here by B. E. McClendon, service officer for Ouachita parish. During the period from February 26 to March 3 the state officers will tour north Louisiana. Places to be visited will include Clarks, Winnsboro, Rayville, Bastrop, Monroe, Farmerville, Ruston, Arcadia, Gibsland, Homer, Springhill, Cotton Valley, Plain Dealing and Shreveport.

On the tour the service officers will explain to veterans the situation that exists in regard to soldiers' pensions and other benefits. Mr. Dalferes said he believed it would be of benefit to veterans to meet for a general discussion of their problems and to get the views of the Legionnaires throughout the state.

TECH'S WHO'S WHO 'SECRET' DISCLOSED

RUSTON, La., Feb. 24.—(Special)—Finding it not only difficult but impossible to keep the secret of who won the Who's Who election conducted at Louisiana Tech recently by a faculty-student committee, A. T. Hughes, Jr., of Lake End, editor of the college annual, has decided to disclose the identity of the campus "elite."

In the past, the outstanding students selected have been announced with the appearance of the yearbook in May. This year, however, things were different; three of the 14 students chosen by the committee had failed to have their pictures made for the annual. Consequently, it was necessary for the editor to tell these students that they had been elected and that they should have a desirable photograph made for use in the yearbook. Thus, with three-fourteenths of the secret having leaked out, Hughes resolved to "spill" it all.

The winners, shown above, are as follows: Top row, left to right: Martha Thompson, Hosston; Jewell Smith, Delhi; Verda Hodges, Ruston; Lois Smith, Coushatta; Esther Mays, Ruston; Avis Register, Logansport, and Leah Quinn, Sherveport. Bottom row: Herschel Pettus, Elizabeth; Ardis Cawthon, Doyline; L. V. Noles, Ringgold; Ellis Palmer, Gibsland; Ernest Brown, Doyline; Walter Bowman, Grand Bayou, and Rhodes Patterson, Ruston .

Home Owners Will Not Gain By Defaulting

Home owners defaulting on their loans so as to obtain federal aid from the Home Owners' corporation, will be doomed to disappointment. This word has been passed on to all managers of branches of this organization.

Federal money is for the man who is hard pressed, and not for the man who is able to pay, it is explained. He must not, in any case, be a man who is not in any immediate danger of losing his home.

At a recent meeting of the directors of the Home Owners' corporation, a special resolution was passed and every branch manager has been instructed to make clear that "persons who are able to make their payments on their present mortgages held by banks, insurance companies, building and loan companies, and other private holders and who default on such mortgages for the purpose of securing loans from the Home Owners' corporation, will not be considered eligible for such loans."

"LARRY TAKES A HAND"
© 1933 TRADEMARKED
BY HAL FORREST
SHOT DOWN BY THE "RED BARON," RONNIE HAS CRASHED INSIDE OF THE ENEMY LINES. LARRY, WHO HAS SUCCEEDED IN DOWNING THE BARON, HAS FOLLOWED HIS PAL IN HIS MAD DESCENT, AND IS ABOUT TO LAND WITH DIFFICULTY AMONG THE SHELL HOLES IN A WILD HOPE THAT HE MAY YET BE ABLE TO SAVE HIS BUDDY.
RONNIE! RONNIE! HOLD OUT, OLD PAL! I'M COMING!
SORRY,- OLD BEAN-- TRIED MY-- BEST TO--TO--MAKE IT------
STEADY, OLD TIMER! I'LL GET YOU OUT OF THIS!
JUST WHEN EVERYTHING WAS LOOKING PERFECT THOSE JERRIES HAD TO HORN IN!
DON'T ARGUE WITH ME, YOU MUTT! WE'LL GET OUT OF THIS MESS TOGETHER OR NOT AT ALL!
LEAVE ME---- LARRY-- SAVE YOURSELF-- IT ISN'T-ANY USE---
BRAVE GESTURE, LARRY--BUT IT SEEMS FUTILE! HOW CAN ONE MAN HOLD OFF TEN, ARMED WITH RIFLES?

WHILE TOMMY AND SKEETER WERE ATTEMPTING TO SOLVE THE MYSTERIOUS DEATH OF PROF. GONZALES IN THE CAMP OF DR. BLYTHE THEY WERE SUDDENLY STARTLED BY THE SOUND OF DRUMS: WITHOUT TAKING TIME TO PACK ANY OF THE CAMPING EQUIPMENT OUR FRIENDS HURRIED TO THE RIVER BANK WHERE THE THREE-POINT AMPHIBIAN PLANE HAD BEEN ANCHORED--BUT--
HURRY, BARBARA! THE DRUMS ARE SOUNDING NEARER—
GREAT GUNS!-- THE SHIP'S ADRIFT!
WHAT ARE YOU GOING TO DO, TOMMY?
DO?-- I'M GOING TO SWIM OUT AND GET IT-- WE CAN'T STAY HERE AND BE CAPTURED AGAIN BY THOSE CANNIBALS!
BUT YOU CAN'T GO INTO THAT RIVER- IT'S FILLED WITH CROCODILES--
AND CANNIBALS ARE IN THE JUNGLE CLOSING IN ON US-- LET ME HAVE YOUR KNIFE--AND A ROPE TO TIE ONTO THE PLANE--IF I REACH IT!
TOM-- LET ME GO WITH YOU-- ONE OF US MIGHT MAKE IT-
I'LL MAKE IT-- I'VE GOT TO--BUT IF I DON'T-- YOU CAN TRY IT-
HERE, BARBARA-- YOU HOLD TH' ROPE--I'M GOIN' TO FOLLOW TOM----
GREAT HEAVENS-- LOOK!------
JUST AS TOMMY NEARS THE DRIFTING PLANE A BAND OF FIERCE WHAMBIMBO SAVAGES ROUND A BEND IN THE RIVER—
TOMMY HAS REACHED THE PLANE, BUT HOW CAN HE OUTWIT THE ONCOMING SAVAGES IN THEIR SWIFT CANOES.

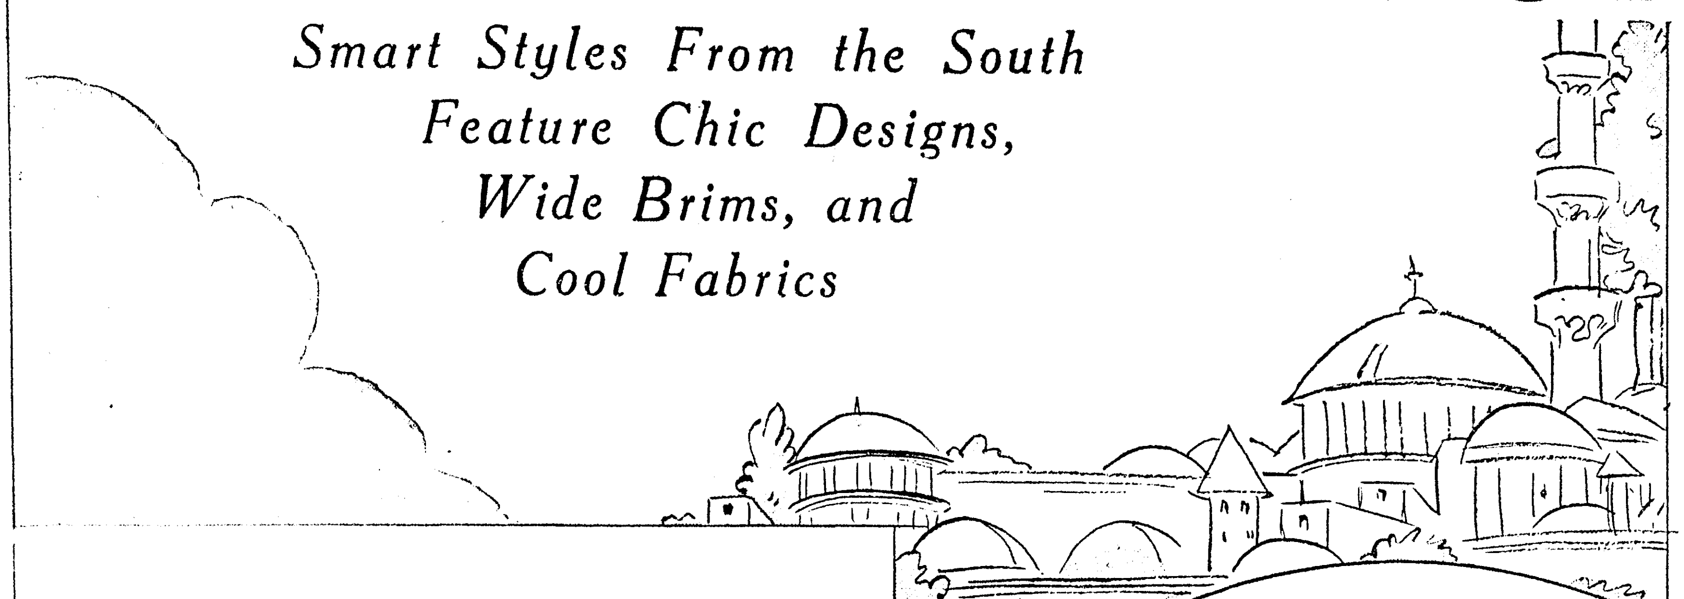
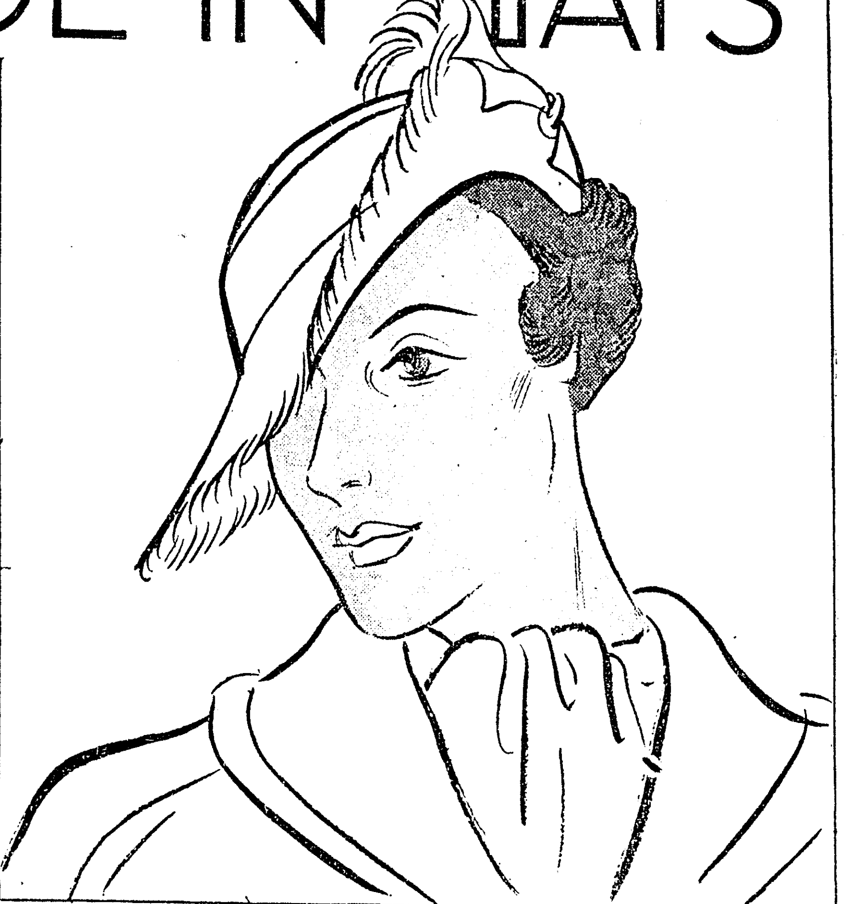
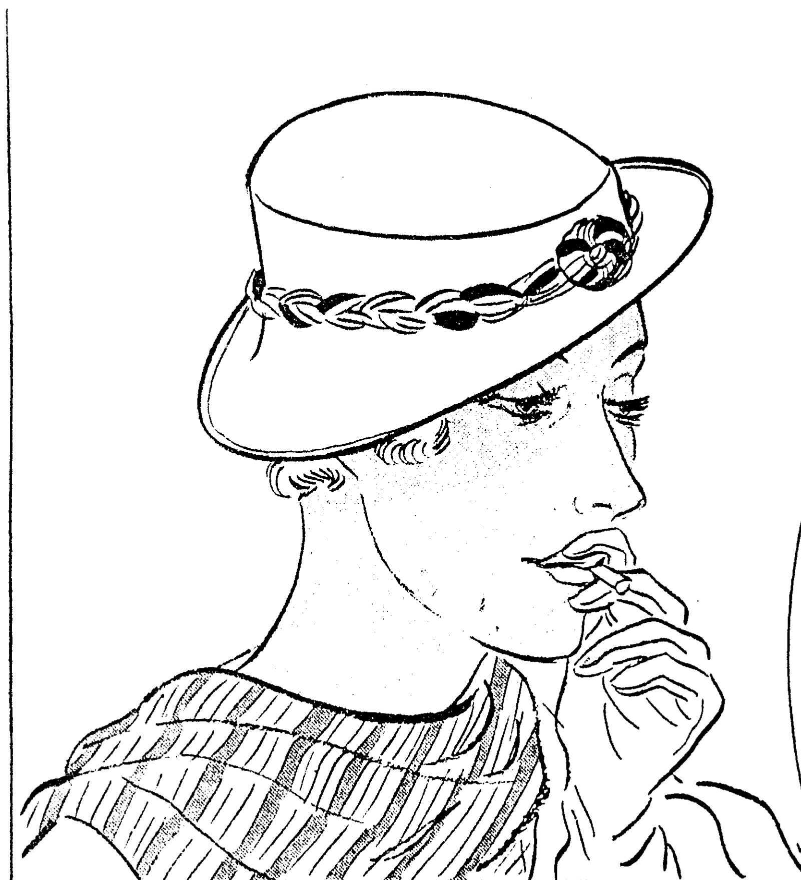
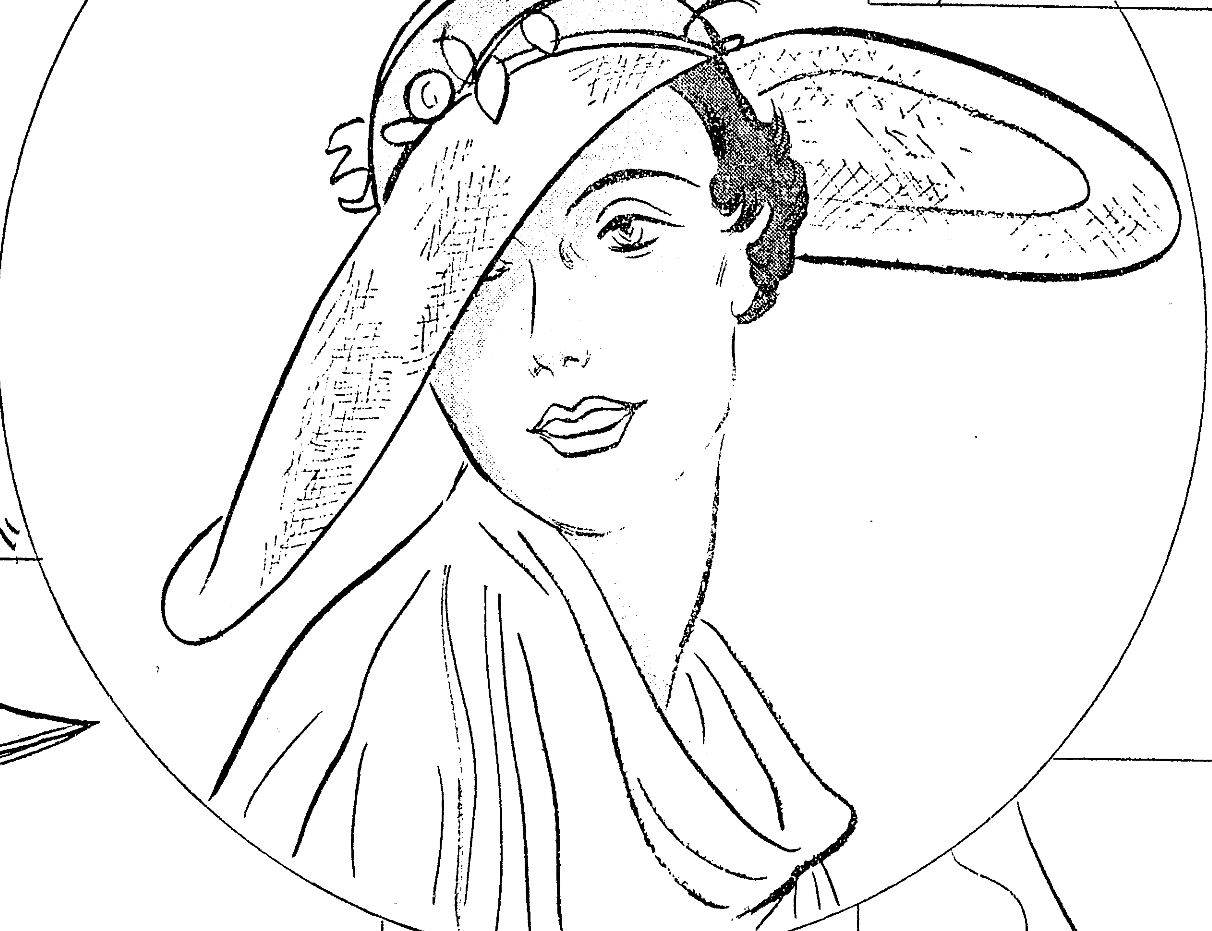
PREDICTING THE MODE IN HATS

Smart Styles From the South Feature Chic Designs, Wide Brims, and Cool Fabrics









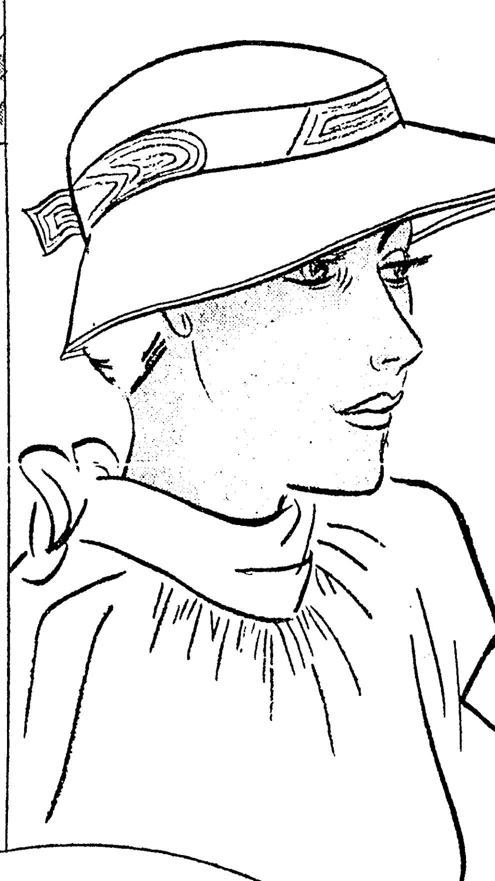
THE MEXICAN INFLUENCE

HERE is a delightfully smart model of rose felt with wide rolling brim, high on the left side and low on the right. The edge of the brim is slashed, simulating fringe, and the crown is extremely shallow. A bow of self fabric makes a smart side-trimming.

—o—

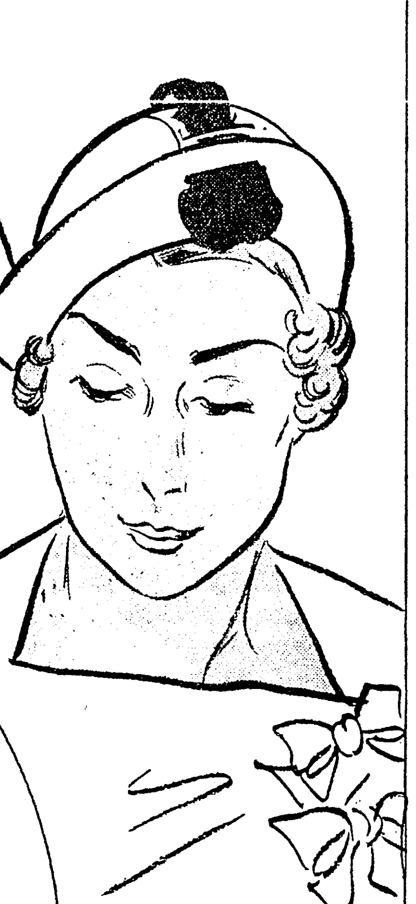
FOR AFTERNOON WEAR

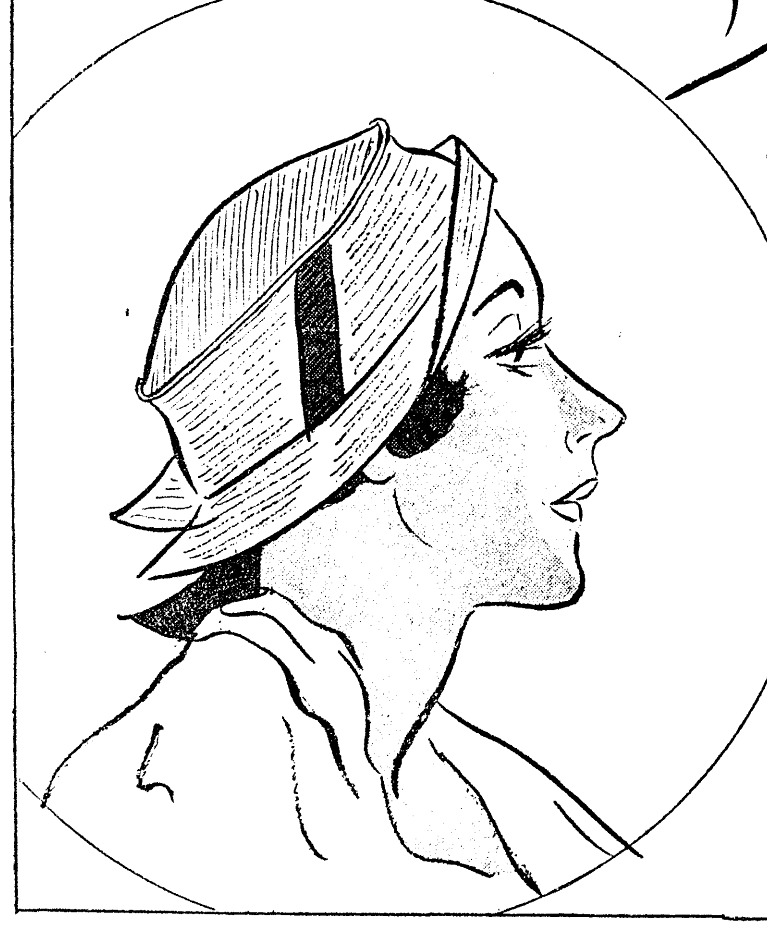
WHAT could be dressier than the large picture hat sketched at the left? This model is of fine white crepe and has a graceful wide brim and an almost invisible crown. Its banding of navy velvet and fruit trimming of chartreuse is extremely effective.



FOR SPORTS

ABOVE, is a medium-sized white hat fashioned of diagonal toyo straw showing a tapering square crown and a becoming rolled brim. The colorful band of Mexican basketry matches the scarf trimming on the frock. Another good sports model and one that will protect your complexion is the lovely hat sketched at the right. Of extremely lightweight white baku, it features a very low square crown and a large sloping brim.





THE UPTURNED BRIM

THIS type of brim treatment holds its popularity and is especially chic in the small green model sketched above. Of straw fabric in a soft chartreuse shade, it is trimmed with a pert brown curled ostrich plume which slips through a slit in the rolled brim and again through the round crown. Another charming off-the-face model of white wool, sketched at the left, is all-over stitched and boasts a square corded crown, trimmed with brown grosgrain.

RATHER early to be thinking about a Summer hat, isn't it? But if you've taken or are planning to take a Winter vacation under sunny skies you've done more than think about Summer millinery. You've been downtown to select some lovely new models to harmonize with your light Springtime frocks.

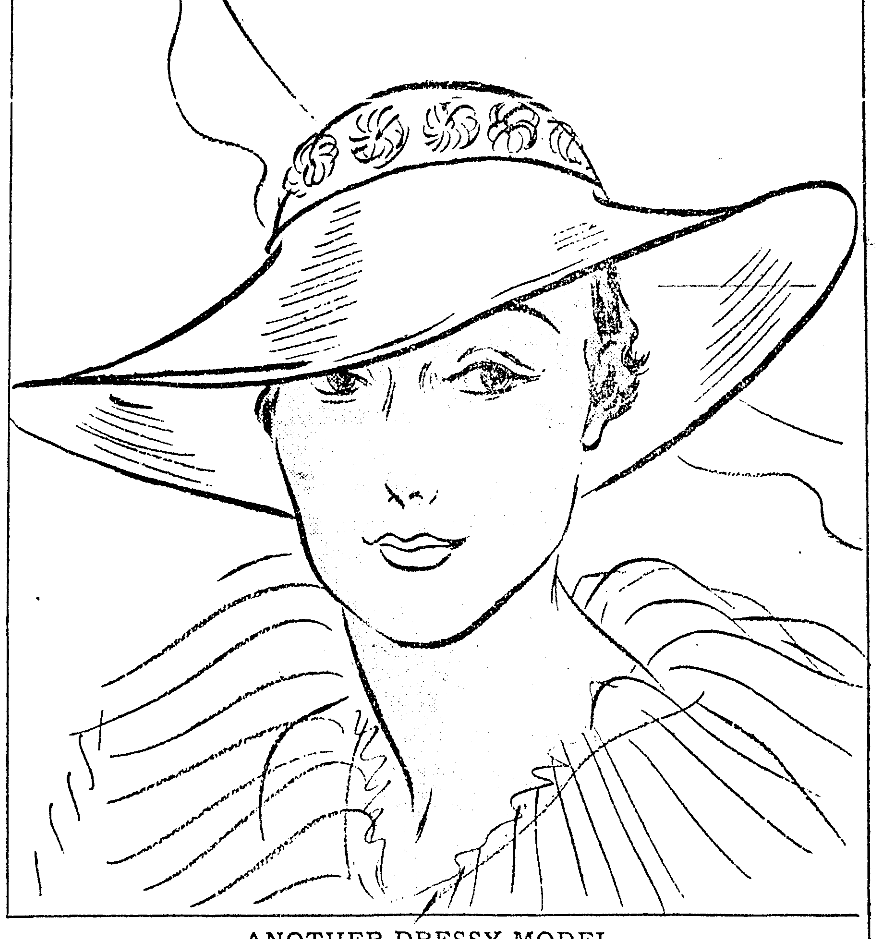
And weren't you pleased with the season's intriguing headgear? We show a few shining examples of the new mode here. Of course, as the seasons change and the sun goes higher in the sky brims must widen so that our delicate complexions are taken care of Crowns remain quite shallow and trimming is extremely simple, consisting mostly of a spray of simple flowers, a pert feather ornament, or, in many cases, just a ribbon band.

The girl who doesn't go in for wide brims (though I don't know why anyone should shun them—they're so universally flattering) may choose a tiny close-fitting model with a pert upturned crown.

Straw is always the favored Summer hat material. It's light and cool and shapes itself delightfully. Woven straw fabrics, toyo straws, bakus, and fine panamas, are all smart. Felt is always good and fine crepes and lightweight wools are coming in for a goodly share of popularity.

For wear with dressy frocks of organdy and taffeta we saw some very feminine headgear last week. Reminiscent of the Watteau styles and the period of Louis XVI., they are indeed beguiling. Fashioned of fine straws they seem to be made to fit the new high, fluffy coiffures that are coming in, for they perch on the top of the head much in the manner of a large butterfly. They are deliciously French, held on in many instances with narrow ribbons that bind the hair and encircle the throat. Difficult to wear, perhaps, but the frail feminine type will find them irresistible.

Your millinery problem at the moment, if you're not a Southern vacationist, may be a Spring hat for street wear in town. Well, we'll help you with some information about Spring millinery: fabrics are similar to Summer fabrics; straws, fine crepes and felts are the leading materials. Navy blue, black and all the costume colors are smart. Brims, of course, never go quite so wide for Spring wear. And the off-the-face baby bonnet shape wins in popularity. It is especially good with the Spring suit or coat.



ANOTHER DRESSY MODEL

THIS charming model is of paper panama and has a brim that is very wide back and front, growing only slightly narrower at the sides. Its very shallow crown is banded with yellow daisies. It is worn with a slight tilt over the right eye.

TOO MUCH VIOLET

By Frank Condon

HIS name was Alfred Persis Russ, and his wife's name was Violet, and wives named Violet are strong-minded females and rule the roost. He was a small man with a prominent nose, faintly bucked teeth and a pallid skin, and he was shy among strangers and timid by nature. His life was as free of evil-doing as that of the babies he cured.

Quite naturally, he was married to a girl named Violet, a congenital roost-ruler, and there never was a doubt about who dominated the household.

He was a baby doctor—a first-rate child specialist. He knew what to do if your baby turned green during the night. He removed safety pins from tiny throats and eased colic. He was a real technician and master of baby megrims, and the other doctors in town admitted his abilities.

He belonged to the Buffalo Wells Golf Club, and to an upstairs lunch club over the Eagle Grill, where fellow doctors assembled to eat forbidden foods. Among all the doctors and surgeons, Alfred Russ was a minor figure, a mere fixer-up of bambinos, good but not important.

The big shot of the town was Dr. Clarence Cook, a surgeon with a loud voice, a red face and a snappy hospital of his own. Dr. Cook often nodded to Alfred, who reflected that it must be sweet to be a truly large frog. He often wondered how it would be to hook up with the town's leading doctor and have a firm of Cook and Russ. He never mentioned this wild notion, not even to Violet, which means "no back talk" in Russian.

VIOLET was somewhat larger than her spouse and had bright yellow hair and blue eyes. She was bringing up her children. Alfred pottered with other people's babies, but Violet kept him away from their darlings, who were called Agatha and Jimmy.

Spiritually, he moved along in the precise center of the straight and narrow path. He attended church services and contributed fitfully to funds to save savages from something. He had not looked at another woman in sixteen years, except in the line of professional duty, and when you look at a woman in the line of duty you can hardly call it looking.

Evenings he took Violet to the movies, if she so listed, or he remained at home, stretched in his stuffed plush chair, and either dozed among innocent dreams or listened to his daughter Agatha, while she boasted of young men conquests. She was sixteen and would eventually be another Violet, no matter what they called her. Alfred, snoozing in his great chair, often toyed with fugitive thoughts—vagrant, ribald reflections, sometimes a bit dissolute—but he never did anything about them. He continued to be a good man. Then the stock market started due south and times became not so keen in America and Buffalo Wells. Money tightened and Alfred had trouble collecting.

"Better give up your golf club and likewise the Doctors' Lunch Club," Violet advised. "We must economize."

"Well," said Alfred mildly, "I don't like that."

"Probably not. We must now do many things we do not like, as these are trying times."

BEFORE he could do anything about his clubs he had to pack a bag hastily and rush off to New York City, six hours on the limited, to have a last look at a Buffalo Wells baby that was going abroad with its doting parents. That job finished a mere trifle, Alfred walked forth into the streets of the fascinating metropolis. Nothing happened to him until he paused before a restaurant and a girl asked him a question.

"Pardon me," she said, "can I speak to yôu?"

Holding to his hat brim, Alfred asked her what she wanted.

"Something to eat."

"That ought to be easy," he replied, being a kindly man. "You're not kidding me?"

"I'm hungry. And I haven't any money."

"Here's a restaurant," he said. "I'll buy you something to eat."

And thus, without meaning to plunge into the night life of a sinful metropolis, Alfred P. Russ, the baby doctor of Buffalo Wells, found himself seated at a restaurant table opposite a personable young damsel who required food.

Breaking off a stem of celery, he glanced about the dazzling scene, a room of mirrors and gleaming tables, and saw at the doorway, handing their hats to the cloak-room girl, Mr. and Mrs. George Detwiler of Buffalo Wells and Mr. and Mrs. Henry Hockenbury of the same brisk town. They were well-known to him and to his Violet. They belonged among the socially elect.

He replaced the sprig of celery and stared, for this was a situation over which he had often pondered. . . . Here he was, dining in New York with a gay young dame. At least, she looked like a gay young dame at a little distance, and he was about to be caught in the guilty act by four leading citizens.

What did people do under such circumstances and what manner did they adopt? For many years he had thought, on occasions, of leaving his well-ordered home.

He had once read a roaring novel, wherein the hero became weary of the shackles of home, family and friends and went suddenly into the remote places, saying as he departed: "The hell with 'em." Alfred always pictured this hero as a man overly reckless.

The quartet from Buffalo Wells discovered Alfred at once and hurried toward him, the four of them smiling.

"If it isn't Alfred Russ!" shrieked Mrs. George Detwiler, otherwise Ruby. "Good old Alfred!"

"In person!" cried Mrs. Henry Hockenbury. "Why didn't you tell us you were coming to New York?"

Alfred arose politely, shook hands, asked the waiter to bring chairs, and the newcomers sat down.

"This is Miss Lewis," said the baby fixer of Buffalo Wells, indicating his companion, who was quietly eating stuffed crabs.

HE DIDN'T know her name, but felt that he should use some name. The visitors were in high good humor and smiled pleasantly at Miss Lewis. The men smelled faintly of spirits, and they continued to shake hands with Alfred even after they had shaken hands. The two ladies were jolly, their eyes sparkled and they beamed upon Miss Lewis, assuring her that they were overjoyed to meet her. Their cordiality was astounding. As for the two men, Detwiler and Hockenbury, you would think they were being introduced to Jean Harlow or Clara Bow.

"There is a swell-looking dame," said George Detwiler, leaning over and speaking in what he thought was a whisper. "Boy, you pick 'em right, Alfred, old kid. This sure is a town for swell gals, isn't it, old man?"

Alfred P. Russ nodded benevolently.

"And how lucky to bump into you, Alfred," continued Mrs. Detwiler. "Dorothy and Joe are over at their hotel on Broadway, and it's Joe's birthday, and the party begins just as soon as we get there. And what a party! We're going there from here, and you are going with us and so is Miss Lewis."

"Well," said Alfred, running over things in his mind, "I don't know."

Dorothy and Joe were Mr. and Mrs. Joseph Eastman of Buffalo Wells, three houses down Elm Street from Alfred's front door. The two families were like that. Violet and Dorothy belonged to the same bridge clubs and bought face powder from the same druggist. "I dunno," Alfred repeated musingly.

The home-towners asked him, speaking as man to man, if he intended deliberately to wreck a birthday party in New York. Miss Lewis continued to eat slowly and to stare at the folks from Buffalo Wells, wondering at their gayety. They seemed all right to her — small-townish, but all right. They continued to gabble, and presently the six people arose, piled into a taxicab and set forth to the birthday party.

"WELL, well, well, Alfred!" howled Joe Eastman, slapping the baby doctor on the back, and Dorothy Eastman shook hands with Miss Lewis, welcoming her as an old friend. "Just think of having you and Alfred in time for our little party!" she cried.

Alfred could scarcely believe his ears and eyes. Not one person in the room even mentioned the word "Violet," yet they knew his wife and knew her well. They often dined at her table. They telephoned her. Here he was, gadding around with a red-mouthed siren, and everyone seemed to think nothing of it.

Entering into the festive spirit of the affair, Alfred dipped his unaccustomed beak into the juice of the grape, and when the room began to spin, he sat on the floor and beamed happily, the perspiration standing on his brow. Miss Lewis contemplated the merriment with a dumb and unappreciative eye, and answered when spoken to, but behaved like a stranger. At an early hour she said she guessed she would be going home, and she went home, scarcely anyone paying attention to her exit. The Detwilers and the Hockenburys sang a jolly ballad, the Eastmans danced to the hotel radio and Alfred suddenly rose up and announced that this was the life. He tried to sing but, being unable to sing, he removed the shade from the lamp and wore it as a hat.

"And when are you going home to Buffalo Wells, Alfred?" Mrs. Detwiler inquired, hoping they might all ride up on the same train.

"I am never going home," responded the baby repairer. "From now on I am a dissolute debauchee, living a life of shame. . . . I like this. . . . I love New York. . . . It opens fascinating vistas. . . . Far too long have I been the settled and married man. . . . The hell with 'em."

"The hell with who, Alfred?" asked Mrs. Hockenbury, who loved to make trouble between man and wife.

"The hell with all of 'em," he repeated, waving the lamp-shade, but refusing to be definite.

"YOU'RE not going home to your wife and family?" they asked in shocked tones.

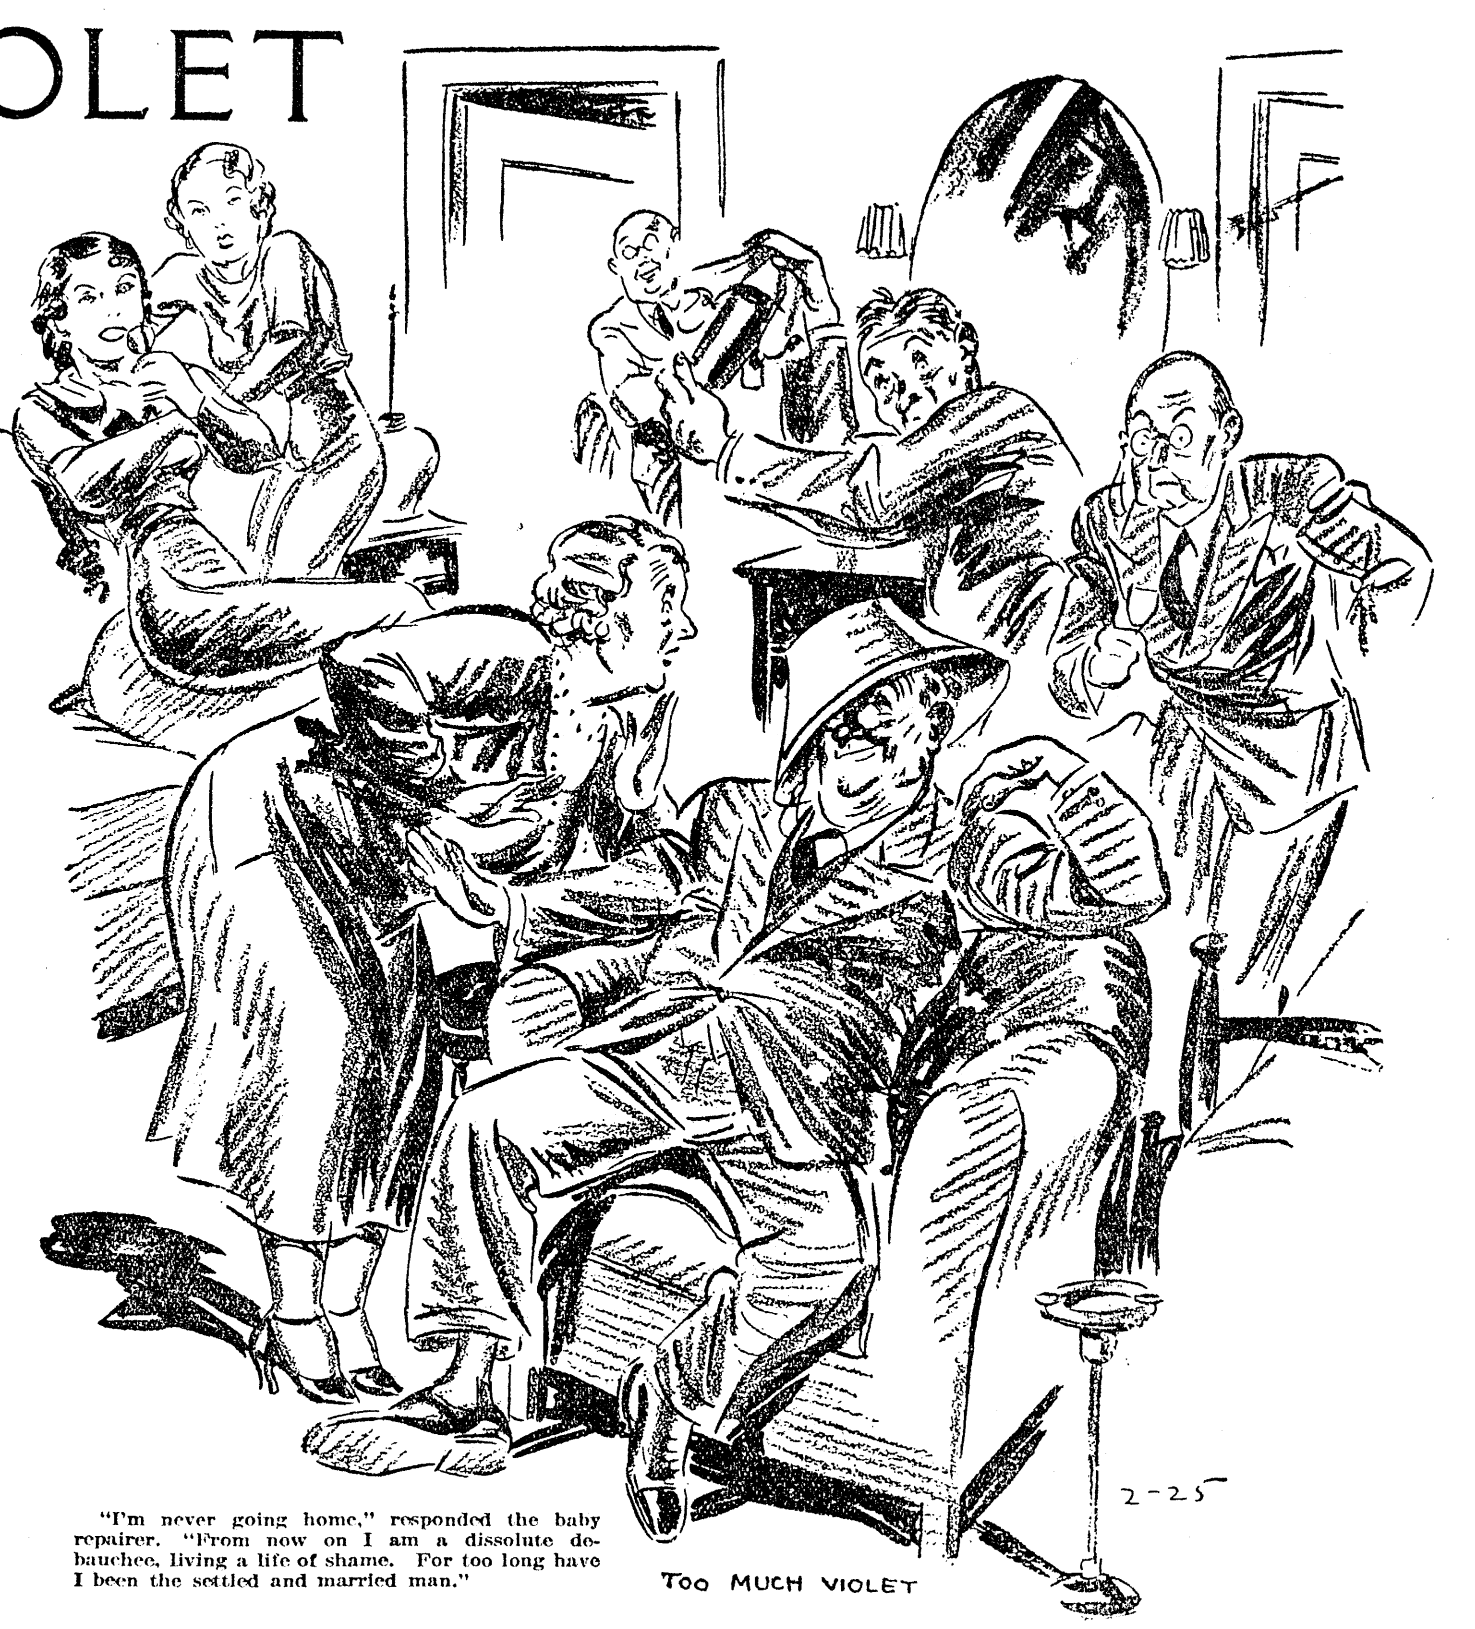
"No. I am not. I am done. I am a wastrel now, wastreling around happily among the hell-holes of New York. They had me long enough in Buffalo Wells. . . . I cast off responsibility. . . . I am a free soul. . . . I live. . . . I will abide here for evermore, living the abandoned life in which you found me tonight."

"Oh, Alfred," said Mrs. Hockenbury, bursting into tears, but pleased to be in at the start of a domestic tragedy.

They argued with him for two hours, but he was adamant, with a slight touch of concrete. He spurned them. Presently the party became incoherent and Alfred went home to his hotel in a taxicab, awakening the next morning at ten o'clock. His mouth felt full of dead butterflies and, in the shaving mirror, his tongue looked like something you might find back of a morgue in any large city.

The Detwilers and the Hockenburys and the Eastmans returned to Buffalo Wells on a morning train, shivering with suppressed news, and one hour after their arrival the town began to buzz. It became known that Alfred Russ had abandoned his native heath, cast aside his family, changed his life and outlook, and was now a New York man-about-town, who could be seen, night after night, dining with the gay moths in the smartest restaurants.

Scandal of this sort requires little time to permeate a community. Violet Russ heard the news in the afternoon, but had nothing whatever to say. A neighbor asked her, a Mrs. Gant. Violet looked at Mrs. Gant out of her quiet blue eyes and explained that there must be a mistake.



"I'm never going home," responded the baby repairer. "From now on I am a dissolute debauchee, living a life of shame. For too long have I been the settled and married man."

"Alfred," she said calmly, "is in New York City on professional matters. The rumor is nonsensical."

Later on, when a reporter came out to the house from the Evening News — an apologetic, perspiring reporter, merely seeking a bit of light—Violet was a figure of dignity. She was kind, matronly and polite.

"My husband," she said, looking the reporter in the eye, "is making a short business trip to New York. The gossip is sheer nonsense, and you will realize how unfortunate it would be for your paper to mention malicious and unfounded stories about prominent persons."

"Yes, ma'am," said the reporter, "but isn't it true that his car is down in Mike Grogan's garage by the railway station?"

"It is," said Violet. "He often leaves his car with Mr. Grogan when he goes out of the city."

"And you are quite happy together?"

"Beyond words."

"Thank you," said the reporter, and the Evening News printed nothing about the affairs of the Russes.

Violet knew full well that her husband had strayed from the path of rectitude, for the Hockenburys and the Eastmans had described Miss Lewis in great detail, and had made her even more beautiful and sinful than she was.

As she perceived it, Alfred had gone mildly insane. In his senses he would never think of walking into a public restaurant with a bedizened damsel; and if a man is temporarily blinded to the higher things in life, stumbling along through a moral fog, it would be silly, Violet told herself, to fly into a rage and have the law on him.

MEANTIME, the hell-raiser from Buffalo Wells lolled in his New York hotel and took life easy. He was not certain of his immediate future. He sat up until after midnight, eating onion sandwiches and dill pickles, both of which were forbidden at home. After a few days the vice president of the First National Bank of Buffalo Wells, being in New York on business, called on the renegade.

"What's the matter with you?" inquired the v. p., looking for signs of dementia.

"I'm fine," said Alfred. "I am now a dissolute rogue or scalawag leading a life of debauchery, and everybody likes me."

"Come home," pleaded the v. p. "We need you, Alfred. Your wife needs you. Everyone in town is feeling pretty sad about this and is hoping you will snap out of it."

"The hell with 'em," Alfred said firmly. "Do you want to go out and get cockeyed with me tonight, and visit a lot of low dives fit more for beasts than men?"

"No," said the v. p., and he went mournfully back to Buffalo Wells, called on Violet and informed her that Alfred was a changed man.

But Mayor Snecker of Buffalo Wells was a man of action and he knew what to do.

"I shall go to New York," he told Violet, "and bring back that husband of yours. Our town hasn't so many high-grade citizens that we can afford to lose Alfred and sit by supinoly. We need him."

Mayor Snecker walked into Alfred's New York hotel without a word of warning and found him leaving for the afternoon movies.

"You're coming home with me," the mayor said sternly, and he gave Alfred a good going-over then and there. He spoke bitterly of abandoned characters in a great city who lure a man on, and of young women who use rouge and stay up late. He assured Alfred that his departure from Buffalo Wells had left a vacant niche that could never be filled. Alfred listened. He even smiled wanly. He was getting weary of moving pictures, and the dill pickles had given him indigestion.

"Very well, Harvey," he said to the mayor. "If you put it that way, I suppose I shall have to return with you."

They left on the midnight limited.

IN THE morning they stepped from the train and the mayor thanked Alfred for coming home. Alfred removed his car from Mike Grogan's railway garage and drove down Main Street, with everyone looking.

He drove up the gravel to his own garage, the doors of which were open. A pleasant breeze stirred the leaves overhead. Violet was in the back yard clipping roses from a bush when Alfred slid out of his car.

"Hello, Alfred," his wife said. "Glad to see you back again."

"Well," said Alfred, drawing in his breath quickly, "I'm glad to be back again." No avalanche so far.

"How are you?"

"I'm quite well," he replied. "And how do you feel?"

"Never better," said Violet, and she actually smiled. "It certainly is nice to have you back home."

"I suppose," said he, "you have heard about me."

"Oh, yes, indeed. Everything."

"Ah-h, you — would like to hear what I have to say?"

"No," said Violet. "I think it is not necessary to discuss your visit to New York."

"That's funny," he said. "I'd think you would like to know what actually happened."

"I know what happened," Violet said, "and further conversation would be useless. Now, how about your playing a game of golf today? It is a lovely day for golf."

"It certainly is," he said.

"I have laid out your golf clothes. I wouldn't think of going to the office today, Alfred."

Walking in a slight daze, he entered the house, followed by Violet.

"About your resigning from the golf club," she said in a thoughtful voice, "I have been thinking it over. You must not resign."

"No?"

"No. Golf is indeed a wonderful recreation for a hard-working man. It is healthful. You require the exercise. Furthermore, you must not give up the lunch club."

"I thought—"

"I have changed my mind," said Violet firmly. "Now, you'd better be starting, or you'll be late. Dinner will be at seven—roast chicken."

As he was leaving the room in his knickers, the telephone rang. It was Dr. Clarence Cook, who had just heard of the return. "Hello," said the medical leader of Buffalo Wels. "This Alfred?"

Alfred said it was, and Dr. Cook expressed his genuine pleasure. He added that he had been thinking over a business matter. How would Alfred like to join him and compose a new and peerless medical team of Cook and Russ, specialists? The big man said the thought had been with him for some time and Alfred replied, when he could speak, that he was now on his way to the golf course, but would be glad to confer later with Dr. Cook. Violet listened silently to one side of the conversation, and Alfred strolled slowly out to his car and climbed aboard, a faint smile upon his thin countenance.

He paused at his office on Main Street to get half a dozen old golf balls, and as he came out he saw approaching a reporter for the Gazette. "Ah," said the baby expert, "he's going to ask me about the scandal." He prepared to be dignified, for the Gazette is the town's leading paper.

"DR. RUSS," said the journalist, "we are getting up a symposium of the best opinion in Buffalo Wells, and I am instructed to ask you what you think about the proposed bond issue for the waterworks."

Alfred coughed and replied that, in his opinion, every citizen should vote for the bonds. "It is a matter of civic duty," he concluded.

"Thank you," said the reporter. "You've been away, haven't you?"

"Yes," said Alfred, "in New York, on a business trip."

"Might mention it in the paper?"

"Oh, sure," said Alfred.

He drove on out to the golf club, was welcomed by the members present and invited to join a threesome of important citizens. He idled in the bright sunshine, looking back upon his recent misdeeds and recalling the old saw about the evil that men do lives after them. He smiled slightly.

"Not a bad town," he murmured, thinking of New York and its wickedness. "I might go back there some day."

TOO MUCH VIOLET

By Frank Condon

HIS name was Alfred Persis Russ, and his wife's name was Violet, and wives named Violet are strong-minded females and rule the roost. He was a small man with a prominent nose, faintly bucked teeth and a pallid skin, and he was shy among strangers and timid by nature. His life was as free of evil-doing as that of the babies he cured.

Quite naturally, he was married to a girl named Violet, a congenital roost-ruler, and there never was a doubt about who dominated the household.

He was a baby doctor—a first-rate child specialist. He knew what to do if your baby turned green during the night. He removed safety pins from tiny throats and eased colic. He was a real technician and master of baby megrims, and the other doctors in town admitted his abilities.

He belonged to the Buffalo Wells Golf Club, and to an upstairs lunch club over the Eagle Grill, where fellow doctors assembled to eat forbidden foods. Among all the doctors and surgeons, Alfred Russ was a minor figure, a mere fixer-up of bambinos, good but not important.

The big shot of the town was Dr. Clarence Cook, a surgeon with a loud voice, a red face and a snappy hospital of his own. Dr. Cook often nodded to Alfred, who reflected that it must be sweet to be a truly large frog. He often wondered how it would be to hook up with the town's leading doctor and have a firm of Cook and Russ. He never mentioned this wild notion, not even to Violet, which means "no back talk" in Russian.

VIOLET was somewhat larger than her spouse and had bright yellow hair and blue eyes. She was bringing up her children. Alfred pottered with other people's babies, but Violet kept him away from their darlings, who were called Agatha and Jimmy.

Spiritually, he moved along in the precise center of the straight and narrow path. He attended church services and contributed fitfully to funds to save savages from something. He had not looked at another woman in sixteen years, except in the line of professional duty, and when you look at a woman in the line of duty you can hardly call it looking.

Evenings he took Violet to the movies, if she so listed, or he remained at home, stretched in his stuffed plush chair, and either dozed among innocent dreams or listened to his daughter Agatha, while she boasted of young men conquests. She was sixteen and would eventually be another Violet, no matter what they called her. Alfred, snoozing in his great chair, often toyed with fugitive thoughts—vagrant, ribald reflections, sometimes a bit dissolute—but he never did anything about them. He continued to be a good man. Then the stock market started due south and times became not so keen in America and Buffalo Wells. Money tightened and Alfred had trouble collecting.

"Better give up your golf club and likewise the Doctors' Lunch Club," Violet advised. "We must economize."

"Well," said Alfred mildly, "I don't like that."

"Probably not. We must now do many things we do not like, as these are trying times."

BEFORE he could do anything about his clubs he had to pack a bag hastily and rush off to New York City, six hours on the limited, to have a last look at a Buffalo Wells baby that was going abroad with its doting parents. That job finished a mere trifle, Alfred walked forth into the streets of the fascinating metropolis. Nothing happened to him until he paused before a restaurant and a girl asked him a question.

"Pardon me," she said, "can I speak to you?"

Holding to his hat brim, Alfred asked her what she wanted.

"Something to eat."

"That ought to be easy," he replied, being a kindly man. "You're not kidding me?"

"I'm hungry. And I haven't any money."

"Here's a restaurant," he said. "I'll buy you something to eat."

And thus, without meaning to plunge into the night life of a sinful metropolis, Alfred P. Russ, the baby doctor of Buffalo Wells, found himself seated at a restaurant table opposite a personable young damsel who required food.

Breaking off a stem of celery, he glanced about the dazzling scene, a room of mirrors and gleaming tables, and saw at the doorway, handing their hats to the cloak-room girl, Mr. and Mrs. George Detwiler of Buffalo Wells and Mr. and Mrs. Henry Hockenbury of the same brisk town. They were well-known to him and to his Violet. They belonged among the socially elect.

He replaced the sprig of celery and stared, for this was a situation over which he had often pondered. . . . Here he was, dining in New York with a gay young dame. At least, she looked like a gay young dame at a little distance, and he was about to be caught in the guilty act by four leading citizens.

What did people do under such circumstances and what manner did they adopt? For many years he had thought, on occasions, of leaving his well-ordered home.

He had once read a roaring novel, wherein the hero became weary of the shackles of home, family and friends and went suddenly into the remote places, saying as he departed: "The hell with 'em." Alfred always pictured this hero as a man overly reckless.

The quartet from Buffalo Wells discovered Alfred at once and hurried toward him, the four of them smiling.

"If it isn't Alfred Russ!" shrieked Mrs. George Detwiler, otherwise Ruby. "Good old Alfred!"

"In person!" cried Mrs. Henry Hockenbury. "Why didn't you tell us you were coming to New York?"

Alfred arose politely, shook hands, asked the waiter to bring chairs, and the newcomers sat down.

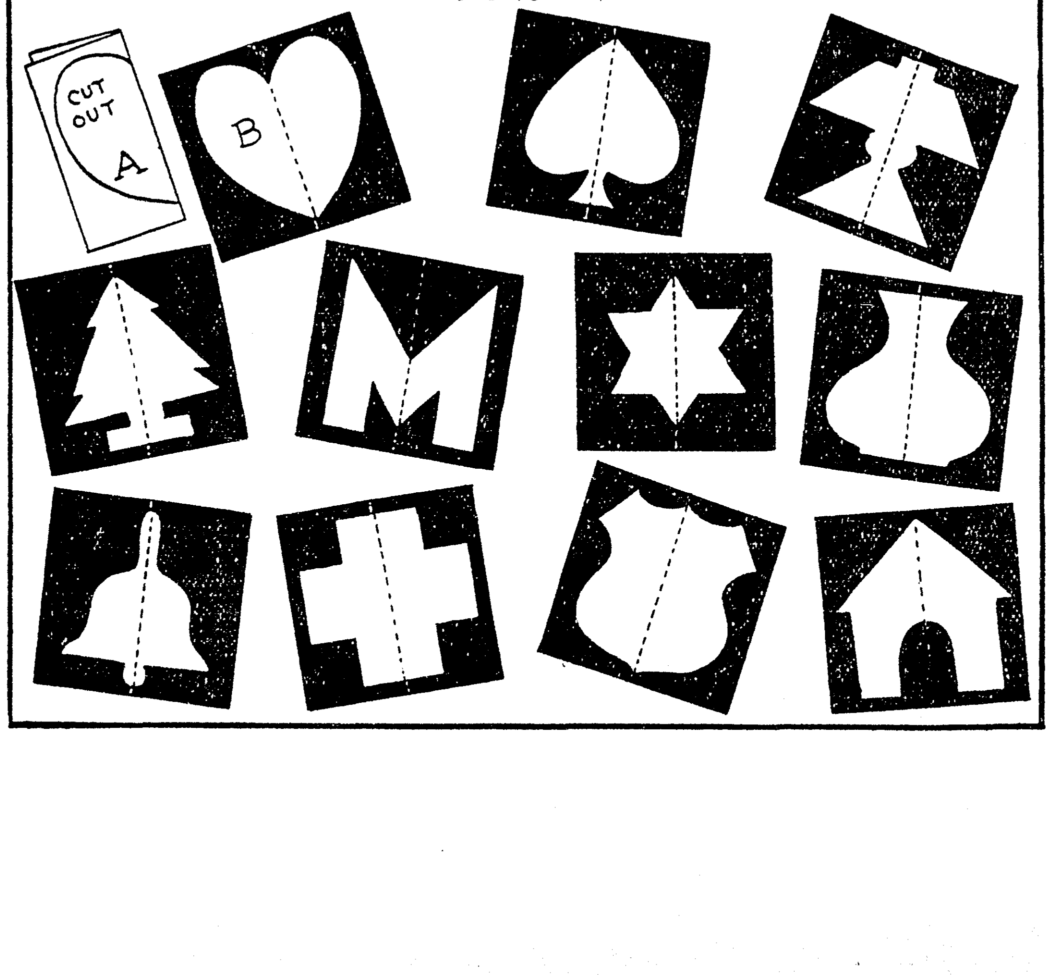
PAPER CUTTING IS FASCINATING AS A PASTIME, AND IS RECOMMENDED ON ACCOUNT OF ITS GREAT EDUCATIONAL VALUE. CUT 11 PIECES OF, COLORED OR WHITE, PAPER ABOUT 4 INCHES SQUARE. THEN FOLD THEM OVER IN THE CENTER AS INDICATED BY THE DOTTED LINES... TRY TO CUT OUT THE 11 DESIGNS PICTURED BELOW.

SKETCH "A" FOR EXAMPLE, SHOWS HOW TO CUT OUT A HEART AFTER THE PAPER HAS BEEN FOLDED IN HALF. "B" SHOWS THE COMPLETED HEART. TRY TO CREATE OTHER DESIGNS.



DEAR CHILDREN: WHEN YOU DRAW AN ADULT'S HEAD, ALWAYS PLACE THE EYES IN THE CENTER AND THE EARS OPPOSITE THE EYES AND NOSE. NOTE SKETCH.

DRAW TWO GUIDE LINES AS SHOWN BELOW.
